Under this €5,000,000,000 Structured Medium Term Certificate Programme (the "**Programme**"), SmartETN P.L.C. (the "**Issuer**") may from time to time issue certificates (the "**Certificates**") denominated in any currency agreed with the relevant Dealer (as defined below).

This document (this "**Base Prospectus**") constitutes a base prospectus for the purposes of the Prospectus Regulation (as defined below). The terms and conditions of the Certificates (the "**Conditions**") will comprise the General Conditions, each Annex specified as applicable in the completed Final Terms and the completed Final Terms (each as defined below). This Base Prospectus, any supplement to this Base Prospectus (a "**Supplement to this Base Prospectus**"), any applicable Annex and the Final Terms for a Series will comprise the "**Offering Documents**".

The satisfaction of the Issuer's economic obligations in respect of the Certificates will be unconditionally and irrevocably guaranteed pursuant to a Guarantee (the "**Guarantee**") or, in the case of Dematerialised Certificates (as defined below) a Guarantee relating to the Dematerialised Certificates (the "**Dematerialised Certificates Guarantee**") both entered into by Cirdan Capital Management Ltd ("**Cirdan**" or the "**Guarantor**"). The Guarantor and its consolidated subsidiaries are referred to herein as the "**Group**".

Certificates may be issued in bearer form, registered form or dematerialised form centralised with Monte Titoli S.p.A. (respectively "**Bearer Certificates**" and "**Registered Certificates**" and "**Dematerialised Certificates**").

Certificates may be issued whose return (whether in respect of any interest payable on such Certificates and/or their redemption amount) is linked to one or more indices ("**Index Linked Certificates**"), one or more shares or depositary receipts ("**Equity Linked Certificates**"), one or more inflation indices ("**Inflation Linked Certificates**"), one or more fund shares or units ("**Fund Linked Certificates**"), one or more foreign exchange rates ("**Foreign Exchange (FX) Rate Linked Certificates**"), the credit of a specified entity or entities ("**Credit Linked Certificates**"), one or more commodities ("**Commodities Linked Certificates**"), one or more interest rates ("**Underlying Interest Rate Certificates**"), a portfolio ("**Portfolio Linked Certificates**") or any combination thereof ("**Combination Certificates**") as more fully described herein. Certificates may be issued on a continuing basis to one or more dealers appointed from time to time by the Issuer (the "**Dealers**" and each a "**Dealer**"). References in this Base Prospectus to the "**relevant Dealer**" shall, in the case of an issue of Certificates being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe for such Certificates as designated in each specific issue of Certificates.

Potential investors should ensure that they understand the nature of the relevant Certificates and the extent of their exposure to risks and that they consider the suitability of the relevant Certificates as an investment in the light of their own circumstances and financial condition. An investment in Certificates may involve a high degree of risk and potential investors should be prepared to sustain a total loss of the purchase price of their Certificates, subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, as specified in the Final Terms. For a discussion of these risks see the "Risk Factors" section below.

This Base Prospectus has been approved by the Central Bank of Ireland (the "**Central Bank**"), as competent authority under Regulation (EU) 2017/1129 (as amended, the "**Prospectus Regulation**"). The Central Bank only approves this Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval relates only to the Certificates which are to be admitted to trading on a regulated market for the purposes of Directive 2014/65/EU (as amended, "**MiFID II**") and/or which are to be offered to the public in any Member State of the European Economic Area and should not be considered as an endorsement of either the Issuer or the Guarantor, nor of the quality of the Certificates that are the subject of this Base Prospectus. Investors should make their own assessment as to the suitability of investing in the Certificates.

The Certificates, and, in case of Physical Delivery Certificates, the Entitlement (as defined herein), the Guarantee and the Dematerialised Certificates Guarantee have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), or any U.S. state securities laws and may not at any time be offered or sold in the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act ("**Regulation S**")) unless an exemption from the registration requirements of the Securities Act is available and in accordance with all applicable securities laws of any state or other jurisdiction of the United States. See "*Form of the Certificates*" for a description of the manner and form in which Certificates will be issued. The Certificates are subject to certain restrictions on transfer - see "*Subscription and Sale and Transfer and Selling Restrictions*". Certificates may be offered in the United States to U.S. persons that are "qualified institutional buyers" (each a "**QIB**") as defined in Rule 144A under the Securities Act ("**Rule 144A**") who are also "qualified purchasers" (each a "**QP**") within the meaning of Section 2(a)(51)(A) of the United States Investment Company Act of 1940, as amended (the "**1940 Act**") and the rules and regulations thereunder. The Certificates, the Guarantee and the Dematerialised Certificates Guarantee do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the United States Commodity Exchange Act, as amended (the "**CEA**"), and trading in the Certificates has not been approved by the U.S. Commodity Futures Trading Commission pursuant to the CEA.

IMPORTANT – EEA RETAIL INVESTORS - If the Final Terms in respect of any Certificates includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Certificates are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined

in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive 2016/97/EU (as amended or superseded, the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. Consequently, no key information document required by Regulation (EU) No 1286/2014 as amended (the "**PRIIPs Regulation**") for offering or selling the Certificates or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Certificates or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS - If the Final Terms in respect of any Certificates includes a legend entitled "Prohibition of Sales to UK Retail Investors", the Certificates are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (the "**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in paragraph 3.4.1 R of the FCA Conduct of Business Sourcebook ("**COBS**"); (ii) a customer as defined in Annex A of the UK Insurance Distribution Directive Instrument 2018 (FCA 2018/25) to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in the FCA Handbook; or (iii) not a qualified investor as defined in Annex B of the UK Prospectus Regulation Rules Instrument 2019 (FCA 2019/80). Consequently, no key information document required by the retained UK law version of the PRIIPs Regulation as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**") (the "**UK PRIIPs Regulation**") for offering or selling the Certificates or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Certificates or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MIFID II product governance / target market – The Final Terms in respect of any Certificates will include a legend entitled "**MiFID II Product Governance**" which will outline the target market assessment in respect of the Certificates and which channels for distribution of the Certificates are appropriate. Any person subsequently offering, selling or recommending the Certificates (a "**Distributor**") should take into consideration the manufacturer's target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Certificates (by either adopting or refining the target market assessment) and determining appropriate distribution channels for the Certificates, amongst other obligations set out in the guidelines on MiFID Product Governance requirements published by the European Securities and Markets Authority ("**ESMA**") on 27 March 2023 (the "**Guidelines**").

UK MiFIR product governance / target market – The Final Terms in respect of any Certificates will include a legend entitled "**UK Product Governance**" which will outline the target market assessment in respect of the Certificates and which channels for distribution of the Certificates are appropriate. Any person subsequently offering, selling or recommending the Certificates (a "**UK Product Governance Distributor**") should take into consideration the manufacturer's target market assessment; however, a UK Product Governance Distributor subject to the FCA Product Governance Sourcebook ("**PROD**") is responsible for undertaking its own target market assessment in respect of the Certificates (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

The Issuer is incorporated under Irish law and has its registered office in Dublin, Ireland. The Guarantor is incorporated and has its tax residency in England. Potential investors should note the statements on pages 648 to 649 (inclusive) regarding the tax treatment in England of income obtained in respect of the Certificates.

The Issuer and the Guarantor may agree with the relevant Dealer that Certificates may be issued in a form not contemplated by the "*Terms and Conditions of the Certificates*" set out herein, in which event a Supplement to this Base Prospectus, if appropriate, will be made available which will describe the effect of the agreement reached in relation to such Certificates.

The validity of this Base Prospectus will expire on 17 October 2025. The obligation to supplement a prospectus, under Article 23 of the Prospectus Regulation, in the event of significant new factors, material mistakes or material inaccuracies does not apply when a prospectus is no longer valid.

IMPORTANT INFORMATION RELATING TO NON-EXEMPT OFFERS OF CERTIFICATES

Restrictions on Non-exempt offers of Certificates in relevant Member States

Certain Tranches of Certificates with a denomination of less than €100,000 (or its equivalent in any other currency) may be offered in circumstances where there is no exemption from the obligation under the Prospectus Regulation to publish a prospectus. Any such offer is referred to as a "**Non-exempt Offer**". This Base Prospectus has been prepared on a basis that permits Non-exempt Offers of Certificates in Austria, France, Germany, Italy and The Netherlands which are the Relevant States in relation to which the Issuer has given its consent as specified in the applicable Final Terms (each a "**Non-exempt Offer Jurisdiction**" and together the "**Non-exempt Offer Jurisdictions**"). Any person making or intending to make a Non-exempt Offer of Certificates on the basis of this Base Prospectus must do so only with the Issuer's consent to the use of this Base Prospectus as provided under "*Consent given in accordance with Article 5 (1) of the Prospectus Regulation*" and provided such person complies with the conditions attached to that consent.

Save as provided above, none of the Issuer, the Guarantor or any Dealer have authorised, nor do they authorise, the making of any Non-exempt Offer of Certificates in circumstances in which an obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

IMPORTANT INFORMATION RELATING TO THE USE OF THIS BASE PROSPECTUS AND OFFERS OF CERTIFICATES GENERALLY

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Certificates in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of Certificates may be restricted by law in certain jurisdictions. The Issuer, the Guarantor and the Dealer(s) do not represent that this Base Prospectus may be lawfully distributed, or that any Certificates may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. Notwithstanding the approval of this Base Prospectus by the Central Bank, no action has been taken by the Issuer, the Guarantor or the Dealer(s) which is intended to permit a public offering of any Certificates or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Certificates may be offered or sold, directly or indirectly, and neither the Offering Documents nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession the Offering Documents or any Certificates may come must inform themselves about, and observe, any such restrictions on the distribution of the Offering Documents and the offering and sale of Certificates. In particular, there are restrictions on the distribution of the Offering Documents and the offer or sale of Certificates in, without limitation, the United States, the United Kingdom, and the EEA (including, without limitation, Austria, France, Germany, Italy and The Netherlands) (see "**Subscription and Sale and Transfer and Selling Restrictions**").

None of the Issuer, the Guarantor or the Dealer(s) makes any representation to any investor in the Certificates regarding the legality of its investments under any applicable laws. Any investor in the Certificates should be able to bear the economic risk of an investment in the Certificates for an indefinite period of time.

The Certificates may not be a suitable investment for all investors. Each potential investor in the Certificates must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisors, whether it:

- i. has sufficient knowledge and experience to make a meaningful evaluation of the Certificates, the merits and risks of investing in the Certificates and the information contained or incorporated by reference in this Base Prospectus or any applicable Supplement to this Base Prospectus and all the information contained in the Final Terms;
- ii. has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Certificates and the impact the Certificates will have on its overall investment portfolio;

- iii. has sufficient financial resources and liquidity to bear all of the risks of an investment in the Certificates, including Certificates with principal or interest payable in one or more currencies, or where the specified currency for principal or interest payments of the Certificates is different from the potential investor's currency;
- iv. understands thoroughly the terms of the Certificates and be familiar with the behaviour of any relevant indices and financial markets;
- v. in respect of Certificates linked to the performance of, without limitation, one or more, or a combination of, underlying shares or depositary receipts, indices, rates of interest, other rates, foreign exchange rates, funds, inflation indices, commodities, interest rates, portfolios and/or entities (together, "**Reference Items**" and each, a "**Reference Item**") (in respect of such Certificates, together, "**Reference Item Linked Certificates**" and each a "**Reference Item Linked Certificate**"), understands thoroughly (if necessary, in consultation with the investor's own legal, tax, accountancy, regulatory, investment or other professional advisers) the nature of each such Reference Item Linked Certificate; and
- vi. is able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

None of the Issuer, the Guarantor, Dealers or any affiliate thereof has given, and will not give, to any potential investor in Certificates (either directly or indirectly) any assurance, advice, recommendation or guarantee as to the merits, performance or suitability of such Certificates, and the investor should be aware that the Issuer is acting as an arm's-length contractual counterparty and not as an advisor or fiduciary.

In making an investment decision, investors must rely on their own examination of the Issuer and the Guarantor and the terms of the Certificates being offered, including the merits and risks involved.

No website referred to in this Base Prospectus forms part of this Base Prospectus.

IN CONNECTION WITH THE ISSUE OF ANY TRANCHE OF CERTIFICATES, THE DEALER OR DEALERS (IF ANY) NAMED AS THE STABILISATION MANAGER(S) (OR PERSONS ACTING ON BEHALF OF ANY STABILISATION MANAGER(S)) IN THE FINAL TERMS MAY OVER-ALLOT CERTIFICATES OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF THE CERTIFICATES OF THE SERIES (AS DEFINED BELOW) OF WHICH SUCH TRANCHE FORMS PART AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL. HOWEVER, STABILISATION MAY NOT NECESSARILY OCCUR. ANY STABILISATION ACTION MAY BEGIN ON OR AFTER THE DATE ON WHICH ADEQUATE PUBLIC DISCLOSURE OF THE FINAL TERMS OF THE OFFER OF THE RELEVANT TRANCHE OF CERTIFICATES IS MADE AND, IF BEGUN, MAY CEASE AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 DAYS AFTER THE ISSUE DATE OF THE RELEVANT TRANCHE OF CERTIFICATES AND 60 DAYS AFTER THE DATE OF THE ALLOTMENT OF THE RELEVANT TRANCHE OF CERTIFICATES. ANY STABILISATION ACTION OR OVER-ALLOTMENT MUST BE CONDUCTED BY THE STABILISATION MANAGER(S) (OR PERSON(S) ACTING ON BEHALF OF ANY STABILISATION MANAGER(S)) IN ACCORDANCE WITH ALL APPLICABLE LAWS AND RULES.

Unless otherwise stated, terms used in this paragraph have the meanings given to them in "*Form of Certificates*".

The Certificates have not been approved or disapproved by the United States Securities and Exchange Commission or any other securities commission or other regulatory authority in the United States, nor have the foregoing authorities approved this Base Prospectus or confirmed the accuracy or determined the adequacy of the information contained in this Base Prospectus. RISK FACTORS

RISK FACTORS

In purchasing Certificates, investors expose themselves to the risk that the Issuer and the Guarantor may become insolvent or otherwise be unable to make all payments due in respect of the Certificates. There is a wide range of factors which individually or together could result in the Issuer and the Guarantor becoming unable to make all payments due in respect of the Certificates. The Issuer and the Guarantor believe that the factors described below represent the principal factors which could materially adversely affect their businesses and ability to make payments due under the Certificates. In addition, factors which are material for the purpose of assessing the market risks associated with Certificates issued under the Programme are also described below.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus and reach their own views prior to making any investment decision.

1. Risk Factors relating to the Issuer

The Issuer is dependent on the Guarantor to make payments on the Certificates

The Issuer is a wholly-owned subsidiary of the Guarantor which was established for the purpose of, among others, issuing Certificates. The net proceeds from each issue of Certificates will be used to enter into offsetting financial transactions in such a way as to hedge the exposure of the Issuer to future promised returns of the Certificates issued to the minimum extent required. In addition, the net proceeds will also become part of the general funds of the Issuer. Should the offsetting financial transactions fail to deliver the promised returns of the Certificates, the Guarantor shall satisfy the financial obligations of the Issuer to the Certificateholders. Should the Guarantor fail to do so in a timely fashion, this will have a material adverse effect on the ability of the Issuer to fulfil its obligations under Certificates issued under the Programme. By virtue of its ultimate dependence on the Guarantor, each of the risks described below that affect the Guarantor will also indirectly affect the Issuer.

Investors are subject to the credit risk of the Issuer

Credit risk refers to the risk of loss due to default by the Issuer or Guarantor where the Issuer or Guarantor fails to perform its obligations. Furthermore, the Issuer is not rated by any credit rating agency. Each investor which subscribes in the Certificates is therefore linked to the credit risk of the Issuer. In addition, the Issuer may issue a substantial amount of Certificates, representing an important financial commitment.

In the event of a failure by the Issuer to fulfil its obligations under the Certificates, Certificateholders may suffer losses on their investment. Therefore, each potential investor should reach his own opinion concerning the ability of the Issuer to fulfil its obligations in relation to the Certificates.

Risks relating to the Issuer entering into financial transactions to offset the promised returns of Certificates

The Issuer will use the net proceeds from each issue of Certificates to enter into offsetting financial transactions in such a way as to hedge the exposure of the Issuer to future promised returns of the Certificates issued to the minimum extent required. In addition, the net proceeds will also become part of the general funds of the Issuer. The Issuer appoints Cirdan as its hedging advisor to propose hedging strategies to the Issuer for the purpose of meeting the Issuer's payment obligations under the Certificates. The Issuer may use a variety of instruments to hedge its payment obligations such as stocks, futures, options on single stocks, options on indices, options on futures, FX spot, FX forward, total return swaps (baskets) and inflation swaps, amongst others. The Issuer will consider and, if appropriate, approve any hedging strategy proposed by Cirdan in relation to an issuance of Certificates or in relation to some or all of the Issuer's portfolio of Certificates. The Issuer may also veto any action or proposed action of Cirdan in relation to the implementation of a hedging strategy, or direct Cirdan to reverse any hedging transaction or other action to implement a hedging strategy. Notwithstanding any strategy implemented to hedge or otherwise manage its exposure, the Issuer may not have access to all relevant information required. Any failure to assess the proper hedging strategy could have an adverse effect on the future promised returns of the Certificates issued and Certificateholders may suffer a severe loss of their investments in the Certificates, subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, as further specified in the applicable Final Terms. Potential investors should be aware that the events that may affect these hedging transactions may consequently affect the value of the Certificates.

Cirdan must perform its obligations with reasonable care and in good faith; however, there can be no assurance that its hedging strategies shall meet the payment obligations of the Issuer under the Certificates and Certificateholders may

RISK FACTORS

suffer a severe loss of their investments in the Certificates, subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, as further specified in the Final Terms. Furthermore, it is understood that Cirdan and any of its Affiliates may engage in any other business and furnish hedging advisory and advisory and administrative services to others, including, without limitation, persons which may have investment policies similar to those followed by the Issuer and this may be in conflict with the interests of the Issuer. Should any hedging strategy fail to deliver the promised returns of the Certificates, Cirdan, in its capacity as the Guarantor, shall satisfy the financial obligations of the Issuer to the Certificateholders to ensure that Certificateholders do not lose their entire investment.

Irish Risk Factors

The Issuer is subject to risks relating to the location of its center of main interest ("COMI"), the appointment of examiners and the claims of preferred creditors under Irish law.

COMI

The Issuer has its registered office in Ireland. Under Regulation (EU) No. 2015/848 of the European Parliament and of the Council of 20 May 2015 on insolvency proceedings (recast) (the "**Recast EU Insolvency Regulation**"), the Issuer's COMI is presumed to be the place of its registered office (i.e. Ireland) in the absence of proof to the contrary and provided that the Issuer did not move its registered office within the three months prior to a request to open insolvency proceedings.

As the Issuer's COMI is presumed to be Ireland, any main insolvency proceedings in respect of the Issuer would fall within the jurisdiction of the courts of Ireland. As to what might constitute "proof to the contrary" regarding the location of a company's COMI, the key decision is that in *Re Eurofood IFSC Ltd* ([2004] 4 IR 370 (Irish High Court); [2006] IESC 41 (Irish Supreme Court); [2006] Ch 508; ECJ Case C-341/04 (European Court of Justice)), given in respect of the equivalent provision in the previous EU Insolvency Regulation (Regulation (EC) No. 1346/2000). In that case, on a reference from the Irish Supreme Court, the European Court of Justice concluded that "factors which are both objective and ascertainable by third parties" would be needed to demonstrate that a company's actual situation is different from that which the location of its registered office is deemed to reflect. For instance, if a company with its registered office in Ireland does not carry on any business in Ireland, that could rebut the presumption that the company's COMI is in Ireland. However, if a company with its registered office in Ireland does carry on business in Ireland, the fact that its economic choices are controlled by a parent undertaking in another jurisdiction would not, of itself, be sufficient to rebut the presumption.

As the Issuer has its registered office in Ireland, has a majority of Irish directors, it is registered for tax in Ireland and has retained an Irish corporate services provider, the Issuer does not believe that factors exist that would rebut the presumption that its COMI is located in Ireland, although this would ultimately be a matter for the relevant court to decide based on the circumstances existing at the time when it was asked to make that decision. If the Issuer's COMI was found to be in another EU jurisdiction and not in Ireland, main insolvency proceedings would be opened in that jurisdiction instead.

Examinership

Examinership is a court moratorium/protection procedure which is available under Irish company law to facilitate the survival of Irish companies in financial difficulties. Where a company which has its COMI in Ireland is, or is likely to be, unable to pay its debts, an examiner may be appointed on a petition to the relevant Irish court under Section 509 of the Companies Act 2014.

The Issuer, the shareholders, the directors and a contingent, prospective or actual creditor of the Issuer are each entitled to petition the court for the appointment of an examiner. The examiner, once appointed, has wide powers binding on the company.

During the period of protection, the examiner will compile proposals for a compromise or scheme of arrangement to assist in the survival of the company or the whole or any part of its undertaking as a going concern. A scheme of arrangement may be approved by the relevant Irish court when (i) a minimum of one class of creditors, whose interests are impaired under the proposals, has voted in favour of the proposals, (ii) the relevant Irish court is satisfied that such proposals are fair and equitable in relation to any class of members or creditors who have not accepted the proposals and whose interests would be impaired by implementation of the scheme of arrangement and (iii) the proposals are not unfairly prejudicial to any interested party.

RISK FACTORS

If an examiner were appointed while any amounts due by the Issuer under the Certificates were unpaid, the primary risks to the investor in the Certificates would be (i) the write-down of the debt due from the Issuer to the investor in the Certificates in the event that a scheme of arrangement is approved or (ii) in the event that a scheme of arrangement is not approved and the Issuer subsequently goes into liquidation, both the examiner's and liquidator's remuneration and expenses (including certain borrowings incurred by the examiner on behalf of the Issuer and approved by the relevant Irish Court) will take priority over the monies and liabilities which from time to time are or may become due, owing or payable by the Issuer to the Investor under the Certificates or the transaction documents in connection therewith.

Should these events materialise, they may reduce the amounts available for payments on the Certificates and have a material adverse effect on the ability of the Issuer to fulfil its obligations under Certificates issued under the Programme.

Preferred creditors

Under Irish law, the claims of unsecured creditors of the Issuer rank behind other creditors (including fees, costs and expenses of any examiner appointed, certain capital gains tax liabilities and claims of the Irish Revenue Commissioners for certain unpaid taxes). If the Issuer becomes subject to insolvency proceeding and the Issuer has obligations to creditors that are treated under Irish law as creditors that are senior relative to the Certificateholders, this may have a material adverse effect on the ability of the Issuer to fulfil its obligations under Certificates issued under the Programme and the Certificateholders may suffer losses on their investment as a result of their subordinated status during such insolvency proceedings.

Corporation tax - Deductibility of Interest

Under the rules set out in Section 110 (the "**Section 110 Regime**") of the Taxes Consolidation Act 1997, as amended, of Ireland (the "**TCA**"), interest or other distributions may be re-characterised as a non-deductible distribution where the payment is made to a person which is not resident in Ireland for tax purposes and which is not otherwise within the charge to corporation tax in Ireland and which is a "specified person".

A "specified person" in relation to the Issuer for these purposes means (A) a company which indirectly (i) controls the Issuer, (ii) is controlled by the Issuer, or (iii) is controlled by a third company which also directly or indirectly controls the Issuer, or (B) a person, or persons who are connected with each other, (i) from whom assets were acquired, (ii) to whom the Issuer has made loans or advances, (iii) to whom loans or advances held by the Issuer were made, or (iv) with whom the qualifying company has entered into specified agreements (as defined by Section 110 TCA), where the aggregate value of such assets, loans, advances or agreements represents not less than 75 per cent of the aggregate value of the "qualifying assets" (as defined by Section 110 TCA) of the Issuer.

A person has "control" of the Issuer for these purposes where that person has (a) the power to secure by means of the holding of shares or the possession of voting power in or in relation to the Issuer or any other company, or by virtue of any powers conferred by the constitution, articles of association or other document regulating the Issuer or any other company, that the affairs of the Issuer are conducted in accordance with the wishes of that person, or (b) "significant influence" (being the ability to participate in the financial and operating policy decisions of a company) over the Issuer and holds an entitlement to more than 20 per cent. of the shares in the Issuer, 20 per cent by principal value of the debt carrying profit-dependent or excessive interest issued by the Issuer (or any securities with no par value) or 20 per cent. of the interest on such securities.

The operation of the Section 110 Regime could result in tax deductions for payment of interest by the Issuer to such specified persons on any Certificates, the return on which is dependent on the results of the Issuer's business or exceeds a commercial rate of return, being non-deductible and potentially subject to dividend withholding tax.

These changes should not affect the taxation of the Issuer on the basis that the Certificates will not have a return which is profit dependent on the results of the Issuer's business or exceeds a commercial rate of return and the on the basis of the confirmations provided in the Issuer Confirmation.

If there are any Certificates that have a profit dependent return or exceed a reasonable commercial return, this amendments should not apply on the basis of a confirmation by the Issuer that, at the time the Certificates were issued, the Issuer was not in possession or aware of any information, including information about any arrangement or understanding in relation to ownership of the Certificates after that time, which could reasonably be taken to indicate that interest or other distributions paid on the Certificates would not be subject, without reduction computed by reference to the amount of such interest or other distribution, to a tax in a relevant territory which generally applies to profits, income or gains received in that relevant territory by persons from sources outside that relevant territory (the "**Issuer Confirmation**"),

RISK FACTORS

where the term "relevant territory" means a member state of the European Union (other than Ireland) or a country with which Ireland has signed a double tax treaty ("**Relevant Territory**").

EU Anti-Tax Avoidance Directive and EU Anti-Tax Avoidance Directive 2

As part of its anti-tax avoidance package, and to provide a harmonised implementation of a number of the OECD Base Erosion and Profit Shifting (BEPS) concluding reports across the EU, the EU Council adopted Council Directive (EU) 2016/1164 (the "**Anti-Tax Avoidance Directive**") on 12 July 2016 and subsequently, Council Directive (EU) 2017/952 (the "**Anti-Tax Avoidance Directive 2**") on 29 May 2017, amending the Anti-Tax Avoidance Directive, to provide for minimum standards for counteracting hybrid mismatches involving EU Member States and third countries. Ireland has fully transposed both the ATAD Directive and Anti-Tax Avoidance Directive 2.

First, the Anti-Tax Avoidance Directive provides for an "interest limitation rule" which restricts the deductible interest of an entity to the higher of (a) EUR 3,000,000 or (b) 30% of its earnings before interest, tax, depreciation and amortisation. However, the interest limitation only applies to the net borrowing costs of an entity (being the amount by which its borrowing costs exceed its taxable interest revenues and other economically equivalent taxable revenues). This measure was introduced in Ireland with effect for accounting periods commencing on or after 1 January 2022. These new rules may not impact the Issuer if (i) it does not have excess borrowing costs or if (ii) it qualifies as a "single company worldwide group", as defined in the implementing legislation, and does not make any interest or interest equivalent payments to associated enterprises (within the meaning of the hybrid mismatch rules discussed below).

However, where the Issuer funds interest payments on the Certificates from payments it receives which are interest or "interest equivalent" (as defined in the implementing legislation), then the Issuer should not have any excess borrowing costs and so the rules may have not have a significant impact of the Issuer. Alternatively, where the Issuer meets certain conditions, including not being consolidated with any other entity for accounting purposes, then it may qualify as a 'single company worldwide group' which means provided it does not make any interest or interest equivalent payments to associated enterprises it may use the "equity ratio" or "group ratio" rule (as defined in the implementing legislation) rules, such that it should not suffer a restriction.

Secondly, the Anti-Tax Avoidance Directive (as amended by the Anti-Tax Avoidance Directive 2) provides for hybrid mismatch rules that are designed to neutralise arrangements where amounts are deductible from the income of one entity but are not taxable for another, or the same amounts are deductible for two entities by denying a deduction for the paying entity. These rules could potentially apply to the Issuer where: (i) the interest that it pays under the Certificates, and claims deductions from its taxable income for, is not brought into account as taxable income by the relevant Certificateholder, either because of the characterisation of the Certificates, or the payments made under them, or because of the nature of the Certificateholder itself; and (ii) the mismatch arises between associated enterprises, between the Issuer and an associated enterprise or under a structured arrangement. It is not clear if the Issuer would have any associated enterprise, however if the Issuer has, or had at any time, an associated enterprise, unless there is a hybrid mismatch, the measures should not impact payments on the Certificates.

For the purposes of the hybrid rules, a structured arrangement is one involving a mismatch outcome where the mismatch outcome is priced into the terms of the arrangement or the arrangement was designed to give rise to a mismatch outcome. Absent any guidance from the Irish Revenue Commissioners on how they will approach structured arrangements, in practice, it is not yet clear if this would apply to the transaction to bring it within scope of the hybrid rules.

Multilateral Instrument

On 24 November 2016, the OECD published the text and explanatory statement of the "Multilateral Convention to Implement Tax Treaty Related Measures to Prevent Base Erosion and Profit Shifting" ("**MLI**"). The MLI is to be applied alongside existing tax treaties (rather than amending them directly), modifying the application of those existing treaties in order to implement BEPS measures.

The MLI has entered into force in Ireland. The date from which provisions of the MLI have effect in relation to a double tax treaty depends on several factors including the type of tax which the relevant treaty article relates to. In most cases, since the Issuer is not relying, for Irish tax purposes, on the provisions of an Irish double tax treaty, the MLI should have little Irish tax effect on it. The Issuer's ability to rely on Ireland's double tax treaties to reduce or eliminate taxes in other jurisdictions may be affected. The ability to rely on many of Ireland's double tax treaties with other jurisdictions may now be subject to a principal purpose test ("**PPT**"). The PPT would deny treaty benefits where it is reasonable to conclude, having regard to all of the relevant facts and circumstances for this purpose, that obtaining that benefit was one of the principal purposes of any arrangement or transaction that resulted directly or indirectly in that benefit, unless it was established that granting that benefit in those circumstances would be in accordance with the object and purpose of the

RISK FACTORS

relevant provisions of the treaty. It is currently unclear how a PPT, if adopted, would be applied by the tax authorities of those jurisdictions from which payments are made to the Issuer.

It is also possible that Ireland will negotiate other amendments to its double tax treaties on a bilateral basis in the future which may affect the ability of the Issuer to obtain the benefit of those treaties. Should the Issuer fail to obtain the benefit of those treaties, this could increase the Issuer's liability to tax, reduce the amounts available for payments on the Certificates and have a material adverse effect on the ability of the Issuer to fulfil its obligations under Certificates issued under the Programme.

OECD Model GloBE Rules and the EU Directive on GloBE Rules

On 20 December 2021, the OECD published the draft Global Anti-Base Erosion Model Rules which are aimed at ensuring that Multinational Enterprises ("MNEs") will be subject to a global minimum 15% tax rate from 2023 ("GloBE Rules"). The GloBE Rules are part of the OECD/G20 Inclusive Framework on BEPS which currently has 141 participant countries.

The EU Council adopted Council Directive 2022/25234 (the "**Pillar 2 Directive**") on 22 December 2022 to implement the GloBE Rules in the EU. The GloBE Directive provides for the introduction of rules designed to achieve a minimum effective taxation for MNEs and large-scale domestic groups with revenues of at least €750,000,000, operating in the EU's internal market and beyond. It provides a common framework for implementing the GloBE Rules into EU Member States' national laws by 31 December 2023. The implementing Irish legislation is contained in the Irish Finance (No. 2) Act 2023 and applies for accounting periods commencing on or after 31 December 2023 (the "**Irish Pillar 2 Legislation**").

Broadly, the Issuer may be within the scope of the Irish Pillar 2 Legislation if (i) it is regarded as part of an MNE group or a large-scale domestic group which has revenues of more than EUR 750 million a year for two of the previous four years, or (ii) it is a standalone entity which has revenues of more than EUR 750 million a year.

2. Risk Factors that may affect the Guarantor's ability to fulfil its obligations under the Guarantee or the Dematerialised Certificates Guarantee

Business and Industry Risks

Cirdan operates a monoline business structure

The Issuer and the Guarantor's business activities are dependent on the behaviour of the financial markets. There may be times where the unpredictable nature of the financial markets can affect the performances generated by Cirdan while managing assets, leading to losses for the investors and the consequent reduction in management and performance fees received by Cirdan. Their performances are influenced by the level and cyclical nature of business activity, which is impacted by both domestic and international economic and political events. Adverse and unpredictable movements in the financial markets may have a material effect on the Issuer and the Guarantor's future results and this, in turn, may have a material adverse effect on the ability (i) of the Issuer to fulfill its obligations under Certificates issued under the Programme and/or (ii) of the Guarantor to fulfil its obligations under the Guarantee or the Dematerialised Certificates Guarantee.

Cirdan faces increasing competition in its business lines.

The market in which Cirdan operates is highly competitive and this trend will likely continue with new business models likely to be developed in coming years which impact is unforeseeable. In addition, the trend towards consolidation in the finance industry has created larger and stronger financial institutions with which Cirdan must compete. This competition may adversely affect Cirdan's business, financial condition, and results of operations.

Should Cirdan's business, financial condition, and results of operations deteriorate, this, in turn, may have a material adverse effect on the ability of the Guarantor to fulfil its obligations under the Guarantee or the Dematerialised Certificates Guarantee.

Significant or Key Personnel risks

Cirdan relies on the experience and continuity of key personnel for the success of its business

Attracting and retaining key members of senior management is vital in ensuring that Cirdan continues to have the necessary expertise and continuity to execute its strategy. Cirdan must continue to attract and retain the appropriate

RISK FACTORS

members of senior management. A failure to attract, or the loss of, such key members of senior management could have a material adverse effect on Cirdan's business, financial condition and results of operations and this, in turn, may have a material adverse effect on the ability of the Guarantor to fulfil its obligations under the Guarantee or the Dematerialised Certificates Guarantee.

If Cirdan is unable to successfully recruit and retain qualified employees, this may adversely impact its business, financial condition and results of operations, and impact opportunities for growth in new markets

Cirdan's business depends on delivering high quality, reliable services, cost efficiently. Staff costs are the largest single component of Cirdan's costs, representing around sixty four per cent. of Cirdan's total operating costs in the period ending 31 December 2023. Service delivery and the ability to exploit future growth opportunities therefore requires access to, and retention of, high calibre staff, including in particular quantitative analyst, specialised quantitative developers, quantitative developers and sales. Increasing demand for such profiles could hinder Cirdan's ability to recruit and retain qualified employees leading to a higher than expected increase in Cirdan's staff costs, including the costs of recruitment and training in addition to having a material adverse effect on the performance of the Group's investment products. If Cirdan is not successful in its recruitment and retention of qualified employees, this may have a material adverse effect on Cirdan's business, financial condition, results of operations and ability to grow. This, in turn, may have a material adverse effect on the ability of the Guarantor to fulfil its obligations under the Guarantee or the Dematerialised Certificates Guarantee.

Financial Reporting and other Operational Risks

The financial industry and the continuity of Cirdan's business is increasingly dependent on information technology systems, which may fail, may not be adequate for the tasks at hand or may no longer be available.

Cirdan and its activities are increasingly dependent on highly sophisticated information technology ("IT") systems. IT systems are vulnerable to a number of problems, such as software or hardware malfunctions, computer viruses, hacking and physical damage to vital IT centres. IT systems need regular upgrading and financial institutions, including Cirdan, may not be able to implement necessary upgrades on a timely basis or upgrades may fail to function as planned. Furthermore, failure to protect operations from cyber-attacks could result in the loss or compromise of customer data or other sensitive information. These threats are increasingly sophisticated and there can be no assurance that Cirdan will be able to prevent all breaches and other attacks on its IT systems.

Cirdan has in place disaster recovery procedures, security measures, support and maintenance, usually provided in-house in the first instance and thereafter by third party contractors, in the event of failure or disruption, but such procedures and measures may not anticipate, prevent or mitigate any material adverse effect of such failure or disruption on Cirdan's business, financial condition and results of operations.

Furthermore, Cirdan may at any time be required to expend significant capital or other resources to protect against failure and disruption, including the replacement or upgrading of its existing business continuity systems, procedures and security measures. If replacements, expansions, upgrades and other maintenance are not completed efficiently or there are operational failures, the quality of service experienced by investors may decline. If, as a result, investors were to reduce or stop their use of Cirdan's services, this could have a material adverse effect on Cirdan's business, financial condition and results of operations. Additionally, if Cirdan is unable to acquire or implement new technology, it may suffer a competitive disadvantage, which could also have a material adverse effect on Cirdan's business, financial condition and results of operations.

In addition to costs that may be incurred as a result of any failure of IT systems, financial institutions, including Cirdan, could face fines from regulators if they fail to comply with applicable financial institution or reporting obligations.

Should the events above materialise, they may have a material adverse effect on the ability of the Guarantor to fulfil its obligations under the Guarantee or the Dematerialised Certificates Guarantee

Weaknesses or failures in Cirdan's internal processes, systems and security could materially adversely affect its results of operations, financial condition or prospects, and could result in reputational damage.

Operational risks, through inadequate or failed internal processes, systems (including financial reporting and risk monitoring processes) or security, or from people-related or external events, including the risk of fraud and other criminal acts carried out by Group employees or against Group companies, are present in the Group's business. The business is dependent on processing and reporting accurately and efficiently a high volume of complex transactions across numerous investment products and services, in different currencies and subject to different legal and regulatory regimes. Any

RISK FACTORS

weakness in these internal processes, systems or security could have an adverse effect on the Group's results, the reporting of such results, and on the ability to deliver appropriate customer outcomes during the affected period. In addition, any breach in security of the Group's systems could disrupt its business, result in the disclosure of confidential information and create significant financial and legal exposure for Cirdan. Although Cirdan devotes significant resources to maintain and regularly update its processes and systems that are designed to protect the security of its systems, software, networks and other technology assets, there is no assurance that all of its security measures will provide absolute security. Any damage to Cirdan's reputation (including to customer confidence) arising from actual or perceived inadequacies, weaknesses or failures in its systems, processes or security could have a material adverse effect on its business, financial condition and results of operations and this, in turn, may have a material adverse effect on the ability of the Guarantor to fulfil its obligations under the Guarantee or the Dematerialised Certificates Guarantee.

GDPR – Risk of Data Security Breach

There is a risk that a security breach could lead to a loss or theft of customer, supplier or the Issuer's confidential data. A major data security breach could lead to significant reputational damage and result in regulatory intervention and/or fines, especially considering the implementation of the General Data Protection Regulation (Regulation (EU) 2016/679 as amended and supplemented from time to time) ("**GDPR**") and the GDPR as it forms part of the law of England and Wales by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"), in each case regarding the protection of natural persons with respect to the processing of personal data and on the free movement of such data.

Legal, Regulatory and Compliance Risks

The Group is subject to substantial regulation and regulatory and governmental oversight. Changes in the existing regulatory framework could have a material adverse effect on its business, results of operations and financial condition and this, in turn, may have a material adverse effect on the ability (i) of the Issuer to fulfil its obligations under Certificates issued under the Programme and/or (ii) of the Guarantor to fulfil its obligations under the Guarantee or the Dematerialised Certificates Guarantee.

Impact of Increased Regulation

The global financial crisis of 2008 onwards led to increased regulation of financial activities. In particular, governmental and regulatory authorities in a number of jurisdictions have imposed stricter regulatory controls around certain financial activities and/or have indicated that they intend to impose such controls in the future. The United States of America, the European Union, the United Kingdom and other jurisdictions have implemented, and are still in the process of implementing, various reform measures in this respect. Such regulatory changes and their implementation method may have a significant effect on the operational activities regarding the operativity of financial markets. In many cases, it is uncertain how such regulatory reforms would affect the Issuer or the Guarantor, the treatment of financial instruments such as the Certificates or the activities of other parties that have roles with respect to such financial instruments, such as the Arranger, the Dealer(s), the Paying Agents and other Transaction Parties.

The application of the Alternative Investment Fund Managers Directive to special purpose entities

The EU Directive 2011/61/EU on Alternative Investment Fund Managers ("**AIFMD**") became effective on 22 July 2013. The AIFMD has been implemented into Irish law by the European Union (Alternative Investment Fund Manager Directive) Regulation 2013. The AIFMD provides, amongst other things, that all alternative investment funds (each, an "**AIF**") must have a designated alternative investment fund manager ("**AIFM**") with responsibility for portfolio and risk management. The application of the AIFMD to special purpose entities such as the Issuer is unclear. The Issuer does not operate in the same manner as a typical alternative investment fund. The Issuer has been established solely for the purpose of issuing securities, bonds, notes, debt or entering into loan agreements or other similar agreements and entering into agreements in relation thereto and performing acts incidental thereto or necessary in connection therewith.

There is an exemption from the definition of AIF in AIFMD for "securitisation special purpose entities" (the "**SSPE Exemption**"). The European Securities and Markets Authority ("**ESMA**") has not yet given any formal guidance on the application of the SSPE Exemption or whether a vehicle such as the Issuer would fall within it.

However, as regards the position in Ireland, the Central Bank has confirmed that pending such further clarification from ESMA, "registered financial vehicle corporations" with the meaning of Article 1(2) of Regulation (EC) No 24/2009 of the European Central Bank, such as the Issuer, do not need to seek authorisation as an AIF or appoint an AIFM unless the Central Bank issues further guidance advising them to do so.

RISK FACTORS

Were the Issuer to be found to be an AIF or an AIFM, or were the Arranger, the Guarantor or the Dealer acting in any capacity in respect of the Certificates to be found to be acting as an AIFM with respect to the AIF, the AIFM would be subject to the AIFMD. Owing to the special purpose nature of the Issuer, it would be unlikely that either the Issuer or Arranger could comply fully with the requirements of the AIFMD and, in addition, the Issuer might be classified as a financial counterparty for the purposes of EMIR (defined below) and be required to comply with clearing obligations or other risk mitigation techniques with respect to derivatives transactions.

Investors should therefore be aware of the risk that the requirements of AIFMD may result in the Certificates being redeemed early at their Early Redemption Amount in the circumstances set out in General Condition 6. Given the material and presently unknown extent of the risks which may affect the Certificates as a consequence of the implementation of AIFMD, potential investors in the Certificates should take independent advice and make an independent assessment about such risks in the context of any potential investment decision with respect to the Certificates.

No assurance can be given as to how ESMA or national regulators might, in the future, interpret the AIFMD or whether any such interpretation might find the Issuer to be an AIF or an AIFM, or find the Arranger, the Guarantor or the Dealer acting in any capacity in respect of the Certificates to be acting as an AIFM with respect to the Issuer.

Risks connected to the implementation of the European Market Infrastructure Regulation ("EMIR")

The European Regulation 648/2012 of the European Parliament and Council on OTC Derivatives Central Counterparties and Trade Repositories dated 4 July 2012, as amended and supplemented by the various delegated regulations and technical standards ("**EMIR**") establishes certain requirements for OTC derivatives contracts including mandatory clearing obligations, bilateral risk-management requirements (including the exchange of collateral) and reporting requirements.

EMIR imposes different obligations on entities classified as "financial counterparties" ("**FCs**") (including entities referred to as "**small financial counterparties**" or "**SFCs**"), "non financial counterparties exceeding a clearing threshold" ("**NFC+s**") and "non financial counterparties below a clearing threshold" ("**NFC-s**"). Due to the Issuer's unregulated status and the volume of non-hedging derivatives transactions that it (together with any other non financial entities in its consolidated group) has entered into, the Issuer is likely to be classified as an NFC-. Accordingly, EMIR imposes only a limited amount of obligations on the Issuer when it enters into any derivatives transactions, including obligations to report these derivative contracts to trade repositories, timely confirmation of terms, portfolio reconciliation and compression and the implementation of dispute resolution procedures.

If the Issuer were to be classified as an entity other than an NFC-, EMIR may require the Issuer to modify the terms of any derivative transaction into which it enters; there is a risk that this may materially increase the costs associated with such derivative transaction and/or any replacement derivative transaction. This is a particular risk should any derivative transaction into which the Issuer enters become subject to (i) a requirement to exchange collateral with the swap counterparty, which forms a part of the risk-management requirements, or (ii) to mandatory clearing. In such circumstances, the Issuer might not be practically able to comply with such requirement and/or the Issuer and/or swap counterparty would be subject to additional financial and operational burdens. If the Issuer were to be classified as an entity other than an NFC-, the additional requirements of EMIR may in certain circumstances result in the occurrence of an Illegality Event and lead to early redemption of the Certificates.

The Group is exposed to risks related to reforms of Index "Benchmarks"

EU Benchmark regulation

The Benchmarks Regulation could have a material impact on any Certificates for which a request for admission to trading on a trading venue has been made, or which are traded on a trading venue and linked to a "benchmark" for Benchmarks Regulation purpose, including in any of the following circumstances:

- an index (including a Cirdan Index) which is a "benchmark" could not be used as such if its administrator (including Cirdan which is an administrator for the purposes of the Benchmarks Regulation. See "*EEA Benchmarks Regulation*"), does not obtain authorisation or is based in a non-EU jurisdiction which (subject to any applicable transitional provisions) does not have equivalent regulation. In such event, depending on the particular "benchmark" and the applicable terms of the Certificates, the Certificates could be de-listed, adjusted, redeemed or otherwise impacted; and
- the methodology or other terms of the "benchmark" could be changed in order to comply with the terms of the Benchmarks Regulation, and such changes could have the effect of reducing or increasing the rate or

RISK FACTORS

level or affecting the volatility of the published rate or level, and could lead to adjustments to the terms of the Certificates, including calculation agent determination of the rate or level in its discretion.

An Administrator/Benchmark Event may arise if any of the following circumstances occurs or will occur: (1) a benchmark is materially changed or permanently cancelled, or (2) (i) the relevant authorisation, registration, recognition, endorsement, equivalence decision or approval in respect of the benchmark or the administrator or sponsor of the benchmark is not obtained, (ii) an application for authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register is rejected, or (iii) any authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended or inclusion in any official register is withdrawn.

Global reform of reference interest rates

The global reform of the reference interest rates is a key aspect of monitoring for the Guarantor. Interbank offered rates ("**IBORs**") are key reference interest rates underpinning many contracts within the financial sector worldwide. Following the Financial Stability Board's 2014 recommendations, authorities in several countries promoted initiatives for the financial system to reduce its dependence on the interbank offered rates ("**IBORs**") and transition to risk-free alternative interest rates ("**RFR**") by late 2021. These initiatives have resulted in the cessation and loss of representativeness of certain benchmarks, including all London Interbank Offered Rate ("**LIBOR**") currencies and tenors, and may cause in the future benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted.

These RFRs are designed to overcome the difficulties of IBOR rates; especially, to minimize dependence on expert judgment and guarantee greater transparency and understanding in its elaboration process. In certain cases, such transition will result in the substitution of the rate historically used as a reference by the new RFR (for example in Europe, the substitution of Euro overnight index average ("**EONIA**") by the euro short term rate, or in the United States, the substitution of USD LIBOR by the Secured Overnight Financing Rate ("**SOFR**") or the modification of the existing index methodology (for example, in the case of overnight interest rates, the Sterling Overnight Index Average ("**SONIA**") for the GBP market, or in the case of forward interest rates, the Euro-zone inter-bank offered rate ("**EURIBOR**"). In the United Kingdom, the national government has extended the legislation originally put in place to cover LIBOR to regulate a number of additional major United Kingdom-based financial benchmarks in the fixed income, commodity and currency markets, which could be further expanded in the future.

The FCA released "Financial Benchmarks: Thematic review of oversight and controls", which reviewed the activities of firms in relation to a much broader spectrum of "benchmarks" that ultimately could impact inputs, governance and availability of certain "benchmarks."

Any of the international, national or other proposals for reform or the general increased regulatory scrutiny of "benchmarks" could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements. An example of such proposals for benchmark reform was the reform of EURIBOR, to use a hybrid methodology and to provide fallback by reference to a euro risk-free rate (based on a euro overnight risk-free rate as adjusted by a methodology to create a term rate). On 13 September 2018, the working group on euro risk-free rates recommended Euro Short-term Rate ("**€STR**") as the new risk-free rate. €STR was published by the European Central Bank on 2 October 2019. In addition, on 21 January 2019, the euro risk-free rate working group published a set of guiding principles for fallback provisions in new euro denominated cash products (including bonds). The guiding principles indicate, among other things, that continuing to reference EURIBOR in relevant contracts may increase the risk to the euro area financial system.

Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain "benchmarks", trigger changes in the rules or methodologies used in certain "benchmarks" or lead to the disappearance of certain "benchmarks". The disappearance of a "benchmark" or changes in the manner of administration of a "benchmark" could result in adjustment to the terms and conditions, early redemption, discretionary valuation by the calculation agent, delisting or other consequence in relation to Certificates linked to such "benchmark". Any such consequence could have a material adverse effect on the value of and return on any such Certificates.

In addition, the manner of adoption or application of risk-free rates in the securities markets may differ materially compared with the application and adoption of risk-free rates in other markets, such as the derivatives and loan markets. Investors should carefully consider how any mismatch between the adoption of such reference rates in the securities, loan and derivatives markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of Certificates referencing such risk-free rates.

RISK FACTORS

In particular, investors should be aware that several different methodologies have been used in risk-free rate securities issued to date. International Working Groups have identified all the alternative reference rates (ARRs) as well as various TERM rates (e.g. SONIA TERM, SOFR TERM and TORF) for both LIBOR and EURIBOR. ECB and ESMA are currently looking for an administrator capable of producing a €STR rate term structure (i.e. €STR TERM). If the relevant risk-free rates do not prove to be widely used in securities like the Certificates, the trading price of such securities linked to such risk-free rates may be lower than those of Certificates referencing indices that are more widely used.

Investors should consider these matters when making their investment decision with respect to any Certificates which reference SONIA, SOFR, €STR, SARON or any related indices.

Overnight rates differ from IBORs in a number of material respects and have a limited history

Overnight rates differ from IBORs in a number of material respects, including that overnight rates are backwards-looking, compounded, risk-free overnight rates, whereas IBORs are expressed on the basis of a forward-looking term and includes a risk-element based on inter-bank lending. As such, investors should be aware that such as SONIA, €STR, SOFR or SARON may behave materially differently as interest reference rates for the Certificates compared with rates such as LIBOR or EURIBOR.

Furthermore, SOFR is a secured rate that represents overnight secured funding transactions, and therefore may perform differently over time than unsecured rates (including overnight unsecured rates). For example, since publication of SOFR began on 3 April 2018, daily changes in SOFR have, on occasion, been more volatile than daily changes in comparable benchmarks or other market rates.

Publication of SONIA and SOFR began in April 2018 and publication of €STR began in October 2019 and they therefore have a limited history. The future performance of SONIA, SOFR and €STR may therefore be difficult to predict based on the limited historical performance. The level of SONIA, SOFR and €STR during the term of the Certificates may bear little or no relation to the historical level of SONIA, SOFR and €STR. Prior observed patterns, if any, in the behaviour of market variables and their relation to SONIA, SOFR and €STR such as correlations, may change in the future.

The administrator of SONIA, SOFR, €STR or SARON may make changes that could change the value of SONIA, SOFR, €STR or SARON or discontinue SONIA, SOFR, €STR or SARON

In addition, the Bank of England, the New York Federal Reserve, the European Central Bank, or the SIX Index AG (or a successor), as administrators of SONIA, SOFR, €STR and SARON, respectively, may make methodological or other changes that could change the value of SONIA, SOFR, €STR or SARON (as applicable), including changes related to the method by which SONIA, SOFR, €STR or SARON is calculated, eligibility criteria applicable to the transactions used to calculate SONIA, SOFR, €STR or SARON, or timing related to the publication of SONIA, SOFR, €STR or SARON. In addition, the administrator may alter, discontinue or suspend calculation or dissemination of SONIA, SOFR, €STR or SARON (in which case a fallback method of determining the interest rate on the Certificates will apply). The administrator has no obligation to consider the interests of Certificateholders when calculating, adjusting, converting, revising or discontinuing SONIA, SOFR, €STR or SARON, as the case may be.

The UK's departure from the European Union

Pursuant to the European Referendum Act 2015, a referendum on the United Kingdom's membership of the EU (the "**UK's EU Referendum**") was held on 23 June 2016 with the majority voting to leave the EU. On 29 March 2017, the UK notified the European Council of its intention to leave the EU, thus formally triggering Article 50 of the Treaty on European Union. 31 January 2020 marked the end of the UK's membership of the European Union and the start of the "Transition Period", during which the UK remained part of the EU Single Market.

The transition period lasted from 31 January 2020 until 31 December 2020 (the "**Transition Period**"). On 24 December 2020, the EU and the UK announced the terms of a trade deal which took provisional effect immediately following the end of the Transition Period (the "**Trade and Cooperation Agreement**"). The UK's departure from the EU ("**Brexit**") may adversely affect economic and market conditions in the EU, the UK and elsewhere, and may also contribute to uncertainty and instability in global financial markets. No assurance can be given that such matters will not adversely affect the market value of the Certificates and/or the ability of the Issuer to satisfy its obligations under the Certificates.

Applicability of EU law in the UK

RISK FACTORS

Following the end of the Transition Period, the UK has largely incorporated existing EU law into UK law. This “on-shoring” process of EU legislation was set out in the European Union (Withdrawal) Act 2018, which received Royal Assent on 26 June 2018.

As a result of this on-shoring process, the current position is that UK financial services law has a relatively high degree of alignment with EU law (particularly with regard to the operation of financial markets, the provision of financial services, prudential and conduct regulation of financial institutions, financial collateral, settlement finality and market infrastructure), though the level of divergence is increasing. Following the end of the Brexit transition period, the EU and the UK’s approaches to regulating the financial services sector will inevitably diverge over time. The Financial Services and Markets Act 2023 was published on 7 July 2023 and made significant reforms to the regulation of the UK financial services sector, with many of its measures intended to address issues arising from Brexit.

As a result of this, further divergence from the on-shored EU regulatory framework is likely to occur. It is impossible at this time to predict the consequences of potential future changes on the Certificates or the Issuer’s business, financial condition, results of operations or prospects. Such changes could be materially detrimental to Certificateholders.

Prospective investors should ensure that they are aware of current global and UK macro-economic and financial conditions and should take these factors into account when evaluating the risks and merits of any investment in the Certificates.

Impact of COVID-19

The spread of the coronavirus disease (“COVID-19”) pandemic and the governmental measures taken to contain the pandemic have significantly adversely affected, and will likely continue to adversely affect, global economic conditions, resulting in meaningful contraction in the global economy, substantial volatility in the financial markets, increased unemployment, increased credit and counterparty risk, and operational challenges such as the temporary closure of businesses, sheltering-in-place directives and increased remote work protocols. Governments and central banks around the world have reacted to the economic crisis caused by the pandemic by implementing stimulus and liquidity programs and cutting interest rates, though it is unclear whether these or future actions will be successful in countering the economic disruption. If the pandemic is prolonged or the actions of governments and central banks are unsuccessful, the adverse impact on the global economy will deepen, and results of operations and financial condition in future quarters will be adversely affected.

The outlook for the global economy has deteriorated markedly since the end of 2019 as a result of the COVID-19 outbreak. COVID-19 and related lockdown measures have significantly impacted major economies across the world. Uncertainties are still at a high level, making predictions difficult and displaying several potential triggers for further negative developments. The COVID-19 pandemic has affected all businesses, and these effects could be greater in the future if adverse conditions persist. These effects have included declines in asset prices, significantly increased volatility, lower or negative interest rates, widening of credit spreads and credit deterioration. These effects have resulted in decreases in the valuation of loans and commitments, an increase in the allowance for credit losses and lower valuations of certain classes of trading assets. While these effects were offset by high levels of client trading activity in 2020 and 2021, this level of activity may not persist.

The extent to which the pandemic, and the related economic distress, may affect the ability of the Issuer to meet its obligations under the Certificates will depend on future developments that are highly uncertain and cannot be predicted, including the scope and duration of the pandemic and any recovery period, future actions taken by governmental authorities, central banks and other third parties in response to the pandemic. Any volatility in or disruption of the credit markets could, however, result in significant liquidity problems with respect to the Certificates.

Given the scenario described above, investors should be aware that the COVID-19 pandemic may negatively affect the Issuer, the Guarantor and/or the Certificates.

Political risk from the Russia – Ukraine conflict and the onset of the Middle East conflict

Numerous factors are currently affecting or may affect the economy and the financial markets in the coming months or years. In particular geopolitical tensions (notably in Eastern Europe, and in particular, the invasion of Ukraine and in Middle East with the Israeli-Palestinian hostilities), political risks directly affecting Europe, general trends in consumer and commodity prices characterised by high inflation, corresponding trends in wages, supply chain pressures, the changing economic situation in certain countries or regions that contribute to overall global economic growth, tensions

RISK FACTORS

around international trade and, as discussed below, the evolution of monetary policy and interest rates (these elements being affected by the above-mentioned factors).

The mentioned conflicts and the ongoing war, as well as the reaction of the international community, have been, continue to be, and could continue to be a source of instability for the Issuer, depressing stock market indices, inflating commodity prices (notably oil, gas and agricultural products, such as wheat), aggravating supply chain disruption and causing an increase in production costs and inflation more generally. These events are expected to have economic and financial repercussions that will increase inflation and decrease global growth.

Given the scenario described above, investors should be aware that the Russia – Ukraine and the Middle East conflicts may negatively affect the Issuer, the Guarantor and/or the Certificates.

3. Risks relating to the Certificates

Certificates may be redeemed prior to their scheduled maturity.

In the event that the Issuer would be required to pay additional amounts in respect of any Certificates due to any withholding as provided in General Condition 7 of the "Terms and Conditions of the Certificates" or the performance of the Issuer's obligations under the Certificates or any arrangements made to hedge its obligations under the Certificates has or will become unlawful, illegal or otherwise prohibited in whole or in part or if an Administrator/Benchmark Event (as defined in General Condition 6(r)) occurs or if a Regulatory Event (as defined in General Condition 6(s)) occurs, the Issuer may redeem all of the Certificates then outstanding in accordance with the Terms and Conditions of the Certificates.

In the event that one or more Events of Default (as defined in General Condition 9 of the "Terms and Conditions of the Certificates") occurs, the Certificates may become immediately due and repayable at their Early Redemption Amount. In addition, if "Automatic Early Redemption Event" is specified as being applicable in the Final Terms, on the occurrence of an Automatic Early Redemption Event the Certificates will be automatically redeemed at their Automatic Early Redemption Amount. If an Additional Disruption Event or an Extraordinary Event occurs, the Issuer may redeem the Certificates early.

The Final Terms for a particular issuance of Certificates may provide for early redemption at the option of the Issuer. Such right of termination is often provided for Certificates in periods of high interest rates. If the market interest rates decrease, the risk to Certificateholders that the Issuer will exercise its right of termination increases. As a consequence, the yields received upon redemption may be lower than expected, and the redeemed face amount of the Certificates may be lower than the purchase price for the Certificates paid by the Certificateholder. As a consequence, Certificateholders may not receive the total amount of the capital invested and suffer losses. In addition, investors that choose to reinvest monies they receive through an early redemption may be able to do so only in securities with a lower yield than the redeemed Certificates.

Claims of Holders under the Certificates are effectively junior to those of certain other creditors.

The Certificates and any guarantee in respect of them (the "Guarantee" or, with reference to the Dematerialised Certificates, the "Dematerialised Certificates Guarantee" and together with the Guarantee, the "Guarantees") are unsecured and unsubordinated obligations of the Issuer and the Guarantor, respectively. Subject to statutory preferences, the Certificates and the Guarantees will rank pari passu with any of the Issuer's and the Guarantor's other unsecured and unsubordinated indebtedness. However, the Certificates and the Guarantees will be effectively subordinated to all of, respectively, the Issuer's and the Guarantor's secured indebtedness, to the extent of the value of the assets securing such indebtedness, and other preferential obligations under English law and therefore Certificateholders may not receive the total amount of the capital invested and suffer losses. The Guarantees are also structurally subordinated to all indebtedness of subsidiaries of the Guarantor insofar as any right of the Guarantor to receive any assets of such companies upon their winding up will be effectively subordinated to the claims of the creditors of those companies in the winding up. The Issuer of the Certificates may be substituted without the consent of the Certificateholders.

The Issuer of the Certificates may be replaced as obligor under such Certificates with the Guarantor or any company from Cirdan's Group. Whilst the new issuer will provide an indemnity in favour of the Certificateholders in relation to any additional tax or duties that become payable solely as a result of such substitution, Certificateholders will not have the right to object to such substitution. See General Condition 17 of the "Terms and Conditions of the Certificates".

RISK FACTORS

The Guarantor of the Certificates may be substituted without the consent of the Certificateholders.

The Guarantor of the Certificates may be replaced as guarantor under such Certificates with another company incorporated anywhere in the world. Whilst the new guarantor will provide an indemnity in favour of the Certificateholders in relation to any additional tax or duties that become payable solely as a result of such substitution. Certificateholders will not have the right to object to such substitution. See General Condition 17 of the "Terms and Conditions of the Certificates".

The conditions of the Certificates contain provisions which may permit their modification without the consent of all investors.

The conditions of the Certificates contain provisions for calling meetings of Certificateholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Certificateholders including Certificateholders who did not attend and vote at the relevant meeting and Certificateholders who voted in a manner contrary to the majority.

If the Issuer has the right to redeem any Certificates at its option, this may limit the market value of the Certificates concerned and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return.

An optional redemption feature is likely to limit the market value of the Certificates. During any period when the Issuer may elect to redeem Certificates, the market value of those Certificates generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Certificates when its cost of borrowing is lower than the interest rate on the Certificates. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Certificates being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Market value of Certificates

The market value of the Certificates will be affected by a number of factors, including, but not limited to (i) the value and volatility of the relevant Reference Item(s) and the creditworthiness of the issuers and obligors of any Reference Item(s), (ii) the value and volatility of any index, securities, commodities or other obligations to which payments on the Certificates may be linked, directly or indirectly, and the creditworthiness of the issuers or obligors in respect of any securities or other obligations to which payments on the Certificates may be linked, directly or indirectly, (iii) market perception, interest rates, yields and foreign exchange rates, (iv) the time remaining to the Maturity Date and (v) the nature and liquidity of the hedging agreements or any other derivative transaction entered into by the Issuer or embedded in the Certificates. Any price at which Certificates may be sold prior to the Maturity Date may be at a discount, which could be substantial, to the value at which the Certificates were acquired on the Issue Date.

Prospective purchasers should be aware that not all market participants would determine prices in respect of the Certificates in the same manner, and the variation between such prices may be substantial. Accordingly, any prices provided by a Dealer may not be representative of prices that may be provided by other market participants. For this reason, any price provided or quoted by a Dealer should not be viewed or relied upon by prospective purchasers as establishing, or constituting advice by that Dealer concerning, a mark-to-market value of the Certificates. The price (if any) provided by a Dealer is at the absolute discretion of that Dealer and may be determined by reference to such factors as it sees fit. Any such price may take into account fees, commissions or arrangements entered into by that Dealer with a third party in respect of the Certificates and that Dealer shall have no obligation to any Certificateholder to disclose such arrangements. Any price given would be prepared as of a particular date and time and would not therefore reflect subsequent changes in market values or any other factors relevant to the determination of the price.

Specified Denominations may involve integral multiples

Certificates may have Specified Denominations of a certain amount plus one or more integral multiples of a smaller amount (the "Integral Multiples") in excess thereof, in which case (i) for so long as the relevant Clearing Systems so permit, the Certificates will be tradable only in the minimum authorised denomination of the Specified Denomination and the Integral Multiples and (ii) it is possible that the Certificates may be traded in amounts in excess of the Specified Denomination that are not Integral Multiples of the Specified Denomination. A Certificateholder who, as a result of trading such amounts as contemplated in (ii) above, holds an amount which is less than the Specified Denomination in its account with the relevant Clearing System at the relevant time may need to purchase a principal amount of Certificates

RISK FACTORS

such that its holding amounts to not less than the Specified Denomination in order to be able to transfer its Certificates (subject in all cases to the rules and procedures of the relevant Clearing System).

The Certificates may be subject to deduction of withholding taxes in circumstances where the Issuer is not obliged to pay additional amounts to compensate investors for such tax deductions and this would result in holders receiving less interest than expected and could significantly adversely affect their return on the Certificates.

The value of the Certificates could be adversely affected by a change in English law or administrative practice.

The General Conditions (except for General Condition 3(b) of the "Terms and Conditions of the Certificates") of the Certificates are based on English law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to Irish and English law or administrative practice after the date of this Base Prospectus and any such change could materially adversely impact the value of any Certificates affected by it.

Reliance on DTC, Euroclear, Clearstream, Luxembourg and Monte Titoli S.p.A. procedures.

The Regulation S Certificates will be represented on issue by a Regulation S Global Certificate that will be deposited with a common depositary for Euroclear and Clearstream, Luxembourg. Except in the circumstances described in the Regulation S Global Certificate, investors will not be entitled to receive Certificates in definitive form. Euroclear and Clearstream, Luxembourg and their respective direct and indirect participants will maintain records of the beneficial interests in the Regulation S Global Certificate. While the Certificates are represented by the Regulation S Global Certificate, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg and their respective participants.

The Rule 144A Certificates will be represented on issue by a Rule 144A Global Certificate that will be deposited with a nominee for DTC or Euroclear/Clearstream. Except in the circumstances described in the Rule 144A Global Certificate, investors will not be entitled to receive Certificates in definitive form. DTC and its direct and indirect participants will maintain records of the beneficial interests in the Rule 144A Global Certificate. While the Certificates are represented by the Rule 144A Global Certificate, investors will be able to trade their beneficial interests only through DTC and its participants, including Euroclear and Clearstream, Luxembourg.

While the Certificates are represented by the Global Certificates, the Issuer will discharge its payment obligation under the Certificates by making payments through the relevant clearing systems. A holder of a beneficial interest in a Global Certificate must rely on the procedures of the relevant clearing system and its participants to receive payments under the Certificates. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in either Global Certificate.

Holders of beneficial interests in a Global Certificate will not have a direct right to vote in respect of the Certificates. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant clearing system and its participants to appoint appropriate proxies.

Dematerialised Certificates will be in dematerialised form and evidenced at any time through book entries pursuant to the relevant provisions of Italian legislative decree no. 58/1998, as amended and integrated by subsequent implementing provisions, and in accordance with CONSOB and Bank of Italy Joint Regulation dated 13 August 2018, as amended and integrated by subsequent implementing provisions. In no circumstance would physical documents of title be issued in respect of the Dematerialised Certificates. While the Dematerialised Certificates are represented by book entries, investors will be able to trade their beneficial interests only through Monte Titoli S.p.A. and the authorised financial intermediaries holding accounts on behalf of their customers with Monte Titoli S.p.A. As the Dematerialised Certificates are held in dematerialised form with Monte Titoli S.p.A., investors will have to rely on the procedures of Monte Titoli S.p.A. and the financial intermediaries authorised to hold accounts therewith, for transfer, payment and communication with the relevant Issuer or Guarantor.

4. Calculation Agent Powers

Risks relating to the determinations of the Calculation Agent

The Calculation Agent will employ the methodology described in the Conditions to determine amounts payable in respect of the Certificates. When making any such determination in relation to any amounts so payable, the Calculation Agent or any delegate may in its sole and absolute discretion consider a wide range of information and the Calculation Agent will exercise its discretion in good faith and in a commercially reasonable manner. However, there can be no assurance that the exercise of any such discretion will not affect the value of the Certificates or the occurrence of an early redemption

RISK FACTORS

or the amount payable in connection therewith. The Calculation Agent shall have no obligations to the Certificateholders, and shall only have the obligations expressed to be binding on it pursuant to the Agency Agreement, unless otherwise specified in the Final Terms. All designations and calculations made by the Calculation Agent in respect of any Certificates shall be conclusive and binding on the Certificateholders.

Risks relating to the Calculation Agent's activity

The Calculation Agent may make adjustments (including the substitution of Reference Items) to elements of the Certificates following certain events which may adversely affect the market price of the Reference Item(s) and, therefore, adversely affect the value of the Certificates and/or the liquidity of the Certificates.

The Calculation Agent will determine the occurrence or not of events or whether certain other conditions described in the additional terms and conditions are satisfied. Such determination by the Calculation Agent, which is under no obligation to act in the interest of the Certificateholders, will (in the absence of manifest error) be final and binding on the Certificateholders. In particular, investors should refer to the Risk Factor titled "*Market Disruption Events or Failure to Open of an Exchange*" for more details on risks relating to Reference Item Linked Certificates.

5. Risks relating to the structure of particular Certificates

There are particular risks associated with an investment in certain types of Certificates and an investor may suffer a partial or severe loss of the principal amount invested by it.

Investors may suffer a partial or severe loss of the original invested amount.

Certificateholders may suffer a partial or severe loss of the value of their investment in the Certificates, subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, as further specified in the applicable Final Terms, as a result of the Issuer and the Guarantor of the Certificates being subject to insolvency proceedings or some other event impairing the ability of each to meet its obligations under the Certificates.

Investors may suffer a partial or severe loss of the original invested amount.

Investors may suffer a partial or severe loss of their investment in the Certificates, subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, as further specified in the Final Terms, as a result of the occurrence of any one or more of the following events:

- the terms of the relevant Certificates do not provide for full repayment of the initial purchase price upon final maturity and/or mandatory early redemption of such Certificates and the relevant Reference Item(s) perform in such a manner that the final redemption amount and/or mandatory early redemption amount is less than the initial purchase price;
- the purchaser seeks to sell the relevant Certificates prior to their scheduled maturity, and the sale price of the Certificates in the secondary market is less than the purchaser's initial investment; and
- the Certificates are subject to certain adjustments in accordance with the terms and conditions of such Certificates that may result in the scheduled amount to be paid or asset(s) to be delivered upon redemption being reduced to or being valued at an amount less than a purchaser's initial investment.

Notwithstanding that the relevant Certificates may be linked to the performance of one or more Reference Items, investors in such Certificates do not have and shall not receive any rights in respect of any Reference Item and shall have no right to call for any Reference Item to be delivered to them (unless otherwise provided in the Final Terms). Neither the Issuer nor the Guarantor of the Certificates shall be required to hold any Reference Item.

Market Disruption Events or Failure to Open of an Exchange.

If an issue of Reference Item Linked Certificates includes provisions dealing with the occurrence of a Market Disruption Event or failure to open of an exchange on the Strike Date, a Valuation Date, Observation Date or an Averaging Date and the Calculation Agent determines that a Market Disruption Event or failure to open of an exchange has occurred or exists on such date, any consequential postponement of the Strike Date, Valuation Date, Observation Date or Averaging Date

RISK FACTORS

or any alternative provisions for valuation provided in any such Certificates may have an adverse effect on the value and liquidity of such Certificates. The timing of such dates (as scheduled or as so postponed or adjusted) may affect the value of the relevant Certificates such that the Certificateholder may receive a lower cash redemption amount and/or interest amount or other payment under the relevant Certificates than otherwise would have been the case. The occurrence of such a Market Disruption Event or failure to open of an exchange in relation to any Reference Item comprising a basket may also have such an adverse effect on Certificates related to such basket. In addition, any such consequential postponement may result in the postponement of the date of redemption of the Certificates.

Certain considerations relating to public offers of the Certificates.

If the Certificates are distributed by means of a public offer, under certain circumstances indicated in the Final Terms, the Issuer and/or the other entities indicated in the Final Terms will have the right to withdraw or revoke the offer and the offer will be deemed to be null and void according to the terms indicated in the Final Terms.

The Issuer and/or the other entities specified in the Final Terms may terminate the offer early by immediate suspension of the acceptance of further subscription requests and by giving notice to the public in accordance with the Final Terms. Any such termination may occur even where the maximum amount for subscription in relation to that offer (as specified in the Final Terms), has not been reached. In such circumstances, the early closing of the offer may have an impact on the aggregate number of Certificates issued and, therefore, may have an adverse effect on the liquidity of the Certificates.

Some information regarding the Certificates (e.g. interest rate, settlement date), the offer and/or the listing may be determined after the publication of the Final Terms and will be made public in accordance with the procedures set out in the Final Terms.

If an investor holds Certificates which are not denominated in the investor's home currency, that investor will be exposed to movements in exchange rates adversely affecting the value of its holding. In addition, the imposition of exchange controls in relation to any Certificates could result in an investor not receiving payments on those Certificates.

The Issuer will pay principal and interest on the Certificates and the Guarantor will make any payments under the Guarantees in the Specified Certificates Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Certificates Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Certificates Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Certificates Currency would decrease (1) the Investor's Currency equivalent yield on the Certificates, (2) the Investor's Currency equivalent value of the principal payable on the Certificates and (3) the Investor's Currency equivalent market value of the Certificates.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer or Guarantor to make payments in respect of the Certificates. As a result, investors may receive less interest or principal than expected, or no interest or principal and suffer losses on their investment.

Certificates may be denominated in one currency and settled in another currency and may be converted into an intermediate currency.

If the Final Terms specify that the Settlement Exchange Rate Provisions are applicable, then such Certificates are denominated in one currency (the "**SER Subject Currency**") but all or certain amounts due thereunder, as the case may be, if any, are settled in another currency (the "**Settlement Currency**"). As such, the applicable amounts are converted by converting such amounts by reference to the applicable Settlement Exchange Rate specified in the applicable Final Terms or, if not so specified, determined by the Calculation Agent in accordance with the terms and conditions of the Certificates.

If the Final Terms specify that the SER Intermediate Currency Requirements are applicable, then such Certificates are denominated in one currency but all or certain amounts due thereunder, as the case may be, if any, are converted into an intermediate currency (the "**SER Intermediate Currency**") and then settled in the Settlement Currency. As such, the applicable amounts are converted by converting such amounts by reference to the applicable Second Settlement Exchange Rate and then the second Settlement Exchange Rate, each as specified in the applicable Final Terms or, if not so specified, determined by the Calculation Agent in accordance with the terms and conditions of the Certificates.

RISK FACTORS

Investors should understand that such Certificates are not principal protected in the SER Intermediate Currency or Settlement Currency even if the Certificates are principal protected in the SER Subject Currency. If the denomination currency depreciates against the Settlement Currency or the SER Intermediate Currency, this will reduce the Settlement Currency amounts received (if any) under the Certificates and an investor may receive less than their initial investment in the Certificates.

Investors should understand, where a fixed Settlement Exchange Rate or Second Settlement Exchange Rate is not specified in the Final Terms, that neither the Issuer nor the Guarantor have control over the Settlement Exchange Rate or the Second Settlement Exchange Rate and will not make any adjustment or change in the terms of the Certificates in the event that exchange rates should become fixed, or in the event of any devaluation or revaluation or imposition of exchange or other regulatory controls or taxes, or in the event of other developments affecting the settlement currency, the denomination currency or any foreign currency. Investors will bear those risks. In addition, if an Unscheduled Holiday or a Price Source Disruption occurs in respect of the applicable Settlement Exchange Rate, the applicable disruption fallbacks may provide that the scheduled settlement exchange rate valuation date for such rate will be postponed, then this may result in deferral of the corresponding payment date under the Certificates. If a date for payment is so postponed, this could adversely affect an investor's investment schedule, timetable or plans as they will receive amounts in respect of the Certificates later than the originally scheduled date for payment. No interest will accrue or other amount will be payable by the Issuer in the event of any such delay.

The value of Fixed Rate Certificates may be adversely affected by movements in market interest rates

Investment in Fixed Rate Certificates involves the risk that if market interest rates subsequently increase above the rate paid on the Fixed Rate Certificates, this will adversely affect the value of the Fixed Rate Certificates.

Risk of leveraged exposure

Leverage involves the use of a number of financial techniques to increase the exposure to a Reference Item, and can therefore magnify both returns and losses. While the use of leverage allows for potential multiples of a return (assuming a return is achieved) when the Reference Item moves in the anticipated direction, it will conversely magnify losses when the Reference Item moves against expectations. If the relevant Certificates include leverage, potential holders of such Certificates should note that these Certificates will involve a higher level of risk, and that whenever there are losses such losses will be higher (other things being equal) than those of a similar Certificate which is not leveraged. Investors should therefore only invest in leveraged Certificates if they fully understand the effect of leverage.

Conducting hedging transactions

The Issuer may use all or some of the proceeds received from the sale of Certificates to enter into hedging transactions. All or part of these hedging transactions may be entered into by the Issuer with the Guarantor. The Issuer believes that such hedging activity will under normal circumstances not have a material impact on the value of the relevant Certificates. However, it cannot be assured that the Issuer's hedging activities will not affect such value. The value of Certificates might in particular be affected by the liquidation of all or a portion of the relevant hedging positions (a) at or about the time of the maturity or expiration of such Certificates or (b), if such Certificates provide for a knock-out, knock-in or a similar feature, at the time when the price or value of the relevant underlying approaches the relevant price or level for the knock-out, knock-in or other feature.

Physical Delivery Certificates

In the case of Equity Linked Certificates which are redeemable by delivery of assets, if a Settlement Disruption Event occurs or exists on the due date for redemption or settlement of the Certificates and prevents delivery of the asset, the Issuer shall, in lieu of delivering the Entitlement, pay, in respect of each Security, the fair market value of the number of Underlying(s) (the fair market value) to be delivered converted into the Relevant Currency at the current exchange rate, if applicable. The fair market value will be determined by the Calculation Agent on the basis of the market conditions on the first Business Day following the Settlement Business Day.

6. Risk Factors that are associated with Certificates that are linked to Reference Item(s)

Risks relating to Reference Item Linked Certificates.

Reference Item Linked Certificates are securities which do not provide for predetermined redemption amounts and/or interest payments, but amounts payable (whether in respect of principal and/or interest) will be dependent upon the

RISK FACTORS

performance of the Reference Item, or a combination of Reference Items, which themselves may contain substantial credit, interest rate, foreign exchange, correlation, time value, political and/or other risks.

An investment in Reference Item Linked Certificates therefore entails significant risks that are not associated with similar investments in a conventional fixed or floating rate debt security. These risks include, among other things, the possibility that:

- the Reference Item may be subject to significant changes, whether due to the composition of any such Reference Item itself, or because of fluctuations in value of the Reference Item;
- the resulting interest rate will be less (or may be more) than that payable on a conventional debt security issued by the Issuer at the same time or they may receive no interest;
- the holder of a Reference Item Linked Certificate could suffer a severe or a substantial loss in relation to the principal of such Certificates (whether payable at maturity or upon redemption or repayment), subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, as further specified in the Final Terms, and, if the principal is lost, interest may cease to be payable on such Certificate;
- any Certificate that is linked to more than one type of Reference Item, or on a formula that encompass the risks associated with more than one type of Reference Item, may carry levels of risk that are greater than those for Certificates that are indexed to one type of Reference Item only;
- it may not be possible for investors to hedge their exposure to these various risks relating to Reference Item Linked Certificates; and
- a significant market disruption could mean that any Reference Item ceases to exist.

The risks reflect the nature of such a Certificate as an asset which, other factors held constant, tends to decline in value over time and which may become worthless when it expires or is redeemed. The risk of the loss of some or all of the purchase price of a Reference Item Linked Certificate upon redemption means that, in order to recover and realise a return upon his or her investment, a purchaser of such Certificate must generally be correct about the direction, timing and magnitude of an anticipated change in the value of the relevant Reference Item.

It may not be possible to use the Certificates as a perfect hedge against the market risk associated with investing in a Reference Item.

Potential purchasers intending to purchase Certificates to hedge against the market risk associated with investing in a Reference Item should recognise the complexities of utilising Certificates in this manner. For example, the value of the Certificates may not exactly match the value of the Reference Item. Due to fluctuating supply and demand for the Certificates, there is no assurance that their value will match movements in the value of the Reference Item. For these reasons, among others, it may not be possible to purchase or liquidate Certificates in a portfolio at the prices used to calculate the value of any Reference Item.

There may be regulatory consequences for a Holder of Reference Item Linked Certificates.

There may be regulatory and other consequences associated with the ownership by certain investors of certain Reference Item Linked Certificates. Each purchaser of Certificates must conduct its own investigation into its regulatory position with respect to the potential purchase of Certificates, and none of the Issuer, the Guarantor, the Dealer or the Arranger assumes any obligation or liability whatsoever to such purchaser in such regard.

There are specific risks with regard to Certificates linked to a combination of Reference Items.

An investment in Certificates that are linked to a combination of Reference Items will entail significant risks not associated with an investment in a conventional debt security. A combination of the risks associated to the Reference Items may be significantly higher than the risks of each Reference Item considered on its own. On redemption of these type of Certificates, the Certificateholders will receive an amount (if any) determined by reference to the value of a combination of a number of different Reference Items. These Certificates may pay interest calculated by reference to the value of the combination of a number of Reference Items.

RISK FACTORS

No rights of ownership in the Reference Item(s).

Purchasers of Certificates should be aware that the Issuer is under no obligation to hold a position in any Reference Item(s) and should note that the relevant Reference Item(s) that may be held by the Issuer will not be held by the Issuer for the benefit of the purchasers of such Certificates and, as such, Certificateholders will not obtain any rights of ownership, including, without limitation, any voting rights, any rights to receive dividends or other distributions or any other rights with respect to any Reference Item referenced by such Certificates. For the avoidance of doubt, no Cirdan affiliate is under any obligation whatsoever to acquire and/or hold any Reference Item.

The past performance of a Reference Item is not indicative of future performance.

The performance of a Reference Item will fluctuate over time. Therefore, information about the past performance of the Reference Item at the time of the issuance of the Certificates does not indicate the range of, or trends in, fluctuations in the Reference Item that may occur in the future. Investors should be aware that regardless of past performance, they could in future suffer a severe or a substantial loss in relation to the principal they have invested in the Certificates, subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, as further specified in the Final Terms.

7. Risk Factors associated with the value of Certificates that are linked to one or more specific types of Reference Items

There are certain factors which are material for the purpose of assessing the risks associated with an investment in Certificates issued under the Programme. Such factors will vary depending on the type of Certificates issued, in particular in relation to Certificates in respect of which the interest and/or redemption amount is linked to the value of one or more index, share, inflation index, unit, interest or share in a fund, the credit of one or more reference entity, foreign exchange rate or the combination of any of the foregoing.

Risks relating to Index Linked Certificates.

The Issuer may issue Certificates where the Final Redemption Amount or the amount of principal and/or interest payable is dependent upon the level of an index or indices ("**Index Linked Certificates**").

Potential investors in any such Certificates should be aware that depending on the terms of the Index Linked Certificates (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may suffer a severe or a substantial loss of their investment, subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, as further specified in the Final Terms, if the value of the index/indices does not move in the anticipated direction. In addition, movements in the level of the index or indices may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant level of the index or indices may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the level of an index or result of a formula, the greater the effect on yield.

If the Final Redemption Amount or the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the level of the index or the indices on principal or interest payable and therefore on the amount of potential losses incurred, will be magnified.

The market price of such Certificates may be volatile and may depend on the time remaining to the redemption date and the volatility of the level of the index or indices. The level of the index or indices may be affected by the economic, financial and political events in one or more jurisdictions, including the stock exchange(s) or quotation system(s) on which any securities comprising the index or indices may be traded. The index may reference equities, bonds or other securities, or it may be a property index referencing certain property price data which will be subject to market price fluctuations. A property index may include valuations only and not actual transactions and the property data sources used to compile the index may be subject to change, which may adversely affect the return on the Certificates.

Adjustment to indices for Index Linked Certificates

If an index adjustment event (as described in "*Additional Terms and Conditions for Index Linked Certificates*") occurs the Issuer may require the Calculation Agent to make such adjustments as it determines appropriate to the terms of the

RISK FACTORS

Certificates or redeem the Certificates. Such action may have an adverse effect on the value and liquidity of the affected Reference Item Linked Certificates.

The relevant level used to determine any amount payable under the Certificates may be adjusted based on a specified decrement factor

The terms and conditions of the Certificates may provide that the relevant level used to determine any amount payable for specified relevant dates may be adjusted by reference to a specified factor, prescribed formula and/or specified amount. This may be done by calculating the relevant level for relevant days using the closing index level or index level of an index for such relevant days, and adjusting it by applying a decrement factor. Such adjustment(s) may result in payments under the Certificates being delayed or not occurring, which might not have been the case if such adjustments did not apply. Such adjustment(s) may also result in the amounts otherwise payable being reduced.

Returns on the Certificates do not reflect direct investment in underlying shares or other assets comprising the index

The return payable on Certificates that reference indices may not reflect the return a purchaser would realise if the Certificateholder actually owned the relevant assets comprising the components of the index. For example, if the components of the indices are shares, Certificateholders will not receive any dividends paid on those shares and will not participate in the return on those dividends unless the relevant index takes such dividends into account for purposes of calculating the relevant level. Similarly, Certificateholders will not have any voting rights in the underlying shares or any other assets which may comprise the components of the relevant index. Accordingly, purchasers in Certificates that reference indices as Reference Item may receive a lower payment upon redemption of such Certificates than such purchaser would have received if the Certificateholder had invested in the components of the index directly.

A change in the composition or discontinuance of an index could adversely affect the market value of the Certificates

The sponsor of any index can add, delete or substitute the components of such index or make other methodological changes that could change the level of one or more components. The changing of components of any index may affect the level of such index as a newly added component may perform significantly worse or better than the component it replaces, which in turn may affect the payments made by the Issuer to the purchasers of the Certificates. The sponsor of any such index may also alter, discontinue or suspend calculation or dissemination of such index. The sponsor of an index will have no involvement in the offer and sale of the Certificates and will have no obligation to any purchaser of such Certificates. The sponsor of an index may take any actions in respect of such index without regard to the interests of the purchasers of the Certificates, and any of these actions could adversely affect the market value of the Certificates.

The reform of "Benchmarks" may adversely affect the market value of the Certificates

The Benchmarks Regulation could have a material impact on any Certificates for which a request for admission to trading on a trading venue has been made or which are traded on a trading venue and are linked to a "benchmark" for Benchmarks Regulation purposes. This could include Index Linked Certificates if the relevant index comprises a "benchmark" and other conditions are satisfied. See also the risk factor "*The Group is exposed to risks related to reforms of Index "Benchmarks"*".

Risks relating to Equity Linked Certificates.

The Issuer may issue Equity Linked Certificates where the amount of principal and/or interest payable are dependent upon the price of or changes in the price of shares or a basket of shares (or depositary receipts) or, depending on the price of or change in the price of shares or the basket of shares (or depositary receipts), where the Issuer's obligation on redemption is to deliver a specified number of shares ("**Equity Linked Certificates**"). Accordingly an investment in Equity Linked Certificates may bear similar market risks to a direct equity investment and potential investors should take advice accordingly.

Potential investors in any such Certificates should be aware that depending on the terms of the Equity Linked Certificates (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may suffer a severe or a substantial loss of their investment, subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, as further specified in the Final Terms, if the value of the share(s) and/or depositary receipt(s) does not move in the anticipated direction. In addition, the movements in the price of the share or depositary receipt or basket of shares and/or depositary receipts may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of the share or shares may affect the actual

RISK FACTORS

yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price of the share(s) and/or depositary receipt(s), the greater the effect on yield.

If the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of the share or shares on principal or interest payable will be magnified. See also risk factor "*Risk of Leveraged Exposure*" above.

The market price of such Certificates may be volatile and may be affected by the time remaining to the redemption date, the volatility of the share(s) and/or depositary receipt(s), the dividend rate (if any) and the financial results and prospects of the issuer or issuers of the relevant share(s) or depositary receipt(s) as well as economic, financial and political events in one or more jurisdictions, including factors affecting the stock exchange(s) or quotation system(s) on which any such shares or depositary receipts may be traded.

A holder of the Certificates will not be a beneficial owner of the underlying equity securities (or depositary receipts) and therefore will not be entitled to receive any dividends or similar amounts paid on the underlying equity securities, nor will a Certificateholder be entitled to purchase the underlying equity securities (or depositary receipts) by virtue of their ownership of the Certificates. Moreover, holders of the Certificates will not be entitled to any voting rights or other control rights that holders of the underlying equity securities may have with respect to the issuer of such underlying equity securities. Unless otherwise specified in the Final Terms, the Interest Amount and/or Final Redemption Amount will not reflect the payment of any dividends on the underlying equity securities. Accordingly, the return on the Certificates will not reflect the return an investor would realise if it actually owned the underlying equity securities and received dividends, if any, paid on those securities. Therefore, the yield to maturity based on the methodology for calculating the Final Redemption Amount will not be the same yield as would be produced if the underlying equity securities were purchased directly and held for a similar period.

The terms and conditions of the Certificates may also provide that the relevant price used to determine any amount payable for specified relevant dates may be adjusted depending on the cash or other dividends declared in respect of the underlying equity security(ies) or by reference to an anticipated or specified dividend yield. Such adjustments may be linked to the difference between the actual amount of such dividends compared with a prescribed schedule of anticipated dividends for such underlying equity security(ies), or by calculating an adjusted relevant price using the closing underlying equity security(ies) prices on relevant days, the actual amount of such dividends and the anticipated or specified dividend yield. Such adjustment(s) may result in payments under the Certificates being delayed or not occurring, which might not have been the case if such adjustments did not apply. Such adjustment(s) may also result in the amounts otherwise payable being reduced.

In addition, following the declaration of any cash or other dividends in respect of a underlying equity security, if the amount actually paid or delivered by the issuer of such underlying equity security to holders of record of the underlying equity security is less than such declared dividend and/or the issuer of the underlying equity security declares an intention to reduce any such declared dividend, then the amount of such dividend used to adjust the relevant price may be adjusted. In such circumstances, the relevant dividend may be reduced and this is likely to result in a lower return on the Certificates than a holder of the Certificates would have received than if such adjustment had not taken place.

Determinations made by the Calculation Agent in respect of Potential Adjustment Events, Extraordinary Events and Additional Disruption Events may have an adverse effect on the value of the Certificates

Upon determining that a Potential Adjustment Event, Extraordinary Event or Additional Disruption Event has occurred in relation to an underlying share or the issuer of such underlying share, the Calculation Agent has broad discretion to make certain determinations to account for such event including to (i) make adjustments to the terms of the Certificates and/or (ii) (in the case of an Extraordinary Event or an Additional Disruption Event) cause early redemption of the Certificates, any of which determinations may have an adverse effect on the value of the Certificates.

Potential Adjustment Events (as defined in Equity Linked Condition 2) include (a) a sub-division, consolidation or re-classification of the relevant shares or a free distribution, or dividend of any such Shares to existing holders of the relevant shares by way of bonus, capitalisation or similar issue, (b) a distribution, issue or dividend to existing holders of the relevant shares of certain share capital or securities, (c) an extraordinary dividend, (d) a call by a Basket Company or Share Company, as the case may be, in respect of relevant shares that are not fully paid, (e) a repurchase by the Basket Company or its subsidiaries or Share Company or its subsidiaries, as the case may be, of relevant shares, (f) in the case of a Basket Company or a Share Company an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of such Basket Company or Share Company, (g) any adjustment effected as a result of any shareholder rights plan or arrangement described in (f) and (h) any other event having a dilutive or concentrative effect on the value of the shares.

RISK FACTORS

Extraordinary Events include (a) a delisting of the shares on an exchange, (b) illiquidity, (c) an insolvency (where all the shares of the issuer of the underlying shares are transferred to a trustee, liquidator or similar official or may not be legally transferred) or bankruptcy of the issuer of the shares, (d) a listing change, (e) a listing suspension, (f) a merger event entailing the consolidation of the shares with those of another entity, (g) a nationalisation of the issuer of the shares or transfer of the shares to a governmental entity, and (h) a tender offer or takeover offer that results in transfer of the shares to another entity.

Additional Disruption Event means any of Change of Law, Hedging Disruption, Increased Cost of Hedging, Increased Cost of Stock Borrow, Insolvency Filing, Stop-Loss Event and/or Loss of Stock Borrow, in each case if specified in the Final Terms.

Risks relating to Inflation Linked Certificates.

The Issuer may issue Certificates where the amount of principal and/or interest payable is dependent upon the level of an inflation index or indices ("**Inflation Linked Certificates**").

Potential investors in any such Certificates should be aware that depending on the terms of the Inflation Linked Certificates (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may suffer a severe or a substantial loss of their investment, subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, as further specified in the Final Terms. In addition, the movements in the level of the inflation index or indices may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant level of the inflation index or indices may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the level of an inflation index or result of a formula, the greater the effect on yield.

In certain circumstances following cessation of publication of the inflation index, the Calculation Agent may determine that there is no appropriate alternative inflation index, in which case the Issuer may redeem the Certificates. Such action may have an effect on the value of the Certificates.

If the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the level of the inflation index or the indices on principal or interest payable will be magnified. See also risk factor "*Risk of Leveraged Exposure*" above.

The market price of such Certificates may be volatile and may depend on the time remaining to the redemption date and the volatility of the level of the inflation index or indices. The level of the inflation index or indices may be affected by the economic, financial and political events in one or more jurisdictions.

Risks relating to Fund Linked Certificates.

The Issuer may issue Certificates where the amount of principal and/or interest payable are dependent upon the price or changes in the price of units or shares in a fund or funds (including exchange traded fund(s)) or, depending on the price or changes in the price of units or shares in such fund or funds, where the Issuer's obligation on redemption is to deliver a specified amount of fund shares ("**Fund Linked Certificates**"). Accordingly an investment in Fund Linked Certificates may bear similar market risks to a direct fund investment and potential investors should take advice accordingly. Prospective investors in any such Certificates should be aware that depending on the terms of the Fund Linked Certificates (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may suffer a severe or a substantial loss of their investment, subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, as further specified in the Final Terms. In addition, the movements in the price of units, shares or interests in the fund or funds may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant price of the units or shares in the fund or funds may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the price or prices of the units, shares or interests in the fund or funds, the greater the effect on yield.

Prospective investors should also be aware that in the event of the occurrence of one or more Extraordinary Fund Events, the Issuer may seek to make adjustments, substitute the relevant Fund Shares with fund shares of a fund with similar characteristics or, if no such fund is selected, with a replacement index, or redeem the Certificates at its discretion.

RISK FACTORS

In the event that redemption proceeds in respect of the underlying Fund Shares are not received by the hedge provider on or prior to the Scheduled Maturity Date or Termination Date, such date may be postponed for a period of up to two calendar years (or such other period as may be specified in the Final Terms) and no additional amount shall be payable as a result of such delay.

If the amount of principal and/or interest payable are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the price of the units or shares of the fund or funds on principal or interest payable will be magnified. See also risk factor "*Risk of Leveraged Exposure*" above.

The market price of such Certificates may be volatile and may depend on the time remaining to the redemption date and the volatility of the price of units or shares in the fund or funds. The price of units or shares in a fund may be affected by the economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which any units in the fund or funds may be traded. In addition, the price of units or shares in a fund may be affected by the performance of the fund service providers, and, in particular, the investment advisor. Prospective investors should review carefully the prospectus, information memorandum and/or base prospectus (if any) issued by any relevant fund before purchasing any Certificates. None of the Issuer, the Guarantor, any affiliate of the Issuer or Guarantor or the Calculation Agent make any representation as to the creditworthiness of any relevant fund or any such fund's administrative, custodian, investment manager or adviser.

Where the Issuer issues Fund Linked Certificates linked to one or more funds, including hedge funds, the relevant Certificates reflect the performance of such fund(s).

Funds may trade and invest in a broad range of investments such as debt and equity securities, commodities or commodity indices and foreign exchange and may enter into derivative transactions, including, without limitation, futures and options. Funds may often be illiquid and may only be traded on a monthly, quarterly or even less frequent basis. The trading strategies of funds are often opaque. Funds, as well as the markets and instruments in which they invest, are often not subject to review by governmental authorities, self-regulatory organisations or other supervisory authorities.

For all the above reasons, investing directly or indirectly in funds is generally considered to be risky. If the underlying fund does not perform sufficiently well, the value of the Certificates will fall, and may in certain circumstances be zero.

Risks relating to Foreign Exchange (FX) Rate Linked Certificates.

The Issuer may issue Certificates where the amount of principal and/or interest payable are dependent upon movements in currency exchange rates or are payable in one or more currencies which may be different from the currency in which the Certificates are denominated ("**Foreign Exchange (FX) Rate Certificates**"). Accordingly an investment in Foreign Exchange (FX) Rate Certificates may bear similar market risks to a direct foreign exchange investment and potential investors should take advice accordingly.

Potential investors in any such Certificates should be aware that, depending on the terms of the Foreign Exchange (FX) Rate Certificates (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time or in a different currency than expected and (iii) they may suffer a severe or a substantial loss of their investment, subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, as further specified in the Final Terms. In addition, movements in currency exchange rates may be subject to significant fluctuations that may not correlate with changes in interest rates or other indices and the timing of changes in the exchange rates may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in currency exchange rates, the greater the effect on yield.

The foreign exchange rate(s) to which the Certificates are linked will affect the nature and value of the investment return on the Certificates. The performance of foreign exchange rates are dependent upon the supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility and safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks. Such measures include, without limitation, imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates and the availability of a specified currency.

RISK FACTORS

If the amount of principal and/or interest payable are dependent upon movements in currency exchange rates and are determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the currency exchange rates on principal or interest payable will be magnified. See also risk factor "*Risk of Leveraged Exposure*" above.

Payments of principal and interest or other obligations of the Issuer in respect of any Foreign Exchange (FX) Rate Certificates may be restricted or varied upon the occurrence of certain disruption events applicable to the Certificates. A relevant disruption event for an exchange rate may relate to inability to obtain a price for the exchange rate from the applicable price source(s), illiquidity, the split of any relevant currency into a dual exchange rate, inconvertibility, non-transferability, a material change in circumstances in the jurisdiction of the Subject Currency that makes it impossible to fulfil certain hedging arrangements, a nationalisation or variations in the prices quoted for the exchange on different sources being greater than a specified percentage threshold (or not quoted for by members of a survey used to determine such source) if specified for that rate in the terms and conditions of the Certificates and/or the Final Terms.

Following a relevant disruption event, the applicable valuation date may be postponed so long as the relevant disruption event continues, the Calculation Agent may determine the applicable exchange rate, the Certificates may be redeemed early (or on the originally designated date) by payment of the applicable early redemption amount rather than any amount that would have otherwise been calculated in respect of and due on the relevant date, the related date for payment may be deferred so long as the relevant disruption event continues or a fallback reference price source or sources may be used to calculate the rate instead of the originally designated price source. Potential investors in any Foreign Exchange (FX) Rate Certificates should ensure that they have read and understood the terms and conditions of such Certificates to understand which disruption events apply (and the consequences thereof) and should ensure that they are willing to accept the related risks prior to investing in the Certificates, which risks include an adverse effect on (i) the value of, and/or amounts or assets due in respect of, the Certificates due to the occurrence of any disruption event and application of the related disruption fallback(s); or (ii) an investor's investment schedule, timetable or plans if any due date for payment under the Certificates is postponed as a consequence of a disruption event.

Risks relating to Commodity Linked Certificates

The price of Commodities may be affected by economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which the relevant Commodities may be traded.

Therefore, an investment in Commodity Linked Certificates may bear similar market risks to a direct commodity investment and potential investors should take advice accordingly. The movements in the price of the Commodity may be subject to significant fluctuations that may not correlate with changes in currencies or other indices. Certificateholders may suffer a severe or a substantial loss of their initial principal investment, together with (if applicable) any interest, subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, as further specified in the Final Terms.

Risks relating to Interest Rate Linked Certificates

An investment in Interest Rate Linked Certificates may bear similar market risks to a direct investment in the underlying interest rate and investors should take advice accordingly.

Therefore, an investment in Interest Rate Linked Certificates will entail significant risks not associated with an investment in a conventional debt security. On exercise of Interest Rate Linked Certificates, the Certificateholders will receive an amount (if any) determined by reference to the value of the underlying interest rate(s). Certificateholders may suffer a severe or a substantial loss of their initial principal investment, together with (if applicable) any interest, subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, as further specified in the Final Terms.

Risks relating to Portfolio Linked Certificates

The market value of Portfolio Linked Certificates will fluctuate up or down depending on the performance of the relevant components of the Portfolio such as equity, debt or derivative securities, indices, investments, funds, exchange traded funds, commodities, credit, baskets of securities or indices, currencies and portfolios. Such performance may be affected by changes in the value of the different components in the Portfolio to which the relevant issue of Portfolio Linked Certificate relates. This value may be affected by (i) the economic, financial and political events in one or more jurisdictions, including the stock exchange(s) or quotation system(s) on which any component comprising the Portfolio

RISK FACTORS

may be traded, (ii) risks relating to individual types of underlyings which are included in the relevant Portfolio and (iii) other factors set out elsewhere in this Section. The composition of the Portfolio may be designed to change over time as a result of performance or other factors.

As a result, if the performance of the Portfolio is negative, the value of the Portfolio Linked Certificates reference will be adversely affected. Purchasers of Portfolio Linked Certificates risk losing part of their investment if the value of the Portfolio falls. Certificateholders may suffer a severe or a substantial loss of their initial principal investment, together with (if applicable) any interest, subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, as further specified in the Final Terms.

Consequently, prospective investors, when considering investing in Portfolio Linked Certificates, should also consider the risk factors linked to the Portfolio Components.

In addition, there may be correlation between price movements of one component and the price movements of another component of the Portfolio that may have a negative impact on the value of the Portfolio. As such, the value of Portfolio Linked Certificates can therefore be volatile and this may result in Certificateholders losing a substantial part of their investment.

In addition, Portfolio Linked Certificates may be subject to a number of costs which would negatively impact the value of the Portfolio Linked Certificates.

Particular risks relating to Dynamic Portfolio Linked Certificates

Proprietary portfolios (also referred to in the following as "**Dynamic Portfolios**") in principle replicate the performance of their portfolio components, that is, of particular financial instruments chosen using a selection method specified in the description of the relevant Dynamic Portfolio.

In the case of Certificates with Dynamic Portfolios as Reference Item or portfolio components, investors should therefore also bear in mind the following particular risks.

Risks relating to the implementation of the selection method

Dynamic Portfolios consist of a basket of different financial instruments, the Dynamic Portfolio Components. For Dynamic Portfolios, these portfolio components are selected in accordance with the respective dynamic selection method.

Market conditions may develop in a direction in which the respective dynamic selection method does not result in positive performance for the Dynamic Portfolio, but instead leads to a fall in the value of one or all of the Dynamic Portfolio Components or renders them worthless.

Adverse effects of basket corrections

In the event of calculation errors classified as material by the Calculation Agent in its reasonable discretion, a correction is made, provided that this is technically possible and makes sense from an economic point of view. Otherwise, no correction is made. Corrections are published on the website of the Calculation Agent. Corrections of the Dynamic Portfolio may have adverse effects on the value of the Certificates linked to the Dynamic Portfolio.

General risks in connection with the Dynamic Portfolio Components

Depending on the particular dynamic selection method employed, the respective Dynamic Portfolio may consist of a basket of Equity Instruments, Commodity Instruments, Debt Instruments Derivatives Instruments, Market Data, cash, FX, interest rates, indices, funds or other Portfolios.

Risks in connection with interest payable on a cash component as a Dynamic Portfolio Components

If the relevant Dynamic Portfolio has a cash component as a Dynamic Portfolio Components, "interest" may also be paid (or – depending on the current market interest rate environment – negative interest charged) on the cash component or, if the balance is negative, debit interest may be charged. The respective interest rate applicable is determined from time to time by the Calculation Agent on the basis of current market conditions for the respective currency. In the event that negative interest rates apply, the calculation agent may at its own discretion stipulate an interest-free allowance for cash components in the respective Dynamic Portfolio, if it considers it necessary for the effective simulation, in particular, of

RISK FACTORS

changes in values and quantities; i.e. only from the point at which the cash component included in the Dynamic Portfolio exceeds any allowance negative interest is charged on the cash component in excess of that allowance.

Negative interest charged on the cash component replicated in the respective Dynamic Portfolio will have adverse effects on the value of the Certificates linked to the Dynamic Portfolio.

Risk in connection with adverse effects of management fees, set-up fees, rebalancing fees, performance fees and other costs

The respective Dynamic Portfolio may, as specified in the description of the relevant Dynamic Portfolio, include management fees, set-up fees, rebalancing fees, performance fees and other costs that are deducted from the cash component by the Portfolio Calculation Agent when calculating the value of the basket, and which therefore reduce the level of the relevant Dynamic Portfolio and the value of the Certificates linked to the Dynamic Portfolio. This will also have a corresponding adverse effect on pricing in the secondary market during the term of the Certificates.

If and to the extent that taxes, fees or other charges would be incurred – or may occur in future – for a real investment in comparable baskets, the Portfolio Calculation Agent may factor such costs into the calculation of the index ("other costs"). Similarly, other costs, in particular costs for the provision of collateral which would be incurred in connection with real short positions in derivative financial instruments (e.g. forward transactions), are deducted accordingly from the cash component and, therefore, reduce the value of the relevant Dynamic Portfolio and also the value of the Certificates linked to the Dynamic Portfolio.

Risks relating to Credit Linked Certificates

The Issuer may issue Certificates where the amount of principal and/or interest payable is dependent upon whether certain events ("**Credit Events**") have occurred in respect of one or more entities (together "**Reference Entities**" and each, a "**Reference Entity**") and, if so, on the value of certain specified assets of such Reference Entity(ies) or, where, if such events have occurred, the Issuer's obligation is to deliver certain specified assets upon redemption of the Certificates.

Save where: (i) Maturity Credit Redemption applies; or (ii) the Certificates are Tranching Linear Basket Credit Linked Certificates, Tranching Index Credit Linked Certificates; or (iii) the Certificates are Non-Tranching Linear Basket Credit Linked Certificates or Non-Tranching Index Credit Linked Certificates where Credit Payment on Maturity applies, the Credit Linked Certificates may then be redeemed prior to their scheduled maturity. However, where the Credit Event Redemption Amount payable in respect of Certificates described in (ii) or (iii) of the foregoing section is zero, the Certificates will be redeemed early. Where Maturity Credit Redemption applies or where the Certificates are Non-Tranching Linear Basket Credit Linked Certificates or Non-Tranching Index Credit Linked Certificates where Credit Payment on Maturity Applies (as specified in the applicable Final Terms), maturity of the Credit Linked Certificates may be delayed until scheduled maturity of the Credit Linked Certificates, notwithstanding that this may occur a significant time following the occurrence of the relevant Credit Event and unless so elected in the applicable Final Terms no further interest will be payable in this period. Where the Certificates are Tranching Linear Basket Credit Linked Certificates or Tranching Index Credit Linked Certificates, maturity of the Credit Linked Certificates may be delayed until scheduled maturity of the Credit Linked Certificates, notwithstanding that this may occur a significant time following the occurrence of the relevant Credit Event(s). In the case of Tranching Linear Basket Credit Linked Certificates, following the occurrence of a Credit Event Determination Date with respect to a number of Reference Entities that is greater than the L (being the lower tranche) number of Reference Entities specified in the Final Terms and each subsequent Credit Event Determination Date thereafter, interest that is subject to the Credit Linked provisions will accrue on a decreased nominal amount of the Certificates until a Credit Event Determination Date has occurred with respect to a number of Reference Entities that is equal to or greater than the H (being the higher tranche) number of Reference Entities specified in the Final Terms and at which point no further amounts shall be due in respect of the Certificates. In the case of Tranching Index Credit Linked Certificates, following the occurrence of a Credit Event Determination Date with respect to which the Aggregate Loss Percentage (which is the aggregate of the Reference Entity Weightings) in respect of which a Credit Event Determination Date has occurred, exceeds the Attachment Point, being the lower tranche specified in the Final Terms) and each subsequent Credit Event Determination Date thereafter, interest that is subject to the Credit Linked provisions will accrue on a decreased nominal amount of the Certificates until the Scheduled Maturity Date or until a Credit Event Determination Date has occurred with respect to a number of Reference Entities such that Aggregate Loss Percentage is equal to or greater than the Exhaustion Point, being the upper tranche specified in the Final Terms) and at which point no further amounts shall be due in respect of the Certificates.

Prospective investors in any such Certificates should be aware that depending on the terms of the Credit Linked Certificates (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest or delivery of any specified assets may occur at a different time than expected and (iii) they may suffer a severe or a substantial loss of their

RISK FACTORS

investment, subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, as further specified in the Final Terms.

The market price of such Certificates may be volatile and will be affected by, amongst other things, the time remaining to the redemption date and the creditworthiness of the reference entity which in turn may be affected by the economic, financial and political events in one or more jurisdictions.

This Base Prospectus contains Additional Terms and Conditions for Credit Linked Certificates with terms based on (but not identical to) the 2014 Credit Derivatives Definitions published by the International Swaps and Derivatives Association, Inc. (the "**2014 ISDA Definitions**") which are set out in Annex 7. In this respect investors should have regard to the risk factor on page 50 entitled "*ISDA Credit Derivatives Definitions*". The Issuer's obligations in respect of Credit Linked Certificates are irrespective of the existence or amount of the Issuer's and/or any affiliates' credit exposure to a reference entity and the Issuer and/or any affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

The holders of Credit Linked Certificates will be exposed to the credit of one or more Reference Entities, which exposure shall be, unless otherwise stated in the Final Terms, to the full extent of their investment in such Certificates. Upon the occurrence of any of the default events comprising a Credit Event with respect to any Reference Entity, the Certificateholders may suffer significant losses at a time when losses may be suffered by a direct investor in obligations of such Reference Entity. However, the holding of a Certificate is unlikely to lead to outcomes which exactly reflect the impact of investing in an obligation of a Reference Entity, and losses could be considerably greater than would be suffered by a direct investor in the obligations of a Reference Entity and/or could arise for reasons unrelated to such Reference Entity. Certificateholders should also note that a Credit Event may occur even if the obligations of a Reference Entity are unenforceable or their performance is prohibited by any applicable law or exchange controls. See also the risk factor "*Risk of Leveraged Exposure*" above.

For Index Credit Linked Certificates, the Reference Entities and the Reference Obligations as of the Issue Date of the Credit Linked Certificates will be those set out in the Index Annex, being the list for the relevant Markit iTraxx® Europe Index (in the case of iTraxx Non-Tranched Index Credit Linked Certificates or iTraxx Tranched Index Credit Linked Certificates) or Markit CDX™ Index (in the case of CDX Non-Tranched Index Credit Linked Certificates or CDX Tranched Index Credit Linked Certificates) with the Annex Date specified in the Final Terms, as published by the Index Publisher (being Markit Group Limited as of the date of this Base Prospectus). Any determinations by the Index Sponsor (being Markit Indices Limited in the case of iTraxx Non-Tranched Index Credit Linked Certificates and iTraxx Tranched Index Credit Linked Certificates and Markit North America, Inc. in the case of CDX Non-Tranched Index Credit Linked Certificates and CDX Tranched Index Credit Linked Certificates, in each case as of the date of this Base Prospectus) with respect to replacement Reference Obligations and/or Successors (subject, in relation to Successors, to the further determination provisions set out in the Credit Linked Conditions), will apply for the purposes of the Credit Linked Certificates. Additionally, if ISDA publicly announces one or more replacement Reference Obligations and/or Successors prior to the Trade Date but following the "Roll Date" (in the case of iTraxx Non-Tranched Index Credit Linked Certificates or iTraxx Tranched Index Credit Linked Certificates) or the "Effective Date" (in the case of CDX Non-Tranched Index Credit Linked Certificates or CDX Tranched Index Credit Linked Certificates) specified in the Index Annex, such replacement Reference Obligations and/or Successors will apply for the purposes of the Credit Linked Certificates, notwithstanding that such announcement occurred prior to the Trade Date.

The occurrence of a Credit Event in relation to any Reference Entity from time to time may result in a redemption of the Certificates in a reduced nominal amount or at zero, and interest bearing Credit Linked Certificates may cease to bear interest on or prior to the date of occurrence of such circumstance.

Investors in the Certificates are accordingly exposed, as to both principal and (if applicable) interest, to the credit risk of the Reference Entity. Certificateholders may suffer a severe loss of their initial principal investment, together with (if applicable) any accrued interest amounts, subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, as further specified in the Final Terms.

A Credit Event may occur prior to the Trade Date

Holders of the Certificates may suffer a severe loss of their principal amount of the Certificates, subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, in respect of one or more Credit Events that occur prior to the Trade Date or the Issue Date. Neither the

RISK FACTORS

Calculation Agent nor the Issuer nor any of their respective Affiliates has any responsibility to inform any Certificateholder, or avoid or mitigate the effects of a Credit Event that has taken place prior to the Trade Date or the Issue Date.

Increased credit risk is associated with "First-to-Default" or "Nth-to-Default" Credit Linked Certificates, Linear Basket Credit Linked Certificates or Index Credit Linked Certificates

Where the Certificates are First-to-Default or Nth-to-Default Credit Linked Certificates, Non-Tranched Linear Basket Credit Linked Certificates or Non-Tranched Index Credit Linked Certificates, where Credit Payment As You Go applies, the Certificates may be subject to redemption in full as described above upon the occurrence of a Credit Event in relation to the first or the nth or each Reference Entity in respect of which a Credit Event occurs.

Where the Certificates are Tranched Linear Basket Credit Linked Certificates, the redemption amount of the Certificates will only be reduced as described above upon the occurrence of a Credit Event in relation to a number greater than the L (being the lower tranche level) number of Reference Entities specified in the Final Terms but will be subject to redemption in full as described above upon the occurrence of a Credit Event in relation to a number equal to or greater than the H (being the higher tranche level) number of Reference Entities specified in the Final Terms. The credit risk to Certificateholders may further be increased as a result of the concentration of Reference Entities in a particular industry sector or geographic area or the exposure of the Reference Entities to similar financial or other risks.

Where the Certificates are Tranched Index Credit Linked Certificates, the redemption amount of the Certificates will only be reduced as described above upon the occurrence of a Credit Event resulting in the Aggregate Loss Percentage exceeding the Attachment Point specified in the Final Terms but will be subject to redemption in full as described above upon the occurrence of a Credit Event resulting in the Aggregate Loss Percentage, being equal to or greater than the Exhaustion Point specified in the Final Terms. The credit risk to Certificateholders may further be increased as a result of the concentration of Reference Entities in a particular industry sector or geographic area or the exposure of the Reference Entities to similar financial or other risks.

Investors' exposure to the credit performance of the Reference Entities may not correspond to actual market recovery on such Reference Entities, including for Zero/Set Recovery Certificates, Tranched Linear Basket Credit Linked Certificates and Tranched Index Credit Linked Certificates

Interest and principal repayments on the Certificates may be calculated by reference to the outstanding nominal amount of the Certificates. As at the Issue Date the outstanding nominal amount is an amount equal to the Aggregate Nominal Amount. If a Credit Event occurs in respect of a Reference Entity, then the outstanding nominal amount may be reduced by an amount equal to a predefined portion of the Aggregate Nominal Amount (which may be one hundred percent of such predefined portion resulting in such portion of the outstanding nominal amount being reduced in full) irrespective of the actual market recovery in respect of such Reference Entity. Therefore investors' exposure to each Reference Entity may exceed the exposure that they might incur in respect of having entered into a standard single name credit default swap as protection seller in respect of each Reference Entity and investors may suffer a severe loss of their investments in the Certificates, subject to a minimum redemption amount at least equal to the lowest between EUR 0.01 (or the lowest amount of any other currency that is available as legal tender in the country of such currency) and 1 per cent. of the Specified Denomination of the relevant Certificate, as further specified in the Final Terms.

Amendment of Credit Linked Conditions in accordance with market convention

The Calculation Agent may from time to time amend any provision of the Credit Linked Conditions to incorporate and/or reflect further or alternative documents or protocols from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees which the Calculation Agent and the Issuer determine in a commercially reasonable manner are necessary to reflect or govern market practice for credit derivative transactions or hedging arrangements of the Issuer. Such amendments may adversely impact the value of the Certificates affected by them.

ISDA Credit Derivatives Definitions

Whilst there are many similarities between the terms used in this Base Prospectus, there are many substantial differences and a prospective investor should understand that the complete terms and conditions of the Certificates are as set out in this Base Prospectus and the applicable Final Terms and that the 2014 ISDA Definitions are not incorporated by reference herein. Consequently, investing in Credit Linked Certificates is not necessarily equivalent to investing a credit default swap that incorporates either the 2003 ISDA Definitions or the 2014 ISDA Definitions.

RISK FACTORS

While ISDA has published and, where appropriate, supplemented the 2014 ISDA Definitions in order to facilitate transactions and promote uniformity in the credit derivatives market, the credit derivatives market has evolved over time and is expected to continue to change. Consequently, the 2014 ISDA Definitions and the terms applied to credit derivatives generally, including Credit Linked Certificates are subject to further evolution. Past events have shown that the view of market participants may differ as to how either set of the ISDA Definitions operate or should operate. As a result of the continued evolution of the market, the Credit Linked Certificates may not conform to future market standards. Such a result may have a negative impact on the Credit Linked Certificates and there can be no assurances that changes to the terms applicable to credit derivatives generally will be predicable or favourable to the Issuer or the Certificateholders.

Risks relating to Auction Settlement of Credit Linked Certificates

Where an Auction Final Price Determination Date occurs in respect of Credit Linked Certificates, the Auction Final Price will be determined according to an auction procedure set out in the applicable Transaction Auction Settlement Terms, a form of which will be published by ISDA on its website at www.isda.org (or any successor website thereto) from time to time and may be amended from time to time. The Auction Final Price determined pursuant to an auction may be less than the market value that would otherwise have been determined in respect of the relevant Reference Obligation.

The Issuer and the Certificateholders may have little or no influence in the outcome of any such auction. However, there is a possibility that the Issuer or the Calculation Agent (or one of their Affiliates) would act as a participating bidder in any such auction. In such capacity, it may take certain actions which may influence the Auction Final Price including (without limitation) providing rates of conversion to determine the applicable currency conversion rates to be used to convert any obligations which are not denominated in the auction currency into such currency for the purposes of the auction. In deciding whether to take any such action (or whether to act as a participating bidder in any auction), neither the Issuer nor the Calculation Agent (or any of their Affiliates) shall be under any obligation to consider the interests of any Certificateholder.

Cheapest to value risk

Where Cash Settlement is applicable, upon the occurrence of an Event Determination Date, the Calculation Agent has the discretion to select Reference Obligations of the Reference Entity for valuation in order to determine the Final Price. It is likely that the Reference Obligations selected by the Calculation Agent are obligations of the Reference Entity with the lowest market value that are permitted to be valued in accordance with the terms of the Certificates. This could result in a lower recovery value and hence greater losses for Certificateholders. In addition, the Reference Obligations may be illiquid and such illiquidity may be more pronounced following the occurrence of a Credit Event, thereby adversely affecting the value of the relevant Reference Obligation which in turn would result in a lower recovery value for Certificateholders.

Certificates which are issued at a substantial discount of premium may experience price volatility in response to changes in market interest rates.

The market values of Certificates issued at a substantial discount (such as Zero Coupon Certificates) or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

There are specific risks with regard to Floating Rate Certificates.

A key difference between Floating Rate Certificates and Fixed Rate Certificates is that interest income on Floating Rate Certificates cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of Floating Rate Certificates at the time they purchase them, so that their return on investment cannot be compared with that of investments having longer fixed interest periods. If the "*Terms and Conditions of the Certificates*" provide for frequent interest payment dates, investors are exposed to the reinvestment risk if market interest rates decline. That is, investors may reinvest the interest income paid to them only at the relevant lower interest rates then prevailing. In addition, the Issuer's ability to issue Fixed Rate Certificates may affect the market value and secondary market (if any) of the Floating Rate Certificates (and *vice versa*).

8. Market Factors

RISK FACTORS

An active secondary market in respect of the Certificates may never be established or may be illiquid and this would adversely affect the value at which an investor could sell his Certificates.

Certificates may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Certificates easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Certificates that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Certificates generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Certificates.

There may be price discrepancies with respect to the Certificates as between various dealers or other purchasers in the secondary market.

If at any time a third party dealer quotes a price to purchase Certificates or otherwise values Certificates, that price may be significantly different (higher or lower) from any price quoted by any affiliate of Cirdan. Furthermore, if any Certificateholder sells their Certificates, the Certificateholder will likely be charged a commission for secondary market transactions, or the price may reflect a dealer discount. Therefore, Certificateholders should factor in circumstances or costs which may reduce the value of the Certificates.

Counterparty risks

As part of its operations, the Issuer trades derivative contracts on a wide variety of underlyings, such as interest rates, foreign exchange rates, prices in equity indices, commodity derivatives, and credit rights both with counterparties in the financial services sector, commercial banks, government departments, financial and insurance companies, investment banks, funds, and other institutional clients, and with non-institutional clients.

For the purpose of mitigating the counterparty risk exposure, credit risk mitigation techniques (i.e. netting agreement, collateral agreement) are widely used, in compliance with the requirements set by current regulations.

In light of the above, the Issuer is exposed to the risk of default by its counterparties to derivative contracts, or that they become insolvent before the maturity of the relevant contract. This risk, which has been exacerbated as a result of the volatility of financial markets, may also arise in the presence of collateral, when any such collateral provided by the counterparty in favor of the Issuer, against derivative exposures is not realized or settled at a value sufficient to cover the exposure with respect to the relevant counterparty.

CONFLICTS OF INTEREST

CONFLICTS OF INTEREST

The principal conflicts between the various parties involved in an issuance of Certificates

The Issuer and/or the Guarantor are subject to various potential conflicts of interest in respect of the Certificates, which could have an adverse effect on the Certificates.

In particular, Cirdan acts as the Guarantor, the Calculation Agent, the Portfolio Calculation Agent, the Dealer and the Index Sponsor on this Programme and its various roles and obligations in relation to the Certificates could lead to potential conflicts of interest in connection with any issue of Certificates which could have a negative impact on the Certificateholders. The Issuer, the Guarantor and its affiliates may take positions in or deal with Reference Item(s).

The Issuer, the Guarantor and its affiliates may:

- in the ordinary course of business, effect transactions for their own account or for the account of their customers and hold long or short positions in the Reference Item(s) or related derivatives;
- in connection with an offering of Certificates, enter into one or more hedging transactions with respect to the Reference Item(s) or related derivatives; and/or
- in connection with such hedging or market-making activities or with respect to proprietary or other trading activities, enter into transactions in the Reference Item(s) or related derivatives which may adversely (or positively) affect the price, liquidity or value of the relevant Certificates and which could therefore be adverse to the interests of the relevant Certificateholders.

The Issuer and/or the Guarantor may have confidential information relating to the Reference Item and the Certificates.

The Issuer and/or the Guarantor or its affiliates may from time to time, by virtue of their status as underwriter, advisor or otherwise, possess or have access to information relating to the Certificates, the Reference Item and any derivative Certificates referencing them. Such affiliates will not be obliged to disclose any such information to a purchaser of the Certificates.

The Guarantor's securities as a Reference Item.

The Guarantor's shares or other instruments issued by the Guarantor may be/form part of a Reference Item in Index Linked Certificates, Equity Linked Certificates or other type of Certificates. The Guarantor will have material information in relation to such Certificates which the Guarantor will not be obliged to disclose to a purchaser of Certificates.

Potential conflicts of interest relating to distributors or other entities involved in the offer or listing of the Certificates.

Potential conflicts of interest may arise in connection with the Certificates, as any distributors or other entities involved in the offer and/or the listing of the Certificates as indicated in the Final Terms, may act pursuant to a mandate from the Issuer and/or the Guarantor and may receive commissions and/or fees on the basis of the services performed in relation to such offer and/or listing.

- (A) upon receipt by the Registrar of a written certification substantially in the form set out in the Agency Agreement, amended as appropriate (a "Transfer Certificate"), copies of which are available from the specified office of any Transfer Agent, from the transferor of the Certificate or beneficial interest therein to the effect that such transfer is being made to a person whom the transferor reasonably believes is a QIB who is also a QP (as defined below) in a transaction meeting the requirements of Rule 144A, and upon receipt by the Registrar of a representation letter substantially in the form set out in the Agency Agreement, amended as appropriate (an "Investment Letter"), from the transferee of the Certificate or beneficial interest therein to the effect that such transfer is being made to a person who certifies as to its status as a QIB who is also a QP; or
- (B) otherwise pursuant to the Securities Act (as defined below) or an exemption therefrom, subject to receipt by the Issuer of such satisfactory evidence as the Issuer may reasonably require, which may include an opinion of U.S. counsel, that such transfer is in compliance with any applicable securities laws of any State of the United States, and, in each case, in accordance with any applicable securities laws of any state or other jurisdiction of the United States.

In the case of (A) above, such transferee may take delivery through a Legended Certificate (as defined below) in global or definitive form and, in the case of (B) above, such transferee may take delivery only through a Legended Certificate in definitive form. After expiry of the applicable Distribution Compliance Period (i) beneficial interests in Regulation S Global Certificates registered in the name of a nominee for DTC may be held through DTC directly, by a participant in DTC, or indirectly through a participant in DTC and (ii) such certification requirements will no longer apply to such transfers.

(f) Transfers of interests in Legended Certificates

Transfers of Legended Certificates or beneficial interests therein may be made:

- (A) to a transferee who takes delivery of such interest through a Regulation S Global Certificate, upon receipt by the Registrar of a duly completed Transfer Certificate from the transferor to the effect that such transfer is being made in accordance with Regulation S and that, in the case of a Regulation S Global Certificate registered in the name of a nominee for DTC if such transfer is being made prior to expiry of the applicable Distribution Compliance Period, the interests in the Certificates being transferred will be held immediately thereafter through Euroclear and/or Clearstream, Luxembourg; or
- (B) to a transferee who takes delivery of such interest through a Legended Certificate:
 - A. where the transferee is a person whom the transferor reasonably believes is a QIB and a QP in a transaction meeting the requirements of Rule 144A, or where the transferee is an Institutional Accredited Investor (as defined below) who is also a QP, subject to delivery to the Registrar of a Transfer Certificate from the transferor to the effect that such transfer is being made to a QIB who is also a QP or to an Institutional Accredited Investor who is also a QP (as applicable), together with a duly executed investment letter from the

TERMS AND CONDITIONS OF THE CERTIFICATES

relevant transferee in the form set out in the Agency Agreement (an "Investment Letter");
or

- B. where the transferee is an Institutional Accredited Investor (as defined below) who is also a QP, subject to delivery to the Registrar of a Transfer Certificate from the transferor to the effect that such transfer is being made to an Institutional Accredited Investor who is also a QP, together with a duly executed Investment Letter; or
- (C) otherwise pursuant to the Securities Act or an exemption therefrom, subject to receipt by the Issuer of such satisfactory evidence as the Issuer may reasonably require, which may include an opinion of U.S. counsel, that such transfer is in compliance with any applicable securities laws of any State of the United States, and, in each case, in accordance with any applicable securities laws of any state or other jurisdiction of the United States.

Certificates transferred by Institutional Accredited Investors who are also QPs to QIBs who are also QPs pursuant to Rule 144A or outside the United States pursuant to Regulation S will be eligible to be held by such QIBs who are also QPs or non-U.S. investors through DTC, Euroclear or Clearstream, Luxembourg, as appropriate, and the Registrar will arrange for any Certificates which are the subject of such a transfer to be represented by the appropriate Registered Global Certificate, where applicable.

Upon the transfer, exchange or replacement of Legended Certificates, or upon specific request for removal of the Legend, the Registrar shall deliver only Legended Certificates or refuse to remove the Legend, as the case may be, unless there is delivered to the Issuer such satisfactory evidence as may reasonably be required by the Issuer, which may include an opinion of U.S. counsel, that neither the Legend nor the restrictions on transfer set forth therein are required to ensure compliance with the provisions of the Securities Act.

In the case of an Institutional Accredited Investor who is also a QP, or a QIB who is also a QP, if at any time the Issuer determines or is notified by the dealer in respect of the Certificates specified in the Final Terms (the "Dealer") acting on behalf of the Issuer that such holder or transferee was in breach, at the time given or deemed to be given, of any of the representations or agreements set out in the Investment Letter or otherwise determines that any transfer or other disposition of any Certificates would, in the sole determination of the Issuer or the Dealer acting on behalf of the Issuer, require the Issuer to register as an "investment company" under the provisions of the 1940 Act, such purchase or other transfer will be void *ab initio* and will not be honoured by the Registrar. Accordingly, any such purported transferee or other holder will not be entitled to any rights as a Certificateholder and the Issuer shall have the right, in accordance with the conditions of the Certificates, to force the transfer of, transfer on behalf of the Certificateholder or redeem, any such Certificates.

- (g) Exchanges and transfers of Registered Certificates generally

Holders of Registered Certificates in definitive form, other than Institutional Accredited Investors who are also QPs, may exchange such Certificates for interests in a Registered Global Certificate of the same type at any time.

- (h) Minimum Tradeable Amount

Where a "**Minimum Tradable Amount**" is specified in the Final Terms, Certificates will be transferable only in a minimum aggregate amount of Specified Denominations equal to the Minimum Tradable Amount specified in the Final Terms, save where the Trading Method is specified as Unit in the Final Terms in which case Certificates will be transferable only in a minimum aggregate amount of the number of Unit(s) (each a "**Unit**") equal to the Minimum Tradable Amount specified in the Final Terms.

- (i) Benchmark

Subject to the next sentence, where an Administrator/Benchmark Event (as defined in General Condition 6(r)) occurs in respect of a Benchmark which is used in whole or in part to calculate interest under General Condition 4, the Calculation Agent shall elect to take one of the actions described in General Condition 6(r). If the relevant Benchmark (as defined in General Condition 6(r)) for the determination of the Rate of Interest in respect of any Floating Rate Certificates is a USD Benchmark Rate (of any tenor) and the Calculation Agent determines that a Benchmark Transition Event (as defined in General Condition 6(r)) and its related Benchmark Replacement Date (as defined in General Condition 6(r)) have occurred prior to the Reference Time (as defined in General Condition 6(r)) in respect thereof on any date of determination of the Rate of Interest, then the provisions of

TERMS AND CONDITIONS OF THE CERTIFICATES

TERMS AND CONDITIONS OF THE CERTIFICATES

3. Status of the Certificates and the Guarantees

(a) Status of the Certificates

The Certificates and any related Coupons and Receipts constitute direct, unconditional and unsecured and unsubordinated debt obligations of the Issuer and rank *pari passu*, without any preference or priority among themselves (save for certain obligations required to be preferred by law) equally and with all other outstanding unsecured and unsubordinated obligations of the Issuer present and future, but, in the event of insolvency, only to the extent permitted by applicable laws relating to creditor's right.

In the event of insolvency of the Issuer, the court having jurisdiction to open an insolvency proceeding and the law applicable to those proceedings and their effects will be determined in accordance with the provisions of Regulation (EC) No 2015/848 of the European Parliament and of the Council of 20 May 2015 on insolvency proceedings (Recast) ("**Recast EU Insolvency Regulation**"). Pursuant to these provisions, the courts of the place where the Issuer has its centre of main interests shall have jurisdiction to open insolvency proceedings against it and the law applicable to the insolvency proceedings and their effects will be the law of the place where such proceedings are opened.

Under Recast EU Insolvency Regulation the centre of main interests should correspond to the place where the debtor conducts the administration of its interests on a regular basis and is therefore ascertainable by third parties. In the case of a company or legal person, Recast EU Insolvency Regulation presumes, in the absence of proof to the contrary, that the place of its registered office is the centre of main interests. Based on this presumption a court of Ireland may consider that it has jurisdiction to open insolvency proceedings against the Issuer.

(b) Status of the Guarantees

With reference to the Certificates other than the Dematerialised Certificates, the payment of principal and interest in respect of the Certificates and any related Coupons and Receipts and all amounts due under the Deed of Covenant in respect of the Certificates and any related Coupons and Receipts has been unconditionally and irrevocably guaranteed by the Guarantor pursuant to the Guarantee.

With reference to the Certificates other than the Dematerialised Certificates, the obligations of the Guarantor under the Guarantee constitute direct, unconditional, unsubordinated and unsecured obligations of the Guarantor and rank *pari passu* with all other outstanding unsecured and unsubordinated obligations of the Guarantor, present and future, but, in the event of insolvency, only to the extent permitted by applicable laws relating to creditors' rights.

With reference to the Dematerialised Certificates, the payment of principal and interest in respect of the Certificates and all amounts due under the Dematerialised Certificates Deed of Covenant in respect of the Certificates has been unconditionally and irrevocably guaranteed by the Guarantor pursuant to the Dematerialised Certificates Guarantee.

With reference to the Dematerialised Certificates, the obligations of the Guarantor under the Dematerialised Certificates Guarantee constitute direct, unconditional, unsubordinated and unsecured obligations of the Guarantor and rank *pari passu* with all other outstanding unsecured and unsubordinated obligations of the Guarantor, present and future, but, in the event of insolvency, only to the extent permitted by applicable laws relating to creditors' rights.

4. Interest

(a) Interest on Fixed Rate Certificates

Each Fixed Rate Certificate bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will accrue in respect of each period from (and including) an Interest Period End Date (or if none the Interest Commencement Date) to (but excluding) the next (or first) Interest Period End Date (each an "**Interest Period**" and each such latter date the "**Interest Period End Final Date**"). Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date. If an Interest Payment Date falls after the Interest Period End Final Date in respect of the relevant Interest Period, no additional interest or other amount shall be payable as a result of such interest being payable on such latter date. If a Business Day Convention (as defined in General Condition 4(h) below) is specified in the Final Terms as applying to an Interest Period End Date or an Interest Payment Date and (i) if there is no

TERMS AND CONDITIONS OF THE CERTIFICATES

numerically corresponding day on the calendar month in which an Interest Period End Date or Interest Payment Date, as the case may be, should occur or (ii) if any Interest Period End Date or Interest Payment Date, as the case may be, would otherwise fall on a day which is not a Business Day (as defined in General Condition 4(i)), then, the relevant Business Day Convention shall apply. For the purposes of this General Condition 4(a), **"Interest Period End Date"** shall mean each date so specified in the Final Terms. If no such date(s) is so specified, then the Interest Period End Date for an Interest Period shall be the corresponding Interest Payment Date (unadjusted for any Business Day Convention).

If no Business Day Convention is specified as applicable to an Interest Period End Final Date in the Final Terms, except as provided in the Final Terms:

- (i) the amount of interest payable on each Interest Payment Date in respect of the Interest Period ending on (but excluding) the Interest Period End Final Date in respect of such Interest Period, will amount to the Fixed Coupon Amount; and
- (ii) the amount of interest payable on any other Interest Payment Date will, if so specified in the Final Terms, amount to the Broken Amount so specified.

Subject to the Payout Conditions, interest shall be calculated by applying the Rate of Interest to:

- (x) in the case of Fixed Rate Certificates which are represented by a Global Certificate, the aggregate outstanding principal amount of the Fixed Rate Certificates represented by such Global Certificate (or, if they are Partly Paid Certificates, the aggregate amount paid up); or
- (y) in the case of each Fixed Rate Certificate in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction (as defined in General Condition 4(h) below) specified in the Final Terms, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Certificates Currency, half of any such sub-unit (as defined below) being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of a Fixed Rate Certificate in definitive form comprises more than one Calculation Amount, the amount of Interest payable in respect of such Fixed Rate Certificate shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

"sub-unit" means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent.

(b) Interest on Floating Rate Certificates and Reference Item Linked Interest Certificates

(i) Interest Period End Dates and Interest Payment Dates

Each Floating Rate Certificate and, subject to the provisions of General Condition 4(e) below and unless otherwise specified in the Final Terms, each Reference Item Linked Interest Certificate bears interest on its outstanding principal amount (or, if it is a Partly Paid Certificate, in accordance with General Condition 4(f)) in respect of each Interest Period (as defined in General Condition 4(a)). For the purposes of this General Condition 4(b), **"Interest Period End Date"** shall mean either:

- (A) the specified Interest Period End Date(s) in each year specified in the Final Terms; or
- (B) if no Interest Period End Date(s) is/are specified in the Final Terms, (x) in the case of Floating Rate Certificates, each date which falls on the number of months or other period specified as the Specified Period in the Final Terms after the preceding Interest Period End Date or, in the case of the first Interest Period End Date, after the Interest Commencement Date and (y) in the case of Reference Item Linked Interest Certificates, the corresponding Interest Payment Date (unadjusted for any Business Day Convention).

Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date. If an Interest Payment Date falls after an Interest Period End Final Date in respect of the

TERMS AND CONDITIONS OF THE CERTIFICATES

relevant Interest Period, no additional interest or other amount shall be payable as a result of such interest being payable on such later date.

If a Business Day Convention is specified in the Final Terms as applying to an Interest Period End Date or an Interest Payment Date and (i) if there is no numerically corresponding day on the calendar month in which an Interest Period End Date or Interest Payment Date, as the case may be, should occur or (ii) if any Interest Period End Date or Interest Payment Date, as the case may be, would otherwise fall on a day which is not a Business Day (as defined in General Condition 4(h) below), then the relevant Business Day Convention (as defined in General Condition 4(h) below) shall apply. Provided that, in any case, where Specified Periods are specified in accordance with General Condition 4(b)(A) and (B) above, the Floating Rate Convention shall apply.

(ii) Rate of Interest

The Rate of Interest payable from time to time in respect of Floating Rate Certificates and Reference Item Linked Interest Certificates will be determined in the manner specified in the Final Terms.

(iii) ISDA Determination

Where ISDA Determination is specified in the Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the Final Terms) the Margin (if any). For the purposes of this subparagraph (iii), "**ISDA Rate**" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction under the terms of an agreement incorporating the 2021 ISDA Interest Rate Derivatives Definitions as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Certificates (the "**ISDA Definitions**") and under which:

- (A) the Floating Rate Option is as specified in the Final Terms;
- (B) the Designated Maturity is a period specified in the Final Terms; and
- (C) the relevant Reset Date is either (x) if the applicable Floating Rate Option is based on the Euro-zone inter-bank offered rate ("**EURIBOR**") for a currency, the first day of that Interest Period or (y) in any other case, as specified in the Final Terms.

For the purposes of this sub-paragraph (iii), "**Floating Rate**", "**Calculation Agent**", "**Floating Rate Option**", "**Designated Maturity**" and "**Reset Date**" have the meanings given to those terms in the ISDA Definitions.

(iv) Screen Rate Determination

(i) Screen Rate Determination for Reference Rates other than SONIA and SOFR

Where Screen Rate Determination is specified in the Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (A) the offered quotation; or
- (B) the arithmetic mean (rounded, if necessary, to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations, (expressed as a percentage rate per annum) for the Reference Rate(s) which appears or appear, as the case may be, on the Relevant Screen Page (or any successor to such page or service) as at the Specified Time indicated in the Final Terms (which will be 11.00 a.m. Brussels time, in the case of EURIBOR) on the Interest Determination Date (as defined below) in question plus or minus (as indicated in the Final Terms) the Margin (if any), all as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the

TERMS AND CONDITIONS OF THE CERTIFICATES

Calculation Agent for the purpose of determining the arithmetic mean (rounded, as provided above) of such offered quotations; or

- (C) in the case of a CMS Rate, the rate for swap transactions in the currency to which the CMS Rate relates with a maturity of the Designated Maturity, expressed as a percentage, which appears on the Relevant Screen Page (or any successor to such page or service) as of the Specified Time on the relevant Interest Determination Date plus or minus (as indicated in the Final Terms) the Margin (if any) all as determined by the Calculation Agent.

If the Relevant Screen Page is not available, the Calculation Agent shall apply the disruption fallback(s) in respect of the CMS Rate specified in the applicable Final Terms (provided that, if two or more disruption fallbacks are specified, unless otherwise provided in the applicable Final Terms, such disruption fallbacks shall apply in the order specified in the applicable Final Terms, such that if the Calculation Agent determines that the CMS Rate cannot be determined by applying the first specified disruption fallback, then the next specified disruption fallback shall apply).

However, if in relation to any Interest Determination Date:

- (i) the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the provisions set out in the applicable Final Terms; or
- (ii) a rate or (as the case may be) an arithmetic mean cannot be published in accordance with the applicable laws and regulations (in particular, the BMR) in relation to any Interest Determination Date,

the Rate of Interest applicable to the Certificates during such Interest Period will be the last CMS Rate appeared on the Relevant Screen Page multiplied by the relevant Rate Multiplier, if any, plus or minus (as indicated in the applicable Final Terms) the relevant Margin (if any).

In the event that the Calculation Agent determines it is not reasonably practicable to determine the Rate of Interest in such manner, the Rate of Interest will be determined by the Calculation Agent as such rate that it determines would have prevailed but for such impracticability by reference to such source(s) as it may select; or

- (D) in the case of a rate that is based on the yield of a government bond (a "**Government Bond Yield Rate**"), the rate for a generic government bond, expressed as a percentage per annum, with a maturity of the Designated Maturity, which appears on the Relevant Screen Page (or any successor to such page or service) as of the Specified Time on the relevant Interest Determination Date plus or minus (as indicated in the Final Terms) the Margin (if any) (all as specified in the Final Terms), as determined by the Calculation Agent; or

if the Calculation Agent determines that it is not reasonably practicable to obtain the rate in such manner, the rate will be determined as such rate that the Calculation Agent determines would have prevailed but for such impracticability by reference to such source(s) as it may select.

- (E) In case the rate specified in the Final Terms is a TEC Rate (*Taux de l'Echéance Constante*), the offered quotation, expressed as a percentage rate per annum, with a maturity of the Designated Maturity calculated by the *Comité de Normalisation Obligataire* (or successor thereto), which appears on the Relevant Screen Page (or any successor to such page or service) as of the Specified Time on the relevant Interest Determination Date plus or minus (as indicated in the Final Terms) the Margin (if any) (all as specified in the Final Terms), as determined by the Calculation Agent.

If the Calculation Agent determines it is not reasonably practicable to determine the rate in such manner, the rate shall be determined by the Calculation Agent on the basis of the linear interpolation of the mid-market prices for each of the two reference French treasury bonds (*Obligation Assimilable du Trésor*) ("**OAT**"), which would have been used by the *Comité de Normalisation Obligataire* (or successor thereto) for the calculation of the relevant rate. In order to determine such mid-market prices, the Calculation Agent shall request five active dealers

TERMS AND CONDITIONS OF THE CERTIFICATES

each to provide a quotation of its price at approximately the Specified Time on the Interest Determination Date in question and shall determine the mid-market prices as the arithmetic mean of such quotations after discarding the highest and lowest of such quotations.

In the case of (A) and (B), the Agency Agreement contains provisions for determining the Rate of Interest in the event that the Relevant Screen Page is not available or if, in the case of (A) above, no such offered quotation appears or, in the case of (B) above, fewer than three such offered quotations appear, in each case as at the Specified Time indicated above or in the Final Terms. The Final Terms may, if agreed by the relevant Dealer, set out such provisions in full (provided that, if two or more disruption fallbacks are specified, unless otherwise provided in the applicable Final Terms, such disruption fallbacks shall apply in the order specified in the applicable Final Terms, such that if the Calculation Agent determines that the Reference Rate cannot be determined by applying the first specified disruption fallback, then the next specified Disruption Fallback shall apply).

However, if in relation to any Interest Determination Date:

- (i) the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the provisions set out in the applicable Final Terms; or
- (ii) a rate or (as the case may be) an arithmetic mean cannot be published in accordance with the applicable laws and regulations (in particular, the BMR) in relation to any Interest Determination Date,

the Rate of Interest applicable to the Certificates during such Interest Period will be (i) the last offered quotation or (i) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the last offered quotations, (expressed as a percentage rate per annum) for the Reference Rate, as the case may be, which appeared on the Relevant Screen Page, in each case multiplied by the relevant Rate Multiplier, if any, plus or minus (as indicated in the applicable Final Terms) the relevant Margin (if any).

For the purposes of this General Condition 4(iv)(i)(C):

"CMS Rate" shall mean the applicable swap rate for swap transactions in the relevant currency with a maturity of the Designated Maturity, expressed as a percentage, which appears on the Relevant Screen Page (or any successor to such page or service) as of the Specified Time on the relevant Underlying Interest Rate Determination Date in question, all as determined by the Calculation Agent.

- (ii) Screen Rate Determination for Reference Rates being SONIA

Where Screen Rate Determination is specified in the Final Terms as the manner in which the Rate of Interest is to be determined, where "SONIA" is specified as the Reference Rate in the Final Terms, the Rate of Interest for each Interest Period will, subject as provided below, be Compounded Daily SONIA plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent.

For the purposes of this General Condition 4(iv)(ii):

"Compounded Daily SONIA", with respect to a Interest Period, will be calculated by the Calculation Agent on each Interest Determination Date in accordance with the following formula, and the resulting percentage will be rounded, if necessary, to the fourth decimal place, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SONIA_{t-pLBD} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

"d" means the number of calendar days in:

- (i) where "Lag" is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or

TERMS AND CONDITIONS OF THE CERTIFICATES

- (ii) where "Observation Shift" is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period;

"**d_o**" means the number of London Banking Days in:

- (i) where "Lag" is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or
- (ii) where "Observation Shift" is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period;

"**i**" means a series of whole numbers from one to "**d_o**", each representing the relevant London Banking Day in chronological order from, and including, the first London Banking Day in:

- (i) where "Lag" is specified as the Observation Method in the relevant Final Terms, the relevant Interest Period; or
- (ii) where "Observation Shift" is specified as the Observation Method in the relevant Final Terms, the relevant Observation Period,

to, and including, the last London Banking Day in such period;

"**Interest Determination Date**" means, in respect of any Interest Period, the date falling "p" London Banking Days prior to the Interest Payment Date for such Interest Period (or the date falling "p" London Banking Days prior to such earlier date, if any, on which the Certificates are due and payable).

"**London Banking Day**" or "**LBD**" means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in London;

"**n_i**" for any London Banking Day "**i**", in the relevant Interest Period or Observation Period (as applicable) is the number of calendar days from, and including, such London Banking Day "**i**" up to, but excluding, the following London Banking Day;

"**Observation Period**" means, in respect of a Interest Period, the period from, and including, the date falling "p" London Banking Days prior to the first day of such Interest Period (and the first Interest Period shall begin on and include the Interest Commencement Date) and ending on, but excluding, the date which is "p" London Banking Days prior to the Interest Payment Date for such Interest Period (or the date falling p London Banking Days prior to such earlier date, if any, on which the Certificates become due and payable);

"**p**" for any Interest Period or Observation Period (as applicable), means the number of London Banking Days specified as the "Lag Period" or the "Observation Shift Period" (as applicable) in the relevant Final Terms which shall not be less than three London Banking days at any time and shall, unless otherwise agreed with the Calculation Agent (or such other person specified in the applicable Final Terms as the party responsible for calculating the Rate of Interest), be no less than five London Banking Days;

"**SONIA Reference Rate**" means, in respect of any London Banking Day, a reference rate equal to the daily Sterling Overnight Index Average ("**SONIA**") rate for such London Banking Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page (or if the Relevant Screen Page is unavailable, as otherwise is published by such authorised distributors) on the London Banking Day immediately following such London Banking Day; and

"**SONIA_i**" means the SONIA Reference Rate for:

- (i) where "Lag" is specified as the Observation Method in the relevant Final Terms, the London Banking Day falling "p" London Banking Days prior to the relevant London Banking Day "**i**"; or

TERMS AND CONDITIONS OF THE CERTIFICATES

- (ii) where "Observation Shift" is specified as the Observation Method in the relevant Final Terms; the relevant London Banking Day "i";

For the avoidance of doubt, the formula for the calculation of Compounded Daily SONIA only compounds the SONIA Reference Rate in respect of any London Banking Day. The SONIA Reference Rate applied to a day that is a non-London Banking Day will be taken by applying the SONIA Reference Rate for the previous London Banking Day but without compounding.

If, in respect of any London Banking Day in the relevant Interest Period or Observation Period (as applicable), the Calculation Agent determines that the SONIA Reference Rate is not available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, such SONIA Reference Rate shall, subject to General Condition 6(r) (*Benchmark Replacement*), be:

- (A) the Bank of England's Bank Rate (the "**Bank Rate**") prevailing at close of business on the relevant London Banking Day; plus (B) the mean of the spread of the SONIA Reference Rate to the Bank Rate over the previous five London Banking Days on which a SONIA Reference Rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate; or
- (B) if the Bank Rate is not published by the Bank of England at close of business on the relevant London Banking Day, the SONIA Reference Rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding London Banking Day on which the SONIA Reference Rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors).

Subject to General Condition 6(r)(*Benchmark Replacement*), if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this General Condition 4(ii), the Rate of Interest shall be (A) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period) or (B) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to the Certificates for the first Interest Period had the Certificates been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin applicable to the first Interest Period), in each case as determined by the Calculation Agent.

- (iii) Screen Rate Determination for Reference Rates being SOFR

Where Screen Rate Determination is specified in the Final Terms as the manner in which the Rate of Interest is to be determined, where "SOFR" is specified as the Reference Rate in the Final Terms, the Rate of Interest for each Interest Period will, subject as provided below, be the Benchmark plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent on each Interest Determination Date.

"**Benchmark**" means Compounded SOFR, which is a compounded average of daily SOFR, as determined for each Interest Period in accordance with the specific formula and other provisions set out in this General Condition 4(iv)(iii).

Daily SOFR rates will not be published in respect of any day that is not a U.S. Government Securities Business Day, such as a Saturday, Sunday or holiday. For this reason, in determining Compounded SOFR in accordance with the specific formula and other provisions set forth herein, the daily SOFR rate for any U.S. Government Securities Business Day that immediately precedes one or more days that are not U.S. Government Securities Business Days will be multiplied by the number of calendar days from and including such U.S. Government Securities

TERMS AND CONDITIONS OF THE CERTIFICATES

Business Day to, but excluding, the following U.S. Government Securities Business Day.

If the Issuer determines that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred in respect of Compounded SOFR (or the daily SOFR used in the calculation hereof) prior to the relevant SOFR Determination Time, then the provisions under this General Condition 4(iv)(iii) will apply.

If the Issuer or the Calculation Agent determines on or prior to the relevant Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to the then-current Benchmark, the Benchmark Replacement will replace the then-current Benchmark for all purposes relating to the Certificates in respect of all determinations on such date and for all determinations on all subsequent dates. In connection with the implementation of a Benchmark Replacement, the Issuer or the Calculation Agent will have the right to make Benchmark Replacement Conforming Changes from time to time, without any requirement for the consent or approval of the Certificateholders.

Any determination, decision or election that may be made by the Issuer or the Calculation Agent pursuant to this General Condition 4(iv)(0), including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection:

TERMS AND CONDITIONS OF THE CERTIFICATES

- (i) will be conclusive and binding absent manifest error;
- (ii) will be made in the sole discretion of the Issuer or the Calculation Agent; and
- (iii) notwithstanding anything to the contrary in the documentation relating to the Certificates, shall become effective without consent from the holders of the Certificates or any other party.

“Benchmark” means, initially, Compounded SOFR, as such term is defined above; provided that if the Calculation Agent determines on or prior to the Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to Compounded SOFR (or the published daily SOFR used in the calculation thereof) or the then-current Benchmark, then “Benchmark” shall mean the applicable Benchmark Replacement.

“Benchmark Replacement” means the first alternative set forth in the order below that can be determined by the Calculation Agent as of the Benchmark Replacement Date:

- (i) the sum of: (A) the alternate rate of interest that has been selected or recommended by the Relevant Governmental Body as the replacement for the then-current Benchmark and (B) the Benchmark Replacement Adjustment;
- (ii) the sum of: (A) the ISDA Fallback Rate and (B) the Benchmark Replacement Adjustment; or
- (iii) the sum of: (A) the alternate rate of interest that has been selected by the Calculation Agent or the Issuer as the replacement for the then-current Benchmark giving due consideration to any industry-accepted rate of interest as a replacement for the then-current Benchmark for U.S. dollar-denominated floating rate notes at such time and (B) the Benchmark Replacement Adjustment;

“Benchmark Replacement Adjustment” means the first alternative set forth in the order below that can be determined by the Calculation Agent as of the Benchmark Replacement Date:

- (i) the spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) that has been selected or recommended by the Relevant Governmental Body for the applicable Unadjusted Benchmark Replacement;
- (ii) if the applicable Unadjusted Benchmark Replacement is equivalent to the ISDA Fallback Rate, the ISDA Fallback Adjustment; or
- (iii) the spread adjustment (which may be a positive or negative value or zero) that has been selected by the Calculation Agent or the Issuer giving due consideration to any industry-accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the then-current Benchmark with the applicable Unadjusted Benchmark Replacement for U.S. dollar-denominated floating rate notes at such time;

“Benchmark Replacement Conforming Changes” means, with respect to any Benchmark Replacement, any technical, administrative or operational changes (including changes to the timing and frequency of determining rates and making payments of interest, rounding of amounts or tenors, and other administrative matters) that the Calculation Agent decides may be appropriate to reflect the adoption of such Benchmark Replacement in a manner substantially consistent with market practice (or, if the Calculation Agent decides that adoption of any portion of such market practice is not administratively feasible or if the Calculation Agent determines that no market practice for use of the Benchmark Replacement exists, in such other manner as the Calculation Agent determines is reasonably necessary);

“Benchmark Replacement Date” means the earliest to occur of the following events with respect to the then-current Benchmark (including the daily published component used in the

TERMS AND CONDITIONS OF THE CERTIFICATES

calculation thereof):

- (i) in the case of sub-paragraph (a), (b) or (c) of the definition of "Benchmark Transition Event" below, the later of (a) the date of the public statement or publication of information referenced therein and (b) the date on which the administrator of the Benchmark permanently or indefinitely ceases to provide the Benchmark (or such component); or
- (ii) in the case of sub-paragraph (d), (e) or (f) of the definition "Benchmark Transition Event" below, the date of the public statement or publication of information referenced therein.

For the avoidance of doubt, if the event that gives rise to the Benchmark Replacement Date occurs on the same day as, but earlier than, the Reference Time in respect of any determination, the Benchmark Replacement Date will be deemed to have occurred prior to the Reference Time for such determination;

"Benchmark Transition Event" means the occurrence of one or more of the following events with respect to the then-current Benchmark (including the daily published component used in the calculation thereof):

- (a) the Benchmark has ceased to be published on the Relevant Screen Page as a result of such benchmark ceasing to be calculated or administered; or
- (b) a public statement by the administrator of the Benchmark that it has ceased, or will cease, publishing such Benchmark permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of such Benchmark); or
- (c) a public statement by the supervisor of the administrator of the Benchmark that such Benchmark has been or will be permanently or indefinitely discontinued; or
- (d) a public statement by the supervisor of the administrator of the Benchmark (as applicable) that means that such Benchmark will be prohibited from being used or that its use will be subject to restrictions or adverse consequences, either generally or in respect of the Certificates; or
- (e) a public statement by the supervisor of the administrator of the Benchmark that, in the view of such supervisor, such Benchmark is no longer representative of an underlying market; or
- (f) it has or will become unlawful for the Calculation Agent or the Issuer to calculate any payments due to be made to any Certificateholder using the relevant Benchmark (as applicable) (including, without limitation, under the BMR, if applicable).

Unless otherwise specified in the relevant Final Terms, the change of the Benchmark methodology does not constitute a Benchmark Transition Event. In the event of a change in the formula and/or (mathematical or other) methodology used to measure the Relevant Benchmark, reference shall be made to the Benchmark based on the formula and/or methodology as change.

"BMR" means Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No. 596/2014 as amended or replaced from time to time;

"ISDA Fallback Adjustment" means the spread adjustment (which may be a positive or negative value or zero) that would apply for derivatives transactions referencing the ISDA Definitions to be determined upon the occurrence of an index cessation event with respect to the Benchmark;

"ISDA Fallback Rate" means the rate that would apply for derivatives transactions referencing

TERMS AND CONDITIONS OF THE CERTIFICATES

the ISDA Definitions to be effective upon the occurrence of an index cessation date with respect to the Benchmark for the applicable tenor excluding the applicable ISDA Fallback Adjustment;

"Reference Time" with respect to any determination of the Benchmark means (i) if the Benchmark is Compounded SOFR, the SOFR Determination Time, and (ii) if the Benchmark is not Compounded SOFR, the time determined by the Calculation Agent after giving effect to the Benchmark Replacement Conforming Changes;

"Relevant Governmental Body" means the Federal Reserve Board and/or the Federal Reserve Bank of New York, or a committee officially endorsed or convened by the Federal Reserve Board and/or the Federal Reserve Bank of New York or any successor thereto; and

"Unadjusted Benchmark Replacement" means the Benchmark Replacement excluding the Benchmark Replacement Adjustment.

Any Benchmark Replacement, Benchmark Replacement Adjustment and the specific terms of any Benchmark Replacement Conforming Changes, determined under this General Condition 4(iii) will be notified promptly by the Issuer to the Paying Agents and, in accordance with General Condition 14 (*Notices*), the Certificateholders. Such notice shall be irrevocable and shall specify the effective date on which such changes take effect.

The Issuer shall deliver to the the Paying Agents a certificate signed by two authorised signatories of the Issuer:

- (A) confirming (x) that a Benchmark Transition Event has occurred, (y) the relevant Benchmark Replacement and, (z) where applicable, any Benchmark Replacement Adjustment and/or the specific terms of any relevant Benchmark Replacement Conforming Changes, in each case as determined in accordance with the provisions of this General Condition 4(iii); and
- (B) certifying that the relevant Benchmark Replacement Conforming Changes are necessary to ensure the proper operation of such Benchmark Replacement and/or Benchmark Replacement Adjustment.

If the Rate of Interest cannot be determined in accordance with the foregoing provisions of this General Condition 4(iii), the Rate of Interest shall be (A) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period) or (B) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to the Certificates for the first Interest Period had the Certificates been in issue for a period equal in duration to the scheduled first Interest Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin applicable to the first Interest Period).

(v) Determination of Rate of Interest and Calculation of Interest Amount

The Calculation Agent will, on or as soon as practicable after each date on which the Rate of Interest is to be determined (the **"Interest Determination Date"**), determine the Rate of Interest (subject to any Minimum Interest Rate or Maximum Interest Rate specified in the Final Terms) for the relevant Interest Period.

Subject to the Payout Conditions, the Calculation Agent will calculate the amount of interest (the **"Interest Amount"**) payable on the Certificates for the relevant Interest Period by applying the Rate of Interest to:

- (A) in the case of Floating Rate Certificates and Reference Item Linked Interest Certificates which are represented by a Global Certificate, the aggregate outstanding principal amount of the Certificates represented by such Global Certificate (or, if they are Partly Paid Certificates, the aggregate amount paid up); or

TERMS AND CONDITIONS OF THE CERTIFICATES

- (B) in the case of each Floating Rate Certificate, Reference Item Linked Interest Certificate and Combination Interest Certificate in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the Day Count Fraction (as defined in General Condition 4(h) below) specified in the Final Terms and rounding the resultant figure to the nearest sub-unit (defined above) of the relevant Specified Certificates Currency, one half of such a sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of a Floating Rate Certificate and Reference Item Linked Interest Certificate in definitive form comprises more than one Calculation Amount, the Interest Amount payable in respect of such Certificate shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

(vi) Minimum and/or Maximum Interest Rate

If the Final Terms specifies a Minimum Interest Rate for any Interest Period, then in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of subparagraph (ii), (iii), (iv) or (v) above or (d) below (as appropriate) is less than such Minimum Interest Rate, the Rate of Interest for such Interest Period shall be such Minimum Interest Rate. If the Final Terms do not specify a Minimum Interest Rate for any Interest Period, then the Rate of Interest for such Interest Period shall not be less than zero.

If the Final Terms specifies a Maximum Interest Rate for any Interest Period, then in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of subparagraph (ii), (iii), (iv) or (v) above or (d) below (as appropriate) is greater than such Maximum Interest Rate, the Rate of Interest for such Interest Period shall be such Maximum Interest Rate.

(vii) Linear Interpolation

Where Linear Interpolation is specified as applicable in respect of an Interest Period in the applicable Final Terms, the Rate of Interest for such Interest Period shall be calculated by the Calculation Agent by straight line linear interpolation by reference to two rates based on the relevant Reference Rate (where Screen Rate Determination is specified as applicable in the applicable Final Terms) or the relevant Floating Rate Option (where ISDA Determination is specified as applicable in the applicable Final Terms), one of which shall be determined as if the Designated Maturity were the period of time for which rates are available next shorter than the length of the relevant Interest Period and the other of which shall be determined as if the Designated Maturity were the period of time for which rates are available next longer than the length of the relevant Interest Period provided however that if there is no rate available for a period of time next shorter or, as the case may be, next longer, then the Calculation Agent shall determine such rate at such time and by reference to such sources as it determines appropriate.

"Designated Maturity" means, in relation to Screen Rate Determination, the period of time designated in the Reference Rate.

(viii) Notification of Rate of Interest and Interest Amount

The Calculation Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer, the Guarantor (if applicable), Borsa Italiana S.p.A., Börse Frankfurt Zertifikate, the Wiener Börse, Euronext (in the case of Certificates which are listed on EuroTLX, the multilateral trading facility managed by Borsa Italiana S.p.A., Frankfurt Stock Exchange (Open Market), the Vienna MTF, Euronext Amsterdam, Euronext London and/or Euronext Paris and the rules of such regulated market, multilateral trading facility or trading venue so require) and, if applicable, to any other trading venue on which the relevant Certificates are for the time being listed. In addition, the Calculation Agent shall publish or cause to be published such Rate of Interest, Interest Amount and Interest Payment Date in accordance with General Condition 14 as soon as possible after their determination but in no event later than the fourth Business Day thereafter. Each Rate of Interest, Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each

TERMS AND CONDITIONS OF THE CERTIFICATES

stock exchange on which the relevant Certificates are for the time being listed and to the Certificateholders in accordance with General Condition 14.

(ix) Certificates to be Final

All certificates, communications, determinations, calculations and decisions made for the purposes of the provisions of this paragraph (b), by the Calculation Agent, shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Guarantor (if applicable), the Calculation Agent, the Principal Paying Agent, the other Paying Agents and all Certificateholders, and (in the absence as aforesaid) no liability to the Certificateholders shall attach to the Calculation Agent, in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(c) Interest on Specified Interest Amount Certificates

Each Specified Interest Amount Certificate shall bear interest at an amount per Calculation Amount equal to the Specified Interest Amount as so specified in the Specified Interest Amount provisions of the Final Terms which shall be payable on the relevant Specified Interest Payment Date(s) also specified thereon, adjusted, where applicable for any Business Day Convention. For the avoidance of doubt, different Specified Interest Amounts may be payable in respect of Specified Interest Payment Dates. In respect of Credit Linked Certificates only, the Specified Interest shall be multiplied by the Specified Interest Amount Multiplier as so specified in the Specified Interest Amount provisions of the Final Terms. If the Specified Interest Amount Multiplier is specified in the Final Terms as "Not applicable" the Specified Interest Amount Multiplier shall be deemed to be equal to 1.

(d) Zero Coupon Certificates

Where a Zero Coupon Certificate becomes due and repayable prior to the Maturity Date and is not paid when due, the amount due and repayable shall be the amount determined in accordance with General Condition 6(j) as its Amortised Face Amount. As from the Maturity Date, any overdue principal of such Certificate shall bear interest at a rate per annum equal to the Accrual Yield specified in the Final Terms. Such interest shall continue to accrue (as well after as before any judgment) until the day on which all sums due in respect of such Certificate up to that day are received by or on behalf of the holder of such Certificate. Such interest will be calculated on the basis of a 360 day year consisting of 12 months of 30 days each and in the case of an incomplete month the actual number of days elapsed in such incomplete month or on such other basis as may be specified in the Final Terms.

(e) Interest on Reference Item Linked Interest Certificates

In the case of Reference Item Linked Interest Certificates, where the Rate of Interest and/or the Interest Amount (whether on any Interest Payment Date, early redemption, maturity or otherwise) is to be determined by reference to one or more Reference Items, the Rate of Interest and/or the Interest Amount shall be determined where applicable as provided in the Payout Annex.

(f) Interest on Partly Paid Certificates

In the case of Partly Paid Certificates (other than Partly Paid Certificates which are Zero Coupon Certificates) interest will accrue as aforesaid on the paid-up principal amount of such Certificates. Partly Paid Certificates shall not be issued in respect of the Dematerialised Certificates.

(g) Interest Payments and Accrual of Interest

Interest will be paid subject to and in accordance with the provisions of General Condition 5. Interest will cease to accrue on each Certificate (or, in the case of the redemption of part only of a Certificate, that part only of such Certificate) on the due date for redemption thereof unless otherwise provided in these General Conditions or any Annex and otherwise unless, upon due presentation thereof, payment of principal is improperly withheld or refused, in which event interest will continue to accrue (as well after as before any judgment) at the Fixed Rate or, as the case may be, the Rate of Interest at such day count fraction as the Calculation Agent determines appropriate or as otherwise provided in the Final Terms until whichever is the earlier of (i) the day on which all sums due in respect of such Certificate up to that day are received by or on behalf of the holder of such Certificate and (ii) the day on which the Principal Paying Agent, or (in the case of Dematerialised Certificates) the Italian Paying Agent or the Guarantor, or any agent appointed by the Issuer to deliver such assets to Certificateholders

TERMS AND CONDITIONS OF THE CERTIFICATES

has notified the holder thereof (either in accordance with General Condition 14 or individually) of receipt of all sums due in respect thereof up to that date (subject, in the case of Credit Linked Certificates, to the provisions of Credit Linked Condition 4).

(h) Calculation Agent

The Calculation Agent will notify any amount of interest to the Principal Paying Agent or to the Italian Paying Agent (in the case of Dematerialised Certificates) as soon as reasonably practicable following its determination.

(vi) Coupons

Fixed Rate Bearer Certificates in definitive form should be presented for payment with all unmatured Coupons appertaining thereto (which expression shall include Coupons to be issued on exchange of Talons which will have matured on or before the relevant redemption date), failing which the full amount of any missing unmatured Coupon (or, in the case of payment not being made in full, that proportion of the full amount of such missing unmatured Coupon which the sum so paid bears to the total amount due) will be deducted from the sum due for payment. Any amount so deducted will be paid in the manner mentioned above against surrender of the relevant missing Coupon within a period of 10 years from the Relevant Date (as defined in General Condition 7) for the payment of such sum due for payment, whether or not such Coupon has become void pursuant to General Condition 11 or, if later, five years from the due date for payment of such Coupon. (vii) Payments

If any date for payment of any amount in respect of any Certificate, Receipt or Coupon is not a Payment Day, then the holder thereof shall not be entitled to payment of the amount due until the next following Payment Day and shall not be entitled to any interest or other sum in respect of any such delay.

For these purposes, "**Payment Day**" means any day which (subject to General Condition 11) is a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:

Each Talon shall, for the purposes of these Conditions, be deemed to mature on the Interest Payment Date on which the final Coupon comprised in the relative Coupon sheet matures.

Payments will be subject in all cases to (a) any applicable fiscal or other laws, regulations and directives but without prejudice to the provisions of General Condition 7, and (b) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto (in each case without prejudice to the provisions of General Condition 7).

(viii) Payment Disruption Event

If "Payment Disruption Event" is specified as applicable in the Final Terms, where the Calculation Agent determines that a Payment Disruption Event has occurred or is likely to occur, then the next date for payment of any amount in respect of any Certificate, Receipt or Coupon may be postponed to a date falling 14 calendar days after the date on which such the Calculation Agent determines that Payment Disruption Event is no longer occurring. No interest shall accrue and no Event of Default will result on account of such postponement. Partial payments of any amount in respect of any Certificate, Receipt or Coupon may be paid during such period (after deduction for any expenses). In the event that a Payment Disruption Event is still continuing on the date which is one year after the last scheduled date for payment of any amount in respect of the Certificates, then the Issuer shall, by giving notice to Certificateholders in accordance with General Condition 14 make payment (in whole or in part) in U.S. Dollars or EUR (as determined by the Calculation Agent) which the Calculation Agent determines to be the U.S. Dollar or EUR, as the case may be, equivalent of the relevant amount and the Issuer shall have no further obligations whatsoever under the Certificates.

For the purposes of the above, "**Payment Disruption Event**" means an event which (a) prevents, restricts or delays the Issuer from converting or delivering relevant currencies, (b) imposes capital or exchange controls, (c) implements changes to laws relating to foreign investments, or (d) otherwise prohibits or prevents the Issuer from making a payment or performing an obligation required of it as a result of war, catastrophe, governmental action or other event beyond its control.

(b) Physical Delivery

In relation to Physical Delivery Certificates, the following provisions apply:

(A) *Settlement Disruption*

If, following the exercise of Physical Delivery Certificates, in the opinion of the Calculation Agent, delivery of the Entitlement using the method of delivery specified in the applicable Final Terms is not practicable by reason of a Settlement Disruption Event (as defined below) having occurred and continuing on any Settlement Date, then such Settlement Date for such Certificates shall be postponed to the first following Settlement Business Day in respect of which there is no such Settlement Disruption Event, provided that the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Certificate by delivering the Entitlement using such other commercially reasonable manner as it may select and in such event the Settlement Date shall be such day as the Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the Settlement Date for the Relevant Assets not affected by the Settlement Disruption Event will be the originally designated Settlement Date. For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy and discharge its obligations in respect of the relevant Certificate by payment to the relevant Securityholder of the Settlement Disruption Amount (as defined below) on the third Business Day following the date that notice of such election is given to the Certificateholders in accordance with General Condition 14 (*Notices*). Payment of the Settlement Disruption Amount will be made in such manner as shall be notified to the Certificateholders in accordance with General Condition 14 (*Notices*). The Calculation Agent shall give notice as soon as practicable to the Certificateholders in accordance with General Condition 14 (*Notices*) that a Settlement Disruption Event has occurred provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such Settlement Disruption Event. No Certificateholder shall be entitled to any payment in respect of the relevant Certificate in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer.

For the purposes hereof:

“Entitlement” means, in relation to a Physical Delivery Certificate, the quantity of the Relevant Asset which a Certificateholder is entitled to receive on the Settlement Date in respect of each such Certificate following payment of any sums payable and Expenses rounded down as provided in General Condition 7 (*Exercise rights and procedures*), as determined by the Calculation Agent including any documents evidencing such Entitlement;

“Relevant Asset” means, in relation to Physical Delivery Certificates, an underlying specified in the applicable Final Terms constituting the Entitlement;

“Settlement Business Day” means, in relation to Physical Delivery Certificates, the date indicated in the applicable Final Terms.

“Settlement Disruption Amount” in respect of any relevant Certificate shall be the fair market value of such Certificate (taking into account, where the Settlement Disruption Event affected some but not all of the Relevant Assets comprising the Entitlement and such non-affected Relevant Assets have been duly delivered as provided above, the value of such Relevant Assets), less the cost to the Issuer and/or any of its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), all as determined by the Issuer in its sole and absolute discretion (or, where as provided above some Relevant Assets have been delivered and a pro rata portion thereof has been paid, such pro rata portion); and

“Settlement Disruption Event” means, in the opinion of the Calculation Agent, an event beyond the control of the Issuer as a result of which the Issuer cannot make delivery of the Relevant Asset(s) using the method specified in the applicable Final Terms.

TERMS AND CONDITIONS OF THE CERTIFICATES

If "Failure to Deliver due to Illiquidity" is specified as applicable in the applicable Final Terms and, following the exercise of Physical Delivery Certificates, in the opinion of the Calculation Agent, it is impossible or impracticable to deliver, when due, some or all of the Relevant Assets (the "**Affected Relevant Assets**") comprising the Entitlement, where such failure to deliver is due to illiquidity in the market for the Relevant Assets (a "**Failure to Deliver due to Illiquidity**"), then:

- a. subject as provided elsewhere in these Conditions as amended by the applicable Final Terms, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated Settlement Date; and
- b. in respect of any Affected Relevant Assets, in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Certificate by payment to the relevant Certificateholder of the Failure to Deliver Settlement Price (as defined below) on the fifth Business Day following the date that notice of such election is given to the Certificateholders in accordance with General Condition 14 (*Notices*). Payment of the Failure to Deliver Settlement Price will be made in such manner as shall be notified to the Certificateholders in accordance with General Condition 14 (*Notices*). The Calculation Agent shall give notice as soon as practicable to the Certificateholders in accordance with General Condition 14 (*Notices*) that the provisions of this Condition (B) apply.

For the purposes hereof:

"Failure to Deliver Settlement Price" means, in respect of any relevant Certificate, the fair market value of such Certificate (taking into account, the Relevant Assets comprising the Entitlement which have been duly delivered as provided above), less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion (or, where as provided above some Relevant Assets have been delivered, and a *pro rata* portion thereof has been paid, such *pro rata* portion).

(C) *Issuer's Option to Vary Settlement*

If the applicable Final Terms indicates that the Issuer has an option to vary settlement in respect of the Certificates, upon a valid exercise of Certificates in accordance with these General Conditions, the Issuer may, at its sole and unfettered discretion, in respect of each such Certificate, elect not to pay the relevant Certificateholders the Cash Settlement Amount or not to deliver or procure delivery of the Entitlement to the relevant Certificateholders, as the case may be, but, in lieu thereof to deliver or procure delivery of the Entitlement or make payment of the Cash Settlement Amount on the Settlement Date to the relevant Certificateholders, as the case may be. Notification of such election will be given to Certificateholders no later than 10.00 a.m. (Luxembourg time) on the second Business Day following the Maturity Date for Certificates in accordance with General Condition 14 (*Notices*) and/or, at the option of the Issuer, if applicable, in accordance with the contact details for a Certificateholder specified in its Physical Delivery Confirmation Notice.

(D) *Intervening Period*

For such period of time after the Settlement Date as any person other than the relevant Certificateholder shall continue to be the legal owner of such securities (the **Intervening Period**), neither the Issuer nor any other person shall (i) be under any obligation to deliver or procure delivery to the relevant Certificateholder or any subsequent beneficial owner of such securities or any other person any letter, certificate, notice, circular or any other document or payment whatsoever received by that person in its capacity as the holder of such securities or (ii) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such securities during the Intervening Period.

(E) *General*

None of the Issuer, the Paying Agent and the Calculation Agent shall have any responsibility for any errors or omissions in the calculation of any Cash Settlement Amount or of any Entitlement.

TERMS AND CONDITIONS OF THE CERTIFICATES

The purchase of Certificates does not confer on any holder of such Certificates any rights (whether in respect of voting, distributions or otherwise) attaching to any Relevant Asset.

- (ii) replace the Affected Underlying by a new underlying which is representative of the same economic or geographic sector.

(d) Redemption for tax reasons

The Certificates may be redeemed at the option of the Issuer in whole, but not in part, at any time (if the Certificate is not a Floating Rate Certificate) or on any Interest Payment Date (if the Certificate is a Floating Rate Certificate), on giving not less than 30 or more than 60 days' notice to the Principal Paying Agent or (in the case of Dematerialised Certificates) to the Italian Paying Agent and the Guarantor, and, in accordance with General Condition 14, the Certificateholders (which notice shall be irrevocable), if:

Therefore, fractions of the Relevant Asset or of each of the Relevant Assets, as the case may be, will not be delivered and a cash adjustment amount calculated by the Calculation Agent will be paid in lieu of such fractions of the Relevant Asset. Any such cash adjustment amount will be paid to the account specified in the relevant exercise notice.

Following exercise of Certificates that are Physical Delivery Certificates, all dividends on the relevant shares to be delivered will be payable to the party that would receive such dividend according to market practice for a sale of the shares executed on the Maturity Date and to be delivered in the same manner as such relevant Shares, all as determined by the Calculation Agent. Any such dividends to be paid to a Certificateholder will be paid to the account specified by the Certificateholder in the relevant Physical Delivery Confirmation Notice (if applicable) as referred to in General Condition 9.

TERMS AND CONDITIONS OF THE CERTIFICATES

For the purposes of (i)(a) above where the relevant Certificates provide for any minimum amount(s) of cash to be payable this shall be taken into account in determining the fair market value. However, the Calculation Agent shall reduce (i.e. discount) the value of such amounts in determining the fair market value to take into account the length of time remaining to the first possible date on which such amount(s) would otherwise have been payable. Such discounting may be determined by reference to such information as the Calculation Agent may select which may include risk free rate(s).

The Calculation Agent shall also take into account appropriate values for any other amount which would or could otherwise have been payable under the relevant Certificates. This may include the element of the return on the Certificates determined by reference to the relevant assets or reference basis(es) to which the Certificates relate (i.e. a derivative element). The relevant value for this element of the Certificates may be determined by reference to the cost at the relevant time of entering into a transaction to provide similar amounts.

The payment obligations contained in any Certificates and Receipts so issued will also become void on that date although those Certificates and Receipts will continue to constitute valid exchange obligations of the Issuer. New euro-denominated Certificates, Receipts and Coupons will be issued in exchange for Certificates, Receipts and Coupons denominated in the Specified Certificates Currency in such manner as the Principal Paying Agent may specify and as shall be notified to the Certificateholders in the Exchange Notice. No Exchange Notice may be given less than 15 days prior to any date for payment of principal or interest on the Certificates;
- (v) after the Redenomination Date, all payments in respect of the Certificates, the Receipts and the Coupons, other than payments of interest in respect of periods commencing before the Redenomination Date, will be made solely in euro as though references in the Certificates to the Specified Certificates Currency were to euro. Payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque;
- (vi) if the Certificates are Fixed Rate Certificates and interest for any period ending on or after the Redenomination Date is required to be calculated for a period ending other than on a Fixed Interest Date, it will be calculated by applying the Rate of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit (defined above) of the relevant Specified Certificates Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention;
- (vii) if the Certificates are Floating Rate Certificates, the Final Terms will specify any relevant changes to the provisions relating to interest; and
- (viii) such other changes shall be made to these General Conditions as the Issuer may decide, after consultation with the Principal Paying Agent, or (in the case of Dematerialised Certificates) the Italian Paying Agent or the Guarantor, and as may be specified in the notice, to conform them to conventions then applicable to instruments denominated in euro.

Subject thereto, Euroclear or Clearstream, Luxembourg, as the case may be, will confirm to the Principal Paying Agent the series and the number of Certificates being exercised and the details for the delivery of the Entitlement in respect of each Certificate the subject of the relevant Physical Delivery Confirmation Notice. Upon receipt of such confirmation, the Principal Paying Agent will inform the Issuer thereof. Euroclear or Clearstream, Luxembourg, as the case may be, will on or before the Settlement Date debit the account of the relevant Certificateholder with the Certificates the subject of the relevant Physical Delivery Confirmation Notice.

(C) *Determinations*

Subject as set out below, any Physical Delivery Confirmation Notice so determined to be incomplete or not in proper form or which is not duly delivered to Euroclear and/or Clearstream, Luxembourg (as the case may be) and copied to the Issuer and the Principal Paying Agent (or, in the case of Definitive Certificates, which is not duly delivered to the Issuer together with the relevant Definitive Certificate(s) and copied to the Principal Paying Agent) shall be null and void.

If such Physical Delivery Confirmation Notice is subsequently corrected to the satisfaction of Euroclear and/or Clearstream, Luxembourg, in consultation with the Issuer and the Principal Paying Agent (or, in the case of Definitive Certificates, to the satisfaction of the Issuer in consultation with the Principal Paying Agent), it shall be deemed to be a new Physical Delivery Confirmation Notice submitted at the time such correction was delivered to Euroclear or Clearstream, Luxembourg, as the case may be, and copied to the Issuer and the Principal Paying Agent (or, in the case of Definitive Certificates, to the Issuer and copied to the Principal Paying Agent).

Euroclear and/or Clearstream, Luxembourg, as applicable, (or, in the case of Definitive Certificates, the Issuer) shall use its best efforts promptly to notify the Certificateholder submitting a Physical Delivery Confirmation Notice if, in consultation with the Issuer and/or the Principal Paying Agent (as applicable), it has determined that such Physical Delivery Confirmation Notice is incomplete or not in proper form. In the absence of negligence or wilful misconduct on its part, none of the Issuer, the Principal Paying Agent, Euroclear, Clearstream, Luxembourg and the Calculation Agent shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Certificateholder.

(D) *Delivery of a Physical Delivery Confirmation Notice*

After the delivery of a Physical Delivery Confirmation Notice, the relevant Certificateholder may not transfer Certificates the subject of such notice.

TERMS AND CONDITIONS OF THE CERTIFICATES

(E) *Failure to deliver a Physical Delivery Confirmation Notice*

If the Physical Delivery Confirmation Notice is specified as applicable in the relevant Final Terms (and provided that the relevant Certificates are not Definitive Certificates), in the event that a Certificateholder does not, in respect of the Physical Delivery, deliver or procure delivery of a Physical Delivery Confirmation Notice as set out above, prior to 10.00 a.m., Brussels or Luxembourg time, on the Maturity Date, the Issuer shall as soon as reasonably practicable determine the Assessed Value Payment Amount and in respect of such Certificate shall pay or cause to be paid the Assessed Value Payment Amount by credit or transfer to the Certificateholder's account with Euroclear or Clearstream, Luxembourg as soon as reasonably practicable following the determination of the Assessed Value Payment Amount. Upon payment of the Assessed Value Payment Amount as aforesaid, the Issuer's obligations in respect of such Certificate shall be discharged. Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in any jurisdiction (including Section 871(m)), and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471 (b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any current or future regulations or official interpretations thereof, or any fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such Sections of the Code.

As used herein, "**Assessed Value Payment Amount**" means an amount determined by the Calculation Agent to be the fair market value of the Relevant Assets comprised in the Entitlement in respect of the relevant Certificate, less any Expenses.

10. **Events of Default**

If any of the following events (each an "**Event of Default**") shall have occurred and be continuing:

- (i) a default is made for more than 14 days in the payment of any principal (including any Instalment Amount(s)) due in respect of any of the Certificates or 30 days or more in the payment of any interest or other amount due in respect of any of the Certificates; or
- (ii) a default is made in the performance by the Issuer or the Guarantor of any other obligation under the provisions of the Certificates or under the provisions of the Guarantee or the Dematerialised Certificates Guarantee, as applicable, relating to the Certificates and such default continues for more than 60 days following service by a Certificateholder on the Issuer and the Guarantor of a notice requiring the same to be remedied; or
- (iii) an administrative receiver, receiver, administrator, manager or other similar person is appointed in respect of the Issuer or the Guarantor or in respect of all or substantially all of the undertaking, assets and revenues of the Issuer or the Guarantor (other than for the purpose of an amalgamation, reorganisation, merger or reconstruction (i) which has been approved by an Extraordinary Resolution or (ii) where all of the assets of the Issuer and/or the Guarantor, as the case may be, are transferred to, and all of its debts and liabilities are assumed by, a continuing entity); or
- (iv) the Issuer or the Guarantor proposes or makes a general assignment or an arrangement or composition with or for the benefit of its creditors generally or declares a moratorium in respect of any of its indebtedness for borrowed money (if any); or
- (v) a person presents a petition or application or files a notice at court seeking the winding up, liquidation, dissolution, administration or suspension of payments of the Issuer or the Guarantor and such petition or application or notice is not discharged within 60 days; or
- (vi) a final order is made or an effective resolution is passed for the winding up, liquidation, administration or dissolution of the Issuer or the Guarantor and, where possible, not discharged or stayed within a period of 60 days (other than for the purpose of an amalgamation, reorganisation, merger or reconstruction (i) which has been approved by an Extraordinary Resolution or (ii) where all of the assets of the Issuer and/or the Guarantor, as applicable, are transferred to, and all of its debts and liabilities are assumed by, a continuing entity); or
- (vii) the Guarantee or the Dematerialised Certificates Guarantee, as applicable, ceases to be, or is claimed by the Guarantor not to be, in full force and effect,

TERMS AND CONDITIONS OF THE CERTIFICATES

then the holder of any Certificate may declare such Certificate by written notice to the Issuer at the specified office of the Principal Paying Agent or the Registrar, or (in the case of Dematerialised Certificates) the Italian Paying Agent and the Guarantor, as the case may be, effective upon the date of receipt thereof by the Principal Paying Agent or the Registrar, or (in the case of Dematerialised Certificates) the Italian Paying Agent and the Guarantor, as the case may be, to be forthwith due and payable, whereupon the same shall become immediately due and payable at its Early Redemption Amount (as described in Condition 6(j)), together with accrued interest (if any) to the date of repayment.

For the purpose of General Condition 10(iii) a report by the auditors for the time being of the Issuer or the Guarantor, as the case may be, as to whether any part of the undertaking, business or assets of the Issuer or the Guarantor is "substantial" shall, in the absence of manifest error, be conclusive.

11. Prescription

Claims for payment of principal in respect of the Certificates shall be prescribed upon the expiry of 10 years from the due date thereof and claims for payment of interest (if any) in respect of the Certificates shall be prescribed upon the expiry of five years, from the due date thereof. There shall not be included in any Coupon sheet issued on exchange of a Talon, any Coupon the claim for payment in respect of which would be void pursuant to this General Condition 11 or General Condition 5 above.

12. Replacement of Certificates, Receipts, Coupons and Talons

If any Certificate (including any Global Certificate), Receipt, Coupon or Talon is mutilated, defaced, stolen, destroyed or lost, it may be replaced at the specified office of the Principal Paying Agent or the Registrar, as the case may be, upon payment by the claimant of the costs incurred in connection therewith and on such terms as to evidence and indemnity, as the Issuer and the Principal Paying Agent or the Registrar may require. Mutilated or defaced Certificates, Receipts, Coupons or Talons must be surrendered before replacements will be issued. Cancellation and replacement of Certificates, Receipts, Coupons or Talons shall be subject to compliance with such procedures as may be required under any applicable law and subject to any applicable stock exchange requirements. This General Condition 12 shall not apply to the Dematerialised Certificates.

13. Further Issues

The Issuer shall be at liberty from time to time without the consent of the Certificateholders, the Receiptholders or the Couponholders to create and issue further Certificates having terms and conditions the same as the Certificates or the same in all respects save for the amount and date of the first payment of interest thereon and the date from which interest starts to accrue and so that the same shall be consolidated and form a single Series with the outstanding Certificates.

14. Notices

All notices regarding the Bearer Certificates will be deemed to be validly given if published in one leading English language daily newspaper of general circulation in Europe (which is expected to be the *Financial Times*). The Issuer shall also ensure that notices are duly published in a manner which complies with the rules of any stock exchange or any other relevant authority on which the Bearer Certificates are for the time being listed or by which they have been admitted to trading. Any such notice will be deemed to have been given on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication in all required newspapers.

All notices regarding the Registered Certificates will be deemed to be validly given if sent by first class mail or (if posted to an address overseas) by airmail to the holders (or the first named of joint holders) at their respective addresses recorded in the Register and will be deemed to have been given on the fourth day after mailing and, in addition, for so long as any Registered Certificates are listed on a stock exchange or admitted to trading by another relevant authority, such notice will be published in a manner which complies with the rules of that stock exchange or relevant authority.

Until such time as any definitive Certificates are issued, notice may be given (so long as any Global Certificates representing the Certificates are held in their entirety on behalf of Euroclear and/or Clearstream, Luxembourg and/or DTC (instead of by way of publication in a newspaper or mailing)) by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg and/or DTC for communication by them to the holders of the Certificates, except that for so long as any Certificates are listed on a stock exchange or admitted to listing by

TERMS AND CONDITIONS OF THE CERTIFICATES

another relevant authority, such notice will be also published in a manner which complies with the rules of that stock exchange or relevant authority by the Issuer. Any such notice shall be deemed to have been given to the holders of the Certificates on the day after the day on which the said notice was given to Euroclear and/or Clearstream, Luxembourg and/or DTC.

In case of Dematerialised Certificates, notice may be given (instead of by way of publication in a newspaper or mailing) by delivery of the relevant notice to Monte Titoli S.p.A. for communication by it to the holders of the Certificates, except that for so long as any Certificates are listed on a stock exchange or admitted to listing by another relevant authority, such notice will be also published in a manner which complies with the rules of that stock exchange or relevant authority by the Issuer. Any such notice shall be deemed to have been given to the holders of the Certificates on the day after the day on which the said notice was given to Monte Titoli S.p.A..

Notices to be given by any Certificateholder shall be in writing and given by lodging the same, together (in the case of any Certificate in definitive form) with the relative Certificate or Certificates, with the Principal Paying Agent (in the case of Bearer Certificates) or the Registrar (in the case of Registered Certificates). Whilst any of the Certificates are represented by a Global Certificate, such notice may be given by any holder of a Certificate to the Principal Paying Agent or the Registrar through Euroclear and/or Clearstream, Luxembourg and/or DTC, as the case may be, in such manner as the Principal Paying Agent, the Registrar and Euroclear and/or Clearstream, Luxembourg and/or DTC, may approve for this purpose. In case of Dematerialised Certificates, notice may be given by any holder of a Certificate to the Guarantor or the Italian Paying Agent through Monte Titoli S.p.A., in such manner as the Guarantor or Italian Paying Agent, may approve for this purpose. For the purpose of communicating with the Guarantor, notice should be delivered to the specified office of the Guarantor set out below or at the following email address: operations@cirdancapital.com.

15. Meetings of Certificateholders, Modification and Waiver

The Agency Agreement (with reference to the Certificates other than the Dematerialised Certificates) and Schedule 6 to the Programme Agreement (with reference to the Dematerialised Certificates) contain provisions for convening meetings of Certificateholders to consider matters affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of any of the Certificates, the Receipts, the Coupons or any provisions of the Agency Agreement or Schedule 6 to the Programme Agreement. Such a meeting may and, if required in writing by Certificateholders holding not less than 10 per cent. in principal amount of the Certificates for the time being outstanding, shall be convened by the Issuer. At a meeting of the holders of the Certificates for the purpose of, amongst others, approving a modification or amendment to, or obtaining a waiver of any covenant or condition set forth in the Certificates, the Receipts, the Coupons, the Agency Agreement or Schedule 6 to the Programme Agreement, persons entitled to vote a majority in aggregate principal amount of the Certificates at the time outstanding shall constitute a quorum. In the absence of a quorum at any such meeting that is not a meeting convened upon the requisition of Certificateholders, within 30 minutes of the time appointed for such meeting, the meeting may be adjourned for a period of not less than 14 days, in the absence of a quorum any meeting that is convened on the requisition of Certificateholders shall be dissolved; the persons entitled to vote a majority in aggregate principal amount of the Certificates at the time outstanding shall constitute a quorum for the taking of any action set forth in the notice of the original meeting. At a meeting or an adjourned meeting duly convened and at which a quorum is present as aforesaid, any Extraordinary Resolution to, amongst others, modify or amend any of the Certificates, the Receipts, the Coupons or any provisions of the Agency Agreement (other than those items specified in General Condition 15(i) and (ii)) or Schedule 6 to the Programme Agreement, or to waive compliance with, any of the terms and conditions of the Certificates shall be effectively passed if passed by a majority consisting of at least 75 per cent. of the votes cast.

The Principal Paying Agent (in case of Certificates other than Dematerialised Certificates), the Italian Paying Agent or the Guarantor (in case of Dematerialised Certificates), the Issuer and the Guarantor may agree, without the consent of the Certificateholders, Receiptholders or Couponholders, to:

- (i) any modification of the Certificates, the Receipts, the Coupons, the Agency Agreement, Schedule 6 to the Programme Agreement which is not, in the opinion of the Issuer and the Guarantor, materially prejudicial to the interests of the Certificateholders; or
- (ii) any modification of the Certificates, the Receipts, the Coupons, the Agency Agreement, Schedule 6 to the Programme Agreement which is, in the opinion of the Issuer and the Guarantor, of a formal, minor or technical nature or to cure, correct or supplement any defective provision or is made to correct a manifest or proven error or to comply with mandatory provisions of the law of the jurisdiction in which the Issuer or the Guarantor are incorporated.

TERMS AND CONDITIONS OF THE CERTIFICATES

Any such modification shall be binding on the Certificateholders, the Receiptholders and the Couponholders and any such modification shall be notified to the Certificateholders, in accordance with General Condition 14 as soon as practicable thereafter.

16. Agents and Registrar

The names of the initial Agents and their initial specified offices are set out below.

The Issuer and the Guarantor are entitled to vary or terminate the appointment of any Agent and/or appoint additional or other Agents and/or approve any change in the specified office through which any Agent acts, provided that:

- (i) other than with respect to Dematerialised Certificates, there will at all times be a Principal Paying Agent and a Registrar;
- (ii) so long as the Certificates are listed on any stock exchange or admitted to listing by any relevant authority, there will at all times be a Paying Agent (in the case of Bearer Certificates) and a Transfer Agent (in the case of Registered Certificates) with a specified office in such place as may be required by the rules and regulations of such other stock exchange or other relevant authority; and
- (iii) so long as any of the Registered Global Certificates payable in a Specified Certificates Currency other than US dollars are held through DTC or its nominee, there will at all times be an Exchange Agent; and
- (iv) in case of Dematerialised Certificates there will at all times be an Italian Paying Agent.

In addition, the Issuer and the Guarantor shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in General Condition 5(a). Any variation, termination, appointment or change shall only take effect (other than in the case of insolvency, when it shall be of immediate effect) after not less than 30 or more than 45 days' prior notice thereof shall have been given to the Certificateholders in accordance with General Condition 14, provided that no such variation, termination, appointment or changes shall take effect (except in the case of insolvency) within 7 days before any due date for the payment of any Certificate or any related Receipt or Coupon. Notice of all changes in the identities or specified offices of any Agent will be given promptly by the Issuer to Certificateholders in accordance with General Condition 14.

In acting under the Agency Agreement or the Italian Agency Agreement (in the case of Dematerialised Certificates), the Agents will act solely as agents of each of the Issuer and Guarantor (if applicable) and do not assume any obligations or relationship of agency or trust to or with the Certificateholders, Receiptholders or Couponholders, except that (without affecting the obligations of the Issuer and the Guarantor (if applicable) to the Certificateholders, Receiptholders and Couponholders, to repay Certificates and pay interest thereon) funds received by the Principal Paying Agent for the payment of the principal of or interest on the Certificates shall be held by it in trust for the Certificateholders and/or Receiptholders or Couponholders until the expiration of the relevant period of prescription under General Condition 11. The Issuer will agree to perform and observe the obligations imposed upon it under the Agency Agreement or the Italian Agency Agreement (in the case of Dematerialised Certificates). The Agency Agreement contains provisions for the indemnification of the Paying Agents and for relief from responsibility in certain circumstances, and entitles any of them to enter into business transactions with the Issuer and any of its subsidiaries without being liable to account to the Certificateholders, Receiptholders or the Couponholders for any resulting profit.

All calculations, determinations, decisions, selections, elections and opinions made by the Calculation Agent shall be made in its discretion in accordance with the Conditions of the Certificates, having regard in each case to any criteria stipulated therein, and shall (save in the case of manifest error) be final, conclusive and binding on the Issuer, the other Agents and the Certificateholders.

In exercising its discretion as described above, the Calculation Agent may take into account such factors as it determines appropriate in each case, which may include, in particular, any circumstances or events which have or may have a material impact on the hedging arrangements (as described below) entered into by the Issuer and/or any of its Affiliates and/or any other relevant party (each a "**Relevant Party**") in respect of the Certificates. The exercise of the Calculation Agent's discretion in respect of the Certificates as provided herein is necessary because certain circumstances or events (for example a material modification or disruption to a relevant asset(s) to which the Certificates are linked) may occur subsequent to the issuance of the Certificates

TERMS AND CONDITIONS OF THE CERTIFICATES

which may materially affect the costs to the Relevant Party of maintaining the Certificates or any relevant hedging arrangements. Such circumstances or events may not have been reflected in the pricing of the Certificates. In addition, as a result of certain circumstances or events (e.g. unavailability or disruption to any reference source) it may no longer be reasonably practicable or otherwise appropriate for certain valuations in respect of any relevant asset(s) to which the Certificates are linked or otherwise in connection with the Certificates to be made, thus making it necessary for the Calculation Agent to exercise its discretion in such a case.

17. Determination by the Issuer

Any determination made by the Issuer pursuant to these General Conditions shall be made in good faith and in a commercially reasonable manner and shall (save in the case of manifest error) be final, conclusive and binding on the Issuer and the Certificateholders.

18. Substitution

(a) Substitution of the Issuer

(i) The Issuer may, without the consent of the Certificateholders (and by subscribing any Certificates, each Certificateholder expressly consents to it), be replaced and substituted by the Guarantor or any other company of which 100 per cent. of the shares or other equity interests (as the case may be) carrying the right to vote are directly or indirectly owned by the Guarantor as principal debtor (in such capacity, the "**Substituted Debtor**") in respect of all obligations arising from or in connection with the Certificates provided that:

- (A) a deed poll and such other documents (if any) shall be executed by the Substituted Debtor, the representative for the relevant Series of Certificates in the applicable public deed of issuance (the "**Representative**"), the Issuer and (if the Substituted Debtor is not the Guarantor) the Guarantor as may be necessary to give full effect to the substitution (together the "**Documents**") and (without limiting the generality of the foregoing) pursuant to which the Substituted Debtor shall undertake in favour of each Certificateholder to be bound by the "*Terms and Conditions of the Certificates*" and the provisions of the Agency Agreement or the Italian Agency Agreement (in the case of Dematerialised Certificates) and the Deed of Covenant or the Dematerialised Certificates Deed of Covenant (in the case of Dematerialised Certificates), as fully as if the Substituted Debtor had been named in the Certificates, the Agency Agreement, the Italian Agency Agreement (in the case of Dematerialised Certificates) and the Deed of Covenant or the Dematerialised Certificates Deed of Covenant (in the case of Dematerialised Certificates) as the principal debtor in respect of the Certificates in place of the Issuer (or any previous substitute) and (if the Substituted Debtor is not the Guarantor) pursuant to which the Guarantor shall unconditionally and irrevocably guarantee (the "**New Guarantee**") in favour of each Certificateholder the payment of all sums payable by the Substituted Debtor, as such principal debtor on the same terms *mutatis mutandis* as the Guarantee or the or the Dematerialised Certificates Guarantee (in the case of Dematerialised Certificates);
- (B) without prejudice to the generality of General Condition 18(a)(i)(A), where the Substituted Debtor is incorporated, domiciled or resident for taxation purposes in a territory other than Ireland, the Documents shall contain a covenant by the Substituted Debtor and/or such other provisions as may be necessary to ensure that each Certificateholder has the benefit of a covenant in terms corresponding to the provisions of General Condition 7 with the substitution for the references to Ireland of references to the territory in which the Substituted Debtor is incorporated, domiciled and/or resident for taxation purposes. The Documents shall also contain a covenant by the Substituted Debtor and (if the Substituted Debtor is not the Guarantor) the Guarantor to indemnify and hold harmless each Certificateholder against all taxes or duties which arise by reason of a law or regulation having legal effect or being in reasonable contemplation thereof on the date such substitution becomes effective, which may be incurred or levied against such holder as a result of any substitution pursuant to this General Condition and which would not have been so incurred or levied had such substitution not been made (and, without limiting the foregoing, any and all taxes or duties which are imposed on any such Certificateholder by any political sub-division or taxing authority of

TERMS AND CONDITIONS OF THE CERTIFICATES

any country in which such Certificateholder resides or is subject to any such tax or duty and which would not have been so imposed had such substitution not been made);

- (C) the Documents shall contain a warranty and representation by the Substituted Debtor and (if the Substituted Debtor is not the Guarantor) the Guarantor that the Substituted Debtor and (if the Substituted Debtor is not the Guarantor) the Guarantor have obtained all necessary governmental and regulatory approvals and consents for such substitution and (if the Substituted Debtor is not the Guarantor) for the giving by the Guarantor of the New Guarantee in respect of the obligations of the Substituted Debtor on the same terms *mutatis mutandis* as the Guarantee, that each of the Substituted Debtor and the Guarantor (if the Substituted Debtor is not the Guarantor) has obtained all necessary governmental and regulatory approvals and consents for the performance by each of the Substituted Debtor and the Guarantor (if the Substituted Debtor is not the Guarantor) of its obligations under the Documents and that all such approvals and consents are in full force and effect;
 - (D) each stock exchange which has the Certificates listed thereon shall have confirmed that following the proposed substitution of the Substituted Debtor the Certificates would continue to be listed on such stock exchange;
 - (E) the Issuer shall have delivered or procured the delivery to the Principal Paying Agent, or (in the case of Dematerialised Certificates) the Italian Paying Agent or the Guarantor, and the Registrar a copy of a legal opinion addressed to the Issuer, the Substituted Debtor and the Guarantor from a leading firm of lawyers in the country of incorporation of the Substituted Debtor, to the effect that the Documents constitute legal, valid and binding obligations of the Substituted Debtor, such opinion(s) to be dated not more than 7 days prior to the date of substitution of the Substituted Debtor for the Issuer and to be available for inspection by Certificateholders at the specified offices of the Principal Paying Agent, the Guarantor (in the case of Dematerialised Certificates) and the Registrar;
 - (F) the Guarantor shall have delivered or procured the delivery to the Principal Paying Agent, the Italian Paying Agent (in the case of Dematerialised Certificates) and the Registrar a copy of a legal opinion addressed to the Issuer, the Substituted Debtor and the Guarantor from a leading firm of English lawyers to the effect that the Documents (including the New Guarantee given by the Guarantor in respect of the Substituted Debtor) (a) in the case where the Substituted Debtor is not the Guarantor, constitute legal, valid and binding obligations of the Guarantor and (b) constitute legal, valid and binding obligations of the parties thereto under English law, such opinion to be dated not more than 7 days prior to the date of substitution of the Substituted Debtor for the Issuer and to be available for inspection by Certificateholders at the specified offices of the Principal Paying Agent, the Guarantor (in the case of Dematerialised Certificates) and the Registrar;
 - (G) the Substituted Debtor shall have appointed a process agent in England to receive service of process on its behalf in relation to any legal action or proceedings arising out of or in connection with the Certificates or the Documents;
 - (H) there is no outstanding Event of Default in respect of the Certificates; and
 - (I) the substitution complies with all applicable requirements established under the relevant applicable laws.

ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

ANNEX 1 - ADDITIONAL TERMS AND CONDITIONS FOR PAYOUTS

If specified as applicable in the Final Terms, the terms and conditions applicable to payouts shall comprise the General Conditions and the additional terms and conditions for payouts set out below (the "Payout Conditions"), together with the terms and conditions as set out in each other Annex which is specified as applicable in the Final Terms and subject to completion in the Final Terms. In the event of any inconsistency between (i) the General Conditions and/or any other Annex and (ii) the Payout Conditions, the Payout Conditions shall prevail. In the event of any inconsistency between (i) the General Conditions and/or any other Annex and/or the Payout Conditions and (ii) the Final Terms, the Final Terms shall prevail.

1 Structured Certificates

(a) Use of Payout Conditions

These Payout Conditions set out the methodology for determining various payouts and product features in respect of the Certificates. The applicable text shown in Payout Conditions 2, 3, and 4 below will be extracted, included and completed at the paragraph indicated in the Final Terms on the basis that (i) applicable text (including, where appropriate, section headings and terms defined in Payout Condition 4 which are required to be completed) from the relevant Payout Condition will be set out at the paragraph indicated in the Final Terms and (ii) inapplicable text (and any terms defined in Payout Condition 4 which are not required to be completed) need not be included.

(b) Use of Terms

Terms in these Payout Conditions or in the Final Terms may be attributed a numerical or letter suffix value when included in the Final Terms. Without limitation, the suffix can be denoted as "j", "k", "m", "q", "n", "t", "i", "A", "B", "C" or "1", "2", "3" etc. and the term may be completed on the basis of the number or numbers represented by j, k, m, q, n, t, i, "A", "B", "C" or 1, 2, 3 etc. as chosen at the time of an issue of Certificates. Moreover suffixes may be placed in series as necessary, such as "A(1)", "B(1)", "C(1)" etc. When applicable and in order to improve the reading and intelligibility of the formula(e) in the Final Terms, the applicable suffixes may be included, completed and the relation between the term and the suffix will be explained and may be presented as a table, if necessary, in the Final Terms. A term in Payout Condition 4 may be included in the applicable Final Terms section more than once if there is more than one number represented by the term n, t or i. Conjunctions (e.g. or, and, but) and punctuation may also be included where appropriate. Suffixes may denote that a relevant term relates to an asset, item or date associated with that suffix. Suffixes may also be applied to payouts to denote that more than one payout or Rate of Interest etc, may be concurrently applicable (on the same dates or otherwise) in respect of any Certificate.

The constituent parts of any formula(e) or term(s) used in these Payout Conditions and that are to be specified in the Final Terms may be replaced in the Final Terms by the prescribed amount, level, or percentage or other value or term (the "**Variable Data**"). If a Variable Data has a value of either 0 (zero) or 1 (one), or is not applicable in respect of the relevant formula(e), then the related formula(e) may be simplified, for the purpose of improving the reading and intelligibility in the formula(e) in Final Terms, by deleting such Variable Data.

Unless SER – Intermediate Currency Requirements are specified as applicable in the Final Terms, the Calculation Agent will determine the amount to be paid in the SER Base Currency by applying the Settlement Exchange Rate to the amount that would have been payable in the SER Subject Currency were it not for the provisions of this Payout Condition 5.

If SER Intermediate Currency Requirements are specified as applicable in the Final Terms, the Calculation Agent will determine the amount to be paid in the SER Base Currency by (i) applying the Settlement Exchange Rate to the amount that would have been payable in the SER Subject Currency were it not for the provisions of this Payout Condition 6 to produce an amount denominated in the SER Intermediate Currency, and then (ii) applying the Second Settlement Exchange Rate to such amount denominated in the SER Intermediate Currency.

Any such payment shall be made on the date such payment would have otherwise been due provided that, if limb (b) of the definition of "Settlement Exchange Rate" below applies, such payment may be deferred in accordance

Conditions and/or the Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share) and (ii) determine the effective date of that adjustment. The Calculation Agent may, but need not, determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange ("**Exchange Based Adjustment**") to options on the Shares traded on that options exchange.

- (iv) Upon the making of any such adjustment by the Calculation Agent, the Calculation Agent shall, other than where Exchange Based Adjustment applies notify the Issuer as soon as practicable and the Issuer shall give notice as soon as practicable to the Certificateholders in accordance with General Condition 14, stating the occurrence of the Potential Adjustment Event, giving details thereof and the adjustment to be taken in relation thereto, provided that any failure to give or non-receipt of such notice will not affect the validity of such Potential Adjustment Event or Potential Adjustment Event Effective Date or the adjustment in relation thereto.

(b) Extraordinary Events

The occurrence of any of De-Listing, Insolvency, Merger Event, Nationalisation, Tender Offer (unless Tender Offer is specified as not applicable in the Final Terms), or, if specified as applicable in the Final Terms, Illiquidity, Listing Change or Listing Suspension, as the case may be, shall be deemed to be an "**Extraordinary Event**", the consequences of which are set forth below:

"**De-Listing**" means, in respect of any relevant Shares, that the Exchange announces pursuant to the rules of such Exchange, that such Shares cease (or will cease) to be listed, traded or publicly quoted on the Exchange for any reason (other than a Merger Event or Tender Offer) and are not immediately re-listed, re-traded or re-quoted on (i) where the Exchange is located in the United States, any of the New York Stock Exchange, the American Stock Exchange or the NASDAQ National Market System (or their respective successors) or (ii) a comparable exchange or quotation system located in the same country as the Exchange (or, where the Exchange is within the European Union, in a member state of the European Union).

(on average), and/or (b) the average purchase price or the average selling price, (each of (a) and (b) determined by the Calculation Agent from the order book of the relevant Share on the relevant Exchange during the Relevant Period), in relation to the purchase or sale of Shares with a value equal to or greater than EUR 10,000.00 (or its equivalent in any other currency as determined by the Calculation Agent at such time and by reference to such sources as it determines appropriate), is greater than MID plus 1 per cent. of MID (in relation to a purchase of Shares) or lower than the MID minus 1 per cent. of MID (in relation to a sale of Shares). "**Insolvency**" means that by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting a Basket Company or Share Company, as the case may be, (i) all the Shares of that Basket Company or Share Company, as the case may be, are required to be transferred to a trustee, liquidator or other similar official or (ii) holders of the Shares of that Basket Company or Share Company, as the case may be, become legally prohibited from transferring them.

"**Listing Change**" means, in respect of any relevant Shares, that such Shares cease (or will cease) to be listed, traded or publicly quoted on the listing compartment or the relevant market of the Exchange on which such Shares were listed, traded or publicly quoted on the Issue Date, for any reason (other than a Merger Event or Tender Event or where this is a De-Listing).

"**Listing Suspension**" means, in respect of any relevant Shares, that the listing of such Shares on the Exchange has been suspended (other than where this is a De-Listing).

ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED CERTIFICATES

merger or binding share exchange in which such Basket Company or Share Company, as the case may be, is the continuing entity and which does not result in a reclassification or change of all of such Shares outstanding), (iii) takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Shares of the Basket Company or Share Company, as the case may be, that results in a transfer of or an irrevocable commitment to transfer all such Shares (other than such Shares owned or controlled by such other entity or person), or (iv) consolidation, amalgamation, merger or binding share exchange of the Basket Company or its subsidiaries or the Share Company or its subsidiaries, as the case may be, with or into another entity in which the Basket Company or Share Company, as the case may be, is the continuing entity and which does not result in a reclassification or change of all such Shares outstanding but results in the outstanding Shares (other than Shares owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Shares immediately following such event, in each case if the relevant Extraordinary Event Effective Date is on or before the latest of the last occurring Automatic Early Redemption Valuation Date, Knock-in Determination Day or Knock-out Determination Day, Observation Date or Valuation Date or, where Averaging is specified in the Final Terms, the final Averaging Date.

(the **"Percentage Range"**) of the outstanding voting shares of the Basket Company or Share Company, as the case may be, as determined by the Calculation Agent, based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

(c) Consequences of the occurrence of an Extraordinary Event:

If an Extraordinary Event occurs in relation to a Share, the Issuer in its sole and absolute discretion may take the action described in (i), (ii), (iii), (if applicable), (iv) or, in the case of Certificates relating to a Basket of Shares only, (v) below:

- (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of the Weighting and/or any of the other terms of the General Conditions, these Equity Linked Conditions and/or the Final Terms to account for the relevant Extraordinary Event, and determine the effective date of that adjustment. The relevant adjustments may include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or to the Certificates. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the relevant Extraordinary Event made by any options exchange to options on the Shares traded on that options exchange. In addition, in relation to a Basket of Shares, the Calculation Agent may adjust the Basket of Shares in accordance with the provisions of sub-paragraph (v) below;
- (ii) in the case of Equity Linked Certificates relating to a Basket of Shares, redeem the Certificates in part by giving notice to Certificateholders in accordance with General Condition 14. If the Certificates are so redeemed in part the portion (the **"Redeemed Amount"**) of each Certificate representing the affected Share(s) shall be redeemed and the Issuer will:
 - (A) pay to each Certificateholder in respect of each Certificate held by him an amount equal to the fair market value of the Redeemed Amount, taking into account the relevant Extraordinary Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion; and
 - (B) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of the Weighting and/or any of the other terms of the General Conditions, these Equity Linked Conditions and/or the Final Terms to account for such redemption in part. For the avoidance of doubt the remaining part of each Certificate after such cancellation and adjustment shall remain outstanding with full force and

ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED CERTIFICATES

effect. Payments will be made in such manner as shall be notified to the Certificateholders in accordance with General Condition 14;

- (iii) where the Issuer determines that no adjustment has been proposed by the Options Exchange and that no other action will produce a commercially reasonable result the Issuer, in its sole and absolute discretion may, on giving notice to Certificateholders in accordance with General Condition 14,
 - (A) redeem all but not some only of the Certificates, each Certificate being redeemed by payment of an amount equal to the fair market value of a Certificate taking into account the relevant Extraordinary Event (the "**Calculated Extraordinary Event Amount**"), less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the "**Modified Calculated Extraordinary Event Amount**"), all as determined by the Calculation Agent in its sole and absolute discretion as soon as practicable following the occurrence of the relevant Extraordinary Event (the "**Calculated Extraordinary Event Amount Determination Date**"), or
 - (B) require the Calculation Agent to determine the Calculated Extraordinary Event Amount on the Calculated Extraordinary Event Amount Determination Date, and redeem each Certificate on the scheduled Maturity Date by payment of the Calculated Extraordinary Event Amount. For avoidance of any doubt, the Calculated Extraordinary Event Amount shall not accrue any interest from the date of its calculation to the Maturity Date.

In relation to paragraphs (A) and (B) above, notwithstanding General Condition 4(g), each Certificate shall cease to bear interest from and including the Calculated Index Adjustment Amount Determination Date and no interest amounts scheduled for payment thereafter (including, for the avoidance of doubt, including any Specified Interest Amounts) shall be payable.

- (iv) following such adjustment to the settlement terms of options on the Shares traded on such exchange(s) or quotation system(s) as the Issuer in its sole discretion shall select (the "**Options Exchange**"), require the Calculation Agent to make a corresponding adjustment to any one or more of the Weighting and/or any of the other terms of the General Conditions, these Equity Linked Conditions and/or the Final Terms, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Options Exchange. If options on the Shares are not traded on the Options Exchange, the Calculation Agent will make such adjustment, if any, to any one or more of the Weighting and/or any of the other terms of the General Conditions, these Equity Linked Conditions and/or the Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate, with reference to the rules and precedents (if any) set by the Options Exchange to account for the relevant Extraordinary Event, that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Exchange if such options were so traded; or
- (v) on or after the relevant Extraordinary Event Effective Date, require the Calculation Agent to adjust the Basket of Shares to include a Share selected by it in accordance with the criteria for Share selection set out below (each, a "**Substitute Share**") for each Share (each, an "**Affected Share**") of each Basket Company (each, an "**Affected Basket Company**") which is affected by such Extraordinary Event and the Substitute Share will be deemed to be a "**Share**", and the issuer of such shares a "**Basket Company**", for the purposes of the Certificates, and the Calculation Agent will make such adjustment, if any, to any one or more of the Weighting and/or any of the other terms of the General Conditions, these Equity Linked Conditions and/or the Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate, provided that in the event that any amount payable under the Certificates was to be determined by reference to an initial price (the "**Initial Price**") of the Affected Share, the relevant Initial Price of each Substitute Share will be determined by the Calculation Agent in accordance with the following formula:

$$\text{Initial Price} = A \times (B/C)$$

where:

"A" is the official closing price of the relevant Substitute Share on the relevant Exchange on the Substitution Date;

"B" is the Initial Price of the relevant Affected Share; and

ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED CERTIFICATES

"C" is the fair market value of the relevant Affected Share on the Substitution Date (which may, where available, be determined by reference to the official closing price of the Affected Share on the relevant Exchange and/or such other source(s) as the Calculation Agent determines appropriate).

Such substitution and the relevant adjustment to the Basket of Shares will be deemed to be effective as of the date selected by the Calculation Agent (the "**Substitution Date**") in its sole and absolute discretion and specified in the notice referred to below which may, but need not, be the relevant Extraordinary Event Effective Date.

The Weighting of each Substitute Share in the Basket of Shares will be equal to the Weighting of the relevant Affected Share.

In order to be selected as a Substitute Share, the relevant share must satisfy the following criteria, in the sole and absolute discretion of the Calculation Agent:

- (A) where the relevant Extraordinary Event is a Merger Event or a Tender Offer and the relevant share is not already included in the Basket of Shares, the relevant share shall be an ordinary share of the entity or person (other than the Affected Basket Company) involved in the Merger Event or the making of the Tender Offer, that is, or that as of the relevant Extraordinary Event Effective Date (i) is promptly scheduled to be, publicly quoted, traded or listed on an exchange or quotation system located in the same country as the relevant Exchange (or, where the relevant Exchange is within the European Union, in any member state of the European Union) and (ii) is not subject to any currency exchange controls, trading restrictions or other trading limitations; or
- (B) where (A) above does not apply, including in the case of an Extraordinary Event other than a Merger Event or a Tender Offer:
 - (1) the issuer of the share shall, to the extent possible, belong to the same economic sector as the Affected Basket Company and shall not already be included in the Basket of Shares; and
 - (2) the issuer of the share shall, to the extent possible, have a comparable market capitalisation, international standing and exposure as the Affected Basket Company in respect of the Affected Share.

Upon the occurrence of an Extraordinary Event, if the Calculation Agent determines that an adjustment in accordance with the above provisions is necessary it shall notify the Issuer thereof as soon as practicable, and the Issuer shall give notice as soon as practicable to the Certificateholders in accordance with General Condition 14 stating the occurrence of the Extraordinary Event, giving details thereof and the action proposed to be taken in relation thereto, including, in the case of a Share Substitution, the identity of the Substitute Shares and the Substitution Date, provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such Extraordinary Event or the proposed action.

4. **Correction of Share Price**

With the exception of any corrections published after the day which is three Exchange Business Days prior to the due date for any payment under the Certificates calculated by reference to the price of a Share, if the relevant price of the relevant Share published on a given day and used or to be used by the Calculation Agent to make any determination under the Certificates is subsequently corrected and the correction is published by the relevant Exchange within the number of days equal to the Share Correction Period of the original publication, the price to be used shall be the price of the relevant Share as so corrected. Corrections published after the day which is three Exchange Business Days prior to a due date for payment under the Certificates calculated by reference to the price of a Share will be disregarded by the Calculation Agent for the purposes of determining the relevant amount to be paid.

ADDITIONAL TERMS AND CONDITIONS FOR EQUITY LINKED CERTIFICATES

5. Additional Disruption Events

(a) If an Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may take the action described in (i), (ii) or if applicable (iii) or, in the case of Certificates linked to a Basket of Shares only, (iv) below:

- (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of the Weighting and/or any of the other terms of the General Conditions, these Equity Linked Conditions and/or the Final Terms to account for the Additional Disruption Event and determine the effective date of that adjustment; or
- (ii) unless Delayed Redemption on Occurrence of Additional Disruption Event is specified as being applicable in the Final Terms, redeem the Certificates by giving notice to Certificateholders in accordance with General Condition 14. If the Certificates are so redeemed the Issuer will pay an amount to each Certificateholder in respect of each Certificate held by him which amount shall be the fair market value of a Certificate taking into account the Additional Disruption Event less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the "**Calculated Additional Disruption Amount**"), all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Certificateholders in accordance with General Condition 14; or

In the event of any inconsistency between (i) the General Conditions and/or the Foreign Exchange (FX) Rate Linked Certificate Conditions and (ii) the Final Terms, the Final Terms, shall prevail.

1. Non-EM Valuation and Disruption Provisions

The provisions of this Foreign Exchange (FX) Rate Linked Condition 1 apply unless EM Foreign Exchange (FX) Rate Provisions are specified as applicable in respect of a Subject Currency in the Final Terms.

The occurrence of any of the following events, in respect of any Base Currency, Subject Currency and/or Subject Currencies, shall be a "**Disruption Event**":

- (i) Price Source Disruption;
- (ii) Illiquidity Disruption;
- (iii) Dual Exchange Rate;
- (iv) General Inconvertibility;
- (v) General Non-Transferability;
- (vi) Material Change in Circumstance;
- (vii) Nationalisation; or

any other event that, in the opinion of the Calculation Agent, is analogous to any of (i) to (vii) above (inclusive).

(b) Consequences of a Disruption Event

Upon a Disruption Event occurring or continuing on any Averaging Date, Settlement Price Date, Knock-In Determination Day or Knock-Out Determination Day (or, if different, the day on which prices for that date would, in the ordinary course, be published by the relevant Price Source) as determined by the Calculation Agent, the Calculation Agent shall apply the applicable Disruption Fallback in determining the consequences of the Disruption Event.

"**Disruption Fallback**" means a source or method that may give rise to an alternative basis for determining the Settlement Price when a Disruption Event occurs or exists on a day that is an Averaging Date, Settlement Price Date, Knock-In Determination Day or Knock-Out Determination Day (or, if different, the day on which prices for that date would, in the ordinary course, be published or announced by the Price Source). The Calculation Agent shall take the relevant actions specified in either (i), (ii) or (iii) below.

- (i) if an Averaging Date, Settlement Price Date, Knock-In Determination Day or Knock-Out Determination Day is a Disrupted Day, the Calculation Agent will determine that the relevant Averaging Date or Settlement Price Date, as the case may be, shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day (in the case of the Strike Date or Valuation Date) or Valid Date (in the case of an Averaging Date, Observation Date, Knock-In Determination Day or Knock-Out Determination Day) unless each of the number of consecutive Scheduled Trading Days equal to the Specified Maximum Days of Disruption immediately following the originally scheduled

ADDITIONAL TERMS AND CONDITIONS FOR FOREIGN EXCHANGE (FX) RATE LINKED CERTIFICATES

Averaging Date, Settlement Price Date, Knock-In Determination Day or Knock-Out Determination Day, as the case may be, is a Disrupted Day in which case the Calculation Agent may determine that the last such consecutive Scheduled Trading Day shall be deemed to be the Averaging Date, Settlement Price Date, Knock-In Determination Day or Knock-Out Determination Day, as the case may be (irrespective, in the case of an Averaging Date, Observation Date, Knock-In Determination Day or Knock-Out Determination Day, of whether that last consecutive Scheduled Trading Day is already an Averaging Date, Observation Date, Knock-In Determination Day or Knock-Out Determination Day, as the case may be) and may determine the Settlement Price by using commercially reasonable efforts to determine a Settlement Price as of the Valuation Time on the last such consecutive Scheduled Trading Day taking into consideration all available information that in good faith it deems relevant; or

- (ii) if an Averaging Date, Settlement Price Date, Knock-In Determination Day or Knock-Out Determination Day is a Disrupted Day but is not the Redemption Valuation Date, if Delayed Redemption on the Occurrence of a Disruption Event is specified as being not applicable in the Final Terms, on giving notice to Certificateholders in accordance with General Condition 14, the Issuer shall redeem all but not some only of the Certificates, each Certificate being redeemed by payment of an amount equal to the fair market value of such Certificate, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements, all as determined by the Calculation Agent in its sole and absolute discretion. Payment shall be made in such manner as shall be notified to the Certificateholders in accordance with General Condition 14; or
- (iii) if an Averaging Date, any Settlement Price Date, Knock-In Determination Day or Knock-Out Determination Day is a Disrupted Day but is not the Redemption Valuation Date, if Delayed Redemption on the Occurrence of a Disruption Event is specified as being applicable in the Final Terms, the Calculation Agent shall calculate the fair market value of each Certificate less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements (the "**Calculated Foreign Exchange (FX) Disruption Amount**") as soon as practicable following the occurrence of the Disruption Event (the "**Calculated Foreign Exchange (FX) Disruption Amount Determination Date**") and on the Maturity Date shall redeem each Certificate at an amount calculated by the Calculation Agent equal to (x) the Calculated Foreign Exchange (FX) Disruption Amount plus interest accrued on the Calculated Foreign Exchange (FX) Disruption Amount on a daily basis from and including the Calculated Foreign Exchange (FX) Disruption Amount Determination Date to but excluding the Maturity Date, each such daily accrual rate being at a rate equal to Issuer's funding cost on or about the relevant day or (y) if greater, its principal amount.

(b) Consequences of an EM Disruption Event

Upon an EM Disruption Event occurring or continuing on any Averaging Date, Settlement Price Date, Knock-In Determination Day or Knock-Out Determination Day, as the case may be (or, if different, the day on which prices for that date would, in the ordinary course, be published by the relevant EM FX Price Source) as determined by the Calculation Agent, the Calculation Agent shall apply in determining the consequences of the EM Disruption Event: (a) EM Calculation Agent Determination where the applicable EM Disruption Event is other than Price Source Disruption or Price Materiality; and (b) the applicable EM Disruption Fallback where the applicable EM Disruption Event is a Price Source Disruption or Price Materiality.

(c) Unscheduled Holiday

If the Calculation Agent determines that a date that would otherwise have been a Settlement Price Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day is an Unscheduled Holiday in respect of a Subject Currency, then such date shall be the immediately succeeding Scheduled Trading Day after the occurrence of the Unscheduled Holiday, subject as provided above, and Provided That if such Settlement Price Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be, has not occurred on or before the EM Maximum Days of Postponement then the next Scheduled Trading Day after such period that would have been a Scheduled Trading Day but for the Unscheduled Holiday shall be deemed to be the relevant date for valuation and the Settlement Price shall be determined by the Calculation Agent on such day in its sole discretion acting in good faith having taken into account relevant market practice and by reference to such additional source(s) as it deems appropriate.

(d) Cumulative Events

If "Cumulative Events" is specified as applicable in the Final Terms in respect of a Settlement Currency then, in no event shall the total number of consecutive calendar days during which a Settlement Price Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day is deferred due to either (i) an Unscheduled Holiday or (ii) an EM Valuation Postponement (or a combination of both (i) and (ii)) exceed the EM Maximum Cumulative Days of Postponement in the aggregate. If a Settlement Price Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be, is postponed by the number of calendar days equal to the EM Maximum Cumulative Days of Postponement and at the end of such period (i) an Unscheduled Holiday shall have occurred or be continuing on the day immediately following such period (the "**Final Day**"), then such Final Day shall be deemed to be the Settlement Price Date, Averaging Date, Knock-in Determination Day or Knock-out Determination Day, as the case may be, and (ii) if a Price Source Disruption shall have occurred or be continuing on the Final Day, then Valuation Postponement shall not apply and the Settlement Price shall be determined in accordance with the next applicable EM Disruption Fallback.

2. Market Disruption

"Market Disruption Event" means, in respect of a relevant Commodity or Commodity Index and as determined by the Calculation Agent, the occurrence or existence of:

3. Consequences of a Market Disruption Event and Disruption Fallbacks

Upon a Market Disruption Event occurring or continuing on any Pricing Date (or, if different, the day on which prices for that Pricing Date would, in the ordinary course, be published by the Price Source), the Calculation Agent may, acting in good faith and in a commercially reasonable manner, take the action described in (a), (b) or (c) below:

- (b) the Calculation Agent may substitute the relevant Commodity, Commodity Reference Price or Index Component with a Commodity, Commodity Reference Price or Index Component, as the case may be, selected by it in accordance with the criteria set out below (each, a **"Substitute Commodity"**, **"Substitute Commodity Reference Price"** or a **"Substitute Index Component"**) for each Commodity, Commodity Reference Price or Index Component, as the case may be, (each, an **"Affected Commodity"**, **"Affected Commodity Reference Price"** or **"Affected Index Component"**, as the case may be), which is affected by the Market Disruption Event and the

Substitute Commodity, Substitute Commodity Reference Price or Substitute Index Component, as the case may be, will be deemed to be a "**Commodity**", "**Commodity Reference Price**" or an "**Index Component**", as the case may be, for the purposes of the Certificates, and the Calculation Agent will make such adjustment, if any, to any one or more of the Weighting and/or any of the other terms of these Terms and Conditions and/or the applicable Final Terms as the Calculation Agent acting in good faith and in a commercially reasonable manner determines appropriate, provided that in the event that any amount payable under the Certificates was to be determined by reference to the initial price of the Commodity, the Commodity Reference Price or the Index Component, as the case may be, the initial price or level of each Substitute Commodity, Substitute Commodity Reference Price or Substitute Index Component, as the case may be, will be determined by the Calculation Agent acting in good faith and in a commercially reasonable manner.

In order to be selected as a Substitute Commodity, the Substitute Commodity shall be valued on the basis of a futures contract on similar terms to, with a delivery date corresponding with and relating to the same Commodity as the Affected Commodity.

In order to be selected as a Substitute Commodity Reference Price, the Substitute Commodity Reference Price shall be a benchmark, price or quotation selected by the Calculation Agent, acting in good faith and a commercially reasonable manner and which in its determination is or will be used by market participants as a substitute for the Affected Commodity Reference Price.

In order to be selected as a Substitute Index Component, the Substitute Index Component shall be an alternative futures contract or commodity index relating to a futures contract on similar terms to the Affected Index Component.

Such substitution and the relevant adjustment(s) will be deemed to be effective as of the date selected by the Calculation Agent (the "**Substitution Date**") acting in good faith and in a commercially reasonable manner which may, but need not, be the relevant date of the Market Disruption Event. Such substitution will be notified to the Certificateholders as soon as practicable after the Substitution Date in accordance with General Condition 14; or

 - (ii) if the Calculation Agent determines that such Market Disruption Event constitutes a *force majeure*, and if Commodity Linked Certificate Condition 3(c)(ii) is specified in the applicable Final Terms, the Issuer will on giving notice to Certificateholder in accordance with General Condition 14, settle all but not some only of the Certificates and pay to each Certificateholder an amount in respect of each Certificate held by such Certificateholder, which amount shall be equal to the fair market value of a Certificate taking into account such event (provided that no account will be taken of costs (other than such costs that are unavoidable to early settle the Certificates at their fair market value) and no such costs shall be deducted), such amount to be paid to the Certificateholders on the date notified to the Certificateholders in the notice of early settlement.

- (b) Modification and Cessation of Calculation of a Commodity Index

ADDITIONAL TERMS AND CONDITIONS FOR COMMODITY LINKED CERTIFICATES

If (a) on or prior to the last Averaging Date, the last Observation Date, the Final Interest Pricing Date or the Final Pricing Date, the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Commodity Index or in any other way materially modifies that Commodity Index (other than a modification prescribed in that formula or method to maintain the Commodity Index in the event of changes in constituent contracts or commodities and other routine events) (a "**Commodity Index Modification**"), or permanently cancels a relevant Commodity Index and no Successor Commodity Index exists (a "**Commodity Index Cancellation**"), or (b) on any Averaging Date, Observation Date, Interest Pricing Date or other Pricing Date, the Index Sponsor or (if applicable) the Successor Index Sponsor fails to calculate and announce a relevant Commodity Index (a "**Commodity Index Disruption**") and, together with a Commodity Index Modification and a Commodity Index Cancellation, each a "**Commodity Index Adjustment Event**"), then:

- (A) the Calculation Agent shall determine if such Commodity Index Adjustment Event has a material effect on the Certificates and, if so, shall calculate the Relevant Price using, in lieu of a published level for that Commodity Index, the Commodity Fallback Value; or
- (B)
 - (i) the Issuer may settle the Certificates by giving notice to Certificateholders in accordance with General Condition 14. If the Certificates are so settled, the Issuer will pay an amount to each Certificateholder in respect of each Certificate, being settled at an amount equal to the fair market value of a Certificate taking into account the Commodity Index Adjustment Event, less the cost to the Issuer and/or its Affiliates of unwinding any underlying related hedging arrangements all as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, payment being made in such manner as shall be notified to the Certificateholders in accordance with General Condition 14;
 - (ii) if the Calculation Agent determines that such Commodity Index Adjustment Event constitutes a *force majeure*, and if Commodity Linked Certificate Condition 4(b)(B)(ii) is specified in the applicable Final Terms, the Issuer will on giving notice to Certificateholders in accordance with General Condition 14, settle all but not some only of the Certificates and pay to each Certificateholder an amount in respect of each Security held by such Certificateholder, which amount shall be equal to the fair market value of a Certificate taking into account such event (provided that no account will be taken of costs (other than such costs that are unavoidable to early settle the Certificates at their fair market value) and no such costs shall be deducted), such amount to be paid to the Certificateholders on the date notified to the Certificateholders in the notice of early settlement.

Corrections published after the day which is three Commodity Business Days prior to a due date for payment under the Certificates will be disregarded by the Calculation Agent for the purposes of determining the relevant amount.

6. **Rolling Futures Contract Securities**

If the applicable Final Terms specify that the Certificates are "Rolling Futures Contract Securities", the Commodity Reference Price in respect of the Certificates will be valued by reference to rolling futures contracts each of which have delivery months that do not correspond with the term of the Certificates. In such case, on or prior to the Issue Date, the Calculation Agent will select the relevant Futures Contract and for each following day until the Futures Rollover Date such futures contract will be the Futures Contract for the

purposes of the Commodity Reference Price. On each Futures Rollover Date, the Calculation Agent will select another Futures Contract and such contract shall be the Futures Contract for the purposes of the Commodity Reference Price until the next occurring Futures Rollover Date. If on a Futures Rollover Date a Market Disruption Event or a Commodity Index Adjustment Event occurs and it is impossible or materially impracticable for the Calculation Agent to select a Futures Contract and/or at such time hedge the Issuer's obligations in respect of the Securities then the provisions of Commodity Linked Certificate Condition 3 (*Consequence of a Market Disruption Event and Disruption Fallbacks*) and Commodity Linked Certificate Condition 4 (*Adjustments to a Commodity Index*), as applicable, shall apply to the Certificates.

- (ii) If the Knock-in Valuation Time or the Knock-out Valuation Time specified in the Final Terms is the Valuation Time and if any Knock-in Determination Day or Knock-out Determination Day is a Disrupted Day, then, such Knock-in Determination Day or Knock-out Determination Day will be deemed not to be a Knock-in Determination Day or Knock-out Determination Day for the purposes of determining the occurrence of a Knock-in Event or a Knock-out Event.
- (iii) If the Knock-in Valuation Time or the Knock-out Valuation Time specified in the Final Terms is any time or period of time other than the Valuation Time during the regular trading hours on the relevant Exchange and if on any Knock-in Determination Day or Knock-out Determination Day and at any time during the one-hour period that begins or ends at the time on which the relevant price of the Commodity triggers the Knock-in Level or the Knock-out Level, a Market Disruption Event, in each case occurs or exists, then, the Knock-in Event or the Knock-out Event shall be deemed not to have occurred.

8. Automatic Early Redemption Event

If "**Automatic Early Redemption Event**" is specified as applicable in the Final Terms, then unless previously redeemed or purchased and cancelled, if (i) on any Automatic Early Redemption Valuation Date or (ii) in respect of an Automatic Early Redemption Valuation Period if on any or all Automatic Early Redemption Valuation Date(s), as specified in the Final Terms, an Automatic Early Redemption Event occurs, then the Certificates will be automatically redeemed in whole, but not in part, on the Automatic Early Redemption Date immediately following such Automatic Early Redemption Valuation Date or Automatic Early Redemption Valuation Period, as applicable, and the Issuer shall redeem each Certificate of a principal amount equal to the Calculation Amount at an amount in the relevant currency specified in the Final Terms equal to the relevant Automatic Early Redemption Amount.

ADDITIONAL TERMS AND CONDITIONS FOR UNDERLYING INTEREST RATE LINKED CERTIFICATES

ANNEX 8 - ADDITIONAL TERMS AND CONDITIONS FOR UNDERLYING INTEREST RATE LINKED CERTIFICATES

If specified as applicable in the Final Terms, the terms and conditions applicable to Underlying Interest Rate Linked Certificates shall comprise the general conditions and the additional terms and conditions for Underlying Interest Rate Linked Certificates set out below (the "Underlying Interest Rate Linked Certificates Conditions"), together with the terms and conditions as set out in each other Annex which is specified as applicable in the Final Terms and subject to completion in the Final Terms. In the event of any inconsistency between the general conditions and the Underlying Interest Rate Linked Certificates Conditions, the Underlying Interest Rate Linked Certificates Conditions shall prevail. In the event of any inconsistency between the Underlying Interest Rate Linked Certificates Conditions and the Payout Conditions, the Payout Conditions shall prevail. In the event of any inconsistency between (i) the general conditions and/or the Underlying Interest Rate Linked Certificate Conditions and (ii) the Final Terms, the Final Terms, shall prevail.

1. Underlying Interest Rate Determination

In respect of each Underlying Interest Determination Date specified in the applicable Final Terms, the Underlying Interest Rate or, if two or more Underlying Interest Rates are specified in the applicable Final Terms, each Underlying Interest Rate will be determined in the manner specified in the applicable Final Terms.

2. ISDA Determination

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Underlying Interest Rate is to be determined, the Underlying Reference Rate will be the relevant Underlying ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any) specified in the applicable Final Terms. For the purposes of these Underlying Interest Rate Linked Certificate Conditions, "**Underlying ISDA Rate**" means a rate equal to the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent (as defined in the ISDA Definitions) for that swap transaction under the terms of an agreement incorporating the 2021 ISDA Definitions as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Certificates (the "**ISDA Definitions**") and under which:

- (a) the Floating Rate Option is as specified in the applicable Final Terms, provided that, if the Floating Rate Option specified in the applicable Final Terms is EURIBOR, in the event that EURIBOR has been discontinued, such other successor benchmark rate as the financial industry shall have accepted as a successor or substitute rate for EURIBOR;
- (b) the Designated Maturity is a period specified in the applicable Final Terms; and
- (c) the relevant Reset Date is as specified in the applicable Final Terms.

For the purposes of this Condition 2, "**Floating Rate**", "**Calculation Agent**", "**Floating Rate Option**", "**Designated Maturity**" and "**Reset Date**" have the meanings given to those terms in the ISDA Definitions.

3. Screen Rate Determination

i. Screen Rate Determination for Underlying Reference Rates other than SONIA and SOFR

Where Screen Rate Determination is specified in the Final Terms as the manner in which the Underlying Interest Rate is to be determined, the Underlying Reference Rate for each Underlying Interest Rate Determination Date, subject as provided below, will be either:

- (A) the offered quotation; or
- (B) the arithmetic mean (rounded, if necessary, to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations, (expressed as a percentage rate per annum) for the Underlying Reference Rate(s) which appears or appear, as the case may be, on the Relevant Screen Page (or any successor to such page or service) as at the Specified Time indicated in the Final Terms (which will be 11.00 a.m. Brussels time, in the case of EURIBOR) on the

ADDITIONAL TERMS AND CONDITIONS FOR UNDERLYING INTEREST RATE LINKED CERTIFICATES

Underlying Interest Rate Determination Date (as defined below) in question plus or minus (as indicated in the Final Terms) the Margin (if any), all as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded, as provided above) of such offered quotations; or

- (C) in the case of a CMS Rate, the rate for swap transactions in the currency to which the CMS Rate relates with a maturity of the Designated Maturity, expressed as a percentage, which appears on the Relevant Screen Page (or any successor to such page or service) as of the Specified Time on the relevant Underlying Interest Rate Determination Date plus or minus (as indicated in the Final Terms) the Margin (if any) all as determined by the Calculation Agent.

If the Relevant Screen Page is not available, the Calculation Agent shall apply the disruption fallback(s) in respect of the CMS Rate specified in the applicable Final Terms (provided that, if two or more disruption fallbacks are specified, unless otherwise provided in the applicable Final Terms, such disruption fallbacks shall apply in the order specified in the applicable Final Terms, such that if the Calculation Agent determines that the CMS Rate cannot be determined by applying the first specified disruption fallback, then the next specified disruption fallback shall apply).

However, if in relation to any Underlying Interest Rate Determination Date:

- (i) the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the provisions set out in the applicable Final Terms; or
- (ii) a rate or (as the case may be) an arithmetic mean cannot be published in accordance with the applicable laws and regulations (in particular, the BMR) in relation to any Underlying Interest Rate Determination Date,

the Underlying Interest Rate applicable during such Underlying Interest Rate Determination Date will be the last CMS Rate appeared on the Relevant Screen Page multiplied by the relevant Rate Multiplier, if any, plus or minus (as indicated in the applicable Final Terms) the relevant Margin (if any).

In the event that the Calculation Agent determines it is not reasonably practicable to determine the Underlying Interest Rate in such manner, the Underlying Interest Rate will be determined by the Calculation Agent as such rate that it determines would have prevailed but for such impracticability by reference to such source(s) as it may select; or

- (D) in the case of a rate that is based on the yield of a government bond (a "**Government Bond Yield Rate**"), the rate for a generic government bond, expressed as a percentage per annum, with a maturity of the Designated Maturity, which appears on the Relevant Screen Page (or any successor to such page or service) as of the Specified Time on the relevant Underlying Interest Rate Determination Date plus or minus (as indicated in the Final Terms) the Margin (if any) (all as specified in the Final Terms), as determined by the Calculation Agent; or

if the Calculation Agent determines that it is not reasonably practicable to obtain the rate in such manner, the rate will be determined as such rate that the Calculation Agent determines would have prevailed but for such impracticability by reference to such source(s) as it may select.

- (E) In case the rate specified in the Final Terms is a TEC Rate (*Taux de l'Echéance Constante*), the offered quotation, expressed as a percentage rate per annum, with a maturity of the Designated Maturity calculated by the *Comité de Normalisation Obligatoire* (or successor thereto), which appears on the Relevant Screen Page (or any successor to such page or service) as of the Specified Time on the relevant Underlying Interest Rate Determination Date plus or

ADDITIONAL TERMS AND CONDITIONS FOR UNDERLYING INTEREST RATE LINKED CERTIFICATES

minus (as indicated in the Final Terms) the Margin (if any) (all as specified in the Final Terms), as determined by the Calculation Agent.

If the Calculation Agent determines it is not reasonably practicable to determine the rate in such manner, the rate shall be determined by the Calculation Agent on the basis of the linear interpolation of the mid-market prices for each of the two reference French treasury bonds (*Obligation Assimilable du Trésor*) ("OAT"), which would have been used by the Comité de Normalisation Obligataire (or successor thereto) for the calculation of the relevant rate. In order to determine such mid-market prices, the Calculation Agent shall request five active dealers each to provide a quotation of its price at approximately the Specified Time on the Underlying Interest Rate Determination Date in question and shall determine the mid-market prices as the arithmetic mean of such quotations after discarding the highest and lowest of such quotations.

In the case of (A) and (B), the Agency Agreement contains provisions for determining the Underlying Interest Rate in the event that the Relevant Screen Page is not available or if, in the case of (A) above, no such offered quotation appears or, in the case of (B) above, fewer than three such offered quotations appear, in each case as at the Specified Time indicated above or in the Final Terms. The Final Terms may, if agreed by the relevant Dealer, set out such provisions in full (provided that, if two or more disruption fallbacks are specified, unless otherwise provided in the applicable Final Terms, such disruption fallbacks shall apply in the order specified in the applicable Final Terms, such that if the Calculation Agent determines that the Underlying Interest Rate cannot be determined by applying the first specified disruption fallback, then the next specified Disruption Fallback shall apply).

However, if in relation to any Underlying Interest Rate Determination Date:

- (i) the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the provisions set out in the applicable Final Terms; or
 - (ii) a rate or (as the case may be) an arithmetic mean cannot be published in accordance with the applicable laws and regulations (in particular, the BMR) in relation to any Underlying Interest Rate Determination Date,
- ii. the Underlying Interest Rate applicable will be (i) the last offered quotation or (i) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the last offered quotations, (expressed as a percentage rate per annum) for the Underlying Interest Rate, as the case may be, which appeared on the Relevant Screen Page, in each case multiplied by the relevant Rate Multiplier, if any, plus or minus (as indicated in the applicable Final Terms) the relevant Margin (if any). Screen Rate Determination for Underlying Reference Rates being SONIA

Where Screen Rate Determination is specified in the Final Terms as the manner in which the Underlying Reference Rate is to be determined, where "SONIA" is specified as the Underlying Reference Rate in the Final Terms, the Underlying Reference Rate on each Underlying Interest Determination Date will, subject as provided below, be Compounded Daily SONIA plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent.

For the purposes of this Condition 3(ii):

"**Compounded Daily SONIA**" will be calculated by the Calculation Agent on each Underlying Interest Rate Determination Date in accordance with the following formula, and the resulting percentage will be rounded, if necessary, to the fourth decimal place, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{SONIA_{i-pLBD} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

"**d**" means the number of calendar days in the relevant Observation Period;

"**SONIA_i**" means the SONIA Reference Rate for the relevant London Banking Day "**i**";

For the avoidance of doubt, the formula for the calculation of Compounded Daily SONIA only compounds the SONIA Reference Rate in respect of any London Banking Day. The SONIA Reference Rate applied to a day that is a non-London Banking Day will be taken by applying the SONIA Reference Rate for the previous London Banking Day but without compounding.

If, in respect of any London Banking Day in the relevant Observation Period, the Calculation Agent determines that the SONIA Reference Rate is not available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, such SONIA Reference Rate shall, subject to Underlying Interest Rate Linked Certificates Condition 4 (*Benchmark Replacement*), be:

- (C) the Bank of England's Bank Rate (the "**Bank Rate**") prevailing at close of business on the relevant London Banking Day; plus (B) the mean of the spread of the SONIA Reference Rate to the Bank Rate over the previous five London Banking Days on which a SONIA Reference Rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads) to the Bank Rate; or
- (D) if the Bank Rate is not published by the Bank of England at close of business on the relevant London Banking Day, the SONIA Reference Rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding London Banking Day on which the SONIA Reference Rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors).

Subject to Underlying Interest Rate Linked Certificates Condition 4 (*Benchmark Replacement*), if the Underlying Reference Rate cannot be determined in accordance with the foregoing provisions of this Condition 3, the Underlying Reference Rate shall be (A) that determined as at the last preceding Underlying Interest Rate Determination Date (though substituting, where a different Margin is to be applied to the relevant Underlying Interest Rate Determination Date from that

ADDITIONAL TERMS AND CONDITIONS FOR UNDERLYING INTEREST RATE LINKED CERTIFICATES

which applied to the last preceding Underlying Interest Rate Determination Date, the Margin relating to the relevant Underlying Interest Rate Determination Date, in place of the Margin relating to that last preceding Underlying Interest Rate Determination Date) or (B) if there is no such preceding Underlying Interest Rate Determination Date, the Underlying Reference Rate shall be determined by the Calculation Agent in good faith on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with standard market practice.

iii. Screen Rate Determination for Reference Rates being SOFR

Where Screen Rate Determination is specified in the Final Terms as the manner in which the Underlying Reference Rate is to be determined, where "SOFR" is specified as the Underlying Reference Rate in the Final Terms, the Underlying Reference Rate will, subject as provided below, be the Benchmark plus or minus (as specified in the relevant Final Terms) the Margin, all as determined by the Calculation Agent on each Underlying Interest Rate Determination Date.

For this reason, in determining Compounded SOFR in accordance with the specific formula and other provisions set forth herein, the daily SOFR rate for any U.S. Government Securities Business Day that immediately precedes one or more days that are not U.S. Government Securities Business Days will be multiplied by the number of calendar days from and including such U.S. Government Securities Business Day to, but excluding, the following U.S. Government Securities Business Day.

If the Issuer determines that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred in respect of Compounded SOFR (or the daily SOFR used in the calculation hereof) prior to the relevant SOFR Determination Time, then the provisions under this Condition 3(iii) will apply.

"Business Day" means any weekday that is a U.S. Government Securities Business Day and is not a legal holiday in New York and each (if any) Additional Business Centre(s) and is not a date on which banking institutions in those cities are authorised or required by law or regulation to be closed;

"Compounded SOFR" with respect to any Underlying Interest Rate Determination Date, means the rate of return of a daily compound interest investment computed in accordance with the following formula (and the resulting percentage will be rounded, if necessary, to the nearest one hundred- thousandth of a percentage point, with 0.000005 being rounded upwards to 0.00001):

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{SOFR_i \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

If the Issuer or the Calculation Agent determines on or prior to the relevant Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to the then-current Benchmark, the Benchmark Replacement will replace the then-current Benchmark for all purposes relating to the Certificates in respect of all determinations on such date and for all determinations on all subsequent dates. In connection with the implementation of a Benchmark Replacement, the Issuer or the Calculation Agent will have the right to make Benchmark Replacement Conforming Changes from time to time, without any requirement for the consent or approval of the Certificateholders.

Any determination, decision or election that may be made by the Issuer or the Calculation Agent pursuant to this section, including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection:

- (i) will be conclusive and binding absent manifest error;
- (ii) will be made in the sole discretion of the Issuer or the Calculation Agent; and
- (iii) notwithstanding anything to the contrary in the documentation relating to the Certificates, shall become effective without consent from the holders of the Certificates or any other party.

“**Benchmark**” means, initially, Compounded SOFR, as such term is defined above; provided

that if the Calculation Agent determines on or prior to the Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to Compounded SOFR (or the published daily SOFR used in the calculation thereof) or the then-current Benchmark, then “Benchmark” shall mean the applicable Benchmark Replacement.

“**Benchmark Replacement**” means the first alternative set forth in the order below that can be determined by the Calculation Agent as of the Benchmark Replacement Date:

- (i) the sum of: (A) the alternate rate of interest that has been selected or recommended by the Relevant Governmental Body as the replacement for the then-current Benchmark and (B) the Benchmark Replacement Adjustment;
- (ii) the sum of: (A) the ISDA Fallback Rate and (B) the Benchmark Replacement Adjustment; or
- (iii) the sum of: (A) the alternate rate of interest that has been selected by the Calculation Agent or the Issuer as the replacement for the then-current Benchmark giving due consideration to any industry-accepted rate of interest as a replacement for the then-current Benchmark for U.S. dollar-denominated floating rate notes at such time and (B) the Benchmark Replacement Adjustment;

“**Benchmark Replacement Adjustment**” means the first alternative set forth in the order below that can be determined by the Calculation Agent as of the Benchmark Replacement Date:

- (i) the spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) that has been selected or recommended by the Relevant Governmental Body for the applicable Unadjusted Benchmark Replacement;
- (ii) if the applicable Unadjusted Benchmark Replacement is equivalent to the ISDA Fallback Rate, the ISDA Fallback Adjustment; or
- (iii) the spread adjustment (which may be a positive or negative value or zero) that has been selected by the Calculation Agent or the Issuer giving due consideration to any industry-accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the then-current Benchmark with the applicable Unadjusted Benchmark Replacement for U.S. dollar-denominated floating rate notes at such time;

“**Benchmark Replacement Conforming Changes**” means, with respect to any Benchmark Replacement, any technical, administrative or operational changes (including changes to the timing and frequency of determining rates and making payments of interest, rounding of amounts or tenors, and other administrative matters) that the Calculation Agent decides may be appropriate to reflect the adoption of such Benchmark Replacement in a manner substantially consistent with market practice (or, if the Calculation Agent decides that adoption of any portion of such market practice is not administratively feasible or if the Calculation Agent determines that no market practice for use of the Benchmark Replacement exists, in such other manner as the Calculation Agent determines is reasonably necessary);

“**Benchmark Replacement Date**” means the earliest to occur of the following events with respect to the then-current Benchmark (including the daily published component used in the calculation thereof):

- (i) in the case of sub-paragraph (a), (b) or (c) of the definition of “Benchmark Transition Event” below, the later of (a) the date of the public statement or publication of information referenced therein and (b) the date on which the administrator of the Benchmark permanently or indefinitely ceases to provide the Benchmark (or such component); or

ADDITIONAL TERMS AND CONDITIONS FOR UNDERLYING INTEREST RATE LINKED CERTIFICATES

- (ii) in the case of sub-paragraph (d), (e) or (f) of the definition "Benchmark Transition Event" below, the date of the public statement or publication of information referenced therein.

For the avoidance of doubt, if the event that gives rise to the Benchmark Replacement Date occurs on the same day as, but earlier than, the Reference Time in respect of any determination, the Benchmark Replacement Date will be deemed to have occurred prior to the Reference Time for such determination;

"Benchmark Transition Event" means the occurrence of one or more of the following events with respect to the then-current Benchmark (including the daily published component used in the calculation thereof):

- (a) the Benchmark has ceased to be published on the Relevant Screen Page as a result of such benchmark ceasing to be calculated or administered; or
- (b) a public statement by the administrator of the Benchmark that it has ceased, or will cease, publishing such Benchmark permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of such Benchmark); or
- (c) a public statement by the supervisor of the administrator of the Benchmark that such Benchmark has been or will be permanently or indefinitely discontinued; or
- (d) a public statement by the supervisor of the administrator of the Benchmark (as applicable) that means that such Benchmark will be prohibited from being used or that its use will be subject to restrictions or adverse consequences, either generally or in respect of the Certificates; or
- (e) a public statement by the supervisor of the administrator of the Benchmark that, in the view of such supervisor, such Benchmark is no longer representative of an underlying market; or
- (f) it has or will become unlawful for the Calculation Agent or the Issuer to calculate any payments due to be made to any Certificateholder using the relevant Benchmark (as applicable) (including, without limitation, under the BMR, if applicable).

Unless otherwise specified in the relevant Final Terms, the change of the Benchmark methodology does not constitute a Benchmark Transition Event. In the event of a change in the formula and/or (mathematical or other) methodology used to measure the Relevant Benchmark, reference shall be made to the Benchmark based on the formula and/or methodology as change“.

"BMR" means Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No. 596/2014 as amended or replaced from time to time;

"ISDA Fallback Adjustment" means the spread adjustment (which may be a positive or negative value or zero) that would apply for derivatives transactions referencing the ISDA Definitions to be determined upon the occurrence of an index cessation event with respect to the Benchmark;

"ISDA Fallback Rate" means the rate that would apply for derivatives transactions referencing the ISDA Definitions to be effective upon the occurrence of an index cessation date with respect to the Benchmark for the applicable tenor excluding the applicable ISDA Fallback Adjustment;

"Reference Time" with respect to any determination of the Benchmark means (i) if the Benchmark is Compounded SOFR, the SOFR Determination Time, and (ii) if the Benchmark

ADDITIONAL TERMS AND CONDITIONS FOR UNDERLYING INTEREST RATE LINKED CERTIFICATES

is not Compounded SOFR, the time determined by the Calculation Agent after giving effect to the Benchmark Replacement Conforming Changes;

"Relevant Governmental Body" means the Federal Reserve Board and/or the Federal Reserve Bank of New York, or a committee officially endorsed or convened by the Federal Reserve Board and/or the Federal Reserve Bank of New York or any successor thereto; and

"Unadjusted Benchmark Replacement" means the Benchmark Replacement excluding the Benchmark Replacement Adjustment.

Any Benchmark Replacement, Benchmark Replacement Adjustment and the specific terms of any Benchmark Replacement Conforming Changes, determined under this Underlying Interest Rate Linked Certificates Condition 3 will be notified promptly by the Issuer to the Paying Agents and, in accordance with General Condition 14 (*Notices*), the Certificateholders. Such notice shall be irrevocable and shall specify the effective date on which such changes take effect.

The Issuer shall deliver to the the Paying Agents a certificate signed by two authorised signatories of the Issuer:

- (A) confirming (x) that a Benchmark Transition Event has occurred, (y) the relevant Benchmark Replacement and, (z) where applicable, any Benchmark Replacement Adjustment and/or the specific terms of any relevant Benchmark Replacement Conforming Changes, in each case as determined in accordance with the provisions of this Underlying Interest Rate Linked Certificates Condition 3; and
- (B) certifying that the relevant Benchmark Replacement Conforming Changes are necessary to ensure the proper operation of such Benchmark Replacement and/or Benchmark Replacement Adjustment.

If the Underlying Reference Rate cannot be determined in accordance with the foregoing provisions of this Underlying Interest Rate Linked Certificates Condition 3, the Underlying Reference Rate shall be (A) that determined as at the last preceding Underlying Interest Rate Determination Date though substituting, where a different Margin is to be applied to the relevant Underlying Interest Rate Determination Date from that which applied to the last preceding relevant Underlying Interest Rate Determination Date, the Margin relating to the relevant Underlying Interest Rate Determination Date, in place of the Margin relating to that last preceding Underlying Interest Rate Determination Date) or (B) if there is no such preceding Underlying Interest Rate Determination Date, the Underlying Reference Rate shall be determined by the Calculation Agent in good faith on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with standard market practice.

4. Benchmark replacement

In relation to specific Underlying Reference Rate indicated in the Final Terms for the determination of the Underlying Interest Rate, if the Issuer (in consultation with the Calculation Agent (or the person specified in the relevant Final Terms as the party responsible for determining the Underlying Interest Rate) determines that a Administrator/Benchmark Event has occurred, when any Underlying Interest Rate (or the relevant component part thereof) remains to be determined by reference to an Underlying Reference Rate, then the following provisions shall apply.

If the Substitute Rate is specified as "Not applicable" in the relevant Final Terms, then:

- (i) the Issuer shall use the fallback provisions formally recommended by the relevant Relevant Nominating Body with reference to the relevant Underlying Interest Rate. If such recommendation are not available, the following provisions should apply;
- (ii) the Issuer shall use reasonable endeavours to appoint an Independent Adviser for the determination of

ADDITIONAL TERMS AND CONDITIONS FOR UNDERLYING INTEREST RATE LINKED CERTIFICATES

a Successor Rate or of an alternative rate (the "**Alternative Benchmark Rate**") (if the Independent Adviser determines that there is no Successor Rate) and, in either case, an alternative screen page or source (the "**Alternative Relevant Screen Page**") and an Adjustment Spread (if applicable) no later than 10 Business Days prior to the relevant Underlying Interest Rate Determination Date (the "**Underlying Interest Rate Determination Cut-off Date**") for purposes of determining the Underlying Interest Rate applicable to the Certificates for all future Underlying Interest Rate Determination Date (subject to the subsequent operation of this Condition 4). The Alternative Benchmark Rate shall be such rate as the Independent Adviser acting in good faith determines has replaced the relevant Underlying Reference Rate in customary market usage for the purposes of determining floating rates of interest or reset rates of interest in respect eurobonds denominated in the Specified Currency, or, if the Independent Adviser determines that there is no such rate, such other rate as the Independent Adviser acting in good faith believes is most comparable to the relevant Underlying Reference Rate, and the Alternative Relevant Screen Page shall be such page of an information service as displays the Alternative Benchmark Rate;

- (iii) if the Issuer is unable to appoint an Independent Adviser, or if the Independent Adviser cannot select a Successor Rate or an Alternative Benchmark Rate and Alternative Relevant Screen Page prior to the Underlying Interest Rate Determination Cut-off Date in accordance with sub-paragraph (ii) above, then the Issuer (acting in good faith and in a commercially reasonable manner) may determine which (if any) rate has replaced the relevant Underlying Reference Rate in customary market usage for purposes of determining floating rates of interest or reset rates of interest in respect eurobonds denominated in the Specified Currency, or, if it determines that there is no such rate, which (if any) rate is most comparable to the relevant Underlying Reference Rate, and the Alternative Benchmark Rate shall be the rate so determined by the Issuer and the Alternative Relevant Screen Page shall be such page of an information service as displays the Alternative Benchmark Rate; provided however that if this sub-paragraph (iii) applies and the Issuer is unable or unwilling to determine an Alternative Benchmark Rate and Alternative Relevant Screen Page no later than 5 Business Days prior to the relevant Underlying Interest Rate Determination Date in accordance with this sub-paragraph (iii), **then** the Underlying Reference Rate applicable to such Underlying Interest Rate Determination Date shall be equal to the last value published on the Relevant Screen Page to be used for the determination of the Underlying Reference Rate as specified in the applicable Final Terms, multiplied by the relevant Rate Multiplier, if any, plus or minus (as indicated in the applicable Final Terms) the relevant Margin (if any). For the avoidance of doubt, this paragraph shall apply to the relevant next succeeding Underlying Interest Rate Determination Date, and any subsequent Underlying Interest Rate Determination Date are subject to the subsequent operation of, and to adjustment as provided in, the first paragraph of this Condition 4, without prejudice to General Condition 7(G) on the possibility of an early redemption of the Certificates for the occurrence of an Administrator/Benchmark Event;
- (iv) if a Successor Rate or an Alternative Benchmark Rate and an Alternative Relevant Screen Page is determined in accordance with the preceding provisions, such Successor Rate or Alternative Benchmark Rate and Alternative Relevant Screen Page shall be the Underlying Reference Rate and the Relevant Screen Page in relation to the Certificates for all future Underlying Interest Rate Determination Date (subject to the subsequent operation of this Condition 4);
- (v) if the Independent Adviser determines that (a) an Adjustment Spread is required to be applied to the Successor Rate or Alternative Benchmark Rate and (b) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or Alternative Benchmark Rate for each subsequent determination of a relevant Underlying Interest Rate (or a component part thereof) by reference to such Successor Rate or Alternative Benchmark Rate;
- (vi) if a Successor Rate or an Alternative Benchmark Rate and/or Adjustment Spread is determined in accordance with the above provisions, the Independent Adviser may also specify amendments to the Day Count Fraction, Relevant Screen Page, Business Day Convention, Business Days, Underlying Interest Rate Determination Date and/or the definition of Underlying Reference Rate applicable to the Certificates, and the method for determining the fallback rate in relation to the Certificates, in order to follow market practice in relation to the Successor Rate or Alternative Benchmark Rate and/or Adjustment Spread, which amendments shall apply to the Certificates for all future Underlying Interest Rate Determination Dates (subject to the subsequent operation of this Condition 4); and

ADDITIONAL TERMS AND CONDITIONS FOR UNDERLYING INTEREST RATE LINKED CERTIFICATES

- (vii) references to the Underlying Reference Rate in the Conditions and the Final Terms will be deemed to be references to the Successor Rate or to the Alternative Benchmark Rate, as the case may be, including any alternative method for determining such rate as described in paragraphs (v) and (vi) if applicable, the Independent Adviser will notify the Issuer of the foregoing as soon as reasonably practicable and the Issuer will give notice as soon as reasonably practicable to the Certificateholders and the Agent specifying the Successor Rate or Alternative Benchmark Rate, as well as the details described in this paragraph. The replacement by the Successor Rate or by the Alternative Benchmark Rate and the other matters referred to above will (in the absence of manifest error) be final and binding on the Issuer, the Calculation Agent, the Agent and the Certificateholders.

For the avoidance of doubt, no consent of the Certificateholders shall be required for a variation (as applicable) of the Certificates in accordance with paragraphs (v) and (vi) above.

If the Substitute Rate is specified as "Applicable" in the relevant Final Terms, then:

- (i) such rate (and the spread adjustment indicated in the relevant Final Terms, if applicable) and the related screen page or source (indicated in the relevant Final Terms) shall automatically replace the Underlying Reference Rate for purposes of determining the Underlying Interest Rate applicable to the Certificates for all future Underlying Interest Rate Determination Date;
- (ii) references to the Underlying Reference Rate in the Conditions and the Final Terms will be deemed to be references to the Substitute Rate; and
- (iii) the replacement by the Substitute Rate and the other matters referred to above will be final and binding on the Issuer, the Calculation Agent, the Agents and the Certificateholders.

Provided that, if the applicable Final Terms specifies more than one Successor Rate and/or more than one spread adjustment, this means that – if the Calculation Agent cannot determine the first Successor Rate and/or the first spread adjustment – the Underlying Reference Rate shall be substituted by one of the other Substitute Rates in the order specified in the applicable Final Terms and the adjustment spread shall be one of the other alternatives in the order specified in the applicable Final Terms.

Notwithstanding any other provision of this Condition 4, if in the Calculation Agent's opinion there is any uncertainty between two or more alternative courses of action in making any determination or calculation under this Condition 4, the Calculation Agent shall promptly notify the Issuer thereof and the Issuer shall direct the Calculation Agent in writing as to which alternative course of action to adopt. However, if the Calculation Agent determines that no amendments may be made to the terms and conditions of the Certificates to account for the effect of the relevant event or circumstance, (A) the Calculation Agent shall notify the Issuer of the same and the Certificates shall be redeemed in accordance with General Condition 7(G). If the Calculation Agent is not promptly provided with such direction, or is otherwise unable to make such calculation or determination for any reason, it shall notify the Issuer thereof and the Calculation Agent shall be under no obligation to make such calculation or determination and shall not incur any liability for not doing so.

5. **Determination of Underlying Interest Rate**

The Calculation Agent will, on or as soon as practicable after each date on which the Underlying Interest Rate is to be determined, which will be deemed to be a Scheduled Trading Day (the "**Underlying Interest Determination Date**"), determine the Underlying Reference Rate (subject to any Minimum Underlying Reference Rate or Maximum Underlying Reference Rate specified in the applicable Final Terms). The Calculation Agent will notify the Principal Paying Agent of the Underlying Reference Rate as soon as practicable after calculating the same.

6. **Minimum and/or Maximum Underlying Reference Rate**

If the applicable Final Terms specifies a Minimum Underlying Reference Rate, then, in the event that the Underlying Reference Rate determined in accordance with the provisions of Underlying Interest Rate Linked Certificates Conditions 2, 3, 4, 5 and 6 above (as appropriate) is less than such Minimum Underlying Reference Rate, the Underlying Reference Rate shall be such Minimum Underlying Reference Rate.

ADDITIONAL TERMS AND CONDITIONS FOR UNDERLYING INTEREST RATE LINKED CERTIFICATES

If the applicable Final Terms specifies a Maximum Underlying Reference Rate, then, in the event that the Underlying Reference Rate determined in accordance with the provisions of Underlying Interest Rate Linked Certificates Conditions 2, 3, 4, 5 and 6 above (as appropriate) is greater than such Maximum Underlying Reference Rate, the Underlying Reference Rate shall be such Maximum Underlying Reference Rate.

7. Definitions

"Adjustment Spread" means either a spread (which may be a positive or negative value or zero), or the formula or methodology for calculating a spread, in either case, which the Independent Adviser determines is required to be applied to the relevant Successor Rate or the relevant Alternative Benchmark Rate (as the case may be) and is the spread, formula or methodology which:

- (i) in the case of a Successor Rate, is formally recommended, or formally provided as an option for parties to adopt, in relation to the replacement of the Reference Rate with the Successor Rate by any Relevant Nominating Body; or
- (ii) in the case of a Successor Rate if no such recommendation has been made, or in the case of an Alternative Benchmark Rate, the Independent Adviser determines is customarily applied to the relevant Successor Rate or Alternative Benchmark Rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for the Reference Rate; or
- (iii) if no such recommendation has been made, the Independent Adviser determines, is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Underlying Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Benchmark Rate (as the case may be); or
- (iv) if the Independent Adviser determines that no such industry standard is recognised or acknowledged, the Independent Adviser determines (acting in good faith and in a commercially reasonable manner) to be appropriate to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Certificateholders as a result of the replacement of the Underlying Reference Rate with the Successor Rate or the Alternative Benchmark Rate (as the case may be).

"CMS Rate" shall mean the applicable swap rate for swap transactions in the relevant currency with a maturity of the Designated Maturity, expressed as a percentage, which appears on the Relevant Screen Page (or any successor to such page or service) as of the Specified Time on the relevant Underlying Interest Rate Determination Date in question, all as determined by the Calculation Agent.

"Designated Maturity" means, in relation to Screen Rate Determination, the period of time designated in the Underlying Reference Rate.

Section I - Portfolios other than Dynamic Portfolios

1. Determination of the Portfolio Level

1.1 Portfolio Level

The Portfolio Level (PL(t)) is, in respect of any Calculation Date (t), determined by the Calculation Agent, subject to the occurrence or existence of a Portfolio Disruption Event, in accordance with the following formula:

$$PL(t) = [PL(t-1) + Perf(t-1,t) + Fin(t-1,t)] - ReplicationFeeCost(t) - TC(t-1,t)$$

Where:

"PL(0)" means the initial level of the Portfolio as of Calculation Date(0), as specified in the applicable Final Terms or, if no such level is specified, the Specified Denomination.

And with:

- If Crash Put Costs Calculation is specified as applicable in the applicable Final Terms:

$$ReplicationFeeCost(t) \text{ means } (PL(t-1) + Perf(t-1,t) + Fin(t-1,t)) \times CPC(t-1) \times ACT(t-1,t) / \text{TimeBasis}$$

- Otherwise, if Crash Put Costs Calculation is not specified or is specified as not applicable in the applicable Final Terms:

$$ReplicationFeeCost(t) = 0$$

Where

If Weight Reset is specified as applicable in the applicable Final Terms and Calculation Date (t) is a Weight Reset Date:

$$TC(t-1,t) = \sum_{K=1}^{NPC(t-1,t)} \text{Abs} [Q(k,t) - Q(k,t-1) \times \text{AdjustmentFactor}(k,t)] \times S(k,t) \times \text{PortfolioFX}(k,t) \times TCR(k,t)$$

"TCR(k,t)" means in respect of Calculation Date (t) and Portfolio Component (k) the transaction cost of such Portfolio Component (k), as specified in the applicable Final Terms or, if no such level is specified, such Portfolio Component (k) is deemed to be equal to 0.

Otherwise

$$TC(t-1,t) = 0$$

1.2 Performance

The performance component is determined by the Calculation Agent in accordance with the following formula:

$$Perf(t-1,t) = Perf_Component(t-1,t) - Perf_FX(t-1,t) + DivBucket(t)$$

ADDITIONAL TERMS AND CONDITIONS FOR PORTFOLIO LINKED CERTIFICATES

Where:

Perf_Component(t-1,t) =

$$\sum_{k=1}^{NPC(t-1)} \left(Q(k, t-1) \times \left[\text{AdjustmentFactor}(k, t) \times \text{PortfolioFX}(k, t) \times S(k, t) - \text{PortfolioFX}(k, t-1) \times S(k, t-1) \times \left(1 - \text{RepoRate}(k, t-1) \times \frac{\text{Act}(t-1,t)}{\text{TimeBasis}} \right) \right] \right)$$

And

Perf_FX(t-1,t) =

$$\sum_{k=1}^{NPC(t-1)} \left[\text{FXRatio}(k, t-1) \times \text{FXHedgeInd}(k) \times Q(k, t-1) \times \text{PortfolioFX}(k, t-1) \times S(k, t-1) \times \left(\frac{\text{PortfolioFX}(k, t)}{\text{PortfolioFX}(k, t-1)} - 1 \right) \right]$$

And

DivBucket(t) is determined in accordance with Sec. I - Condition 1.4 below.

1.3 Financing Cost

Only if Excess Return is specified as applicable in the applicable Final Terms:

$$\text{Fin}(t-1,t) = - \text{Fin_Underlying}(t-1,t) - \text{Fin_ForexStrat}(t-1,t)$$

If Excess Return is not specified or is specified as not applicable in the applicable Final Terms:

$$\text{Fin}(t-1,t) = \text{PL}(t-1) \times \text{ERate}(t-1) \times \text{ACT}(t-1,t) / \text{TimeBasis} - \text{Fin_Underlying}(t-1,t) - \text{Fin_ForexStrat}(t-1,t)$$

In each case, where:

Fin_Underlying(t-1,t) =

$$\sum_{k=1}^{NPC(t-1)} \left(Q(k, t-1) \times \text{PortfolioFX}(k, t-1) \times S(k, t-1) \times \text{IsFunded}(k) \times \text{ERate}(k, t-1) \times \frac{\text{Act}(t-1,t)}{\text{TimeBasis}} \right)$$

And

Fin_ForexStrat(t-1,t)=

And where:

$$\sum_{k=1}^{NPC(t-1)} \left(\text{FXRatio}(k, t-1) \times \text{FXHedgeInd}(k) \times Q(k, t-1) \times \text{PortfolioFX}(k, t-1) \times S(k, t-1) \times \text{IsFunded}(k) \times (\text{Rate}(k, t-1) - \text{ERate}(k, t-1)) \times \frac{\text{Act}(t-1,t)}{\text{TimeBasis}} \right)$$

“**IsFunded(k)**” means:

Only if Unfunded Component is applicable in respect of Portfolio Component (k):

0

If Unfunded Component is not specified or is specified as not applicable in respect of Portfolio Component (k):

1

ERate(t-1) and each **ERate(k,t-1)** is determined in accordance with the following:

If Excess Return is not specified or is specified as not applicable in the applicable Final Terms:

ADDITIONAL TERMS AND CONDITIONS FOR PORTFOLIO LINKED CERTIFICATES

If Portfolio Ccy Cash Positions Netting is not specified or is specified as not applicable in the Final Terms:

$$ERate(t-1) = RateLong(t-1)$$

If $Q(k,t-1) \geq 0$ then: $ERate(k,t-1) = RateLong(t-1)$

If $Q(k,t-1) < 0$ then:

$$ERate(k,t-1) = RateShort(t-1)$$

Only if Portfolio Ccy Cash Positions Netting is specified as applicable in the applicable Final Terms:

If:

$$PL(t-1) - \sum_{k=1}^{NPC(t-1)} \left(FXRatio(k,t-1) \times (1 - FXHedgeInd(k)) \times Q(k,t_R(t)) \times PortfolioFX(k,t-1) \times S(k,t-1) \times IsFunded(k) \right) \geq 0$$

then:

$$ERate(t-1) = RateLong(t-1) \text{ and } ERate(k,t-1) = RateLong(t-1)$$

Else:

$$ERate(t-1) = RateShort(t-1) \text{ and } ERate(k,t-1) = RateShort(t-1)$$

Only if Excess Return is specified as applicable in the applicable Final Terms

If $Q(k,t-1) \geq 0$ then

$$ERate(k,t-1) = RateLong(t-1)$$

If $Q(k,t-1) < 0$ then

$$ERate(k,t-1) = RateShort(t-1)$$

Each $Rate(k,t-1)$ is determined in accordance with the following:

If $Q(k,t-1) \geq 0$ then: $Rate(k,t-1) = RateShort(k,t-1)$

If $Q(k,t-1) < 0$ then: $Rate(k,t-1) = RateLong(k,t-1)$

1.4 Computation of the quantities $Q(k,t)$

For each Calculation Date(t) and Portfolio Component(k), and subject to any adjustment determined by the Calculation Agent pursuant to a Portfolio Extraordinary Event or a Portfolio Disruption Event, $Q(k,t)$ shall be determined in accordance with the following formula:

- If Weight Reset is specified as applicable and Calculation Date (t) is a Weight Reset Date:

$$Q(k,t) = PL(t-1) \times \frac{InitialWeight(k)}{S(k,t-1) \times PortfolioFX(k,t-1)}$$

- Otherwise

$$Q(k,t) = Q(k,t-1) \times AdjustmentFactor(k,t) \times ReweightFactor(k,t)$$

Where:

unless specified otherwise in the applicable Final Terms:

ADDITIONAL TERMS AND CONDITIONS FOR PORTFOLIO LINKED CERTIFICATES

$$Q(k,0) = PL(0) \times \frac{\text{InitialWeight}(k)}{S(k,0) \times \text{PortfolioFX}(k,0)}$$

And

ReweightFactor(k,t) is determined as follows on each Calculation Date (t) and in respect of each Portfolio Component (k):

If $Q(k,t-1) \geq 0$ then

$$\text{ReweightFactor}(k,t) = \text{ReweightFactorLong}(t)$$

If $Q(k,t-1) < 0$ then

$$\text{ReweightFactor}(k,t) = \text{ReweightFactorShort}(t)$$

ReweightFactorLong(t) is determined as follows on each Calculation Date(t):

If:

$$\text{EffectiveGearingLong}(t-\text{Lag}) > \text{GearingSupLong}$$

Or if:

$$\text{EffectiveGearingLong}(t-\text{Lag}) < \text{GearingInfLong}$$

Or if:

t is a Restriking Date

Or if:

Simultaneous Long and Short Restrikes is specified as Applicable in the applicable Final Terms

And:

Either:

$$\text{EffectiveGearingShort}(t-\text{Lag}) > \text{GearingSupShort}$$

Or:

$$\text{EffectiveGearingShort}(t-\text{Lag}) < \text{GearingInfShort}$$

Or:

$$\text{EffectiveGearingLong}(t-\text{Lag}) + \text{EffectiveGearingShort}(t-\text{Lag}) > \text{GrossGearingSup}$$

Then:

$$\text{ReweightFactorLong}(t) = \frac{\text{PL}(t-1) + \text{Perf}(t-1,t) + \text{Fin}(t-1,t)}{\sum_{K=1}^{NPC(t-1)} [\text{Abs}(Q(k,t-1)) + Q(k,t-1)] \times \text{AdjustmentFactor}(k,t) \times S(k,t) \times \text{PortfolioFX}(k,t)} \times \text{TargetGearingLong}(t) \times 2 \times$$

Else:

$$\text{ReweightFactorLong}(t) = 1$$

For the avoidance of doubt, if neither GearingInfLong nor GearingSupLong nor Simultaneous Long and Short Restrikes is specified in the applicable Final Terms, then ReweightFactorLong(t) shall always be set to 1.

ADDITIONAL TERMS AND CONDITIONS FOR PORTFOLIO LINKED CERTIFICATES

ReweightFactorShort(t) is determined as follows on each Calculation Date (t):

If:

$\text{EffectiveGearingShort}(t-\text{Lag}) > \text{GearingSupShort}$

Or if:

$\text{EffectiveGearingShort}(t-\text{Lag}) < \text{GearingInfShort}$

Or if:

t is a Restriking Date

Or if:

Simultaneous Long and Short Restrikes is specified as Applicable in the applicable Final Terms

And:

Either:

$\text{EffectiveGearingLong}(t-\text{Lag}) > \text{GearingSupLong}$

Or:

$\text{EffectiveGearingLong}(t-\text{Lag}) < \text{GearingInfLong}$

Or:

$\text{EffectiveGearingLong}(t-\text{Lag}) + \text{EffectiveGearingShort}(t-\text{Lag}) > \text{GrossGearingSup}$

Then:

$$\text{ReweightFactorShort}(t) = \frac{\text{PL}(t-1) + \text{Perf}(t-1,t) + \text{Fin}(t-1,t)}{\sum_{K=1}^{NPC(t-1)} [\text{Abs}(Q(k,t-1)) - Q(k,t-1)] \times \text{AdjustmentFactor}(k,t) \times S(k,t) \times \text{PortfolioFX}(k,t)} \times \text{TargetGearingShort}(t) \times 2$$

Else:

$\text{ReweightFactorShort}(t) = 1$

For the avoidance of doubt, if neither GearingInfShort nor GearingSupShort nor Simultaneous Long and Short Restrikes is specified in the applicable Final Terms, then $\text{ReweightFactorShort}(t)$ shall always be set to 1.

EffectiveGearingLong(t-Lag) is determined in accordance with the following

$$\text{EffectiveGearingLong}(t-\text{Lag}) = \frac{\sum_{K=1}^{NPC(t-\text{Lag})} [\text{Abs}(Q(k,t-\text{Lag})) + Q(k,t-\text{Lag})] \times S(k,t-\text{Lag}) \times \text{PortfolioFX}(k,t-\text{Lag})}{2 \times \text{PL}(t-\text{Lag})}$$

$\text{EffectiveGearingShort}(t-\text{Lag})$ is determined in accordance with the following

$$\text{EffectiveGearingShort}(t-\text{Lag}) = \frac{\sum_{K=1}^{NPC(t-\text{Lag})} [\text{Abs}(Q(k,t-\text{Lag})) - Q(k,t-\text{Lag})] \times S(k,t-\text{Lag}) \times \text{PortfolioFX}(k,t-\text{Lag})}{2 \times \text{PL}(t-\text{Lag})}$$

$\text{AdjustmentFactor}(k,t)$ and $\text{DivBucket}(t)$ are determined in accordance with the following on each Calculation Date (t) and in respect of each Portfolio Component (k):

ADDITIONAL TERMS AND CONDITIONS FOR PORTFOLIO LINKED CERTIFICATES

If Reinvestment Method is set to Individual Components or if no Reinvestment Method is specified in the applicable Final Terms:

$$\text{AdjustmentFactor}(k,t) = 1 + (\text{DistRate}(k,t) \times \text{PortfolioDist}(k,t)) / (S(k,t-1) - \text{PortfolioDist}(k,t))$$

$$\text{And DivBucket}(t) = 0$$

If Reinvestment Method is set to Portfolio in the applicable Final Terms:

$$\text{AdjustmentFactor}(k,t) = 1 + (\text{Sum}(j \text{ from } 1 \text{ to } \text{NPC}(t-1)) (0.5 * (\text{Abs}(Q(j,t-1)) + \text{Sign}(Q(k,t-1)) \times Q(j,t-1)) \times \text{PortfolioFX}(j,t-1) \times \text{DistRate}(j,t) \times \text{PortfolioDist}(j,t))) / (\text{Sum}(j \text{ from } 1 \text{ to } \text{NPC}(t-1)) (0.5 * (\text{Abs}(Q(j,t-1)) + \text{Sign}(Q(k,t-1)) \times Q(j,t-1)) \times \text{PortfolioFX}(j,t-1) \times S(j,t-1)))$$

$$\text{And DivBucket}(t) = 0$$

If Reinvestment Method is set to Cash Bucket in the applicable Final Terms:

$$\text{AdjustmentFactor}(k,t) = 1$$

And

$$\text{DivBucket}(t) = \sum_{k=1}^{\text{NPC}(t-1)} \text{DistRate}(k,t) \times \text{PortfolioDisk}(k,t) \times Q(k,t-1) \times \text{PortfolioFX}(k,t-1)$$

1.5 Reference Price

Reference Price means in respect of any Scheduled Calculation Date(t) and any Portfolio Component(k), if no Reference Price is specified in the applicable Final Terms:

- (a) if such Portfolio Component(k) is an Equity Instrument that is a Share or an ETF Share, the official closing price of such Share or ETF Share at the Scheduled Closing Time on such Scheduled Calculation Date(t) (or the Scheduled Closing Time on the Scheduled Trading Day preceding such Scheduled Calculation Date(t), as the case may be);
- (b) if such Portfolio Component(k) is an Equity Instrument that is a Fund Unit, the latest available Net Asset Value dated in respect of such Scheduled Calculation Date(t) as determined by the Calculation Agent;
- (c) if such Portfolio Component(k) is a Commodity Instrument, the official closing price published on the relevant price source as determined by the Calculation Agent;
- (d) if such Portfolio Component(k) a Debt Instrument, the official closing price of such Debt Instrument as determined by the Calculation Agent;
- (e) if such Portfolio Component(k) is an Underlying Index, the official closing level of such Underlying Index as determined by the Underlying Index Calculation Agent on the Scheduled Closing Time on such Scheduled Calculation Date(t) (or the Scheduled Closing Time on the Scheduled Trading Day preceding such Scheduled Calculation Date(t), as the case may be); or
- (f) if such Portfolio Component(k) is a Derivatives Instrument, the closing value of such Derivatives Instrument on such Scheduled Calculation Date(t), as determined by the Calculation Agent.

1.6 Determination of the Crash Put Cost CPC(t)

If:

$$(\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t))) ((\text{Abs}(Q(k,t)) + Q(k,t)) \times S(k,t) \times \text{PortfolioFX}(k,t)) / (2 \times \text{PL}(t)) +$$

$$(\text{Sum}(k \text{ from } 1 \text{ to } \text{NPC}(t))) ((\text{Abs}(Q(k,t)) - Q(k,t)) \times S(k,t) \times \text{PortfolioFX}(k,t)) / (2 \times \text{PL}(t)) > 1$$

Then:

ADDITIONAL TERMS AND CONDITIONS FOR PORTFOLIO LINKED CERTIFICATES

$$CPC(t) = \text{LeverageEff}(t) \times CPLEvel(ADD(t))$$

Else:

$$CPC(t) = 0$$

Where **LeverageEff** is the effective leverage determined as follows

$$\text{LeverageEff}(t) = \text{Max}((\text{Sum}(k \text{ from } 1 \text{ to } NPC(t)) ((\text{Abs}(Q(k,t)) + Q(k,t)) \times S(k,t) \times \text{PortfolioFX}(k,t)) / (2 \times PL(t))) ; (\text{Sum}(k \text{ from } 1 \text{ to } NPC(t)) ((\text{Abs}(Q(k,t)) - Q(k,t)) \times S(k,t) \times \text{PortfolioFX}(k,t)) / (2 \times PL(t))))$$

And the Crash Put Level (**CPLLevel(ADD(t))**) is, in respect of Calculation Date (t), determined by the Calculation Agent based on the value of the Average Decade Down (ADD(t)) as of such date, and in accordance with the CPLLevel table specified in the applicable Final Terms, the CPLLevel table contains the CPLLevel rates applicable for any given level of the Average Decade Down.

The **Average Decade Down ADD(t)** is, in respect of Calculation Date(t), determined by the Calculation Agent in accordance with the following formula:

$$ADD(t) = \text{LeverageLS}(t) \times DDLS + \text{LeverageIMP}(t) \times DDIMP(t)$$

Where

The Long-Short Leverage (**LeverageLS(t)**) is determined as follows on each Calculation Date(t):

$$\text{LeverageLS}(t) = \text{Min}((\text{Sum}(k \text{ from } 1 \text{ to } NPC(t)) ((\text{Abs}(Q(k,t)) + Q(k,t)) \times S(k,t) \times \text{PortfolioFX}(k,t)) / (2 \times PL(t))) ; (\text{Sum}(k \text{ from } 1 \text{ to } NPC(t)) ((\text{Abs}(Q(k,t)) - Q(k,t)) \times S(k,t) \times \text{PortfolioFX}(k,t)) / (2 \times PL(t))))$$

The Implicit Leverage (**LeverageIMP(t)**) is determined as follows on each Calculation Date(t):

$$\text{LeverageIMP}(t) = \text{LeverageEff}(t) - \text{LeverageLS}(t)$$

DDIMP(t) is determined as follows on each Calculation Date(t):

If

$$\sum_{k=1}^{NPC(t)} (Q(k, t)) \times S(k, t) \times \text{PortfolioFX}(k, t) \geq 0$$

Then: $DDIMP(t) = DDIMPLong$

Else: $DDIMP(t) = DDIMPShort$

1.7 Determination of the Portfolio Cash Component Level, “CashPtf(t)”

The Portfolio Cash Component is determined, in respect of Calculation Date(t), in accordance with the following formula :

$$\text{CashPtf}(t) = PL(t) - \sum_{k=1}^{NPC(t)} Q(k, t) \times S(k, t) \times \text{PortfolioFX}(k, t)$$

2. Consequences of Disrupted Days for Valuation Dates or Averaging Dates

If any Valuation Date or Averaging Date specified in the applicable Final Terms (the “**Scheduled Valuation Date**” or the “**Scheduled Averaging Date**”) is a Disrupted Day for a Portfolio, then the Valuation Date or Averaging Date for such Portfolio shall be the first succeeding Scheduled Calculation Date that is not a Disrupted Day in respect of that Portfolio, unless each of the eight Scheduled Calculation Dates immediately following the Scheduled Valuation Date or Scheduled Averaging Date is a Disrupted Day. In that case:

- A. the eighth Scheduled Calculation Date shall be deemed to be the Valuation Date or Averaging Date, notwithstanding the fact that such day is a Disrupted Day; and

ADDITIONAL TERMS AND CONDITIONS FOR PORTFOLIO LINKED CERTIFICATES

- B. the Calculation Agent shall determine the level of the Portfolio on that eighth Scheduled Calculation Date in accordance with the formula for and method of calculating that Portfolio last in effect prior to the occurrence of the first Disrupted Day;

provided that if the Portfolio is included in a Basket, the hereabove provisions shall apply only to the Portfolio affected by the occurrence of a Disrupted Day and the Valuation Date or Averaging Date for each other reference item comprised in the Basket and not affected by a Disrupted Day shall be the Scheduled Valuation Date or the Scheduled Averaging Date;

provided however that

- A. if a Scheduled Averaging Date is a Disrupted Day, the Averaging Date shall be postponed pursuant to the provisions above to the first succeeding Scheduled Calculation Date that is not a Disrupted Day provided it is not also a Scheduled Averaging Date; if on the eighth Scheduled Calculation Date following the Scheduled Averaging Date a Scheduled Calculation Date that is not a Disrupted Day nor another Scheduled Averaging Date has not occurred, then that eighth Scheduled Calculation Date shall be deemed the Averaging Date (irrespective of whether that eighth Scheduled Calculation Date is also a Scheduled Averaging Date), and the Calculation Agent shall make on that day the determinations described in B above, and the good faith estimate of the level of the Portfolio so calculated shall be deemed the Reference Price; and
- B. notwithstanding the foregoing, a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) shall occur not later than the fourth Business Day before the date of any payment to be made under the Certificates on the basis of determinations made on such Valuation Date or Averaging Date. If a Valuation Date or an Averaging Date (postponed as the case may be pursuant to the provisions above) would fall after the fourth Business Day prior to the date of any payment to be made under the Certificates on the basis of determinations made on such Valuation Date or Averaging Date, then that fourth Business Day shall be deemed the Valuation Date or Averaging Date and the Calculation Agent shall make, on that day the determinations described in B above at the latest on such fourth Business Day and the good faith estimate of the level of the Portfolio so calculated shall be deemed the Portfolio Level,

provided however that, all references to the word "fourth" above may be deemed to be a reference to another time limit as determined by the Calculation Agent pursuant to rules applicable to the relevant Clearing System.

For the purposes of this Condition 2, Clearing System means the clearing system through which the Certificates are cleared and settled, as specified in the applicable Final Terms.

3. **Stop-Los Event, Hedging Disruption, Increased Cost of Hedging, Increased Cost of Borrow, Loss of Borrow, Change in Law and consequences**

3.1 **Stop-Loss Event relating to a Portfolio**

If, on any Calculation Date after the initial Valuation Date (excluded) and before the last Valuation Date (included), the Portfolio Level of a Portfolio is affected by a decrease of 80 per cent. or more of its Portfolio Level on the initial Valuation Date (the **Affected Portfolio** and the event, the **Stop-Loss Event**), then the Calculation Agent may decide to:

- A. consider such event as an event triggering an early redemption of the Certificates (hereafter, an **Early Redemption Event**). In that case, the Issuer shall terminate its obligations under the Certificates and shall pay or cause to be paid an amount to each Certificateholder in respect of each Certificate held by such holder, which shall be equal to the fair market value of the Certificates, as the case may be, less the cost to the Issuer and/or any of its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), all as determined by the Calculation Agent in its sole and absolute discretion. Payment will be made in such manner as shall be notified to the Certificateholders in accordance with General Condition 14 (*Notices*); or
- B. continue the Certificates according to their terms.

Subparagraph A shall not apply to Securities to be listed on the Italian exchange (Borsa Italiana S.p.A.).

ADDITIONAL TERMS AND CONDITIONS FOR PORTFOLIO LINKED CERTIFICATES

3.2 Hedging Disruption, Increased Cost of Hedging, Increased Cost of Borrow, Loss of Borrow and consequences

“Hedging Disruption” means, in respect of Certificates that have one or more Portfolio(s) as Reference Item(s) that the Issuer or any of its Affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the price risk of entering into and performing its obligations with respect to the Certificates; or (b) freely realize, recover, receive, repatriate, remit or transfer the proceeds of Hedge Positions as the case may be between accounts within the jurisdiction of the Hedge Positions (the Affected Jurisdiction) or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

“Increased Cost of Hedging” means, in respect of Certificates that have one or more Portfolio(s) as Reference Item(s), that the Issuer or any of its Affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which the Issuer or any of its Affiliates enters into the Hedge Positions in respect of the Certificates) amount of tax, duty, expense or fee (other than brokerage commissions) or costs specified in these Additional Terms and Conditions, and the applicable Final Terms to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk of entering into and performing its obligations with respect to the Certificates or (b) freely realize, recover or remit the proceeds of its Hedge Positions.

“Increased Cost of Borrow” means, in respect of Securities that have one or more Portfolio(s) as Reference Item(s), that the Issuer or any of its Affiliates would incur a materially increased (as compared with circumstances existing on the date(s) on which the Issuer or any of its Affiliates enters into the Hedge Positions in respect of the Certificates) rate to borrow hedging instruments in respect of the Certificates.

“Loss of Borrow” means, in respect of Certificates that have one or more Portfolio(s) as Reference Item(s), that the Issuer or any of its Affiliates is unable, after using commercially reasonable efforts, to borrow (or maintain a borrowing of) hedging instruments with respect to the Certificates in an amount it deems necessary to hedge the equity price risk of entering into and performing its obligations with respect to the Certificates .

In case of the occurrence of a Hedging Disruption, an Increased Cost of Hedging, an Increased Cost of Borrow or a Loss of Borrow relating to a Portfolio (the **Affected Underlying**), the Calculation Agent may:

- A. consider such event as an event triggering an early redemption of the Certificates (hereafter, an **Early Redemption Event**). In that case, the Issuer shall terminate its obligations under the Certificates and shall pay or cause to be paid an amount to each Certificateholder in respect of each Certificate held by such holder, which amount shall be equal to the fair market value of the Certificates, as the case may be, less the cost to the Issuer and/or any of its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), all as determined by the Calculation Agent in its sole and absolute discretion. Payment will be made in such manner as shall be notified to the Certificateholders in accordance with General Condition 14 (*Notices*); or
- B. replace the Affected Underlying by a Similar Portfolio provided that when doing so, the Calculation Agent will make any relevant adjustment it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Securities (subject to any taxes to be withhold or paid). In particular, the Calculation Agent may but shall be under no obligation to remove the Portfolio Component triggering the Hedging Disruption, Increased Cost of Hedging, Increased Cost of Borrow or Loss of Borrow and reinvest its proceeds into the other Portfolio Components, and deduct:
 - a. from the Interest Amount(s) (if any) due under a Certificate on the relevant payment date(s) following the occurrence of the Increased Cost of Hedging, the amount of any new or any increase of, any tax, duty, expense or fee that triggered the occurrence of the Increased Cost of Hedging incurred by the Issuer or any of its affiliates, in relation to the Hedge Positions hedging the payment obligation of the Issuer under the Certificates and such amount to be apportioned pro rata amongst the outstanding Certificates (the **Reduction Amount**"); provided however that if on a Interest Payment Date on which a Reduction Amount shall be deducted from the Interest Amount, the Reduction Amount in respect of the Certificate is higher than such Interest Amount due under one Certificate (prior to the deduction of the Reduction Amount) on such Interest Payment Date, the Interest Amount shall be reduced to zero and the difference between the Reduction Amount and the Interest Amount (prior to the deduction of the Reduction Amount), shall be deducted from the Interest Amount(s) due on one or more of the following

ADDITIONAL TERMS AND CONDITIONS FOR PORTFOLIO LINKED CERTIFICATES

Interest Payment Date(s) (if any), and if a Reduction Amount has not been deducted in all or in part after the occurrence of the last Interest Payment Date under the Certificates, the remaining Reduction Amount shall be deducted from any amount due under the Certificates (if any) or the Settlement Amount whichever comes first (the result of such deduction being floored at zero); or

- b. in the absence of any Interest Amount in respect of the Certificates, (a) from the Call Redemption Amount (if any), the Put Redemption Amount (if any), the Automatic Early Redemption Amount (if any) or the Early Redemption Amount (if any) due under one Certificates, whichever comes first, and (b) in the absence of any Call Redemption Amount, Put Redemption Amount, Automatic Early Redemption Amount and Early Redemption Amount in respect of the Certificates, from the Settlement Amount due under one Certificates on the Maturity Date, in each case after the occurrence of the Increased Cost of Hedging, the Reduction Amount (the result of such deduction being floored at zero).

Subparagraph A shall not apply to Securities to be listed on the Italian exchange (Borsa Italiana S.p.A.).

3.3 Change in Law and consequences

“**Change in Law**” means in respect of Certificates that have one or more Portfolio(s) as Reference Item(s) that, on or after the first to occur of (a) the Issue Date and (b) the first Valuation Date of the Securities (i) due to the adoption of any change in any applicable law or regulation (including without limitation, any law or regulation in respect of tax, solvency or capital requirements) or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines that it has become illegal for the Issuer or any of its Affiliates to hold, acquire or dispose of Hedge Positions, relating to the Reference Item of the Certificates (the **Affected Underlying**).

Upon the occurrence, in the determination of the Calculation Agent, on or prior to the last Valuation Date or the last Averaging Date of a Change in Law, the Calculation Agent will decide to:

- A. consider such event as an event triggering an early redemption of the Certificates (hereafter, an **Early Redemption Event**). In that case, the Issuer shall terminate its obligations under the Certificates and shall pay or cause to be paid an amount to each Certificateholder in respect of each Certificate held by such holder, which amount shall be equal to the fair market value of the Certificates, as the case may be, notwithstanding such illegality, less the cost to the Issuer and/or any of its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), all as determined by the Calculation Agent in its sole and absolute discretion. Payment will be made in such manner as shall be notified to the Certificateholders in accordance with General Condition 14 (*Notices*); or
- B. replace the Affected Underlying by a Similar Portfolio provided that when doing so, the Calculation Agent will make relevant adjustment it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Certificates (subject to any taxes to be withheld or paid). In particular, the Calculation Agent may but shall be under no obligation to remove the Portfolio Component triggering the Change in Law and reinvest its proceeds into the other Portfolio Components.

Subparagraph A shall not apply to Securities to be listed on the Italian exchange (Borsa Italiana S.p.A.).

4. Portfolio Disruption Events

4.1 Consequences of a Portfolio Disruption Event

For the purposes of this Condition:

“**Portfolio Disruption Event**” means a Basket Component Disruption Event or a Market Data Disruption Event, both as determined by the Calculation Agent.

“**Basket Component Disruption Event**” means an Equity Instrument Disruption Event, a Commodity Instrument Disruption Event, a Debt Instrument Disruption Event or a Derivatives Instrument Disruption Event.

ADDITIONAL TERMS AND CONDITIONS FOR PORTFOLIO LINKED CERTIFICATES

If a Portfolio Disruption Event occurs on a Scheduled Calculation Date (a Disrupted Day), then the Calculation Agent shall not calculate the Portfolio Level on such Disrupted Day and the next Calculation Date for all Portfolio Components shall be the first succeeding Scheduled Calculation Date that is not a Disrupted Day for any Portfolio Component as determined by the Calculation Agent, unless each of the eight Scheduled Calculation Dates immediately following the initial Disrupted Day is also a Disrupted Day for any Portfolio Component, in which case:

- i. the eighth Scheduled Calculation Date following the initial Disrupted Day, and each Scheduled Calculation Date that is a Disrupted Day thereafter, shall be deemed to be a Calculation Date (each, a **Disrupted Calculation Date**), notwithstanding the existence of a Portfolio Disruption Event on such date and only for the purpose of determining the Portfolio Level; and
- ii. on each Disrupted Calculation Date, the Calculation Agent shall calculate the Portfolio Level in accordance with the formula for and method of calculating the Portfolio Level as set out in these Conditions provided that:
 - (a) if the Portfolio Disruption Event is a Basket Component Disruption Event in relation to one or more of the Basket Component(s) only (such Basket Component(s) the **Affected Basket Component(s)**):
 - (x) the level or price of the Affected Basket Component(s) shall be calculated using the level or price of such Affected Basket Component(s) last in effect prior to the occurrence of the relevant Basket Component Disruption Event; and
 - (y) the level of each of the Market Data as described in the definition of such Market Data on the relevant date(s) of determination shall be calculated as if no Portfolio Disruption Event existed;
 - (b) if the Portfolio Disruption Event is a Market Data Disruption Event in relation to one or more of the Market Data only (such Market Data the **Affected Market Data**):
 - (x) the level or price of each Basket Component as described in the definition of such Basket Component(s), on the relevant date(s) of determination shall be calculated as if no Portfolio Disruption Event existed; and
 - (y) the level of the Affected Market Data shall be determined in good faith using relevant market indicators on the relevant date(s) of determination; or
 - (c) if the Portfolio Disruption Event comprises both a Basket Component Disruption Event as well as a Market Data Disruption Event:
 - (x) the level or price of the Affected Basket Component(s) shall be calculated using the level or price of such Affected Basket Component last in effect prior to the occurrence of the relevant Basket Component Disruption Event; and
 - (y) the level of the Affected Market Data shall be determined in good faith using relevant market indicators on the relevant date(s) of determination.

For the avoidance of doubt, for the purpose of this Condition 4.1, any Portfolio Component(s) that are neither an Affected Basket Component, nor an Affected Market Data will be valued as of the Disrupted Calculation Date.

Notwithstanding the foregoing, if a Portfolio Disruption Event is continuing on any day falling on or after the first Disrupted Calculation Date, then the Calculation Agent may:

- (a) substitute the relevant Affected Basket Component or Affected Market Data with another instrument (which shall then become a substitute Basket Component or Market Data) provided that when doing so, the Calculation Agent will make any relevant adjustment it determines appropriate to preserve the economic equivalent of the obligations of the Issuer under the Certificates (subject to any taxes to be withhold or paid); or

ADDITIONAL TERMS AND CONDITIONS FOR PORTFOLIO LINKED CERTIFICATES

- (b) consider such event as an event triggering an early redemption of the Certificates (hereafter, an **Early Redemption Event**). In that case, the Issuer shall terminate its obligations under the Certificates and shall pay or cause to be paid an amount to each Certificateholder in respect of each Certificate held by such holder, which amount shall be equal to the fair market value of the Certificates, as the case may be, less the cost to the Issuer and/or any of its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), all as determined by the Calculation Agent in its sole and absolute discretion. Payment will be made in such manner as shall be notified to the Certificateholders in accordance with General Condition 14 (*Notices*).

4.2 Equity Instrument Disruption Event

“Equity Instrument Disruption Event” means, in respect of any Basket Component that is an Equity Instrument,

1. if the Equity Instrument is a Share, an ETF Share or an Underlying Index on the aforementioned, and
 - (a) if the Basket Component Type is "Share" or "ETF", the occurrence or existence of a Share Disruption Event, or

2. if the Equity Instrument is a Fund Unit or an Underlying Index on Funds or any similar instrument specified in the applicable Final Terms, and
 - (a) if the Basket Component Type is "Fund", the occurrence or existence of a Fund Disruption Event, or

Section II - Dynamic Portfolios

1. Introduction

The present section includes a general description of Dynamic Portfolios, including information on the selection method for the composition of the respective Dynamic Portfolio, on costs and fees, on the calculation method and on the adjustments events.

Dynamic Portfolios are subject to all the Conditions provided in Portfolio Linked Certificates Conditions - Section I above, with the following exceptions: (i) each reference to "Calculation Agent" in Section I must be understood as referring to "Portfolio Calculation Agent", and (ii) each reference to "Portfolio Components" in Section I must be understood as referring to "Dynamic Portfolio Components".

In the event of any inconsistency between the Portfolio Linked Certificates Conditions – Section I and the Portfolio Linked Certificates Conditions – Section II, the latter shall prevail.

Dynamic Portfolios are baskets whose composition can be changed during the term. The composition of a Dynamic Portfolio may be modified in accordance with a dynamic selection method for the Portfolio Component, as specified in the description of the respective Dynamic Portfolio.

The Portfolio Calculation Agent makes decisions about the composition of the Dynamic Portfolio, the method of calculating the basket and the Dynamic Portfolio Components, and the publication of the Dynamic Portfolio to the best of its knowledge and belief and in accordance with the respective selection method. The Portfolio Calculation Agent will carry out the calculation and composition of the respective Dynamic Portfolio with the greatest possible care. However, the Portfolio Calculation Agent accepts no obligation or liability with respect to the calculation and composition of the Dynamic Portfolios. The Portfolio Calculation Agent is not liable for direct or indirect losses arising from the incorrect calculation of a Dynamic Portfolio, its composition or the other key parameters, unless they are due to gross negligence or wilful intent on the part of itself, its vicarious agents or their legal representatives. The Portfolio Calculation Agent – without prejudice to possible obligations vis-à-vis licensees – has no obligation vis-à-vis third parties (including investors in Dynamic Portfolios and/or financial intermediaries) to draw attention to any mistakes in the Dynamic Portfolio.

ADDITIONAL TERMS AND CONDITIONS FOR PORTFOLIO LINKED CERTIFICATES

The activities on the part of the Portfolio Calculation Agent do not represent a recommendation by the Portfolio Calculation Agent to make an investment. In particular, the composition, calculation and publication of the Dynamic Portfolios do not in any way imply an assurance or opinion on the part of the Portfolio Calculation Agent with respect to the purchase or sale of a Portfolio Component or of a financial instrument linked to that Dynamic Portfolio.

The Dynamic Portfolios are calculated and composed, as far as possible, in accordance with the following principles:

- The portfolio components in the Dynamic Portfolio should reflect the respective selection method as closely as possible.
- Adjustments to the composition of the Dynamic Portfolio are published without undue delay.
- Dynamic Portfolio Components are tradeable and available to an extent appropriate to the respective selection method.
- Changes in the selection method are communicated with adequate advance notice (generally at least one calendar month).

A description of the dynamic selection method is prepared for each Dynamic Portfolio, describing in particular the possible portfolio components, the calculation and the publication of that Dynamic Portfolio. The respective description of the dynamic selection method (in addition to the description of the respective Dynamic Portfolio contained in this Base Prospectus; see "*Cirdan Dynamic Portfolios*") is available on the website of the Portfolio Calculation Agent.

2. **Parameters**

2.1. **Dynamic selection method**

The description of the respective selection method for the composition of the respective Dynamic Portfolio specifies which financial instruments can be included in the Dynamic Portfolio as portfolio components. The respective selection method may either be specified definitively or may be subject to subsequent modifications by the Portfolio Calculation Agent.

The selection method used in connection with the selection of the Dynamic Portfolio Components is generally restricted to the following financial instruments, which must also comply with additional requirements to the extent specified in the description of the respective selection method:

- a) Equity Instrument
- b) Commodity Instrument
- c) Debt Instrument
- d) Derivatives Instrument
- e) Market Data
- f) Cash components
- g) FX
- h) Interest rates
- i) Indices
- j) Funds, and
- k) other Portfolios.

The Portfolio Calculation Agent may have the right to modify the selection method, to the extent specified in the description of the respective selection method. Any change to the selection method must be published an appropriate period of time (but at least one calendar month) prior to becoming effective on the website of the Portfolio Calculation Agent.

The Portfolio Calculation Agent may remove individual financial instruments from the selection method without at any time notice and without giving reasons.

2.2. **Other parameters of the selection method**

Other parameters of a Dynamic Portfolio are set out in the description of the respective selection method.

2.3. **Management fees, performance fees, set-up fees, rebalancing fees and other costs**

Management fees

ADDITIONAL TERMS AND CONDITIONS FOR PORTFOLIO LINKED CERTIFICATES

The Portfolio Calculation Agent and the person responsible for the selection of the Dynamic Portfolio Components and composition of the Reference Item may receive management fees and other fees for the composition, calculation and maintenance of the respective Dynamic Portfolio. These are specified in more detail in the respective description of the particular dynamic selection method, and will reduce the value of the Dynamic Portfolio and possibly also the value of the Certificate linked to the Dynamic Portfolio. These fees may be variable during the term of the Certificate and may be increased within the range specified in the dynamic selection method for the composition of the basket.

Changes to the applicable fees will be published at least one month prior to the relevant fee becoming effective on the website <https://cirdancapital.com>.

Performance fees

The basket sponsor or the person responsible for the selection of the Dynamic Portfolio Components and composition of the Reference Item may receive a performance fee, if applicable. This performance fee is intended to provide the basket sponsor or the person responsible for the selection of the Dynamic Portfolio Components and composition of the Reference Item with an additional incentive to make steady price gains on the Reference Item by selecting Dynamic Portfolio Components. The basket sponsor or the person responsible for selecting the Dynamic Portfolio Components and composition of the Reference Item may therefore receive an additional remuneration depending on the performance of the Reference Item. The amount of this remuneration is determined either by the fact that a relevant price of the Reference Item at a certain point in time or over a certain period of time is on or above a certain price or, as the case may be, all previous prices of the Reference Item (watermark) or the performance of the Reference Item at a certain point in time or over a certain period of time has achieved a certain performance or the performance of the Reference Item at a certain point in time or over a certain period of time has achieved a higher performance than a certain reference value or benchmark. The Portfolio Calculation Agent shall calculate the performance fee in accordance with the method described in the relevant description of the respective Dynamic Portfolio.

Set-up fees

The Portfolio Calculation Agent may receive a set-up fee, if applicable. This set-up fee is intended to provide the Portfolio Calculation Agent with a basic level of remuneration to compensate the initial work necessary to issue the Certificate. The set-up fee is a fixed amount decided before inception of the Certificate.

Rebalancing fees and other costs

Additional fees are incurred in the event of Ordinary Adjustments of a Dynamic Portfolio in accordance with Sec. II - Condition 4.1 below.

The respective rebalancing fees applicable are described in more detail in the description of the respective Dynamic Portfolio or published on the website of the Portfolio Calculation Agent, and may be modified from time to time by the Portfolio Calculation Agent, to enable the respective Dynamic Portfolio to reflect the fees chargeable for a real investment at all times. Changes to the applicable rebalancing fees will be published on the website of the Portfolio Calculation Agent at least one month prior to becoming effective.

If and to the extent that taxes, fees or other charges would be incurred – or may occur in future – for a real investment in comparable baskets, the Portfolio Calculation Agent may factor such costs into the calculation of the portfolio ("other costs"). Such fees, e.g. distribution fees, resulting from the inclusion of investment funds, structured products etc. in the basket, will be outlined by the respective manager/issuer in the relevant documentation of the Dynamic Portfolio Components (e.g. prospectus). Other costs of the strategy, in particular costs for the provision of collateral which would be incurred in connection with real short positions in derivative financial instruments (e.g. forward transactions), are deducted accordingly from the cash component.

3. Calculation

The respective Dynamic Portfolio is calculated on a regular basis, beginning on the start date specified in the description of the selection method.

3.1. Calculation formula

ADDITIONAL TERMS AND CONDITIONS FOR PORTFOLIO LINKED CERTIFICATES

The value of the Dynamic Portfolio is determined in principle on the basis of the calculation methods described in the respective selection method; the Valuation Price takes the place of the reference price of an individual underlying.

Further information on the calculation of the Valuation Price of a Dynamic Portfolio, such as details of the prices used or the currency conversion, are specified in the description of the respective Dynamic Portfolio.

3.2. Corrections

In the event of calculation errors classified as material by the Portfolio Calculation Agent in its reasonable discretion, values of the Dynamic Portfolio may be corrected, retrospectively if applicable, provided that this is technically possible and makes sense from an economic point of view. Otherwise, no correction is made. Corrections are published on the website of the Portfolio Calculation Agent.

4. Adjustments to the composition of the basket

4.1. Ordinary Adjustment

In principle, the Portfolio Calculation Agent determines the composition of a Dynamic Portfolio itself in the context of the respective dynamic selection method and also decides on the timing and scope of changes (including the weighting of Dynamic Portfolio Components) to the respective Dynamic Portfolio.

An Ordinary Adjustment can be made on any adjustment date. Fees in accordance with Section II - Condition 2.3 above may be incurred for Ordinary Adjustments.

4.2. Extraordinary adjustment

If Portfolio Extraordinary Events occur in relation to a Dynamic Portfolio Components, the Portfolio Calculation Agent adjusts the composition of the respective Dynamic Portfolio, as specified in more detail in the description of the respective dynamic selection method, and may take additional appropriate measures to enable the respective Dynamic Portfolio to be continued.

The objective is to ensure that the respective Dynamic Portfolio can be calculated and replicated continuously even if Portfolio Extraordinary Events. One possible measure, for example, is the removal of constituents from the respective Dynamic Portfolio.

The Portfolio Calculation Agent decides the new composition of the basket and the day from which it becomes effective in each individual case.

5. Notices

All notices pertaining to the respective Dynamic Portfolio are given by publication on the website of the Portfolio Calculation Agent. Such notices shall be deemed to have been given on the date on which they are published.

Notices are given purely for informational purposes and do not represent a precondition for legal effectiveness.

Information about the performance of the respective Dynamic Portfolio will be published on the website of the Portfolio Calculation Agent.

6. Inclusion of further amendment or deletion of proprietary portfolios

The Issuer may include further proprietary Dynamic Portfolios in this Base Prospectus by means of a supplement to the Base Prospectus in accordance with Article 23 of the Prospectus Regulation (see "*Ciradan Dynamic Portfolios*"). Dynamic Portfolios may also be amended or deleted by means of a supplement to the Base Prospectus in accordance with Article 23 of the Prospectus Regulation.

In the event of any inconsistency between the General Conditions and the Credit Linked Conditions, the Credit Linked Conditions shall prevail.

Unless otherwise stated in these Credit Linked Conditions or in the Final Terms, in the event that any day specified in the section "Credit Linked Redemption" in the Final Terms or the last day of any period calculated by reference to calendar days falls on a day that is not a Business Day, such day or last day shall be subject to adjustment in accordance with the applicable Business Day Convention.

In the case of Credit Linked Certificates for which more than one Reference Entity is specified in the Final Terms, all references to "the Reference Entity" herein shall be construed to refer to the Reference Entity in respect of which the relevant determination falls to be made at any relevant time and all related provisions and determinations will be construed accordingly.

For the avoidance of doubt no Credit Linked Certificates will be considered frustrated, or otherwise void or voidable (whether for mistake or otherwise) solely because:

- (a) any relevant Reference Entity does not exist on, or ceases to exist on or following, the Trade Date; and/or
- (b) Obligations, or the Reference Obligation do not exist on, or cease to exist on or following, the Trade Date.

Credit Linked Certificates may take the form of Single Reference Entity Credit Linked Certificates, First-to-Default Credit Linked Certificates, Nth-to-Default Credit Linked Certificates, Linear Basket Credit Linked Certificates or Index Credit Linked Certificates. In the case of Linear Basket Credit Linked Certificates and Index Credit Linked Certificates, the Certificates may be either Non-Tranched ("**Non-Tranched Linear Basket Credit Linked Certificates**" or "**Non-Tranched Index Credit Linked Certificates**", as the case may be) to which either Credit Payment on Maturity or Credit Payment As You Go will apply or Tranched ("**Tranched Linear Basket Credit Linked Certificates**" or "**Tranched Index Credit Linked Certificates**") (as the case may be). Notwithstanding the use of the term "Index", Index Credit Linked Certificates are not Index Linked Certificates. A Credit Linked Certificate may also be a Zero Coupon Certificate.

- (b) the Settlement Method (if applicable) and, where Auction Settlement applies, the applicable Fallback Settlement Method;

ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED CERTIFICATES

- (j) the Transaction Type applicable to each Reference Entity if Physical Settlement Matrix is specified as being applicable in the Final Terms.

Certain elections in respect of Credit Linked Certificates and one or more Reference Entities may be made by specifying that the Physical Settlement Matrix is applicable in the Final Terms. In this case the provisions of Credit Linked Condition 18 apply.

In the case of Index Linked Certificates, certain information relating to the Credit Index will be as specified in the Index Annex named in the Final Terms.

The application of any of Credit Linked Conditions 5, 6, 7, 8 or 9 below shall, for the avoidance of doubt, not preclude the application of any other such Credit Linked Condition either contemporaneously or subsequently and in the event that any such provisions are inconsistent or the Calculation Agent becomes entitled to exercise a discretion under one or more of such provisions, the Calculation Agent may elect in its discretion which provision shall apply and under which provision or provisions it shall exercise its discretion.

1. Redemption of Credit Linked Certificates

- (a) Unless previously redeemed or purchased and cancelled and provided that a Credit Event Determination Date has not occurred in respect of any Reference Entity, the Issuer shall redeem each Credit Linked Certificate on the Maturity Date by payment of the Final Redemption Amount. If a Credit Event Determination Date has occurred in respect of any Reference Entity, the Issuer shall redeem each Credit Linked Certificate as described below. References in these Credit Linked Conditions to a Credit Linked Certificate or a Certificate are, unless the context otherwise requires, to a nominal amount of Credit Linked Certificates equal to the Calculation Amount. Any payment of a "pro rata" amount in respect of a Certificate will be determined by reference to its nominal amount relative to the then Aggregate Nominal Amount of the Certificates.
- (b) Where the Certificates are Single Reference Entity Credit Linked Certificates, if a Credit Event Determination Date has occurred in relation to the Reference Entity, then the Certificates will be settled in accordance with Credit Linked Condition 2 or Credit Linked Condition 3, as applicable or, if the Certificates are Zero/Set Recovery Certificates, the provisions of paragraph (h) below will apply.
- (c) Where the Certificates are First-to-Default Credit Linked Certificates, if a Credit Event Determination Date has occurred in relation to any of the specified Reference Entities, then the Certificates will be settled in accordance with Credit Linked Condition 2 or Credit Linked Condition 3, as applicable, in relation only to the First Reference Entity (as defined in the definition of Credit Event Determination Date) or, if the Certificates are Zero/Set Recovery Certificates, the provisions of paragraph (h) below will apply.

The Reference Entity in respect of which a Credit Event Determination Date has occurred which causes the Trigger to occur is referred to as the "**Triggering Reference Entity**" and the Relevant Number is the number specified as such in the Final Terms. As of the day on which the Calculation Agent determines that a Credit Event Determination Date has occurred in respect of the Relevant Number of References Entities then (i) Credit Linked Condition 2 or Credit Linked Condition 3, as applicable, shall apply in relation only to the Triggering Reference Entity and the Credit Event Determination Date will be deemed to have occurred only as of such day for the purposes of the provisions set out in General Condition 4(g) or (ii) if the Certificates are Zero/Set Recovery Certificates, the provisions of paragraph (h) below will apply.
- (e) Where the Certificates are Non-Tranched Linear Basket Credit Linked Certificates or Non-Tranched Index Credit Linked Certificates to which Credit Payment on Maturity applies, Tranched Linear Basket Credit Linked Certificates, or Tranched Index Credit Linked Certificates, if a Credit Event Determination Date has occurred in respect of any specified Reference Entity then, in respect of each Credit Linked Certificate:
- (i) unless the Credit Linked Certificate is a Zero Coupon Certificate, or unless the Credit Linked Conditions have been specified in the Final Terms not to apply to the relevant interest provisions, the interest calculation basis described in paragraph (j) below will apply; and

ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED CERTIFICATES

- (ii) each Certificate shall be redeemed at the Credit Event Redemption Amount on the Credit Event Redemption Date, subject as provided in paragraph (i) below.

For the avoidance of doubt part (i) of this provision will apply and part (ii) shall continue to apply in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred.

In respect of Tranching Linear Basket Credit Linked Certificates and for the avoidance of doubt, where a Credit Event Determination Date has occurred with respect to a number of Reference Entities that is equal to or less than L (as defined below), then the Credit Event Redemption Amount will be par.

In respect of Tranching Index Credit Linked Certificates and for the avoidance of doubt, where the Attachment Point is not exceeded by the Aggregate Loss Percentage following the occurrence of any Credit Event Determination Date, then the Credit Event Redemption Amount will be par.

Prior to each date on which a payment is due on the Credit Linked Certificates, the Issuer shall procure that Certificateholders are notified in accordance with Condition 13 of each Credit Event that has occurred since the previous payment date, provided that any delay or failure in the delivery of a such notice shall not affect the validity of any Credit Event Determination Date.

- (f) Where the Certificates are Non-Tranching Linear Basket Credit Linked Certificates or Non-Tranching Index Credit Linked Certificates to which Credit Payment As You Go applies, if a Credit Event Determination Date has occurred in respect of any specified Reference Entity: (i) the Issuer shall give notice in each case that a Credit Event Determination Date has occurred (such notice a "**Settlement Notice**") to the Certificateholders in accordance with General Condition 14 and (ii) in respect of each Credit Linked Certificate:
 - (i) the Issuer shall pay as an Instalment Amount for the purposes of General Condition 6(o) an amount equal to the relevant Credit Event Amount, if any, on the relevant Credit Event Payment Date which will be the relevant Instalment Date;
 - (ii) unless the Credit Linked Certificate is a Zero Coupon Certificate, the interest calculation basis described in paragraph (j) below will apply; and
 - (iii) each Certificate shall be redeemed at the Credit Event Redemption Amount on the Credit Event Redemption Date, provided that if on or prior to the Credit Event Redemption Date and save where any Protected Amount is payable, a Credit Event Determination Date has occurred in respect of all the specified Reference Entities each Credit Linked Certificate will be redeemed (together with accrued interest, if any) at the final Credit Event Amount on the final Credit Event Payment Date, subject as provided in paragraph (i) below.

For the avoidance of doubt parts (i) and (ii) of this provision will apply and part (iii) of this provision will continue to apply in relation to each Reference Entity in respect of which a Credit Event Determination Date has occurred.

Any delay in the delivery of a Settlement Notice or failure by the Issuer to deliver a Settlement Notice shall not affect the validity of the Credit Event Determination Date in respect of the affected Reference Entity.

- (g) Where only a part of an issuance of Certificates is credit linked (which will be the case where the Credit Multiplier is less than 1), references in these Credit Linked Conditions to the "Scheduled Maturity Date" shall be references to the Scheduled Maturity Date of the credit linked part of the Certificates only and notwithstanding any other provision of the Conditions, the Maturity Date of the Certificates shall be the later of the Maturity Date determined in accordance with these Credit Linked Conditions, and the final Instalment Date specified in the Final Terms.
- (h) Where the Certificates are Zero/Set Recovery Certificates then if a Credit Event Determination Date has occurred in respect of any Reference Entity (in the case of Single Reference Entity Credit Linked Certificates, Linear Basket Credit Linked Certificates, Index Credit Linked Certificates or First-to-Default Credit Linked Certificates) or in respect of the Triggering Reference Entity (in the case of Nth-to-Default Credit Linked Certificates) then following a Credit Event Determination Date in respect of any such Reference Entity the provisions of Credit Linked Conditions 2 or 3 will not apply but (i) each Single Reference Entity Credit Linked Certificate, First-to-Default Credit Linked Certificate and Nth-to-Default Credit Linked Certificate will be redeemed by payment of the Credit Event Redemption Amount, if any, on the Credit Event Redemption Date

ADDITIONAL TERMS AND CONDITIONS FOR CREDIT LINKED CERTIFICATES

together with accrued interest, if any, and (ii) each Linear Basket Credit Linked Certificate or Index Credit Linked Certificate may be redeemed (or otherwise) as provided in paragraph (e) or (f) above, as applicable and/or paragraph (i) below, if applicable.

- (i) Where any Credit Event Redemption Amount is zero (whether the Certificates are Zero/Set Recovery Certificates or otherwise) then, other than for the payment of any accrued interest or any other due but unpaid amounts, the Certificates will be cancelled as of the Credit Event Redemption Date or, if other, the day on which it is determined that the Credit Event Redemption Amount is or would be, were it to be so calculated in respect of such day, zero with no payment being due other than any final amount of accrued interest or any other due but unpaid amounts. The Issuer will have no further obligations in respect of the Credit Linked Certificates.
- (j) In the case of Linear Basket Credit Linked Certificates or Index Credit Linked Certificates, Credit Linked Condition 4 shall be deemed to be specified as "Not Applicable" in the Final Terms and each Certificate will bear interest pursuant to, and in accordance with, General Condition 4, and for such purposes the aggregate outstanding nominal amount of the Certificates shall be deemed to be the Adjusted Credit Outstanding Nominal Amount or, in the case of each of General Condition 4(a)(y) or 4(b)(v)(B), the Calculation Amount shall be deemed to be each Certificate's pro rata share of the Adjusted Credit Outstanding Nominal Amount, in each case on the relevant Interest Payment Date or the relevant date for payment pursuant to Credit Linked Conditions 5, 6, 7, 8 or 9. For the avoidance of doubt, this sub-paragraph (j) is intended to apply to Linear Basket Credit Linked Certificates or Index Credit Linked Certificates which are Zero Coupon Certificates, subject to the provisions of sub-paragraph (k) below.
- (k) For these purposes "**Adjusted Credit Outstanding Nominal Amount**" means, on any Interest Payment Date or date for payment pursuant to Credit Linked Conditions 5, 6, 7, 8, or 9:

- (1) where such Bond or Loan was issued as a result of an exchange offer, the issue price or amount advanced of the new Bond or Loan resulting from the exchange shall be deemed to be equal to the aggregate Outstanding Principal Balance of the original obligation(s) that were tendered or exchanged (the "**Original Obligation(s)**") at the time of such exchange (determined without regard to market or trading value of the Original Obligation(s)); and
- (2) in the case of a Bond or Loan that is fungible with a prior debt obligation previously issued by the relevant Reference Entity, such Bond or Loan shall be treated as having the same issue price or amount advanced as the prior debt obligation.

 - (v) if one or more entities succeed directly as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the Reference Entity will not be changed in any way as a result of such succession;
 - (vi) if one or more entities succeed, either directly or indirectly, as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations will be the Successor (provided that if two or more entities succeed to an equal percentage of Relevant Obligations, each such entity will be a Successor and these Terms and Conditions and/or the Final Terms will be adjusted as provided below); and
 - (vii) in respect of a Reference Entity which is not a Sovereign, if one entity assumes all of the obligations (including at least one Relevant Obligation) of the Reference Entity, and at the time of the determination either (A) the Reference Entity has ceased to exist, or (B) the Reference Entity is in the process of being dissolved (howsoever described) and the Reference Entity has not issued or incurred any Borrowed Money obligation at any time since the legally effective date of the assumption, such entity (the Universal Successor) will be the sole Successor; and

- (b) An entity may only be a Successor if:
 - (i) either (A) the related Succession Date occurs on or after the Successor Backstop Date, or (B) such entity is a Universal Successor in respect of which the Succession Date occurred on or after 1 January 2014;
 - (ii) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity; and
 - (iii) where the Reference Entity is a Sovereign, such entity succeeded to the Relevant Obligations by way of a Sovereign Succession Event.

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after delivery of a Successor Notice and with effect from the Succession Date, any Successor or Successors under paragraph (a) above, provided that the Calculation Agent will not make any such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations.

The Calculation Agent will make all calculations and determinations required to be made under this definition of Successor on the basis of Eligible Information and will, as soon as practicable after such calculation or determination, make such calculation or determination available for inspection by Certificateholders at the specified office of the Principal Paying Agent or the Guarantor (in the case of Dematerialised Certificates). In calculating the percentages used to determine whether an entity qualifies as a Successor under paragraph (a) above, if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

Where pursuant to paragraphs a(iii), a(iv) or a(vi) or (b) above, more than one Successor has been identified, the Calculation Agent shall adjust such of these Terms and Conditions and/or the Final Terms as it shall determine to be appropriate to reflect that the Reference Entity has been succeeded by more than one Successor (which amendments may, for the avoidance of doubt, include in the case of Tranchised Linear Basket Credit Linked Certificates, such adjustments as the Calculation Agent determines appropriate to the numbers of Reference Entities specified as "H" and "L", having regard to any adjustments made to the notional portfolio to which the Certificates relate) and shall determine the effective date of that adjustment. The Calculation Agent shall be deemed to be acting in a commercially reasonable manner if it adjusts such of these Terms and Conditions and/or the Final Terms in such a manner as to reflect the adjustment to and/or division of any credit derivative transaction(s) related to or underlying the Credit Linked Certificates under the provisions of the 2014 ISDA Credit Derivatives Definitions.

Upon the Calculation Agent making such adjustment, the Issuer shall give notice as soon as practicable to Holders in accordance with General Condition 14 stating the adjustment to these Terms and Conditions and/or the Final Terms and giving brief details of the relevant Successor event.

In respect of Credit Linked Certificates which are Index Credit Linked Certificates, if at any time there is a discrepancy between the Successor determined pursuant to the above and a Successor announced by the Index Sponsor, the Calculation Agent may make such amendments to the Credit Linked Certificates as it determines in a commercially reasonable manner is necessary or desirable to remedy or account for such discrepancy. Any amendment made pursuant to this paragraph shall be notified to Holders in accordance with General Condition 14.

If two or more entities (each, a "Joint Potential Successor") jointly succeed to a Relevant Obligation (the "Joint Relevant Obligation") either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

For the purposes of this definition of "Successor", "succeed" means, with respect to the Reference Entity and its Relevant Obligations, that an entity other than the Reference Entity (i) assumes or becomes liable for such

For purposes of this definition of "Successor", "succeeded" and "succession" shall be construed accordingly. In the case of an exchange offer, the determinations required pursuant to paragraph (a) of this definition of "Successor" shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.

Where pursuant to the provisions above or sub-paragraph (b) of the definition of Reference Entity one or more Reference Entities (each an "**Affected Reference Entity**") and/or the Issuer would, but for this provision, be identified as a Successor to another Reference Entity pursuant to the above provisions but no other entities (that are not Reference Entities or the Issuer) are identified as a Successor in respect of the relevant succession, each Affected Reference Entity and/or the Issuer, as applicable, shall not be regarded as a "Successor" for the purposes of the Certificates and, in respect of each Affected Reference Entity or the Issuer, as applicable, the Calculation Agent shall use reasonable endeavours to (a) select an Alternative Reference Entity to be the Successor in respect of the relevant succession and (b) select an Alternative Reference Obligation to be the Reference Obligation in respect of such Alternative Reference Entity after the relevant succession and the Calculation Agent may make such adjustments to the Conditions and/or the Final Terms as it determines to be necessary or desirable to reflect such Alternative Reference Entity and Alternative Reference Obligation. If the Calculation Agent is unable to select an Alternative Reference Entity or an Alternative Reference Obligation, then: (i) no Successor shall be appointed; (ii) the Affected Reference Entity to which the relevant succession relates shall be deemed to have ceased to be a Reference Entity; (iii) that portion of any interest payable which is referable to the purchase of credit protection purchased by the Issuer under the Certificates in respect of the Affected Reference Entity shall be reduced accordingly as determined by the Calculation Agent in its sole and absolute discretion; and (iv) the Calculation Agent may make such adjustments to the Conditions and/or the Final Terms to account for the Successor Associated Costs, which may include, without limitation, reducing the Final Redemption Amount or the Credit Event Redemption Amount (as the case may be) by an amount equal to the Successor Associated Costs, in each case with effect from the date determined by the Calculation Agent to be the relevant Succession Date.

Any such notice will be effective when given, regardless of the form in which it is delivered. A notice given by telephone will be deemed to have been delivered at the time the telephone conversation takes place. If the notice is delivered by telephone, a written confirmation will be executed and delivered confirming the substance of that notice within one Calculation Agent City Business Day of that notice. For the purposes of determining the day on which an event occurs for purposes of these Credit Linked Conditions, the Calculation Agent will determine the demarcation of days by reference to Greenwich Mean Time (or, if the Reference Entity has a material connection to Japan for these purposes, Tokyo time) irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.

In addition, if a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or, if the Reference Entity has a material connection to Japan for these purposes, Tokyo time), irrespective of the time zone of its place of payment.

16. Provisions taken from the ISDA supplement titled "Additional Provisions for LPN Reference Entities" (published on 15 September 2014)

- (a) If this Credit Linked Condition 16 is specified as applicable in the Final Terms, notwithstanding anything to the contrary in the Credit Linked Conditions, the following provisions will apply: provisions relating to Multiple Holder Obligation will be deemed to be Not Applicable with respect to any Reference Obligation (and any Underlying Loan);
- (b) each Reference Obligation will be an Obligation, notwithstanding anything to the contrary in the Credit Linked Conditions including, but not limited to the definition of "Obligation" in Credit Linked Condition 11, and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity.

For the avoidance of doubt with respect to any LPN Reference Obligation that specifies an Underlying Loan or an Underlying Finance Instrument, the outstanding principal balance shall be determined by reference to the Underlying Loan or Underlying Finance Instrument (as applicable) relating to such LPN Reference Obligation. The Not Subordinated Obligation Characteristic shall be construed by reference to the Prior Reference Obligation;

- (c) the definition of Reference Obligation shall be deleted and the following substituted therefor:

"Reference Obligation" means, as of the Trade Date, each of the obligations listed as a Reference Obligation of the Reference Entity in the Final Terms or set forth on the relevant LPN Reference Obligations List (each a **"Markit Published LPN Reference Obligation"**), as published by Markit Group Limited, or any successor thereto, as of the Trade Date, any Additional LPN and each Additional Obligation"; and

- (d) the following additional definitions shall apply:

"Additional LPN" means any bond issued in the form of a loan participation note (a **"LPN"**) by an entity (the **"LPN Issuer"**) for the sole purpose of providing funds for the LPN Issuer to (a) finance a loan to the Reference

Entity (the "**Underlying Loan**") or (b) provide finance to the Reference Entity by way of a deposit, loan or other Borrowed Money instrument (the "**Underlying Finance Instrument**"), provided that (i) either (x) in the event that there is an Underlying Loan with respect to such LPN the Underlying Loan satisfies the Obligation Characteristics specified in respect of the Reference Entity or (y) in the event that there is an Underlying Finance Instrument with respect to such LPN the Underlying Finance Instrument satisfies the Not Subordinated, Not Domestic Law and Not Domestic Currency Obligation Characteristics; and (ii) the LPN Issuer has, as of the issue date of such obligation, granted a First Ranking Interest over or in respect of certain of its rights in relation to the relevant Underlying Loan or Underlying Finance Instrument (as applicable) for the benefit of the holders of the LPNs.

"**Additional Obligation**" means each of the obligations listed as an Additional Obligation of the Reference Entity in the Final Terms or set forth on the relevant LPN Reference Obligations List (each a "**Markit Published LPN Reference Obligation**"), as published by Markit Group Limited, or any successor thereto, as of the Trade Date.

"**LPN Reference Obligation**" means each Reference Obligation other than any Additional Obligation.

For the avoidance of doubt, any change to the issuer of an LPN Reference Obligation in accordance with its terms shall not prevent such LPN Reference Obligation constituting a Reference Obligation.

Each LPN Reference Obligation is issued for the sole purpose of providing funds for the Issuer to finance a loan to the Reference Entity. For the purposes of the Credit Linked Conditions each such loan shall be an Underlying Loan.

17. Amendment of Credit Linked Conditions

The Calculation Agent may from time to time amend any provision of these Credit Linked Conditions (i) to incorporate and/or reflect (x) further or alternative documents or protocols from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or (y) the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees and/or (ii) in any manner which the Calculation Agent determines in a commercially reasonable manner is necessary or desirable to reflect or account for market practice for credit derivative transactions and/or reflect or account for a Hedge Disruption Event. Any amendment made in accordance with this Credit Linked Condition 17 shall be notified to the Certificateholders in accordance with General Condition 14.

18. Physical Settlement Matrix

If Physical Settlement Matrix is specified as applicable in the Final Terms, the provisions specified as applicable and, if applicable, as amended in each case as set out below, in respect of the applicable Transaction Type(s) set out in the Credit Derivatives Physical Settlement Matrix as published by the International Swaps and Derivatives Association, Inc. on the Date of the Physical Settlement Matrix specified in the Final Terms or, if no such date is specified, on the most recent date on or prior to the Issue Date of the first Tranche (the "**ISDA Physical Settlement Matrix**") shall apply and the relevant provisions of the Final Terms shall be deemed to be completed on this basis and the corresponding line items in the Final Terms may be deleted or reference to 'As per the Physical Settlement Matrix' may be inserted. The ISDA Physical Settlement Matrix will be available at <https://www.isda.org/2021/07/29/credit-derivatives-physical-settlement-matrix-5/> (or any successor website thereto) (which website or any such successor website shall not form part of the Final Terms).

If any additional provisions relating to the Physical Settlement Matrix are specified in the Final Terms, this Credit Linked Condition 18 shall apply to the Credit Linked Certificates.

19. Early redemption of Reference Obligation Only Certificates following a Substitution Event

If the Certificates are Reference Obligation Only Certificates relating to a single Reference Entity and the event set out in paragraph (a) of the definition of Substitution Event above occurs with respect to the Reference Obligation, then:

- (a) interest (if any) shall cease to accrue on the Credit Linked Certificates from and including the Interest Payment Date immediately preceding the relevant Substitution Event Date or, if no Interest Payment Date has occurred, no interest will accrue on the Credit Linked Certificates; and

the Calculation Agent determines is necessary or desirable to the General Conditions or these Credit Linked Conditions to reflect the publication of such Further DC Resolution or DC Resolution, including, without limitation, as a result of the impact or effect of such Further DC Resolution or DC Resolution on the Issuer's Hedging Arrangements.

GUIDANCE ON THE INTERPRETATION OF THE DEFINITION OF “FAILURE TO PAY”

GUIDANCE ON THE INTERPRETATION OF THE DEFINITION OF "FAILURE TO PAY"

1. Summary

This section of the Credit Linked Conditions (the "**Guidance Note**") provides guidance on the interpretation of the definition of "Failure to Pay" in the Credit Linked Conditions where "Credit Deterioration Requirement" is specified as applicable. This Guidance Note is only intended to assist in the determination of whether an event constitutes a Failure to Pay and is not an aid to interpreting the terms of the Credit Linked Conditions more broadly.

2. Intention behind the addition of the Credit Deterioration Requirement to the definition of Failure to Pay

In April 2018, ISDA published a statement from its Board of Directors noting "press reports of instances of credit default swap (CDS) market participants entering into arrangements with corporations that are narrowly tailored to trigger a credit event for CDS contracts while minimising the impact on the corporation, in order to increase payment to the buyers of CDS protection." The ISDA Board of Directors was of the view that "narrowly tailored defaults [...] could negatively impact the efficiency, reliability and fairness of the overall CDS market."

The U.S. Commodity Futures Trading Commission Divisions of Clearing and Risk, Market Oversight, and Swap Dealer and Intermediary Oversight also published a statement that the "CDS market functions based on the premise that firms referenced in CDS contracts seek to avoid defaults, and as a result, the instruments are priced based on the financial health of the reference entity. However, recent arrangements appear to involve intentional, or 'manufactured,' credit events that could call that premise into question"². Similarly, the UK Financial Conduct Authority published a statement that "'manufactured', events [...] can severely harm confidence and trust in the credit derivatives market".³

The Credit Deterioration Requirement related to Failure to Pay was introduced with the intention that a narrowly tailored payment default should not constitute a Failure to Pay Credit Event. It is not possible to devise an exhaustive definition of narrowly tailored payment defaults, but a common feature is that narrowly tailored payment defaults do not, directly or indirectly, result primarily from, or result in, a deterioration in the creditworthiness or financial condition of a Reference Entity. Accordingly, the Credit Deterioration Requirement excludes from the Failure to Pay definition any non-payments that do not directly or indirectly either result from, or result in, a deterioration in the creditworthiness or financial condition of the relevant Reference Entity. This approach has the additional consequence of potentially excluding from the Failure to Pay definition non-payments that are not arranged for the purpose of triggering a Credit Event under a credit derivative transaction, but that are caused by something other than a deterioration in the creditworthiness or financial condition of the relevant Reference Entity.

3. Eligible Information

The Calculation Agent may take into account such Eligible Information as is available to it at the time of its determination, and the Calculation Agent is not obliged to conduct any investigation or solicit additional Eligible Information prior to making a determination when it is assessing (i) whether a Reference Entity experienced a deterioration in its creditworthiness or financial condition and (ii) whether the non-payment directly or indirectly resulted from, or resulted in, such deterioration. Eligible Information may include statements made by the relevant Reference Entity but such statements will not necessarily be determinative.

The Calculation Agent may presume that the Credit Deterioration Requirement is satisfied in the absence of any Eligible Information to suggest the contrary.

4. Assessment of the Credit Deterioration Requirement

- (a) The Credit Deterioration Requirement, when specified as applicable, requires that a non-payment must directly or indirectly result from, or result in, a deterioration in the creditworthiness or financial condition of the relevant Reference Entity in order to qualify as a Failure to Pay Credit Event. It should be noted that the financial condition of the relevant Reference Entity at the time it fails to pay is not conclusive as to whether or not such non-payment resulted from, or resulted in, a deterioration in the creditworthiness or financial condition of that Reference Entity. Rather, there must be a causal link

GUIDANCE ON THE INTERPRETATION OF THE DEFINITION OF “FAILURE TO PAY”

between the non-payment and the deterioration in the creditworthiness or financial condition of the relevant Reference Entity. While the expectation is that the Credit Deterioration Requirement would generally be met by way of a non-payment resulting from such deterioration, the Credit Deterioration Requirement may also be met by a non-payment that results in such deterioration. This is intended to permit a Failure to Pay to occur where a technical, administrative or operational non-payment occurs that does not itself result from a deterioration in creditworthiness or financial condition, but the consequences of such non-payment result in a deterioration in the creditworthiness or financial condition of the relevant Reference Entity.

- (b) Paragraphs 4(c) and 4(d) below respectively set out indicators that the Credit Deterioration Requirement may or may not be satisfied. However, the Calculation Agent will have regard to the broader context in which the non-payment occurred: the factors set out are not exhaustive and no single factor is necessarily conclusive. In circumstances where indicators listed in each of paragraph 4(c) and 4(d) are present, the Calculation Agent will need to assess the various indicators, taking into account the purpose of the Credit Deterioration Requirement and the wider context in which such non-payment occurred.
- (c) Eligible Information that is indicative that the Credit Deterioration Requirement is not satisfied may, without limitation, include the following:
 - (1) Subject to paragraph 5 below, the non-payment arises directly from an arrangement or understanding (whether or not evidenced in writing) between the relevant Reference Entity and one or more entities where an essential purpose of the arrangement or understanding is to create a benefit under a credit derivative transaction referencing such Reference Entity to either a buyer or seller in such capacity by virtue of triggering a Credit Event due to such non-payment.
 - (2) The non-payment did not result in the relevant Reference Entity's other debt obligations generally being accelerated or becoming capable of being accelerated⁴.
 - (3) The relevant Reference Entity had access to sufficient liquidity to meet its debt obligations as they were scheduled to fall due and there is no Eligible Information that such non-payment had a technical, administrative or operational cause.
 - (4) The non-payment was promptly cured following the expiry of the relevant grace period, including a Grace Period deemed under the Credit Linked Conditions.
 - (5) Subject to paragraph 5(b) below, the non-payment related only to debt obligations held by affiliates or other persons not likely to accelerate or take enforcement action.
- (d) Eligible Information that is indicative that the Credit Deterioration Requirement is satisfied may, without limitation, include the following:
 - (1) The relevant Reference Entity previously announced that it was in financial distress and/or seeking to restructure its debt obligations prior to the non-payment occurring, or other Eligible Information indicates that this is the case (such as the entry into the sort of forbearance, standstill or other similar arrangement with creditors described at paragraph 5(a) below).
 - (2) The relevant Reference Entity previously appointed professional financial advisors that specialise in restructuring and/or insolvency situations.
 - (3) The non-payment occurs pursuant to the terms of a creditor process that is overseen by or approved by a court or independent insolvency official.
 - (4) The non-payment related to debt obligations that were, at the time of the non-payment, held by a number of parties.

⁴ This is relevant because the consequences of non-payment to the relevant Reference Entity may be an indicator that a payment default was narrowly tailored and that the Credit Deterioration Requirement is not satisfied. However, a non-payment could also occur as a result of a deterioration in the creditworthiness or financial condition of the relevant Reference Entity in circumstances where the non-payment does not exceed the threshold for cross-default. Accordingly, as with each of the other factors, this is only one of the factors to be considered.

GUIDANCE ON THE INTERPRETATION OF THE DEFINITION OF “FAILURE TO PAY”

- (5) The non-payment occurred because the relevant Reference Entity was not able to refinance (including as a result of general market conditions or external factors) in order to meet its debt obligations when due.
 - (6) The payment date on which the non-payment occurred was a scheduled payment date under the terms of the debt obligation at the time such debt obligation was originally incurred; or if such payment date was amended, it was amended well before the date such non-payment occurred.
 - (7) Regarding whether the non-payment directly or indirectly resulted in a deterioration in the creditworthiness or financial condition of the relevant Reference Entity, following or as a result of the non-payment, any of the following occurs: (i) other debt obligations of the relevant Reference Entity are generally accelerated or capable of acceleration; (ii) the relevant Reference Entity fails to pay in respect of its other debt obligations; and/or (iii) a Bankruptcy occurs in respect of the relevant Reference Entity.
- (e) If a non-payment occurs which arises directly or indirectly from, or is subject to a defence based upon, the matters set out in (a), (b), (c) and (d) of the definition of "Credit Event" set out within Credit Linked Condition 11 (*Definitions applicable to Credit Linked Certificates*) (the "**Relevant Factors**"), even in the absence of the indicators in paragraph 4(d) above, the Calculation Agent may presume the existence of such Relevant Factors to have been a product of a deterioration in the creditworthiness or financial condition of the relevant Reference Entity, absent Eligible Information (such as those indicators listed in paragraph 4(c) above) to the contrary.

5. Forbearance, standstill and other bona fide arrangements

- (a) If a Reference Entity enters into a forbearance, standstill or other similar arrangement with its creditors for bona fide commercial reasons related to a deterioration in its creditworthiness or financial condition, this would rarely result in a determination that the relevant non-payment by that Reference Entity did not directly or indirectly result from a deterioration in the creditworthiness or financial condition of that Reference Entity. Eligible Information that (i) a Reference Entity has entered into such arrangement with its creditors other than on arm's length terms, (ii) no written and binding agreement setting out the terms of such arrangement exists and/or (iii) such arrangement is not entered into between the relevant Reference Entity and a significant portion of its creditors by value, may indicate that such forbearance, standstill or other similar arrangement has not been entered into for bona fide commercial reasons related to the credit deterioration of the relevant Reference Entity.
- (b) Creditors who have hedged their exposure to a Reference Entity using credit derivative transactions may be likely to reject any restructuring of such Reference Entity's debt obligations if the terms of such restructuring would impair the value of such credit derivatives transaction. Accordingly, within the context of a bona fide debt restructuring, if the relevant Reference Entity enters into an arrangement or understanding with such creditors that includes a failure to make a payment with the purpose of causing settlement of such credit derivative transactions so as to increase the likelihood of success of such *bona fide* restructuring, and in circumstances where without such restructuring the relevant Reference Entity would be likely to enter into bankruptcy or similar proceedings, such arrangement or understanding should generally be considered to have the essential purpose of facilitating such restructuring rather than creating a benefit under a credit derivative transaction as described in paragraph 4(c)(1) above.

The Technical Committee guarantees:

- compliance with construction rules; and
- the calculation and publication of the Cirdan Indices.

The Technical Committee may decide to make changes to the construction rules.

Each decision by the Technical Committee (including changes to the composition of the Cirdan Index) will be recorded in minutes published on the internet site www.cirdancapital.com.

The Technical Committee may decide to make changes to the construction and calculation rules of one or several Cirdan Indices. These changes will give rise to the publication of a new General Methodology or a new Specific Methodology, as applicable.

Any additional role performed by the Technical Committee will be specified in the applicable Specific Methodology.

4.2 Meetings of the Technical Committee

Regular Meetings and Extraordinary Meetings are detailed in each Specific Methodology.

5. Composition of the Cirdan Indices

The Cirdan Indices may consist of any type of underlying instrument: an Equity Instrument, a Fund Instrument, an Index Instrument, a Futures Contract Instrument, or a Debt Security Instrument.

6. Publication and communication of the Cirdan Indices

All available information on the Cirdan Indices (the General Methodology, the Specific Methodologies, historical prices, the composition of the Cirdan Indices and the prices of Index Components) can be found easily on the internet site www.cirdancapital.com.

GENERAL METHODOLOGY OF PROPRIETARY INDICES

APPENDIX 1: CALCULATION METHOD OF THE CIRDAN INDICES

Unless otherwise stated in the Specific Methodology, the Cirdan Index is calculated using the following formula:

$$Index(t) = \left(\sum_{i=1}^N q_i \times Act_i(t) \right) \times \left(1 - \frac{TF}{B} \right)^{n(t)}$$

where:

N = number of Index Components at Calculation Date t

Index (t) = level of the Cirdan Index at Calculation Date t , expressed in the Base Currency

q_i = quantity of the Index Component(i)

$Act_i(t)$ = price of the Index Component(i) at Calculation Date t , expressed in the Base Currency

TF = Total Fees of the Cirdan Index, equal to the percentage defined in the Specific Methodology

$n(t)$ = number of calendar or working days, as specified in the Specific Methodology, between the Creation Date of the Cirdan Index and Calculation Date t

B = total number of calendar or working days per year, as specified in the Specific Methodology

4. Quantity of Index Components / Rebalancing mechanism

4.1 General mechanism

The quantity of each Index Component will be modified following a Regular Meeting or a reinvestment of income and profits if the Specific Methodology provides for such a reinvestment, and may also be modified following an Extraordinary Meeting of the Technical Committee or an adjustment as described below.

(a) Continuity of the aggregate value of the Index Components of the Cirdan Index

$$\sum_1^{N_{old}} q_{i,t}^{Old} \times Act_{i,t}^{Old} = \sum_1^{N_{new}} q_{i,t}^{New} \times Act_{i,t}^{New}$$

where:

N_{old} = number of Index Components determined at the previous Meeting of the Technical Committee

N_{new} = number of Index Components determined at the new Meeting of the Technical Committee

$q_{i,t}^{Old}$ = quantity of the Index Component(i) appearing in the previous composition of the Cirdan Index

$Act_{i,t}^{New}$ = price of the Index Component(i) appearing in the new composition of the Cirdan Index at Rebalancing Date t of the Cirdan Index, expressed in the Base Currency

(b) Rebalancing of Index Components at each Rebalancing Date:

$$q_{i,t}^{New} \times Act_{i,t}^{New} \times \left(1 - \frac{TF}{B}\right)^{n(t)} = Weight_{i,t}^{New} \times Index(t)$$

where:

$q_{i,t}^{New}$ = quantity of the Index Component(i) appearing in the new composition of the Cirdan Index

$Act_{i,t}^{New}$ = price of the Index Component(i) appearing in the new composition of the Cirdan Index at Rebalancing Date t of the Cirdan Index, expressed in the Base Currency

$Index(t)$ = level of the Cirdan Index at Rebalancing Date t of the Cirdan Index, expressed in the Base Currency

$Weight_{i,t}^{New}$ = the new weight of each Index Component(i) at Rebalancing Date t

TF = Total Fees of the Cirdan Index equal to the percentage defined in the Specific Methodology

$n(t)$ = number of calendar or working days, as stated in the Specific Methodology, between the Creation Date of the Cirdan Index and Rebalancing Date t

B = total number of calendar or working days per year, as stated in the Specific Methodology

GENERAL METHODOLOGY OF PROPRIETARY INDICES

$$q_{i,t}^{New} \times Act_{i,t}^{New} \times \left(1 - \frac{TF}{B}\right)^{n(t)} = \frac{Index(t)}{N_{new}}$$

where:

N_{new} = number of Index Components determined at the new meeting of the Technical Committee

$q_{i,t}^{New}$ = quantity of the Index Component(i) appearing in the new composition of the Cirdan Index

$Act_{i,t}^{New}$ = price of the Index Component(i) appearing in the new composition of the Cirdan Index at Rebalancing Date t of the Cirdan Index, expressed in the Base Currency

Index(t) = value of the Cirdan Index at Rebalancing Date t of the Cirdan Index, expressed in the Base Currency

TF = Total Fees of the Cirdan Index equal to the percentage defined in the Specific Methodology

$n(t)$ = number of calendar or working days, as stated in the Specific Methodology, between the Creation Date of the Cirdan Index and Rebalancing Date t

B = total number of calendar or working days per year, as stated in the Specific Methodology

4.2 Mechanism specific to reinvestment of income and profits of an Index Component

Each applicable Specific Methodology will specify how income and profits of an Index Component are taken into account.

If the Specific Methodology states that the Cirdan Index takes into account the reinvestment of income and profits of an Index Component, the quantities of the Index Components are readjusted in the following manner to take into account payments of income and profits between two Rebalancing Dates, but without seeking to obtain a equal weighting of the Index Components.

(a) If the income and profits are reinvested in the Cirdan Index:

$$q_{i,t}^{New} = q_{i,t}^{Old} \times \left(1 + \frac{D_t}{\sum_1^N q_{i,t}^{Old} \times Act_{i,t}}\right)$$

where:

D_t = the amount of income and profits at date t, and net of the withholding tax rate applicable in the Index Component(i) Jurisdiction if the Cirdan Index is calculated on the basis of reinvestment of income or profits net of tax.

$$D_t = \sum_1^N q_{i,t}^{Old} \times d_{i,t} \times (1 - WT_i)$$

$q_{i,t}^{Old}$ = the quantity of the Index Component(i) appearing in the previous composition of the Cirdan Index at date t

$q_{i,t}^{New}$ = the quantity of the Index Component(i) appearing in the new composition of the Cirdan Index at date t

$Act_{i,t}$ = the value of the Index Component(i) after the income and profits are paid on date t

$d_{i,t}$ = the gross unit income and profits denominated in euros paid by the Index Component(i) at date t.

WT_i = if the Cirdan Index is calculated on the basis of reinvestment of income or profits net of tax then, in the case of an Index Component(i) whose income or profits are treated as dividends for tax purposes in Index Component(i) Jurisdiction, the dividend withholding tax rate in the Index Component(i) Jurisdiction applicable to dividends paid on such Index Component(i), and in the case of an Index Component(i) whose income or profits are treated as interest for tax purposes in Index Component(i) Jurisdiction, the interest withholding tax

GENERAL METHODOLOGY OF PROPRIETARY INDICES

rate in the Index Component(i) Jurisdiction applicable to interest paid on such Index Component(i), in each case on the assumption that no exemptions or reliefs apply in respect of any such withholding tax; and

if the Cirdan Index is calculated on the basis of reinvestment of gross income and profits, zero.

Index Component(i) Jurisdiction = the jurisdiction of incorporation of the issuer of Index Component(i).

- (b) If the income and profits are reinvested in the Index Components(j'), the above formula in subparagraph (a) will apply for all $I \neq j$ and

$$D_t = \sum_1^N q_{i;t}^{old} \times d_{i;t} \times (1 - WT_i)$$

APPENDIX 2: ADJUSTMENTS OF THE CIRDAN INDICES

1. Adjustments of Equity Instruments

1.1 Events giving rise to adjustments to the Quantities of Equity Instruments

(a) Capital transaction

In the case of a capital increase by incorporation of reserves, profits or bonuses (implemented in the form of a bonus allocation of shares), a division of shares or an aggregation of shares, the Index Calculation Agent may adjust the new quantity of Equity Instruments.

(b) Distribution of cash, rights or securities

In the case of: (a) a distribution of reserves in cash or in listed shares from the portfolio held by the company that issued the shares; (b) a depreciation of capital; (c) an issue of securities by the company with listed preferential subscription rights attached for shareholders, listed priority rights or listed allotment rights; or (d) a bonus issue (other than the bonus issue of shares described in the paragraph above) of listed securities to shareholders, the Index Calculation Agent may adjust the new quantity of Equity Instruments.

1.2 Events giving rise to adjustments to the composition of the Cirdan Index

When one of the events listed below occurs, an Extraordinary Meeting will be held to allow the Technical Committee to take an appropriate decision.

(a) Takeover offer / exchange offer

If the Equity Instruments are the target of a successful takeover or exchange offer, the Technical Committee may choose:

- (i) either to retain the relevant Equity Instruments in the composition of the index;
- (ii) or to remove the relevant Equity Instruments from the composition of the Cirdan Index.

The prices used for the calculation of the Cirdan Index during takeover or exchange offers are:

For a takeover offer: the closing share price until the clearance notice by the market authority has been published and the security is suspended from trading; the takeover price (or successive prices) on the day following the publication of the clearance notices and until trading resumes.

For an exchange offer: the closing share price until the clearance notice by the market authority has been published and the security is suspended from trading; the valuation in euros of the offered security (or successive valuations) on the day following the publication of the clearance notices and until trading resumes.

When an Equity Instrument is the target of a public offer, the Technical Committee may decide to remove it temporarily from the Cirdan Index prior to the announcement of the official result of the offer. Depending on the result of the offer, the Technical Committee shall decide whether or not to remove the affected Equity Instrument from the composition of the Cirdan Index.

(b) Merger

If the Equity Instruments are the target of a successful merger offer, the Index Calculation Agent may choose:

- (i) either to substitute the shares resulting from the merger in the composition of the index;
- (ii) or to remove the relevant Equity Instruments from the composition of the Cirdan Index.

When a stock is the target of a merger offer, the Technical Committee may decide to remove it temporarily from the Cirdan Index prior to the announcement of the official result of the offer.

GENERAL METHODOLOGY OF PROPRIETARY INDICES

Depending on the result of the offer, the Technical Committee shall decide whether or not to remove the affected Equity Instrument from the composition of the Cirdan Index.

(c) Demerger

If the Equity Instruments are the target of a successful demerger offer, the Index Calculation Agent may choose:

- (i) either to substitute the shares resulting from the demerger in the composition of the index;
- (ii) or to remove the relevant Equity Instruments from the composition of the Cirdan Index.

When a stock is the target of a demerger offer, the Technical Committee may decide to remove it temporarily from the Index prior to the announcement of the official result of the offer. Depending on the result of the offer, the Technical Committee shall decide whether or not to remove the affected Equity Instrument from the composition of the Cirdan Index.

(d) Nationalisation

The Index Calculation Agent may remove the affected Equity Instrument from the composition of the Cirdan Index if all the shares or all the assets, or a substantial portion of the assets, of the company that issued the shares are nationalised or expropriated or must be transferred to a governmental agency, authority or entity.

(e) Initiation of bankruptcy or administration proceedings

If the Equity Instrument is affected by the initiation of bankruptcy or administration proceedings, the Index Calculation Agent may remove the affected Equity Instrument from the composition of the Cirdan Index.

(f) Change in listing compartment or stock exchange

In the event of a change in listing compartment or the stock exchange listing the Equity Instrument, the Index Calculation Agent may choose between:

- (i) maintaining the share in the composition;
- (ii) or removing the affected Equity Instrument from the composition of the Cirdan Index.

(g) Delisting

In the event of the termination (or future termination) of the registration, trading or official listing of an Equity Instrument for whatever reason, without the registration, trading or official listing being immediately renewed in a market or a listing system located in the same country as the original stock exchange, the Index Calculation Agent may remove the affected Equity Instrument from the composition of the Cirdan Index.

(h) Modification of the law

In the event of the adoption or modification of any law or regulation (including, without limitation, any tax law) or any new interpretation or modification of the interpretation of any law or regulation applicable by any jurisdiction, court or regulatory authority (including any action taken by a tax authority) that affects an Equity Instrument, the Index Calculation Agent may proceed with the removal of the affected Equity Instrument from the composition of the Cirdan Index.

(i) Hedging disruption

In the event of disruption to the hedging of an Equity Instrument linked to replication of the Cirdan Index, the Index Calculation Agent may proceed with the removal of the affected Equity Instrument from the composition of the Cirdan Index.

(j) Increase in the cost of hedging

GENERAL METHODOLOGY OF PROPRIETARY INDICES

In the event of an increase in the cost of hedging an Equity Instrument linked to replication of the Cirdan Index, the Index Calculation Agent may proceed with the removal of the affected Equity Instrument from the composition of the Cirdan Index.

(k) Other events

In the case of events other than those described above that produce an effect equivalent to that of these events, the rules described shall apply *mutatis mutandis*.

1.3 Suspension of trading, market disruption and price corrections

Any Equity Instrument whose trading is suspended or which suffers from market disruption will be recorded at the closing price preceding its suspension until normal trading resumes.

If a published price used by the Index Calculation Agent is corrected following its publication, the Index Calculation Agent will take this correction into account in the calculation of the Cirdan Index.

2. Adjustments of Index Instruments

When one of the events listed below occurs, an Extraordinary Meeting will be held to allow the Technical Committee to take an appropriate decision.

2.1 Calculation and publication of an Index Instrument by a sponsor

If an Index Instrument ceases to be calculated and/or made public by its sponsor at a Calculation Date, but is calculated and/or published by another person, entity or successor designated by the sponsor or any other competent authority, the reference price of the Index Instrument will be determined based on the price of the Index Instrument as calculated and/or published by the new sponsor.

2.2 Modification of the calculation or replacement of an Index Instrument

If, at a Calculation Date, the sponsor or, if applicable, the new sponsor or any other competent authority makes a material modification to the calculation method of an Index Instrument, or if the sponsor replaces an Index Instrument with a new index, the Calculation Agent may:

- (a) use the modified index or replace the Index Instrument with a new index, as applicable, by multiplying it, if necessary, by a factor that ensures the continuity of the Index Instrument so affected; or
- (b) remove the Index Instrument so affected from the composition of the Cirdan Index.

2.3 Non publication or cessation of the calculation of an Index Instrument

If, at a Calculation Date, the sponsor or the new sponsor does not publish or definitively stops calculating the Index Instrument without providing a new index, or if it is no longer possible to use the index normally in the composition of the Cirdan Index, the Index Calculation Agent may proceed with the removal of the affected Index Instrument from the composition of the Cirdan Index.

2.4 Modification of the law

In the event of the adoption or modification of any law or regulation (including, without limitation, any tax law) or any new interpretation or modification of the interpretation of any law or regulation applicable by any jurisdiction, court or regulatory authority (including any action taken by a tax authority) that affects an Equity Instrument, the Index Calculation Agent may proceed with the removal of the affected Equity Instrument from the composition of the Cirdan Index.

2.5 Hedging disruption

In the event of disruption to the hedging of an Equity Instrument linked to replication of the Cirdan Index, the Index Calculation Agent may proceed with the removal of the affected Equity Instrument from the composition of the Cirdan Index.

GENERAL METHODOLOGY OF PROPRIETARY INDICES

2.6 Increase in the cost of hedging

2.7 Other events

In the case of events other than those described above that produce an effect equivalent to that of these events, the rules described shall apply *mutatis mutandis*.

3. Adjustments of Fund Instruments

3.1 Event giving rise to adjustments of the Quantities of Fund Instruments

When one of the events listed below occurs, an Extraordinary Meeting will be held to allow the Technical Committee to take an appropriate decision.

(a) Consolidation or division of the units of a Fund Instrument

In the case of a consolidation or division of the units of a Fund Instrument, the Index Calculation Agent may proceed with the adjustment of the new quantity of units applicable to this same Fund Instrument.

3.2 Event giving rise to adjustments of the composition of the Cirdan Index

(a) Merger or Demerger

In the case of a conversion of the units of a Fund Instrument into another category of units or shares in the same Fund Instrument, of a merger of a Fund Instrument, of its consolidation or merger with a third party, or of its sale or the divestment of all or nearly all of its assets to a third party, the Index Calculation Agent may: (a) replace the units of the affected Fund Instrument by the type and number of units or other securities and goods that may be received at this conversion, demerger, consolidation, merger, sale or divestment, in order to calculate the value of the unit of the affected Fund Instrument and to proceed with any adjustment (if necessary) to the value of this unit of the affected Fund Instrument; or (b) proceed with the removal of the affected Fund Instrument from the composition of the Cirdan Index.

(b) Suspension of subscriptions or redemptions, change in the subscription or redemption conditions for units of a Fund Instrument

The Calculation Agent may proceed with the removal of the relevant Fund Instrument from the composition of the Cirdan Index if (a) the redemptions or subscriptions in the Fund Instrument are suspended, postponed, reduced, subject to a threshold or any sort of limit or partially executed, or if the Fund Instrument is closed, for any reason whatsoever, without the previous written consent of the Index Calculation Agent or if new redemption and/or subscription fees for such units are imposed; or (b) the notice period for subscriptions and/or redemptions of units is modified without the prior written consent of the Index Calculation Agent.

GENERAL METHODOLOGY OF PROPRIETARY INDICES

the asset manager, the custodian or any other external service provider of the Fund Instrument is no longer able, according to the Index Calculation Agent, to exercise its activity with the same level of care and diligence to that prevailing on the initial entry date of the Fund Instrument in the composition of the Cirdan Index, for any reason including following a legal, regulatory or supervisory decision, or is subject to liquidation or insolvency or bankruptcy proceedings, or fails at any moment to pay its debts when these fall due, or is subject to temporary or definitive withdrawal of its licence or to disciplinary or administrative proceedings from its supervisory authorities or acts fraudulently in relation to the Fund Instrument or any other event which may, in the view of the Index Calculation Agent, have a material adverse effect on the Fund Instrument.

(e) Change in Listing for listed Fund Instruments or official delisting of a Fund Instrument

The Index Calculation Agent may proceed with the removal of the relevant Fund Instrument from the composition of the Cirdan Index in the event of a change in the listing compartment or the exchange listing of the unit or if the Fund Instrument is delisted.

(f) Nationalisation

The Index Calculation Agent may proceed with the removal of the relevant Fund Instrument from the composition of the Cirdan Index if all the units of the Fund Instrument or all or substantially all the assets of the Fund Instrument are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or administration

- is dissolved or has a resolution passed for its dissolution or official liquidation (other than pursuant to a consolidation, amalgamation or merger);
- makes a general assignment or arrangement with or for the benefit of its creditors;
- institutes or has instituted against it, by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official; or (2) has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and such proceeding or petition is instituted or presented by a person or entity not described in clause (i) above and either (A) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (B) is not dismissed, discharged, stayed or restrained in each case within 30 days of the institution or presentation thereof;
- seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for it or for all or substantially all its assets; or

(h) Disruption in the setting of the net asset value or its publication

The Calculation Agent may proceed with the removal of the relevant Fund Instrument from the composition of the Cirdan Index if the Fund Instrument fails to establish its net asset value in compliance with its constitutive documents or to publish its net asset value in compliance with its constitutive documents, or it does not undertake all necessary actions for such determination or publication.

GENERAL METHODOLOGY OF PROPRIETARY INDICES

(i) Modification of the Fund Instrument

The Index Calculation Agent may proceed with the removal of the relevant Fund Instrument from the composition of the Cirdan Index in the case of: (i) any failure on the part of the Fund Instrument Advisor to act in compliance with the investment objectives, risk profile or investment directives of the Fund Instrument; (ii) any restriction imposed by any regulatory body that limits the ability of the Fund Instrument Advisor to buy or sell shares or other assets; (iii) any restriction on the Fund Instrument Advisor's ability to buy or sell shares or other assets for reasons relating to liquidity, adverse market conditions or a decrease in the Fund Instrument's assets when the Index Calculation Agent considers, in each case, that this situation is unlikely to be corrected within a reasonable timeframe; or (iv) any change or modification of the Fund Instrument's documents which, in the reasonable opinion of the Index Calculation Agent, may affect the value of shares or units in the Fund Instrument or the rights of all its holders compared with the situation prevailing at the initial entry of the Fund Instrument in the composition of the Cirdan Index.

For the purposes of the present paragraph, "**Fund Instrument Advisor**" refers to any person performing the role of discretionary investment manager or non-discretionary investment advisor (including a non-discretionary investment advisor of a discretionary investment manager or another non-discretionary investment advisor) for the Fund Instrument.

(j) Holding event

(k) Strategy breach

The Index Calculation Agent may proceed with the removal of the relevant Fund Instrument from the composition of the Cirdan Index in the event of (1) any breach or violation of any strategy, investment objectives or investment guidelines provided in the related Fund Instrument documents, which is likely to affect the value or the risk profile of the Fund Instrument or the rights and remedies of any holders thereof; (2) or, although no modification of the Fund Instrument documents has occurred, a substantial modification in the proportion of the type of assets in which the Fund Instrument invests which, in the reasonable opinion of the Index Calculation Agent, has or is likely to have a material effect on the performance of the Fund Instrument or its risk profile.

(l) Decrease in assets under management

The Index Calculation Agent may proceed with the removal of the relevant Fund Instrument from the composition of the Cirdan Index in the event the Calculation Agent determines over a period of 12 months that the total value of the assets of the Fund Instrument or of the assets managed by the asset manager has fallen by fifty percent (50%) (either due to redemption or decrease in value of such assets).

(m) Holding ratio

The Index Calculation Agent may proceed with the removal of the relevant Fund Instrument from the composition of the Cirdan Index in the event where the net asset value falls below a threshold which in the opinion of the Index Calculation Agent, (i) has or is likely to have a material adverse effect on the management conditions of the Fund Instrument and/or its operating expenses; (ii) or would increase the proportion of units in the Fund Instrument held or likely to be held to such extent that the replication of the Cirdan Index is impaired or is likely to be so.

(n) Regulatory action

The Index Calculation Agent may proceed with the removal of the relevant Fund Instrument from the composition of the Cirdan Index in the event of:

- the cancellation, suspension or revocation of the registration or approval of the Fund Instrument or its shares or units by any governmental, legal or regulatory entity with authority over this Fund Instrument or its shares or units;

GENERAL METHODOLOGY OF PROPRIETARY INDICES

- any change in the legal, tax, accounting, or regulatory treatments of the Fund Instrument or its advisor or manager that is reasonably likely, in the Index Calculation Agent's reasonable opinion, to have an adverse impact on the value of such Fund Instrument units or on any investor therein; or
- any investigation, proceeding or litigation against the Fund Instrument, its administrator advisor or manager by any relevant governmental, legal or regulatory authority involving the alleged violation of the applicable law for any activities relating to or resulting from the operation of the Fund Instrument.

(o) Non-compliance with side letters

The Index Calculation Agent may proceed with the removal of the relevant Fund Instrument from the composition of the Cirdan Index in the event where the asset manager, the custodian or any external service provider to the Fund Instrument does not execute, or breaches, its binding obligations set out in any side letter pertaining to the management of the Fund Instrument or in any other agreement in connection with such Fund Instrument.

(p) Non-compliance by the Fund Instrument with 'know your fund' procedures

The Index Calculation Agent may proceed with the removal of the relevant Fund Instrument from the composition of the Cirdan Index if the Fund Instrument, in the opinion of the Index Calculation Agent, does not comply, either totally or partially, with its 'know your fund' procedures (including notably laundering and counter-financing terrorism due diligences).

(q) Modification of the law

In the event of the adoption or modification of any law or regulation (including, without limitation, any tax law) or any new interpretation or modification of the interpretation of any law or regulation applicable by any jurisdiction, court or regulatory authority (including any action taken by a tax authority) that affects an Equity Instrument, the Index Calculation Agent may proceed with the removal of the affected Equity Instrument from the composition of the Cirdan Index.

(r) Hedging disruption

In the event of disruption to the hedging of an Equity Instrument linked to replication of the Cirdan Index, the Index Calculation Agent may proceed with the removal of the affected Equity Instrument from the composition of the Cirdan Index.

(s) Increase in the cost of hedging

In the event of an increase in the cost of hedging an Equity Instrument linked to replication of the Cirdan Index, the Index Calculation Agent may proceed with the removal of the affected Equity Instrument from the composition of the Cirdan Index.

(t) Other events

In the case of events other than those described above that produce an effect equivalent to that of these events, the rules described shall apply mutatis mutandis.

4. Adjustments of Futures Contract Instruments

When one of the events listed below occurs, an Extraordinary Meeting will be held to allow the Technical Committee to take an appropriate decision.

4.1 Futures Contract Instrument listed by a third party

If a Futures Contract Instrument is not listed by the original stock exchange but is listed by another person or party who has been designated by the original stock exchange or any other competent market authority, the original stock exchange shall be replaced by the so appointed third party.

GENERAL METHODOLOGY OF PROPRIETARY INDICES

4.2 Changes to conditions specific to Futures Contract Instruments or the replacement of Futures Contract Instruments

If the original stock exchange, the third party replacing the original stock exchange or the sponsor of the Futures Contract Instrument makes material changes to the formula or calculation method of the Futures Contract Instrument or makes any other material change to the Futures Contract Instrument (other than a modification provided for in this formula or method to ensure the continuity of the Futures Contract Instrument in case of a change in its underlying instrument), or if the stock exchange, any other competent market authority or the sponsor of the Futures Contract Instrument replaces the Futures Contract Instrument by a new futures contract, the Index Calculation Agent may:

- (a) use the so changed futures contract or replace the Futures Contract Instrument by the new futures contract, as applicable, by a factor that ensures the continuity of the so affected futures contract; or
- (b) proceed with the removal of the Futures Contract Instrument from the composition of the Cirdan Index.

4.3 Termination of the listing of the Futures Contract Instrument

If the listing market ceases to list the Futures Contract Instrument permanently and does not provide a new futures contract, the Index Calculation Agent may proceed with the removal of the relevant Futures Contract Instrument from the composition of the Cirdan Index.

4.4 Calculation and publication of the Futures Contract Instrument by a sponsor

If a Futures Contract Instrument: (i) is not calculated and published by the sponsor of the Futures Contract Instrument but is calculated and published by a successor sponsor deemed acceptable by the Index Calculation Agent; or (ii) is replaced by a successor contract which, in the Index Calculation Agent's opinion, uses the same formula and the same calculation method as those used for the calculation of the Futures Contract Instrument, or a materially similar formula and method, this so changed contract shall be deemed to be the Futures Contract Instrument.

4.5 Publication of the price of the Futures Contract Instrument

The Index Calculation Agent may proceed with the removal of the relevant Futures Contract Instrument of the stock exchange or, if applicable, the sponsor of the Futures Contract Instrument does not publish the price of the Futures Contract Instrument.

4.6 Modification of the law

In the event of the adoption or modification of any law or regulation (including, without limitation, any tax law) or any new interpretation or modification of the interpretation of any law or regulation applicable by any jurisdiction, court or regulatory authority (including any action taken by a tax authority) that affects a Futures Contract Instrument, the Index Calculation Agent may proceed with the removal of the affected Equity Instrument from the composition of the Cirdan Index.

4.7 Hedging disruption

In the event of disruption to the hedging of a Futures Contract Instrument linked to replication of the Cirdan Index, the Index Calculation Agent may proceed with the removal of the affected Futures Contract Instrument from the composition of the Cirdan Index.

4.8 Increase in the cost of hedging

In the event of an increase in the cost of hedging a Futures Contract Instrument linked to replication of the Cirdan Index, the Index Calculation Agent may proceed with the removal of the affected Futures Contract Instrument from the composition of the Cirdan Index.

4.9 Other events

In the case of events other than those described above that produce an effect equivalent to that of these events, the rules described shall apply *mutatis mutandis*.

GENERAL METHODOLOGY OF PROPRIETARY INDICES

5. Adjustment of Debt Security Instrument

5.1 Market disruption affecting a Debt Security Instrument

If any Calculation Date is a Disrupted Day, such Calculation Date shall be the next following Exchange Business Day, or as the case may be, the next following business day, unless each of the 5 Exchange Business Days or each 5 business days immediately following the initially specified Calculation Date is a Disrupted Day.

In such case, (1) such fifth Disrupted Day shall be deemed to be the Calculation Date notwithstanding that such day is a Disrupted Day and (2) the Index Calculation Agent shall determine in good faith the value of the Debt Security Instrument on such fifth Disrupted Day.

For the purposes of this 5.1:

"Market Disruption Event" means any suspension or limitation on trading imposed by the Exchange or any suspension or limitation on trading on listed options contracts or futures contracts relating to the Debt Security Instrument, which the Index Calculation Agent determines is material and which occurs at any time during the one-hour period prior to the relevant Calculation Date or any suspension of publication on the relevant Bloomberg page and the unavailability of prices from at least two market participants.

"Disrupted Day" means (i) any day on which the Exchange or, as applicable, the Related Exchange is not open for trading during its regular trading session, or any day on which a Market Disruption Event has occurred or (ii) for a Debt Security Instrument that is not traded on an exchange or regulated market, any Calculation Date on which a Market Disruption Event has occurred.

"Related Market" means an organised market on which a Debt Security Instrument are traded or any successor market that may be nominated by the Index Calculation Agent.

5.2 Events giving rise to adjustments of Debt Securities Instruments

When one of the events listed below (an **"Event"** on an **"Event Effective Date"**), the Index Calculation Agent may, as regards a Cirdan Index in respect of which the Event Effective Date falls on or prior to the Calculation Date continue to perform its obligations, subject to such adjustments as it considers necessary. To this end, the Index Calculation Agent shall apply:

- (i) the same method as that applied by the Related Exchange (if applicable) or any other relevant authority (the **"Related Exchange Method"**); or
- (ii) the methods described in paragraphs 5.2 et seq. below to adapt the Cirdan Index to the modifications to the Debt Security Instrument or its substitution (the **"Calculation Agent Method"**); or
- (iii) the liquidation adjustment method (the **"Liquidation Method"**) the effect of which is to change the manner in which the Cirdan Index is determined to take account:
 - (i) of the amount of the liquidation proceeds of the relevant Debt Security Instrument which shall be net of all fees, costs and taxes, if any, capitalised between the date of receipt of such liquidation proceeds and the Calculation Date at the EONIA Rate (Bloomberg code: EONCAPL7) in place of the Reference Price of the relevant Debt Security Instrument, used in the determination of the Cirdan Index and, if applicable,
 - (ii) the sum of the Debt Security Instrument affected by the Event, calculated between the Creation Date and the liquidation date, each coupon shall be capitalised (provided that only coupons due for at least one entire year may be capitalised) between the date of its receipt and the Calculation Date at the EONIA Rate (Bloomberg code: EONCAPL7) in place of the sum of the relevant Debt Security Instrument used in the determination of the Cirdan Index.

If the Index Calculation Agent determines that the Related Exchange Method or Calculation Agent Method or Liquidation Method is technically impossible to implement or inappropriate, it may make any other adjustment it deems necessary. Similarly, if the relevant Debt Security Instrument is not governed by English law, the methods described in paragraphs 5.2(d) et seq. and following below may be modified to ensure compliance with local commercial practices and/or regulations. Any adjustment

GENERAL METHODOLOGY OF PROPRIETARY INDICES

decided by the Index Calculation Agent shall take effect on each Calculation Date subsequent to the Event.

(iv) Correction of the Reference Price

If the Reference Price published by the Exchange or obtained by the Index Calculation Agent, as the case may be, is corrected to a material extent after the Calculation Date, then the corrected price shall be deemed to be the Reference Price applicable on the Calculation Date.

(v) Merger

In the event that the company issuing the Debt Security Instrument merges with, or is absorbed by, another issuer company (other than a merger of which the issuer company is the surviving entity) (the "**Merger**"), the Index Calculation Agent may elect to (a) replace the Debt Security Instrument with substitute debt securities or (b) remove the relevant Debt Security Instrument from the composition of the Cirdan Index.

(vi) Spin-off

In the event of a spin-off of the company issuing the Debt Security Instrument (the "**Spin-off**"), the Index Calculation Agent may elect to either (a) replace the Debt Security Instrument with substitute debt securities or (b) remove the relevant Debt Security Instrument from the composition of the Cirdan Index.

(vii) Insolvency, restructuring and deterioration of the company

The Index Calculation Agent may adjust the Reference Price, including by removing the relevant Debt Security Instrument from the composition of the Cirdan Index (a) in the event of a Debt Security Instrument Bankruptcy, (b) acceleration of the Debt Security Instrument, (c) restructuring of the Debt Security Instrument, either by a reduction of the initially specified rate or amount of interest payable or accruing, a reduction in the amount of any premium or principal due at maturity or on the initially specified redemption dates, or any postponement of any date or dates on which it is provided (x) that an interest payment is to be made or interest begins to accrue or (y) that a repayment of principal or payment of any premium is to be made, or any lowering of the priority ranking or status of the Debt Security Instrument, or any change in the monetary unit in which repayments of principal or payments of interest must be made, or in their composition, or (d) any material deterioration in the financial situation of the company issuing the Debt Security Instrument, in the opinion of the Index Calculation Agent.

For the purposes of this article (vii), "**Debt Security Instrument Bankruptcy**" means a company which (a) is dissolved (other than pursuant to a consolidation, amalgamation or merger); (b) becomes insolvent or is unable to pay its debts or fails or admits in writing in a judicial, regulatory or administrative proceeding or filing its inability generally to pay its debts as they become due; (c) makes a general assignment, arrangement or composition with or for the benefit of its creditors; (d) institutes or has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation, and, in the case of any such proceeding or petition instituted or presented against it, such proceeding or petition (i) results in a judgment of insolvency or bankruptcy or the entry of an order for relief or the making of an order for its winding-up or liquidation or (ii) is not dismissed, discharged, stayed or restrained in each case within thirty calendar days of the institution or presentation thereof; (e) has a resolution passed for its winding-up, official management or liquidation (other than pursuant to a consolidation, amalgamation or merger); (f) seeks or becomes subject to the appointment of an administrator, provisional liquidator, conservator, receiver, trustee, custodian or other similar official for it or for all or substantially all its assets; (g) has a secured party take possession of all or substantially all its assets or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all its assets and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained, in each case within 30 calendar days thereafter; or (h) causes or is subject to any event with respect to it which, under the applicable laws of any jurisdiction, has an analogous effect to any of the events specified in clauses (a) to (g) (inclusive).

GENERAL METHODOLOGY OF PROPRIETARY INDICES

(viii) Cash/Exchange Tender Offer

If an Offer Period commences, the Index Calculation Agent may, having examined its characteristics and relevant practical arrangements, elect (a) to maintain the Debt Security Instrument as the Index Component or (b) replace it with the debt security issued by the Offeror. If the Index Calculation Agent has not made an adjustment during the Offer Period in accordance with the above paragraph and if the company issuing the Debt Security Instrument is the subject of a successful Cash/Exchange Tender Offer (the "**Tender Offer**"), the Index Calculation Agent may elect (a) to maintain the Debt Security Instrument as the Index Component, (b) replace the Debt Security Instrument with the debt security issued by the Offeror or (c) remove the relevant Debt Security Instrument from the composition of the Cirdan Index.

For the purposes of this article (viii) (Cash/Exchange Tender Offer):

"**Cash/Exchange Tender Offer**" means any acquisition offer made by one or more legal entities (or if applicable one or more individuals) (the "**Offeror**") in respect of one or more Debt Security Instrument giving rights to share capital in the company(ies) under the relevant national law, and for a fixed price.

"**Offer Period**" means the period from (and including) the date on which the Cash/Exchange Tender Offer is officially announced by the Offeror in whatever manner to the competent supervisory authorities in accordance with applicable laws and regulations in the relevant jurisdiction, up to (but excluding) the date of the Cash/Exchange Tender Offer.

(ix) Buy-Back Offer

In the event of a buy-back offer by the company issuing of the Debt Security Instrument (the "**Buy-Back Offer**"), the Index Calculation Agent may elect (a) not to take part in the Buy-Back Offer and to maintain the relevant Debt Security Instrument as the Index Component, (b) to participate in the Buy-Back Offer and contribute the relevant Debt Security Instrument, in which case the Index Calculation Agent shall amend the manner in which the Cirdan Index is determined to take account (i) of the amount of the proceeds of the contribution of the relevant Debt Security Instrument to the Buy-Back Offer, which shall be net of all fees, costs and taxes, if any, capitalised between the date of receipt of such amount and the Calculation Date at the EONIA Rate in place of the redemption amount of the relevant Debt Security Instrument used in the determination of the Cirdan Index and, if applicable, (ii) the sum of the Debt Security Instrument coupons affected by the Event, calculated between the Creation Date and the date of the contribution of the Debt Security Instrument to the Buy-Back Offer, each coupon on such Debt Security Instrument shall be capitalised (provided that only coupons due for at least one entire year may be capitalised) between the date of its receipt and the Calculation Date at the EONIA Rate in place of the sum of the relevant Debt Security Instrument coupons used in the determination of the Cirdan Index; or (c) to liquidate the relevant Debt Security Instrument, in which case the Index Calculation Agent shall amend the manner in which the Cirdan Index is determined to take account (i) of the amount of the liquidation proceeds of the relevant Debt Security Instrument, which shall be net of all fees, costs and taxes, if any, capitalised between the date of receipt of such liquidation proceeds and the Calculation Date at the EONIA Rate in place of the redemption amount of the relevant Debt Security Instrument used in the determination of the Cirdan Index and, if applicable, (ii) the sum of the Debt Security Instrument coupons affected by the Event, received by the Index Calculation Agent between the Creation Date and the liquidation date, each coupon on such Debt Security Instrument shall be capitalised between the date of its receipt by Index Calculation Agent and the Calculation Date at the EONIA Rate in place of the sum of the relevant Debt Security Instrument coupons used in the determination of the Cirdan Index.

(x) Financial Default

The Index Calculation Agent may adjust the Cirdan Index, including by removing the relevant Debt Security Instrument from the composition of the Cirdan Index if an event occurs that may have the same consequences such as a restructuring, insolvency, repudiation or moratorium (a "**Financial Default**").

GENERAL METHODOLOGY OF PROPRIETARY INDICES

(xi) Change of law

In the event of the adoption or modification of any law or regulation (including, without limitation, any tax law) or any new interpretation or modification of the interpretation of any law or regulation applicable by any jurisdiction, court or regulatory authority (including any action taken by a tax authority) that affects a Debt Security Instrument, the Index Calculation Agent may proceed with the removal of the affected Debt Security Instrument from the composition of the Cirdan Index.

Cirdan Smart Oil Neutral Index

1. Introduction

The Cirdan Smart Oil Neutral Index is an index that is designed to deliver positive return in all types of market conditions and to maximize the appreciation of the underlying assets by investing primarily in crude oil and other commodity indices. The trading strategy may include other related securities, such as futures and listed options. Hence, the investment strategy will consist of 'short' when an asset class is considered over-valued and 'long' positions when considered under-valued. Cirdan Smart Gold Neutral Index

1. Introduction

The Cirdan Smart Gold Neutral Index is an index that is designed to deliver positive return in all types of market conditions and to maximize the appreciation of the underlying assets by investing primarily in gold-index and other precious metals futures. Other gold and precious metals securities, such as index options, mining companies and indices, may be included in the trading strategy. Ancillary asset classes may include futures and listed options on main commodities and currency indexes. Hence, the investment strategy will consist of 'short' when an asset class is considered over-valued and 'long' positions when considered under-valued. It may be 100 % invested but also liquid 100 % if a period is uncertain. The Fund can still be subject to high fluctuations in value. As the Fund uses different asset classes, investors must be willing to bear the additional risk involved.

The Index is a Proprietary Index as stated in the Base Prospectus and shall be referred to individually as "Cirdan Index" or collectively as "Cirdan Indices".

Any terms in uppercase not defined in this document shall have the meaning as given in the General Methodology. Cirdan Capital Management will act as Calculation Agent.

CIRDAN DYNAMIC PORTFOLIOS

CIRDAN DYNAMIC PORTFOLIOS

In relation to the Dynamic Portfolios composed by Cirdan, the complete set of rules of each portfolio and information on the performance of the portfolio will be freely accessible on Cirdan's website <https://cirdancapital.com>. The Certificates issued under this Base Prospectus may be linked, as specified in the applicable Final Terms, to the following proprietary Dynamic Portfolios as the underlying or basket constituent(s). The governing rules (including methodology of the Dynamic Portfolio for the selection and the re-balancing of the components of the Dynamic Portfolio, a description of market disruption events and any applicable adjustment rules) will be based on predetermined and objective criteria.

FORM OF CERTIFICATES

FORM OF CERTIFICATES

The Certificates of each Series will be in either bearer form, with or without interest coupons attached, or registered form, without interest coupons attached or in dematerialised form. Bearer Certificates and Dematerialised Certificates will be issued outside the United States in reliance on Regulation S. Registered Certificates will be issued both outside the United States in reliance on the exemption from registration provided by Regulation S and within the United States in reliance on Rule 144A, and Registered Certificates in definitive form may be sold to Institutional Accredited Investors who are also QPs.

Bearer Certificates

Each Tranche of Bearer Certificates will be initially issued in the form of a temporary bearer global Certificate (a "**Temporary Bearer Global Certificate**") or a permanent global Certificate (a "**Permanent Bearer Global Certificate**") as indicated in the Final Terms, which, in either case, will (i) if the Global Certificates are intended to be issued in new global note ("NGN") form, as stated in the Final Terms, be delivered on or prior to the original issue date of the Tranche to a common safekeeper for Euroclear and Clearstream, Luxembourg; or (ii) if the Global Certificates are not intended to be issued in NGN form, as stated in the Final Terms, be delivered on or prior to the original issue date of the Tranche to a common depositary for Euroclear and Clearstream, Luxembourg.

Where the Global Certificates issued in respect of any Tranche are in NGN form, the applicable Final Terms will also indicate whether or not such Global Certificates are intended to be held in a manner which would allow Eurosystem eligibility. Any indication that the Global Certificates are to be so held means that the Certificates of a particular Tranche are intended upon issue to be deposited with one of the ICSDs as common safekeeper and does not necessarily mean that the Certificates of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any time during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The Common Safekeeper for NGNs will either be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg, as indicated in the applicable Final Terms.

Whilst any Bearer Certificate is represented by a Temporary Bearer Global Certificate, payments of principal, interest (if any) and any other amount payable in respect of the Certificates due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Bearer Global Certificate if the Temporary Bearer Global Certificate is not intended to be issued in NGN form) only to the extent that certification of non-U.S. beneficial ownership, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent.

On and after the date (the "**Exchange Date**") which is 40 days after a Temporary Bearer Global Certificate is issued, interests in such Temporary Bearer Global Certificate will be exchangeable (free of charge) upon a request as described therein either for (i) interests in a Permanent Bearer Global Certificate of the same Series or (ii) for definitive Bearer Certificates of the same Series with, where applicable, coupons and talons attached (as indicated in the Final Terms and subject, in the case of definitive Bearer Certificates, to such notice period as is specified in the Final Terms), in each case against certification of beneficial ownership as described above unless such certification has already been given, provided that purchasers in the United States and certain U.S. persons will not be able to receive definitive Bearer Certificates. The holder of a Temporary Bearer Global Certificate will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Bearer Global Certificate for an interest in a Permanent Bearer Global Certificate or for definitive Bearer Certificates is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Bearer Global Certificate will be made through Euroclear and/or Clearstream, Luxembourg (against presentation or surrender (as the case may be) of the Permanent Bearer Global Certificate if the Permanent Bearer Global Certificate is not intended to be issued in NGN form) without any requirement for certification.

The Final Terms will specify that a Permanent Bearer Global Certificate will be exchangeable (free of charge), in whole but not in part, for definitive Bearer Certificates with, where applicable, coupons and talons attached upon either (i) not less than 60 days' written notice from Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Certificate) to the Principal Paying Agent as described therein or (ii) only upon the occurrence of an Exchange Event. For these purposes, "**Exchange Event**" means that (1) an Event of Default (as defined in General Condition 9) has occurred and is continuing, (2) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and

FORM OF CERTIFICATES

no successor clearing system is available or (3) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Certificates represented by the Permanent Bearer Global Certificate in definitive form. The Issuer will promptly give notice to Certificateholders in accordance with General Condition 14 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Certificate) or the Issuer, as the case may be, may give notice to the Principal Paying Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the relevant Issuer may also give notice to the Principal Paying Agent requesting exchange. Any such exchange shall occur not later than 60 days after the date of receipt of the first relevant notice by the Principal Paying Agent. If the Global Certificate is a NGN, the relevant Issuer shall procure that details of such exchange be entered *pro rata* in the records of the relevant clearing system.

In the event that the Permanent Bearer Global Certificate is exchanged for definitive Bearer Certificates, such definitive Bearer Certificates shall be issued in the minimum Specified Denomination only. Certificateholders who hold Certificates in the relevant clearing system in amounts that are not integral multiples of the Specified Denomination may need to purchase or sell, on or before the Exchange Date, a principal amount of Certificates such that their holding is an integral multiple of the Specified Denomination.

The following legend will appear on all Permanent Bearer Global Certificates and definitive Bearer Certificates (other than Temporary Global Certificates), interest coupons relating to such Certificates where TEFRA D is specified in the Final Terms:

"ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE."

The sections referred to provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Bearer Certificates or Coupons and will not be entitled to capital gains treatment in respect of any gain on any sale, disposition, redemption or payment of principal in respect of such Certificates or interest coupons.

Certificates which are represented by a Bearer Global Certificate will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

Registered Certificates

The Registered Certificates of each Tranche offered and sold in reliance on Regulation S, which will be sold in offshore transactions to non-U.S. persons outside the United States, will initially be represented by a global Certificate in registered form, without Receipts or Coupons, (a "**Regulation S Global Certificate**") which will be registered in the name of a nominee for a common depository for, and registered in the name of a common nominee of, Euroclear and Clearstream, Luxembourg. Prior to expiry of the distribution compliance period (as defined in Regulation S) applicable to each Tranche of the Certificates, beneficial interests in a Regulation S Global Certificate may not at any time be offered or sold to, or for the account or benefit of, a U.S. person (as defined in Regulation S) save as otherwise provided in General Condition 2 and such Regulation S Global Certificate will bear a legend regarding such restrictions on transfer.

The Registered Certificates of each Tranche may only be offered and sold in the United States or to U.S. persons in private transactions (a) to "qualified institutional buyers" within the meaning of Rule 144A ("**QIBs**") who are also "qualified purchasers" within the meaning of Section 2(a)(51)(A) of the United States Investment Company Act of 1940, as amended (the "**1940 Act**") and the rules and regulations thereunder ("**QPs**"), or (b) to "accredited investors" (as defined in Rule 501(a)(1), (2), (3) or (7) under the Securities Act that are institutions ("**Institutional Accredited Investors**") who are also "qualified purchasers" within the meaning of Section 2(a)(51)(A) of the United States Investment Company Act of 1940, as amended (the "**1940 Act**") and the rules and regulations thereunder ("**QPs**"), who agree to purchase the Certificates for their own account and not with a view to the distribution thereof. The Registered Certificates of each Tranche sold to QIBs who are also QPs will be represented by a global Certificate in registered form (a "**Rule 144A Global Certificate**") and, together with a Regulation S Global Certificate, the "**Registered Global Certificates**").

Registered Global Certificates will either (a) be deposited with a custodian for, and registered in the name of a nominee of, DTC for the accounts of Euroclear and Clearstream, Luxembourg or (b) be deposited with a common depository for, and registered in the name of a common nominee of, Euroclear and Clearstream, Luxembourg, as specified in the Final Terms. Persons holding beneficial interests in Registered Global Certificates will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of definitive Certificates in fully registered form.

FORM OF CERTIFICATES

Registered Global Certificates issued in respect of any Tranche and deposited with one of the ICSDs as common safekeeper, and registered in the name of a nominee of one of the ICSDs acting as common safekeeper, that is, held under the New Safekeeping Structure for registered global securities, are intended to be held in a manner which would allow Eurosystem eligibility. This does not necessarily mean that the Certificates of such Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any time during their life, as such recognition depends upon satisfaction of the Eurosystem eligibility criteria.

The Registered Certificates of each Tranche sold to Institutional Accredited Investors who are also QPs will be in definitive form, registered in the name of the holder thereof ("**Definitive IAI Registered Certificates**"). Unless otherwise set forth in the Final Terms, Definitive IAI Registered Certificates will be issued only in minimum denominations of US\$250,000 and integral multiples of US\$1,000 in excess thereof (or the approximate equivalents in the applicable Specified Certificates Currency). Definitive IAI Registered Certificates will be subject to the restrictions on transfer set forth therein and will bear the restrictive legend described under "*Subscription and Sale and Transfer and Selling Restrictions*". Institutional Accredited Investors who are also QPs that hold Definitive IAI Registered Certificates may elect to hold such Certificates through DTC, but transferees acquiring the Certificates in transactions exempt from Securities Act registration pursuant to Regulation S or Rule 144 under the Securities Act (if available) may do so upon satisfaction of the requirements applicable to such transfer as described under "*Subscription and Sale and Transfer and Selling Restrictions*". The Rule 144A Global Certificate and the Definitive IAI Registered Certificates will be subject to certain restrictions on transfer set forth therein and will bear a legend regarding such restrictions. Payments of principal, interest and any other amount in respect of the Registered Global Certificates will, in the absence of provision to the contrary, be made to the persons shown on the Register (as defined in General Condition 1) as the registered holder of the Registered Global Certificates. None of the Issuer, the Guarantor (if applicable), any Paying Agent or the Registrar will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Registered Global Certificates or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal, interest or any other amount in respect of the Registered Certificates in definitive form will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in General Condition 5) immediately preceding the due date for payment in the manner provided in that General Condition.

Interests in a Registered Global Certificate will be exchangeable (free of charge), in whole but not in part, for definitive Registered Certificates without Receipts, Coupons or Talons attached only upon the occurrence of an Exchange Event. For these purposes, "**Exchange Event**" means that (a) an Event of Default has occurred and is continuing, (b) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Certificates represented by the Registered Global Certificate in definitive form, (c) in the case of Certificates registered in the name of a nominee for a common depository for Euroclear and Clearstream, Luxembourg, the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, no successor clearing system is available, (d) in the case of Certificates registered in the name of a nominee for DTC, either DTC has notified the Issuer that it is unwilling or unable to continue to act as depository for the Certificates and no alternative clearing system is available or DTC has ceased to constitute a clearing agency registered under the Exchange Act or (e) the Certificates are required to be removed from (in the case of Certificates registered in the name of a nominee for a common depository for Euroclear and Clearstream, Luxembourg) both Euroclear and Clearstream, Luxembourg or (in the case of Certificates registered in the name of a nominee for DTC) DTC and, in either case, no alternative clearing system is available. The Issuer will promptly give notice to Certificateholders in accordance with General Condition 14 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, DTC, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Registered Global Certificate) or the Issuer, as the case may be, may give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 60 days after the date of receipt of the first relevant notice by the Registrar.

Transfer of Interests

Interests in a Registered Global Certificate may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such interest in another Registered Global Certificate or in the form of a Definitive IAI Registered Certificate and Definitive IAI Registered Certificates may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such Certificates in the form of an interest in a Registered Global Certificate. No beneficial owner of an interest in a Registered Global Certificate will be able to transfer such interest, except in accordance with the applicable procedures of DTC, Euroclear and Clearstream, Luxembourg, in each case to the extent applicable, in each case. Registered Certificates are also subject to the restrictions on transfer set forth

therein and will bear a legend regarding such restrictions, see "*Subscription and Sale and Transfer and Selling Restrictions*".

Dematerialised Certificates

If the relevant Final Terms specifies the Certificates as being "Dematerialised Certificates", then the Certificates will be in dematerialised form and evidenced at any time through book entries pursuant to the relevant provisions of Italian legislative decree no. 58/1998, as amended and integrated by subsequent implementing provisions, and in accordance with CONSOB and Bank of Italy Joint Regulation dated 13 August 2018, as amended and integrated by subsequent implementing provisions. Accordingly, all Certificates shall be held by their owners with an intermediary participant in Monte Titoli S.p.A.. The intermediary will in turn hold the Certificates with Monte Titoli S.p.A..

To transfer an interest in the Certificates, the transferor and the transferee are required to give instructions to their respective intermediaries. If the transferee is a client of the transferor's intermediary, the intermediary will simply transfer the Certificates from the transferor's account to the account of the transferee. If, however, the transferee is a client of another intermediary, the transferor's intermediary will instruct Monte Titoli S.p.A. to transfer the Certificates to the account of the transferee's intermediary, which will then register the Certificates on the transferee's account.

Each intermediary maintains a custody account for each of its clients. This account sets out the financial instruments of each client and the records of all transfers, interest payments, charges or other encumbrances on such instruments. The account holder or any other eligible party may submit a request to the intermediary for the issue of a certified account statement.

In no circumstance would physical documents of title be issued in respect of the Dematerialised Certificates.

General

Pursuant to the Agency Agreement (as defined under "*Terms and Conditions of the Certificates*"), except in case of Dematerialised Certificates, the Principal Paying Agent shall arrange that, where a further Tranche of Certificates is issued which is intended to form a single Series with an existing Tranche of Certificates at a point after the Issue Date of the further Tranche, the Certificates of such further Tranche shall be assigned a common code, and ISIN and, where applicable, a CUSIP and CINS number which are different from the common code and ISIN, CUSIP and CINS assigned to Certificates of any other Tranche of the same Series until such time as the Tranches are consolidated and form a single Series, which shall not be prior to the expiry of the distribution compliance period (as defined in Regulation S) applicable to the Certificates of such Tranche.

For so long as any of the Certificates is represented by a Global Certificate held on behalf of Euroclear and/or Clearstream, Luxembourg and/or DTC or its nominee each person (other than Euroclear or Clearstream, Luxembourg or DTC) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg or of DTC as the holder of a particular principal amount of such Certificates (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg or DTC as to the principal amount of such Certificates standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Guarantor and their agents as the holder of such principal amount of such Certificates for all purposes other than with respect to the payment of principal or interest on such principal amount of such Certificates and, in the case of DTC or its nominee, voting, giving consents or making requests, for which purpose the bearer of the relevant Bearer Global Certificate or the registered holder of the relevant Registered Global Certificate shall be treated by the Issuer, the Guarantor and their agents as the holder of such principal amount of such Certificates in accordance with and subject to the terms of the relevant Global Certificate and the expressions "**Certificateholder**" and "**holder of Certificates**" and related expressions shall be construed accordingly.

In the case of Dematerialised Certificates, the person who is for the time being shown in the records of Monte Titoli S.p.A. as the holder of a particular amount of Certificates shall (except as otherwise required by applicable law) be treated for all purposes by the Issuer, the Guarantor, the Italian Paying Agent and all other persons dealing with such person as the holder thereof and as the person entitled to exercise the rights represented thereby notwithstanding any notice to the contrary (and the expressions "**holder**" and "**Certificateholders**" and related expressions shall be construed accordingly, except where Italian law is applicable, in which case "**holder**" and "**Certificateholders**" will be exclusively deemed to be the beneficial owner of the Certificates).

Except in relation to Certificates issued in NGN form, any reference herein to Euroclear and/or Clearstream, Luxembourg and/or DTC shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the Final Terms or as may otherwise be approved by the Issuer and the Principal Paying

Agent. A Certificate may be accelerated by the holder thereof in certain circumstances described in General Condition 9. In such circumstances, where any Certificate is still represented by a Global Certificate and the Global Certificate (or any part thereof) has become due and repayable in accordance with the Terms and Conditions of such Certificates and payment in full of the amount due has not been made in accordance with the provisions of the Global Certificate within a period of 15 days from the giving of a notice by a holder with Euroclear or Clearstream, Luxembourg of such Certificates so represented and credited to its securities account that it wishes to accelerate such Certificates, then holders of interests in such Global Certificate credited to their accounts with Euroclear and/or Clearstream, Luxembourg and/or DTC, as the case may be, will become entitled to proceed directly against the Issuer on the basis of statements of account provided by Euroclear, Clearstream, Luxembourg and DTC on and subject to the terms of a deed of covenant dated 28 February 2022 and executed by the Issuer, (the "**Deed of Covenant**"). Where Certificates are Dematerialised Certificates, in case a Relevant Event (as defined in the Deed of Covenant) occurs, the person whose name appears as being entitled to a Dematerialised Certificate in the books of an authorised financial intermediary institution entitled to hold accounts on behalf of their customers with Monte Titoli S.p.A. will become entitled to proceed directly against the Issuer subject to the terms of the deed of covenant relating to the Dematerialised Certificate dated on or about 18 October 2024 and executed by the Issuer (the "**Dematerialised Certificate Deed of Covenant**"). In addition, holders of interests in such Global Certificate credited to their accounts with DTC may require DTC to deliver Definitive Certificates in registered form in exchange for their interest in such Global Certificate in accordance with DTC's standard operating procedures.

- D. the Guarantor intends to enter into a guarantee in respect of the €5,000,000,000 Structured Medium Term Certificate Programme guaranteed by the Guarantor ("**this Guarantee**").

NOW THIS INSTRUMENT sets out the following provisions:

1 Guarantee

The Guarantor irrevocably and jointly and severally guarantees to each Holder that, if for any reason, the Issuer does not comply with any of its payment obligations to such Holder in respect of any Certificate or Coupon or (in respect of any Underlying Certificate) under the Deed of Covenant, as the case may be, (including any premium or any other amounts of whatever nature or additional amounts which may become payable under any of the foregoing) as and when the same shall become due under any of the foregoing, the Guarantor will pay to such Holder on demand the payment obligations (as to which the certificate of such Holder shall in the absence of manifest error be conclusive) payable by the Issuer to such Holder.

2 Guarantor's Principal Debtor

Without affecting the Issuer's obligations, the Guarantor will be liable under this Guarantee as if it were the sole principal debtor and not merely a surety. Accordingly, it will not be discharged, nor will its liability be affected, by anything which would not discharge it or affect its liability if it were the sole principal debtor (including (a) any time, indulgence, waiver or consent at any time given to the Issuer or any other person, (b) any amendment to any Certificate, any Coupon or the Deed of Covenant or to any security or other guarantee or indemnity, (c) the making or absence of any demand on the Issuer or any other person for payment, (d) the enforcement or absence of enforcement of any Certificate, any Coupon, the Deed of Covenant or of any security or other guarantee or indemnity, (e) the release of any such security, guarantee or indemnity, (f) the winding up or dissolution, amalgamation, reconstruction or reorganisation of the Issuer or any other person or analogous proceedings in any jurisdiction or (g) the illegality, invalidity or unenforceability of or any defect in any provision of any Certificate, any Coupon or the Deed of Covenant or any of the Issuer's obligations under any of them).

3 Guarantor's Obligations Continuing

The Guarantor's obligations under this Guarantee are and will remain in full force and effect by way of continuing security until no sum remains payable under any Certificate, any Coupon or (in respect of any Underlying Certificate) the Deed of Covenant. Furthermore, these obligations of the Guarantor are complementary to, and not instead of, any security or

FORM OF GUARANTEE

other guarantee or indemnity at any time existing in favour of a Holder, whether from the Guarantor or otherwise. The Guarantor irrevocably waives all notices and demands whatsoever.

4 Repayment to the Issuer

If any payment received by a Holder is, on the subsequent liquidation or insolvency of the Issuer, avoided under any laws relating to liquidation or insolvency, such payment will not be considered as having discharged or diminished the liability of the Guarantor and this Guarantee will continue to apply as if such payment had at all times remained owing by the Issuer.

5 Indemnity

As a separate and alternative stipulation, the Guarantor unconditionally and irrevocably agrees that any economic obligation expressed to be payable by the Issuer under any Certificate, any Coupon or (in respect of any Underlying Certificate) the Deed of Covenant but which is for any reason (whether or not now known or becoming known to the Issuer, the Guarantor or any Holder) not recoverable from the Guarantor on the basis of a guarantee will nevertheless be recoverable from it as if it were the sole principal debtor and will be paid by it to the Holder on demand. This indemnity constitutes a separate and independent obligation from the other obligations in this Guarantee, gives rise to a separate and independent cause of action and will apply irrespective of any indulgence granted by any Holder.

6 Status of Guarantee

The payment obligations of the Guarantor under this Guarantee constitute direct, unconditional and unsecured obligations of the Guarantor and (subject as aforesaid) rank and will rank, *pari passu* with all other unsecured and unsubordinated obligations of the Guarantor.

7 Withholding or deduction

All payments by the Guarantor under this Guarantee shall be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature (the "**Taxes**") imposed, levied, collected, withheld or assessed by or on behalf of the United Kingdom, or any political sub-division thereof or any authority therein or thereof having power to tax, unless the withholding or deduction of the Taxes is required by law. In that event, the Guarantor will pay such additional amounts as may be necessary in order that the net amounts received by each Holder after such withholding or deduction shall equal the amount which would have been received by it in the absence of the withholding or deduction; except that no additional amounts shall be payable:

- 7.1 to, or to a third party on behalf of, a Holder who is liable for such Taxes by reason of his having some connection with the United Kingdom other than the mere holding of the Certificate or Coupon or the mere crediting of Underlying Certificates to its securities account with the Relevant Clearing System (as defined in the Deed of Covenant); or
- 7.2 in the case of a Certificate or Coupon presented for payment more than 30 days after the Relevant Date (as defined in General Condition 7 of the Terms and Conditions of the Certificates) except to the extent that a Holder would have been entitled to additional amounts on presenting the same for payment on such thirtieth day; or
- 7.3 in the case of a Certificate or Coupon presented for payment by or on behalf of a Holder if the relevant withholding or deduction may be avoided by complying with any statutory requirements or by making a declaration of non-residence or other similar claim for exemption to any authority of or in the United Kingdom, unless such Holder proved that he is not entitled so to comply or to make such declaration or claim.

8 Power to execute

The Guarantor hereby warrants, represents and covenants with each Holder that it has all corporate power, and has taken all necessary corporate or other steps, to enable it to execute, deliver and perform this Guarantee, and that this Guarantee constitutes a legal, valid and binding obligation of the Guarantor enforceable in accordance with its terms.

9 Deposit of Guarantee

This Guarantee shall take effect for the benefit of the Holders from time to time and for the time being. This Guarantee shall be deposited with and held by the Principal Paying Agent at its specified office (being at the date hereof at

FORM OF GUARANTEE

Winchester House, 1 Great Winchester Street, London EC2N 2DB) until all the obligations of the Guarantor have been discharged in full.

10 Production of Guarantee

The Guarantor hereby acknowledges the right of every Holder to the production of, and the right of every Holder to obtain (upon payment of a reasonable charge) a copy of, this Guarantee, and further acknowledges and covenants that the obligations binding upon it contained herein are owed to, and shall be for the account of, each and every Holder, and that each Holder shall be entitled severally to enforce the said obligations against the Guarantor.

11 Subrogation

Until all amounts which may be payable under the Certificates, the Coupons and/or (in respect of any Underlying Certificate) the Deed of Covenant have been irrevocably paid in full, the Guarantor shall not by virtue of this Guarantee be subrogated to any rights of any Holder or claim in competition with the Holders against the Issuer.

12 Governing Law and Submission to Jurisdiction

This Guarantee and any non-contractual obligations arising out of or in connection with it are governed by, and shall be construed in accordance with, English law.

The Guarantor irrevocably agrees for the benefit of each Holder that the courts of England are to have jurisdiction to settle any disputes which may arise out of or in connection with this Guarantee (including any dispute relating to any non-contractual obligations arising out of or in connection with this Guarantee) and that accordingly any suit, action or proceedings arising out of or in connection with this Guarantee (together referred to as "**Proceedings**") may be brought in the courts of England.

The Guarantor irrevocably waives any objection which it may have now or hereafter to the laying of the venue of any Proceedings in the courts of England and irrevocably agrees that a final judgment in any Proceedings brought in the courts of England shall be conclusive and binding upon the Guarantor and may be enforced in the courts of any other jurisdiction.

USE OF PROCEEDS

USE OF PROCEEDS

The net proceeds from each issue of Certificates will be deposited with the Issuer. The net proceeds from each issue of Certificates will be used to enter into offsetting financial transactions in such a way as to hedge the exposure of the Issuer to future promised returns of the Certificates issued to the minimum extent required. In addition, the net proceeds will also **become part of the general funds of the Issuer**. The Issuer's activities, including its operational expenses, are principally financed by the proceeds from each issuance of Certificates.

Pursuant to the amended and restated disbursement and fee agreement between, *inter alia*, the Issuer and Cirdan dated 7 February 2023 (the "**Amended and Restated Disbursement and Fee Agreement**"), the Issuer pays to Cirdan a fee (the "**Fees**") in respect of each series of Certificates derived from the net proceeds of the issue of such Certificates, in consideration for which Cirdan arranges, runs and/or administers the indices or other Reference Items (if any) underlying such series of Certificates; acts as hedging advisor in relation to each series of Certificates; and settles, on the Issuer's behalf or reimburses the Issuer for the amounts paid or payable by the Issuer to (1) the Corporate Services Provider pursuant the Corporate Services Agreement; (2) any Dealer pursuant to the Programme Agreement; (3) any Agent and any other party pursuant to the Agency Agreement and the Italian Agency Agreement; and (4) any other parties or agents involved in the issue of a Series of Certificates.

The Fees applied to a specific issue of Certificates are detailed in the Final Terms.

The Guarantor's operational expenses are not principally financed by the proceeds from each issuance of Certificates. However, the Guarantor does obtain a profit as due consideration for the provision of services under the Amended and Restated Disbursement and Fee Agreement. The Guarantor's activities are principally financed through its fund management business and the provision of investment solutions and quantitative strategies to asset managers and other institutional clients and wealth managers.

BOOK-ENTRY CLEARANCE SYSTEMS

BOOK-ENTRY CLEARANCE SYSTEMS

*The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of DTC, Euroclear or Clearstream, Luxembourg (together, the "**Clearing Systems**") currently in effect. The Issuer and the Guarantor take responsibility for the correct extraction and reproduction of the information in this section concerning the Clearing Systems, but none of the Issuer, the Guarantor nor any Dealer takes any responsibility for the accuracy thereof. Investors wishing to use the facilities of any of the Clearing Systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. None of the Issuer, the Guarantor nor any other party to the Agency Agreement will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Certificates held through the facilities of any Clearing System or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.*

Book-entry Systems

DTC

DTC has advised the Issuer and the Guarantor that it is a limited purpose trust company organised under the New York Banking Law, a "banking organisation" within the meaning of the New York Banking Law, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to Section 17A of the Exchange Act. DTC holds securities that its participants ("**Participants**") deposit with DTC. DTC also facilitates the settlement among Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerised book-entry changes in Participants' accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations. DTC is owned by a number of its Direct Participants and by the New York Stock Exchange, Inc., the NYSE MKT LLC, Inc. and the Financial Industry Regulatory Authority, Inc. Access to the DTC System is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("**Indirect Participants**").

Under the rules, regulations and procedures creating and affecting DTC and its operations (the "**DTC Rules**"), DTC makes book-entry transfers of Registered Certificates among Direct Participants on whose behalf it acts with respect to Certificates accepted into DTC's book-entry settlement system ("**DTC Certificates**") as described below and receives and transmits distributions of principal and interest on DTC Certificates. The DTC Rules are on file with the Securities and Exchange Commission. Direct Participants and Indirect Participants with which beneficial owners of DTC Certificates ("**Owners**") have accounts with respect to the DTC Certificates similarly are required to make book-entry transfers and receive and transmit such payments on behalf of their respective Owners. Accordingly, although Owners who hold DTC Certificates through Direct Participants or Indirect Participants will not possess Registered Certificates, the DTC Rules, by virtue of the requirements described above, provide a mechanism by which Direct Participants will receive payments and will be able to transfer their interest in respect of the DTC Certificates.

Purchases of DTC Certificates under the DTC system must be made by or through Direct Participants, which will receive a credit for the DTC Certificates on DTC's records. The ownership interest of each actual purchaser of each DTC Certificate ("**Beneficial Owner**") is in turn to be recorded on the Direct and Indirect Participant's records. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the DTC Certificates are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in DTC Certificates, except in the event that use of the book-entry system for the DTC Certificates is discontinued.

To facilitate subsequent transfers, all DTC Certificates deposited by Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of DTC Certificates with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the DTC Certificates; DTC's records reflect only the identity of the Direct Participants to whose accounts such DTC Certificates are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

BOOK-ENTRY CLEARANCE SYSTEMS

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to Cede & Co. If less than all of the DTC Certificates within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. will consent or vote with respect to DTC Certificates. Under its usual procedures, DTC mails an Omnibus Proxy to the Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the DTC Certificates are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal and interest payments on the DTC Certificates will be made to DTC. DTC's practice is to credit Direct Participants' accounts on the due date for payment in accordance with their respective holdings shown on DTC's records unless DTC has reason to believe that it will not receive payment on the due date. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such Participant and not of DTC or the Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest to DTC is the responsibility of the Issuer, disbursement of such payments to Direct Participants is the responsibility of DTC, and disbursement of such payments to the Beneficial Owners is the responsibility of Direct and Indirect Participants.

Under certain circumstances, including if there is an Event of Default under the Certificates, DTC will exchange the DTC Certificates for definitive Registered Certificates, which it will distribute to its Participants in accordance with their proportionate entitlements and which, if representing interests in a Rule 144A Global Certificate, will be legended as set forth under "*Subscription and Sale and Transfer and Selling Restrictions*".

Since DTC may only act on behalf of Direct Participants, who in turn act on behalf of Indirect Participants, any Owner desiring to pledge DTC Certificates to persons or entities that do not participate in DTC, or otherwise take actions with respect to such DTC Certificates, will be required to withdraw its Registered Certificates from DTC as described below.

Euroclear and Clearstream, Luxembourg

Euroclear and Clearstream, Luxembourg each holds securities for its customers and facilitates the clearance and settlement of securities transactions by electronic book-entry transfer between their respective account holders. Euroclear and Clearstream, Luxembourg provide various services including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg also deal with domestic securities markets in several countries through established depository and custodial relationships. Euroclear and Clearstream, Luxembourg have established an electronic bridge between their two systems across which their respective participants may settle trades with each other.

Euroclear and Clearstream, Luxembourg customers are world-wide financial institutions, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to Euroclear and Clearstream, Luxembourg is available to other institutions that clear through or maintain a custodial relationship with an account holder of either system.

Book-entry Ownership of and Payments in respect of DTC Certificates

The Issuer may apply to DTC in order to have any Tranche of Certificates represented by a Registered Global Certificate accepted in its book-entry settlement system. Upon the issue of any such Registered Global Certificate, DTC or its custodian will credit, on its internal book-entry system, the respective principal amounts of the individual beneficial interests represented by such Registered Global Certificate to the accounts of persons who have accounts with DTC. Such accounts initially will be designated by or on behalf of the relevant Dealer. Ownership of beneficial interests in such a Registered Global Certificate will be limited to Direct Participants or Indirect Participants, including, in the case of a Regulation S Global Certificate, the respective depositories of Euroclear and Clearstream, Luxembourg. Ownership of beneficial interests in a Registered Global Certificate accepted by DTC will be shown on, and the transfer of such ownership will be effected only through, records

BOOK-ENTRY CLEARANCE SYSTEMS

maintained by DTC or its nominee (with respect to the interests of Direct Participants) and the records of Direct Participants (with respect to interests of Indirect Participants).

Payments in US dollars of principal and interest in respect of a Registered Global Certificate accepted by DTC will be made to the order of DTC or its nominee as the registered holder of such Certificate. In the case of any payment in a currency other than US dollars, payment will be made to the Exchange Agent on behalf of DTC or its nominee and the Exchange Agent will (in accordance with instructions received by it) remit all or a portion of such payment for credit directly to the beneficial holders of interests in the Registered Global Certificate in the currency in which such payment was made and/or cause all or a portion of such payment to be converted into US dollars and credited to the applicable Participants' account.

The Issuer expects DTC to credit accounts of Direct Participants on the applicable payment date in accordance with their respective holdings as shown in the records of DTC unless DTC has reason to believe that it will not receive payment on such payment date. The Issuer also expects that payments by Participants to beneficial owners of Certificates will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers, and will be the responsibility of such Participant and not the responsibility of DTC, the Principal Paying Agent, the Registrar or the Issuer. Payment of principal, premium, if any, and interest, if any, on Certificates to DTC is the responsibility of the Issuer.

Transfers of Certificates Represented by Registered Global Certificates

Transfers of any interests in Certificates represented by a Registered Global Certificate within DTC, Euroclear and Clearstream, Luxembourg will be effected in accordance with the customary rules and operating procedures of the relevant clearing system. The laws in some States within the United States require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer Certificates represented by a Registered Global Certificate to such persons may depend upon the ability to exchange such Certificates for Certificates in definitive form. Similarly, because DTC can only act on behalf of Direct Participants in the DTC system who in turn act on behalf of Indirect Participants, the ability of a person having an interest in Certificates represented by a Registered Global Certificate accepted by DTC to pledge such Certificates to persons or entities that do not participate in the DTC system or otherwise to take action in respect of such Certificates may depend upon the ability to exchange such Certificates for Certificates in definitive form. The ability of any holder of Certificates represented by a Registered Global Certificate accepted by DTC to resell, pledge or otherwise transfer such Certificates may be impaired if the proposed transferee of such Certificates is not eligible to hold such Certificates through a direct or indirect participant in the DTC system.

Subject to compliance with the transfer restrictions applicable to the Registered Certificates described under "*Subscription and Sale and Transfer and Selling Restrictions*", cross-market transfers between DTC, on the one hand, and directly or indirectly through Clearstream, Luxembourg or Euroclear accountholders, on the other, will be effected by the relevant clearing system in accordance with its rules and through action taken by the Registrar, the Principal Paying Agent and any custodian ("**Custodian**") with whom the relevant Registered Global Certificates have been deposited.

On or after the Issue Date for any Series, transfers of Certificates of such Series between accountholders in Clearstream, Luxembourg and Euroclear and transfers of Certificates of such Series between participants in DTC will generally have a settlement date 3 business days after the trade date (T+3). The customary arrangements for delivery versus payment will apply to such transfers.

Cross-market transfers between accountholders in Clearstream, Luxembourg or Euroclear and DTC participants will need to have an agreed settlement date between the parties to such transfer. Because there is no direct link between DTC, on the one hand, and Clearstream, Luxembourg and Euroclear, on the other, transfers of interests in the relevant Registered Global Certificates will be effected through the Registrar, the Principal Paying Agent and the Custodian receiving instructions (and, where appropriate, certification) from the transferor and arranging for delivery of the interests being transferred to the credit of the designated account for the transferee. In the case of cross-market transfers, settlement between Euroclear or Clearstream, Luxembourg accountholders and DTC participants cannot be made on a delivery versus payment basis. The securities will be delivered on a free delivery basis and arrangements for payment must be made separately.

DTC, Clearstream, Luxembourg and Euroclear have each published rules and operating procedures designed to facilitate transfers of beneficial interests in Registered Global Certificates among participants and accountholders of DTC, Clearstream, Luxembourg and Euroclear. However, they are under no obligation to perform or continue

BOOK-ENTRY CLEARANCE SYSTEMS

to perform such procedures, and such procedures may be discontinued or changed at any time. None of the Issuer, the Guarantor, the Agents or any Dealer will be responsible for any performance by DTC, Clearstream, Luxembourg or Euroclear or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations and none of them will have any liability for any aspect of the records relating to or payments made on account of beneficial interests in the Certificates represented by Registered Global Certificates or for maintaining, supervising or reviewing any records relating to such beneficial interests.

TAXATION

TAXATION

Prospective investors in Certificates should consult their own tax advisers in relevant jurisdictions about the tax implications of holding any Certificate and of any transaction involving any Certificate. Investors should be aware that the tax legislation of the country in which the investor is resident and of the Issuer's country of incorporation may have an impact on the income received from the Certificates.

IRISH TAXATION

Ireland

The following is a summary of the principal Irish tax consequences for individuals and companies of ownership of the Certificates based on the laws and practice of the Irish Revenue Commissioners currently in force in Ireland and may be subject to change. It deals with Certificateholders who beneficially own their Certificates as an investment and who are not associated with the Issuer (otherwise than by virtue of holding the Certificates). Particular rules not discussed below may apply to certain classes of taxpayers holding Certificates, such as dealers in securities, trusts etc. The summary does not constitute tax or legal advice and the comments below are of a general nature only. Prospective investors in the Certificates should consult their professional advisers on the tax implications of the purchase, holding, redemption or sale of the Certificates and the receipt of interest thereon under the laws of their country of residence, citizenship or domicile.

Taxation of Certificateholders

Withholding Tax

In general, tax at the standard rate of income tax (currently 20 per cent.), is required to be withheld from payments of Irish source interest which should include interest payable on the Certificates. The Issuer will not be obliged to make a withholding or deduction for or on account of Irish income tax from a payment of interest on a Certificate so long as the interest paid on the relevant Certificate falls within one of the following categories and meets the relevant conditions:

(a) Interest paid on a quoted Eurobond:

A quoted Eurobond is a security which is issued by a company (such as the Issuer), is listed on a recognised stock exchange (which is interpreted by the Irish Revenue Commissioners to mean an exchange which is recognised by the appropriate regulatory authorities in the country in which it is located and has substantially the same level of recognition in that country as the Irish Stock Exchange has in Ireland) and carries a right to interest. Provided that the Certificates issued under this Programme carry an amount in respect of interest and are listed on a recognised stock exchange, interest paid on them can be paid free of withholding tax provided:

- (i) the person by or through whom the payment is made is not in Ireland, or if such person is in Ireland, either:
 - (A) the Certificate is held in a clearing system recognised by the Irish Revenue Commissioners; (DTC, Euroclear and Clearstream, Luxembourg are, amongst others, so recognised); or
 - (B) the person who is the beneficial owner of the quoted Eurobond and who is beneficially entitled to the interest is not resident in Ireland and has made a declaration to a relevant person (such as a paying agent located in Ireland) in the prescribed form; and

Thus, subject to the discussion below, so long as the Certificates are quoted on a recognised stock exchange and are held in a recognised clearing system recognised by the Irish Revenue Commissioners, interest on the Certificates can be paid by any paying agent acting on behalf of the Issuer without any withholding or deduction for or on account of Irish income tax. If the Certificates continue to be quoted but cease to be held in a recognised clearing system, interest on the Certificates may be paid without any withholding or deduction for or on account of Irish income tax provided such payment is made through a paying agent outside Ireland.

TAXATION

Interest or other distributions paid out on the Certificates which are profit dependent or any part of which exceeds a reasonable commercial return could, under certain anti-avoidance provisions, be re-characterised as a non-deductible distribution and so be subject to dividend withholding tax in certain circumstances. However, this should not apply on the basis of a confirmation by the Issuer that, at the time the Certificates were issued, the Issuer was not in possession or aware of any information, including information about any arrangement or understanding in relation to ownership of the Certificate after that time, which could reasonably be taken to indicate that interest or other distributions paid on the Certificates would not be subject, without reduction computed by reference to the amount of such interest or other distribution, to a tax in a relevant territory which generally applies to profits, income or gains received in that relevant territory by persons from sources outside that relevant territory, where the term "relevant territory" means a member state of the European Union (other than Ireland) or a country with which Ireland has signed a double tax treaty.

(b) **Short interest:**

Short interest is interest payable on a debt for a fixed period that is not intended to exceed and, in fact, does not exceed, 364 days. The test is a commercial test applied to the commercial intent of each series of Certificates issued under the Programme. For example, if there is an arrangement or understanding (whether legally binding or not) for the relevant series of Certificates (or particular Certificate within a series) to have a life of 365 days or more, the interest paid on the relevant Certificate(s) will not be short interest and, unless an exemption applies, a withholding will arise. Interest, which has a life of 365 days or more, paid on the Certificates can be paid free of withholding tax, provided one of the following conditions is satisfied:

- (A) the Certificateholder is resident for tax purposes in Ireland; or
- (B) the Certificateholder is a pension fund, government body or other person which is resident in a Relevant Territory and which, under the laws of that territory, is exempted from tax that generally applies to profits, income or gains in that territory and which is not a Specified Person (as defined below); or
- (C) the Certificateholder is subject, without any reduction computed by reference to the amount of such interest, to a tax in a Relevant Territory which generally applies to profits, income or gains received in that territory, by persons, from sources outside that territory.

"Specified Person" means:

- (a) a company which directly or indirectly:
 - (i) controls the Issuer;
 - (ii) is controlled by the Issuer; or
 - (iii) is controlled by a third company which also directly or indirectly controls the Issuer, or
- (b) a person, or persons who are connected with each other (within the meaning of section 10 of the Taxes Consolidation Act, 1997, of Ireland ("**TCA**")):
 - (i) from whom assets were acquired by the Issuer;
 - (ii) to whom the Issuer has made loans or advances;
 - (iii) to whom loans or advances held by the Issuer were made; or
 - (iv) with whom the Issuer has entered into Programme documents,

where the aggregate value of such assets, loans, advances or agreements represents not less than 75 per cent. of the aggregate value of the assets of the Issuer.

TAXATION

For the purposes of this definition, a person has control of a company where that person has:

- (a) the power to secure:
 - (i) by means of the holding of shares or the possession of voting power in or in relation to that or any other company, or
 - (ii) by virtue of any powers conferred by the constitution, articles of association or other document regulating that or any other company,that the affairs of the first-mentioned company are conducted in accordance with the wishes of that person, or
- (b) significant influence (meaning an ability to participate in the financial and operating decisions of the company) over the first-mentioned company and holds, directly or indirectly, more than:
 - (i) 20 per cent. of the issued share capital of the company;
 - (ii) 20 per cent. of the principal value of any securities issued by the company under which the consideration given by the company is to any extent dependent on the results of the company's business or any part of the company's business or under which the consideration so given represents more than a reasonable commercial return for the use of that principal, or any such securities where those securities have no principal value; or
 - (iii) the right to 20 per cent. of the interest or other distribution payable in respect of any securities issued by the company under which the consideration given by the company is to any extent dependent on the results of the company's business or any part of the company's business or under which the consideration so given represents more than a reasonable commercial return for the use of that principal.

(c) **Interest paid on a wholesale debt instrument:**

A "wholesale debt instrument" includes commercial paper (as defined in Section 246A(1) of the TCA). In that context "commercial paper" means a debt instrument, either in physical or electronic form, relating to money in any currency, which is issued by a company, recognises an obligation to pay a stated amount, carries a right to interest or is issued at a discount or at a premium, and matures within 2 years. The exemption from Irish withholding tax applies if:

- (i) the wholesale debt instrument is held in a recognised clearing system (which includes Clearstream, DTC and Euroclear); and
- (ii) the wholesale debt instrument is of an approved denomination; and in this context an approved denomination means a denomination of not less than:
 - (A) in the case of an instrument denominated in euro, €500,000;
 - (B) in the case of an instrument denominated in United States Dollars, US \$500,000; or
 - (C) in the case of an instrument denominated in a currency other than euro or United States Dollars, the equivalent in that other currency of €500,000 (using the conversion rate applicable at the time the programme under which the instrument is to be issued is first publicised).

Interest or other distributions paid out on the Certificates which are profit dependent or any part of which exceeds a reasonable commercial return could, under certain anti-avoidance provisions, be re-characterised as a non-deductible distribution and so be subject to dividend withholding tax in certain circumstances. However, this should not apply on the basis of a confirmation by the Issuer that, at the time the Certificates were issued, the Issuer was not in possession or aware of any information, including

TAXATION

information about any arrangement or understanding in relation to ownership of the Certificate after that time, which could reasonably be taken to indicate that interest or other distributions paid on the Certificates would not be subject, without reduction computed by reference to the amount of such interest or other distribution, to a tax in a relevant territory which generally applies to profits, income or gains received in that relevant territory by persons from sources outside that relevant territory, where the term "relevant territory" means a member state of the European Union (other than Ireland) or a country with which Ireland has signed a double tax treaty.

(d) **Interest paid by a qualifying company or in the ordinary course of business to certain non-residents:**

If, for any reason, the exemptions referred to above cease to apply, interest payments may still be made free of withholding tax provided that:

(i) either:

- (A) the Issuer remains a "qualifying company" as defined in Section 110 of the TCA and the Certificateholder is a person which is resident in a Relevant Territory, and where the recipient is a company, the interest is not paid to it in connection with a trade or business carried on by it in Ireland through a branch or agency; or
- (B) the interest is paid in the ordinary course of the Issuer's business and the Certificateholder is:
 - (I) a company which (1) by virtue of the law of a Relevant Territory, is resident in the Relevant Territory for the purposes of tax, and that Relevant Territory imposes a tax that generally applies to interest receivable in that Relevant Territory by companies from sources outside that Relevant Territory, and (2) does not receive the interest payment in connection with a trade or business which is carried on in Ireland by it through a branch or agency; or
 - (II) a company where (1) the interest payable to it is exempted from the charge to income tax under a double taxation treaty in force between Ireland and another territory, or would be exempted from the charge to income tax if a double taxation treaty made between Ireland and another territory on or before the date of payment, but not yet in force, had the force of law when the interest was paid, and (2) it does not receive the interest payment in connection with a trade or business which is carried on in Ireland by it through a branch or agency; and

(ii) one of the following conditions is satisfied:

- (A) the Certificateholder is a pension fund, government body or other person which is resident in a Relevant Territory and which, under the laws of that territory, is exempted from tax that generally applies to profits, income or gains in that territory and which is not a Specified Person (as defined above); or
- (B) the Certificateholder is subject, without any reduction computed by reference to the amount of such interest, to a tax in a Relevant Territory which generally applies to profits, income or gains received in that territory, by persons, from sources outside that territory.

The Issuer must be satisfied that the respective terms of the exemptions are satisfied. The test of residence in each case is determined by reference to the law of the Relevant Territory in which the Certificateholder claims to be resident.

For other holders of Certificates, interest may be paid free of withholding tax if the Certificateholder is resident in a double tax treaty country and under the provisions of the relevant treaty with Ireland such Certificateholder is exempt from Irish tax on the interest and clearance in the prescribed form has been received by the Issuer before the interest is paid.

TAXATION

Encashment Tax

Irish tax will be required to be withheld at the standard rate of income tax (currently 25 per cent.) from interest on any Certificate, where such interest is collected or realised by a bank or encashment agent in Ireland on behalf of any Certificateholder. There is an exemption from encashment tax where (i) the beneficial owner of the interest is not resident in Ireland and has made a declaration to this effect in the prescribed form to the encashment agent or bank or (ii) the beneficial owner of the interest is a company which is within the charge to Irish corporation tax in respect of the interest.

Stamp Duty

No stamp duty or similar tax is imposed in Ireland on the issue, transfer or redemption of the Certificates provided the Issuer is a qualifying company for the purposes of Section 110 of the TCA and the proceeds of the Certificates are used in the course of the Issuer's business.

SWISS TAXATION

The following summary is an overview of certain aspects of taxes in Switzerland relating to the taxation of the Certificates issued under the Programme and is included herein solely for information purposes. It is not intended to be, nor should it be construed to be, legal or tax advice. This summary is based upon the Swiss tax laws as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date. Because this overview does not address all tax considerations under Swiss law and as the specific tax situation of an investor cannot be considered in this context, prospective investors are recommended to consult their personal tax advisers as to the tax consequences of the purchase, ownership, sale or redemption of and the income derived from the Certificates issued under the Programme including, in particular, the effect of tax laws of any other jurisdiction.

On 3 October 2017, the Swiss Federal Tax Administration has issued updated Circular Letter No. 15 in relation to bonds and derivative financial instruments as subject of Swiss direct federal tax, Swiss withholding tax and Swiss stamp duties ("**Circular Letter No. 15**"). The Certificates issued under the Programme will be taxed in accordance with this Circular Letter No. 15 and its appendices, as updated from time to time. Depending on the qualification of the relevant Certificate by the competent Swiss tax authorities the taxation of each Certificate may be different.

Federal, Cantonal and Communal Individual Income Tax and Corporate Income Tax

Certificates held by non-Swiss holder

Holders of Certificates who are not resident in Switzerland for tax purposes, and who during the respective taxation year, have not engaged in a trade or business carried out through a permanent establishment or a fixed place of business situated in Switzerland to which the Certificates are attributable for tax purposes and who are not subject to income taxation in Switzerland for any other reason ("**Non-Resident Certificateholders**") are in respect of the Certificates not subject to any federal, cantonal and communal income tax, whether on interest (and/or discount and/or premium, if any) paid, on the payment of principal or on any gain realised on the sale or other disposition of the Certificates.

Certificates held as private asset by a Swiss resident holder

Individuals resident in Switzerland who hold their Certificates as private assets ("**Resident Private Certificateholders**") are required to include payments on such Certificates, which are considered, from a Swiss taxation perspective, as investment income (dividends or interests or other income), in their personal income tax return for the relevant tax period and will be taxable on any net taxable income for such tax period.

Gains or losses realised upon a sale or other disposition by Resident Private Certificateholders qualifying as private capital gains or losses for Swiss tax purposes are generally not subject to income taxation or are not deductible from taxable income respectively. Capital gains may, however, be subject to income taxation, if a Certificate or a distinguishable part thereof qualifies as a bond where the predominant part of the annual yield is paid in a one-time payment (*überwiegende Einmalverzinsung*) or the Certificate is considered as not transparent for Swiss tax purposes. Losses arising from predominant one-time interest paying bonds may be deducted from

TAXATION

gains from similar instruments in the same tax period. Furthermore, for low exercise price options (LEPO) with a maturity exceeding one year, the interest component is subject to income tax.

Profits and option premiums from Certificates, which are considered as pure derivatives for Swiss tax purposes (futures, options) are not subject to income tax as such profits are in general considered as private capital gains provided the investor is holding the Certificates as private assets. Possible losses are not tax-deductible.

Income derived from a Certificate which is neither a private capital gain nor a repayment of paid-in capital (or face value in case of shares) is generally subject to income tax. This applies, inter alia, to any issuance discount, repayment premium, other guaranteed payments (besides repayment of capital) or any combination thereof. Payments received by an investor because of dividends, interest etc. of the underlying may be subject to income tax for such investor. This may apply likewise to payments or credits derived from underlying funds.

Certificates held as business asset by a Swiss resident holder

Corporate entities and individuals who hold their Certificates as part of a trade or business in Switzerland, which in the case of residents abroad, is carried out through a permanent establishment or a fixed place of business in Switzerland ("**Domestic Commercial Certificateholders**"), are required to recognise the payments of interest and any gain realised on the sale, redemption or exercise of such Certificates (including a gain relating to interest accrued) and any loss on such Certificates in their income statement for the respective tax period and will be taxable on any net taxable earnings for such period. The same taxation treatment also applies to Swiss resident individuals who, for income tax purposes, are classified as "professional securities dealers" (*gewerbmässiger Wertschriftenhändler*) for reasons of, inter alia, frequent dealings and leveraged investments in securities.

Cantonal and Communal Wealth Tax and Capital Tax, Gift, Estate and Inheritance Tax

Holders of Certificates who are Non-Resident Certificateholders are not subject to cantonal and communal wealth tax or capital tax.

Holders of Certificates who are Resident Private Certificateholders or individuals that are Domestic Commercial Certificateholders are required to report the Certificates as part of their private wealth or as part of their Swiss business assets, as the case may be, and are subject to annual cantonal and/or communal wealth tax on any net taxable wealth (including the Certificates); however, in the case of individuals that are Domestic Commercial Certificateholders, only to the extent the aggregate taxable wealth is allocable to Switzerland. Corporate Domestic Commercial Certificateholders are required to report the Certificates as part of their assets in their financial statements and are subject to cantonal and communal capital tax on net taxable equity; however, in the case of a non-Swiss resident corporate Domestic Commercial Certificateholders holding Certificates as part of a Swiss permanent establishment, only to the extent aggregate taxable equity is allocable to Switzerland. No wealth tax and no capital tax are levied at federal level.

The transfer of Certificates may be subject to cantonal and/or communal gift, estate or inheritance taxes if the donor is, or the deceased was, resident for tax purposes in a Swiss canton levying such taxes.

Withholding Tax

All payments in respect of the Certificates by the non-Swiss issuer are currently not subject to withholding tax, provided that the Issuer is at all times resident and effectively managed outside Switzerland for Swiss tax purposes. If there was a deduction or withholding of withholding tax on any interest payments in respect of the Certificates, the holders of the Certificates would not be entitled to receive any additional amounts as a result of such deduction or withholding under the terms of the Certificates.

Securities Transfer Tax

Securities transfer tax (*Umsatzabgabe*) is levied on the transfer of ownership against consideration of certain taxable securities (which may include the Certificates) if a securities dealer in Switzerland or Liechtenstein, as defined in the Swiss federal stamp duty act (*Bundesgesetz über die Stempelabgaben*), is a party or acts as an intermediary to the transaction and no exemption applies. Hence, secondary market transactions in the Certificates may be subject to securities transfer tax at a rate of up to 0.3%, calculated on the purchase price or sales proceeds. Also, the physical delivery of the underlying upon settlement (future) or exercise (option) is generally subject to securities transfer tax, if the underlying itself qualifies as taxable security for Swiss stamp duty purposes.

TAXATION

However, those Certificates which classify as pure derivatives for Swiss stamp duty purposes do generally not qualify as taxable securities and are thus not subject to securities transfer tax. This excludes those Certificates which, due to specific features, are considered debt financing instruments (bonds or money market securities), share-like or fund-like products, as well as Low Exercise Price Options (LEPO) on shares (with a maturity exceeding one year) for Swiss stamp duty purposes.

Automatic Exchange of Information

On 19 November 2014, Switzerland signed the Multilateral Competent Authority Agreement ("MCAA"). The MCAA is based on article 6 of the OECD/Council of Europe administrative assistance convention and is intended to ensure the uniform implementation of Automatic Exchange of Information ("AEOI"). The Federal Act on the International Automatic Exchange of Information in Tax Matters ("AEOI Act") entered into force on 1 January 2017. The AEOI Act is the legal basis for the implementation of the AEOI standard in Switzerland.

The AEOI is being introduced in Switzerland through bilateral agreements or multilateral agreements. The agreements have, and will be, concluded on the basis of guaranteed reciprocity, compliance with the principle of speciality (i.e. the information exchanged may only be used to assess and levy taxes (and for criminal tax proceedings)) and adequate data protection. An up-to-date list of the AEOI agreements of Switzerland in effect or signed and becoming effective, including the dates of commencement of data collection and data exchange, can be found on the website of the State Secretariat for International Financial Matters SIF <www.sif.admin.ch>.

Based on such bilateral or multilateral agreements, as the case may be, and the implementation of Swiss law, Switzerland collects and exchanges data in respect of financial assets, including the Certificates, held in, and income derived thereon and credited to, accounts or deposits with a paying agent in Switzerland for the benefit of individuals resident in a European Union member state or in a treaty state.

UNITED KINGDOM TAXATION

The following is a general summary of the Issuer's understanding of certain aspects of current United Kingdom law and published HM Revenue & Customs ("HMRC") practice relating to certain aspects of United Kingdom taxation. It applies only to persons who are the absolute beneficial owners of Certificates and related Coupons and may not apply to certain classes of persons, such as dealers and persons connected with the Issuer, to whom special rules may apply.

Prospective Certificateholders who are in any doubt as to their tax position or who may be subject to tax in any jurisdiction other than the United Kingdom should seek independent professional advice without delay.

United Kingdom withholding tax

1. The Issuer may make payments in respect of the Certificates without deduction or withholding for or on account of United Kingdom tax where such payments do not have a "United Kingdom source". Interest on Certificates may have a United Kingdom source ("**UK Interest**"), depending upon the circumstances.
2. Payments of UK Interest made in respect of Certificates which carry a right to interest and are listed on a "recognised stock exchange" within the meaning of section 1005 Income Tax Act 2007 ("**ITA 2007**"), or are admitted to trading on a multilateral trading facility operated by a regulated recognised stock exchange within the meaning of section 987 ITA 2007, may be made without withholding or deduction for or on account of United Kingdom income tax.

Section 1005(3) ITA 2007 provides that securities will be listed on a recognised stock exchange if (and only if) they are admitted to trading on that exchange, and either they are included in the United Kingdom official list (within the meaning of Part 6 of the Financial Services and Markets Act 2000) or they are officially listed, in accordance with provisions corresponding to those generally applicable in European Economic Area states, in a country outside the United Kingdom in which there is a recognised stock exchange.

The TLX Market is both a recognised stock exchange and a multilateral trading facility operated by a regulated recognised stock exchange in accordance with section 987 of ITA 2007

TAXATION

The Vienna MTF is not a recognised stock exchange, but is a multilateral trading facility operated by a regulated recognised stock exchange in accordance with section 987 of ITA 2007.

Accordingly, in relation to any Certificates which are and remain admitted to trading on the TLX Market and officially listed as described above or are and continue to be admitted to trading on the Vienna MTF, the Issuer is entitled to make payments of UK Interest on such Certificates without deduction for or on account of United Kingdom income tax.

The UK withholding tax status of Certificates listed and/or admitted to trading on other exchanges, markets or trading facilities dependent upon the circumstances and the nature of the exchanges, markets or trading facilities in question.

3. In cases falling outside the exemptions described above, UK Interest on Certificates may fall to be paid under deduction of United Kingdom income tax at the basic rate (currently 20%) subject to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double taxation treaty, or to any other exemption which may apply.
4. If Certificates are issued at a discount to their principal amount, any such discount element is not subject to any United Kingdom withholding tax. If Certificates are redeemed at a premium to principal amount (as opposed to being issued at a discount) then, depending on the circumstances, such premium may constitute a payment of interest for United Kingdom tax purposes and hence be subject to the United Kingdom withholding tax rules outlined above.
5. As the Guarantor is a UK company, payments by the Guarantor under the Guarantee or the Dematerialised Certificates Guarantee (in the case of Dematerialised Certificates) may, depending on the circumstances, be subject to United Kingdom withholding tax.

THE FOREIGN ACCOUNT TAX COMPLIANCE ACT

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "foreign financial institution" may be required to withhold on certain payments it makes ("foreign passthru payments") to persons that fail to meet certain certification, reporting or related requirements. The Issuer has registered with the U.S. Internal Revenue Service as a reporting foreign financial institution for these purposes.

A number of jurisdictions (including Ireland and the United Kingdom) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("IGAs"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Certificates, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Certificates, are uncertain and may be subject to change.

Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Certificates, such withholding would not apply prior to the date that is two years after the date on which final regulations defining "foreign passthru payments" are published in the U.S. Federal Register and Certificates characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining "foreign passthru payments" are filed with the U.S. Federal Register generally would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the Issuer). However, if additional Certificates that are not distinguishable from previously issued Certificates are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all such Certificates, including those Certificates offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA.

Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Certificates. In the event that any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Certificates, no person will be required to pay additional amounts as a result of the withholding.

TAXATION

U.S. SECTION 871(M) WITHHOLDING

Section 871(m) of the U.S. Internal Revenue Code of 1986 treats U.S. "dividend equivalent" payments as dividends from sources within the United States for United States tax purposes. Under Section 871(m), such payments generally would be subject to a 30% U.S. withholding tax that may be reduced by an applicable tax treaty, eligible for credit against other U.S. tax liabilities or refunded, provided that the beneficial owner timely claims a credit or refund from the U.S. Internal Revenue Service (the "**IRS**"). A "dividend equivalent" payment is (i) a substitute dividend payment made pursuant to a securities lending or a sale-repurchase transaction that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States; (ii) a payment made pursuant to a "specified notional principal contract" that (directly or indirectly) is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States; or (iii) any other payment determined by the IRS to be substantially similar to a payment described in (i) and (ii). U.S. Treasury regulations issued under Section 871(m) (the "**Section 871(m) Regulations**") require withholding on payments to certain non-U.S. holders of Certificates with respect to amounts treated as attributable to dividends from certain U.S. securities. Under the Section 871(m) Regulations, only Certificates that have an expected economic return sufficiently similar to that of the underlying U.S. securities as determined on the Certificates' issue date based on tests set forth in the Section 871(m) Regulations ("**871(m) Certificates**") will be subject to the Section 871(m) withholding regime. The Section 871(m) Regulations provide certain exceptions to this withholding requirement, in particular for instruments linked to certain broad-based indices.

Withholding in respect of dividend equivalents will generally be required when cash payments are made on an 871(m) Certificate or upon the date of maturity, lapse or other disposition by a non-U.S. holder of an 871(m) Certificate. If the underlying U.S. security or securities are expected to pay dividends during the term of the 871(m) Certificate, withholding will generally still be required even if the 871(m) Certificate does not provide for payments explicitly linked to dividends. If the Issuer or any withholding agent determines that 871(m) withholding is required in respect of any payment on any Certificate, neither the Issuer nor any of its agents will be required to pay any additional amounts with respect to amounts so withheld.

If the Issuer states in the Final Terms of any Series of Certificates, that such Series are 871(m) Certificates, then any non-U.S. holder of such Certificates should expect payments under such Certificates to be subject to 871(m) withholding in respect of any dividend-paying U.S. securities underlying those Certificates. The Section 871(m) Regulations require complex calculations to be made with respect to Certificates linked to U.S. securities and their application to a specific Series of Certificates may be uncertain. Prospective investors should consult their tax advisers regarding the potential application of Section 871(m) to the Certificates.

THE PROPOSED FINANCIAL TRANSACTIONS TAX ("FTT")

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in Certificates (including secondary market transactions) in certain circumstances.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Certificates where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional Member States may decide to participate.

Prospective holders of Certificates are advised to seek their own professional advice in relation to the FTT.

SUBSCRIPTION AND SALE AND TRANSFER AND SELLING RESTRICTIONS

SUBSCRIPTION AND SALE AND TRANSFER AND SELLING RESTRICTIONS

The Dealer(s) have, in a programme agreement dated on or about 18 October 2024 (which expression includes the same as it may be amended, supplemented or restated from time to time, the "**Programme Agreement**") agreed with the Issuer and the Guarantor a basis upon which they or any of them may from time to time agree to purchase Certificates. Any such agreement will extend to those matters stated under "*Form of Certificates*" and "*Terms and Conditions of the Certificates*". In the Programme Agreement, the Issuer (and, failing which, the Guarantor) has agreed to reimburse the Dealer(s) for certain of their expenses in connection with the establishment and any future update of the Programme and the issue of Certificates under the Programme and to indemnify the Dealer(s) against certain liabilities incurred by them in connection therewith.

In order to facilitate the offering of any Tranche of the Certificates, certain persons participating in the offering of the Tranche may engage in transactions that stabilise, maintain or otherwise affect the market price of the relevant Certificates during and after the offering of the Tranche. Specifically such persons may over-allot or create a short position in the Certificates for their own account by selling more Certificates than have been sold to them by the Issuer. Such persons may also elect to cover any such short position by purchasing Certificates in the open market. In addition, such persons may stabilise or maintain the price of the Certificates by bidding for or purchasing Certificates in the open market and may impose penalty bids, under which selling concessions allowed to syndicate members or other broker-dealers participating in the offering of the Certificates are reclaimed if Certificates previously distributed in the offering are repurchased in connection with stabilisation transactions or otherwise. The effect of these transactions may be to stabilise or maintain the market price of the Certificates at a level above that which might otherwise prevail for a limited period after the Issue Date. The imposition of a penalty bid may also affect the price of the Certificates to the extent that it discourages resales thereof. No representation is made as to the magnitude or effect of any such stabilisation or other transactions. Such transactions, if commenced, may be discontinued at any time and must be brought to an end after a limited period. Under UK laws and regulations stabilisation activities may only be carried on by the Stabilisation Manager named in the Final Terms (or persons acting on its behalf) and may only continue for a limited period following the Issue Date (or, if the ending day would be earlier, 60 days after the date of allotment) of the relevant Tranche of Certificates.

Transfer Restrictions

As a result of the following restrictions, purchasers of Certificates in the United States are advised to consult legal counsel prior to making any purchase, offer, sale, resale or other transfer of such Certificates.

Each person purchasing an interest in a Registered Global Certificate will be deemed to have acknowledged, represented and agreed, as follows (terms used in this paragraph that are defined in Rule 144A or in Regulation S are used herein as defined therein):

- (a) that (i) it is a QIB who is also a QP, purchasing (or holding) the Certificates for its own account or for the account of one or more QIBs who are also QPs and it is aware that any sale to it is being made in reliance on Rule 144A, or (ii) it is outside the United States and is not a U.S. person;
- (b) that the Certificates are being offered and sold in a transaction not involving a public offering in the United States within the meaning of the Securities Act, and that the Certificates have not been and will not be registered under the Securities Act or any other applicable U.S. state securities laws and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except as set forth below;
- (c) that, unless it holds an interest in a Regulation S Global Certificate and either is a person located outside the United States or is not a U.S. person, if in the future it decides to resell, pledge or otherwise transfer the Certificates or any beneficial interests in the Certificates, it will do so, prior to the date which is one year after the later of the last Issue Date for the Series and the last date on which the Issuer or an affiliate of the Issuer was the owner of such Certificates, only (i) to the Issuer or any affiliate thereof, (ii) inside the United States to a person whom the seller reasonably believes is a QIB who is also a QP purchasing for its own account or for the account of a QIB who is also a QP in a transaction meeting the requirements of Rule 144A, (iii) outside the United States in compliance with Rule 903 or Rule 904 under the Securities Act, (iv) pursuant to the exemption from registration provided by Rule 144 under the Securities Act (if available) or (v) pursuant to an effective registration statement under the Securities Act, in each case in accordance with all applicable U.S. state securities laws;

SUBSCRIPTION AND SALE AND TRANSFER AND SELLING RESTRICTIONS

- (d) that it will, and will require each subsequent holder to, notify any purchaser of the Certificates from it of the resale restrictions referred to in paragraph (c) above, if then applicable;
- (e) that Certificates initially offered in the United States to QIBs who are also QPs will be represented by one or more Rule 144A Global Certificates, that Certificates offered to Institutional Accredited Investors who are also QPs will be in the form of Definitive IAI Registered Certificates and that Certificates offered outside the United States in reliance on Regulation S will be represented by one or more Regulation S Global Certificates;
- (f) that the Certificates, other than the Regulation S Global Certificates, will bear a legend to the following effect unless otherwise agreed to by the Issuer:

BY PURCHASING THE CERTIFICATES REPRESENTED HEREBY, EACH HOLDER OF ANY BENEFICIAL INTEREST HEREIN WILL BE DEEMED TO HAVE REPRESENTED FOR THE BENEFIT OF THE ISSUER AND FOR ANY AGENT OR SELLER WITH RESPECT TO THE CERTIFICATES THAT IT (I)(A) IS AN "ELIGIBLE INVESTOR" (AS DEFINED BELOW), (B) WILL HOLD AT LEAST THE MINIMUM DENOMINATION OF U.S.\$250,000, (C) WILL PROVIDE NOTICE OF APPLICABLE TRANSFER RESTRICTIONS TO ANY SUBSEQUENT TRANSFEREE, INCLUDING DELIVERING TO EACH TRANSFEREE A NOTICE SUBSTANTIALLY TO THE EFFECT OF THIS LEGEND, (D) IS PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNTS OF ONE OR MORE OTHER PERSONS EACH OF WHOM MEETS ALL OF THE PRECEDING REQUIREMENTS AND (E) AGREES THAT IT WILL NOT REOFFER, RESELL, PLEDGE OR OTHERWISE TRANSFER THE CERTIFICATES OR ANY BENEFICIAL INTEREST HEREIN TO ANY PERSON EXCEPT TO A PERSON THAT MEETS ALL OF THE PRECEDING REQUIREMENTS AND AGREES NOT TO SUBSEQUENTLY TRANSFER THE CERTIFICATES OR ANY BENEFICIAL INTEREST HEREIN EXCEPT IN ACCORDANCE WITH THIS CLAUSE (E) OR (II) IS NOT A U.S. PERSON AND IS ACQUIRING THE CERTIFICATES PURSUANT TO RULE 903 OR 904 OF REGULATION S. ANY RESALE OR OTHER TRANSFER OF THIS CERTIFICATE MADE OTHER THAN IN COMPLIANCE WITH THE FOREGOING RESTRICTIONS SHALL NOT BE RECOGNIZED BY THE ISSUER, THE REGISTRAR OR ANY OTHER AGENT OF THE ISSUER.

"**ELIGIBLE INVESTORS**" ARE DEFINED FOR THE PURPOSES HEREOF AS PERSONS WHO ARE "QUALIFIED INSTITUTIONAL BUYERS" AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT ("**QIBS**") THAT ARE ALSO "QUALIFIED PURCHASERS" AS DEFINED IN SECTION 2(A)(51)(A) OF THE 1940 ACT ("**QPS**"), ACTING FOR THEIR OWN ACCOUNT OR FOR THE ACCOUNT OF OTHER QIBS WHO ARE ALSO QPS, OR PERSONS WHO ARE INSTITUTIONAL ACCREDITED INVESTORS AND QPS, BUT EXCLUDING THEREFROM: (I) QIBS THAT ARE BROKER DEALERS THAT OWN AND INVEST ON A DISCRETIONARY BASIS LESS THAN U.S.\$25 MILLION IN "SECURITIES" AS SUCH TERM IS DEFINED UNDER RULE 144A, (II) A PARTNERSHIP, COMMON TRUST FUND, SPECIAL TRUST, PENSION FUND, RETIREMENT PLAN OR OTHER ENTITY IN WHICH THE PARTNERS, BENEFICIARIES OR PARTICIPANTS, AS THE CASE MAY BE, MAY DESIGNATE THE PARTICULAR INVESTMENTS TO BE MADE OR THE ALLOCATION THEREOF, (III) AN ENTITY THAT WAS FORMED, REFORMED OR RECAPITALIZED FOR THE SPECIFIC PURPOSE OF INVESTING IN THE

OF ITS ASSETS IN SECURITIES OF THE ISSUER SUBSEQUENT TO ANY PURCHASE OF THE CERTIFICATES.

THE PURCHASER ACKNOWLEDGES THAT THE ISSUER OR ANY DEALER RESERVE THE RIGHT PRIOR TO ANY SALE OR OTHER TRANSFER TO REQUIRE THE DELIVERY OF SUCH CERTIFICATIONS, LEGAL OPINIONS AND OTHER INFORMATION AS THE ISSUER OR ANY DEALER MAY REASONABLY REQUIRE TO CONFIRM THAT THE PROPOSED SALE OR OTHER TRANSFER COMPLIES WITH THE FOREGOING RESTRICTIONS. EACH HOLDER OF A BENEFICIAL INTEREST IN THIS GLOBAL CERTIFICATE ACKNOWLEDGES THAT IN THE EVENT THAT AT ANY TIME THE ISSUER DETERMINES OR IS NOTIFIED BY THE DEALER THAT SUCH PURCHASER WAS IN BREACH, AT THE TIME GIVEN OR DEEMED TO BE GIVEN, OF ANY OF THE REPRESENTATIONS OR AGREEMENTS SET FORTH IN THIS LEGEND OR OTHERWISE DETERMINES THAT ANY TRANSFER OR OTHER DISPOSITION OF ANY CERTIFICATES WOULD, IN THE SOLE DETERMINATION OF THE ISSUER, REQUIRE THE ISSUER TO REGISTER AS AN "INVESTMENT COMPANY" UNDER THE PROVISIONS OF THE 1940 ACT, SUCH PURCHASE OR OTHER TRANSFER WILL BE VOID AB INITIO AND WILL NOT BE HONORED BY THE REGISTRAR. ACCORDINGLY, ANY SUCH PURPORTED TRANSFEREE OR OTHER HOLDER WILL NOT BE ENTITLED TO ANY RIGHTS AS A CERTIFICATEHOLDER AND THE ISSUER SHALL HAVE THE RIGHT, IN ACCORDANCE WITH THE CONDITIONS OF THE CERTIFICATES, TO FORCE THE TRANSFER OF OR REDEMPTION OF ANY SUCH CERTIFICATES.

THE CERTIFICATES AND THE GUARANTEE THEREOF DO NOT CONSTITUTE, AND HAVE NOT BEEN MARKETED AS, CONTRACTS OF SALE OF A COMMODITY FOR FUTURE DELIVERY (OR OPTIONS THEREON) SUBJECT TO THE U.S. COMMODITY EXCHANGE ACT, AS AMENDED (THE "CEA"), AND TRADING IN THE SECURITIES HAS NOT BEEN APPROVED BY THE U.S. COMMODITY FUTURES TRADING COMMISSION PURSUANT TO THE CEA. THIS CERTIFICATE AND RELATED DOCUMENTATION (INCLUDING, WITHOUT LIMITATION, THE AGENCY AGREEMENT REFERRED TO HEREIN) MAY BE AMENDED OR SUPPLEMENTED FROM TIME TO TIME, WITHOUT THE CONSENT OF, BUT UPON NOTICE TO, THE HOLDERS OF SUCH CERTIFICATES SENT TO THEIR REGISTERED ADDRESSES, TO MODIFY THE RESTRICTIONS ON AND PROCEDURES FOR REALES AND OTHER TRANSFERS OF THIS CERTIFICATE TO REFLECT ANY CHANGE IN APPLICABLE LAW OR REGULATION (OR THE INTERPRETATION THEREOF) OR IN PRACTICES RELATING TO REALES OR OTHER TRANSFERS OF RESTRICTED SECURITIES GENERALLY. THE HOLDER OF THIS CERTIFICATE SHALL BE DEEMED, BY ITS ACCEPTANCE OR PURCHASE HEREOF, TO HAVE AGREED TO ANY SUCH AMENDMENT OR SUPPLEMENT (EACH OF WHICH SHALL BE CONCLUSIVE AND BINDING ON THE HOLDER HEREOF AND ALL FUTURE HOLDERS OF THIS CERTIFICATE AND ANY CERTIFICATES ISSUED IN EXCHANGE OR SUBSTITUTION THEREFOR, WHETHER OR NOT ANY NOTATION THEREOF IS MADE HEREON).";

EACH HOLDER OF A BENEFICIAL INTEREST HEREIN SHALL BE DEEMED TO AGREE FOR THE BENEFIT OF THE ISSUER THAT, IF IT SHOULD DECIDE TO DISPOSE OF THE CERTIFICATES REPRESENTED BY THIS REGULATION S GLOBAL CERTIFICATE PRIOR TO THE EXPIRY OF THE PERIOD OF 40 DAYS AFTER THE COMPLETION OF THE DISTRIBUTION, BENEFICIAL INTERESTS IN THIS REGULATION S GLOBAL CERTIFICATE MAY BE OFFERED, RESOLD OR OTHERWISE TRANSFERRED ONLY IN COMPLIANCE WITH THE SECURITIES ACT AND UNDER CIRCUMSTANCES WHICH WILL NOT REQUIRE THE ISSUER TO REGISTER AS AN "INVESTMENT COMPANY" UNDER THE 1940 ACT. ACCORDINGLY, ANY TRANSFERS OF THE CERTIFICATES PRIOR TO THE TERMINATION OF THE DISTRIBUTION COMPLIANCE PERIOD MAY ONLY BE MADE: (A) TO A NON-U.S. PERSON IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 903 OR 904 OF REGULATION S UNDER THE SECURITIES ACT OR (B) TO OR FOR THE ACCOUNT OR BENEFIT OF A U.S. PERSON IN A TRANSACTION PURSUANT TO RULE 144A OR REGULATION D UNDER THE SECURITIES ACT TO PERSONS WHO QUALIFY AS "ELIGIBLE INVESTORS" (AS DEFINED BELOW). IN THE CASE OF ANY SUCH TRANSFER PURSUANT TO CLAUSE (B), (1) THE TRANSFEREE WILL BE REQUIRED TO HAVE THE CERTIFICATES SO TRANSFERRED TO BE REPRESENTED BY AN INTEREST IN A RULE 144A GLOBAL CERTIFICATE OR A DEFINITIVE IAI REGISTERED CERTIFICATE (AS DEFINED IN THE BASE PROSPECTUS); (2) THE TRANSFEROR WILL BE REQUIRED TO DELIVER A TRANSFER CERTIFICATE (THE FORM OF WHICH IS ATTACHED TO THE AGENCY AGREEMENT AND IS AVAILABLE FROM THE TRANSFER AGENT), AND (3) THE TRANSFEREE WILL BE REQUIRED TO EXECUTE AN INVESTMENT LETTER (THE FORM OF WHICH IS ALSO ATTACHED TO THE AGENCY AGREEMENT) CERTIFYING, AMONG OTHER THINGS, ITS STATUS AS AN ELIGIBLE INVESTOR.

SUBSCRIPTION AND SALE AND TRANSFER AND SELLING RESTRICTIONS

EACH HOLDER OF A BENEFICIAL INTEREST HEREIN UNDERSTANDS THAT THE ISSUER MAY RECEIVE A LIST OF ALL PARTICIPANTS HOLDING POSITIONS IN ITS CERTIFICATES FROM ONE OR MORE BOOK-ENTRY DEPOSITARIES AND THAT THE PARTICIPANTS MAY FURTHER DISCLOSE TO THE ISSUER THE NAMES AND POSITIONS OF HOLDERS OF ITS CERTIFICATES.

THE CERTIFICATES AND THE GUARANTEE THEREOF DO NOT CONSTITUTE, AND HAVE NOT BEEN MARKETING AS, A CONTRACT OF SALE OF A COMMODITY FOR FUTURE DELIVERY (OR OPTIONS THEREON) SUBJECT TO THE U.S. COMMODITY EXCHANGE ACT, AS AMENDED (THE "CEA"), AND TRADING IN THE CERTIFICATES HAS NOT BEEN APPROVED BY THE U.S. COMMODITY FUTURES TRADING COMMISSION PURSUANT TO THE CEA"; and

- (h) that the Issuer and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements and agrees that if any of such acknowledgements, representations or agreements made by it are no longer accurate, it shall promptly notify the Issuer; and if it is acquiring any Certificates as a fiduciary or agent for one or more accounts it represents that it has sole investment discretion with respect to each such account and that it has full power to make the foregoing acknowledgements, representations and agreements on behalf of each such account.

Unless otherwise provided in the applicable Final Terms, each Institutional Accredited Investor who is also a QP who purchases Registered Certificates in definitive form offered and sold in the United States in reliance upon the exemption from registration provided by Regulation D of the Securities Act is required to execute and deliver to the Registrar an Investment Letter. Upon execution and delivery of an Investment Letter by an Institutional Accredited Investor who is also a QP, Certificates will be issued in definitive registered form, see "Form of Certificates". Each QIB who is also a QP who purchases Rule 144A Global Certificates offered and sold in the United States in reliance upon the exemption from registration provided by Rule 144A of the Securities Act is required to execute and deliver to the Registrar an Investment Letter.

The Investment Letter referred to above shall include the following representations and agreements (undefined terms used in this section that are defined in Rule 144A or in Regulation S are used herein as defined therein):

- (a) **Purchaser Requirements.** Certificates may be offered in the United States to a purchaser who: (i) is an Eligible Investor (as defined below), (ii) will hold at least the minimum denomination of US\$250,000, (iii) will provide notice of applicable transfer restrictions to any subsequent transferee (and each subsequent transferee will be deemed to have made the same representations and agreements contained in clauses (i) through (v) of this paragraph), (iv) understands that the issuer may receive a list of all participants holding positions in its Certificates from one or more book-entry depositaries and that the participants may further disclose to the issuer the names and positions of holders of its Certificates, and (v) is purchasing for its own account or for the accounts of one or more other persons each of whom meets all of the requirements of clauses (i) through (v) and over which it exercises sole investment discretion.
- (b) **Notice of Transfer Restrictions.** Each purchaser acknowledges and agrees that (a) the Certificates have not been and will not be registered under the Securities Act and the Issuer has not been registered as an "investment company" under the 1940 Act, (b) neither the Certificates nor any beneficial interest therein may be re-offered, resold, pledged or otherwise transferred except in accordance with the provisions set out in paragraph (a) above and (c) the purchaser will notify any transferee of such transfer restrictions and that each subsequent holder will be required to notify any subsequent transferee of such Certificates of such transfer restrictions.
- (c) **Mandatory Transfer/Redemption.** Each purchaser acknowledges and agrees that in the event that at any time the Issuer determines or is notified by the Dealer acting on behalf of the Issuer that such purchaser was in breach, at the time given or deemed to be given, of any of the representations or agreements set out in paragraph (a) above or otherwise determines that any transfer or other disposition of any Certificates would, in the sole determination of the Issuer or the Dealer acting on behalf of the Issuer, require the Issuer to register as an "investment company" under the provisions of the 1940 Act, such purchase or other transfer will be void ab initio and will not be honoured by the Registrar. Accordingly, any such purported transferee or other holder will not be entitled to any rights as a Certificateholder and the Issuer shall have the right, in accordance with the conditions of the Certificates, to force the transfer of, transfer on behalf of the Certificateholder or redeem, any such Certificates.

SUBSCRIPTION AND SALE AND TRANSFER AND SELLING RESTRICTIONS

- (d) **Rule 144A Information.** Each purchaser of Certificates offered and sold in the United States under Rule 144A is hereby notified that the offer and sale of such Certificates to it is being made in reliance upon the exemption from the registration requirements of the Securities Act provided by Rule 144A. The Issuer has agreed to furnish to investors upon request such information as may be required by Rule 144A.
- (e) **ERISA.** If the purchaser is a U.S. person purchasing an interest in a Rule 144A Global Certificate, it is not a benefit plan investor, is not using the assets of a benefit plan investor to acquire such Certificates and shall not at any time hold such Certificates for a benefit plan investor (including assets that may be held in an insurance company's separate or general accounts where assets in such accounts may be deemed "plan assets" for purposes of the U.S. Employee Retirement Income Security Act of 1974, as amended ("ERISA")). For the purposes hereof, the term "benefit plan investor" means (a) any employee benefit plan (as defined in section 3(3) of ERISA), (b) any plan described in section 4975(e)(1) of the U.S. Internal Revenue Code, or (b) any entity whose underlying assets include plan assets by reason of a plan's investment in the entity (within the meaning of the U.S. Department of Labor Regulations Section 2510.3-101 as modified by Section 3(42) of ERISA).
- (f) **Relevant Information.** The purchaser has received a copy of this Base Prospectus and such other information as it deems necessary in order to make its investment decision.
- (g) **Legends on Global Certificates.** Each purchaser acknowledges that each of the Rule 144A Global Certificate and the Regulation S Global Certificate will bear legends substantially to the effect set out in this Base Prospectus and that the Issuer has covenanted not to remove either such legend so long as it shall be necessary for the Issuer to rely on the exception to the 1940 Act set out in Section 3(c)(7) thereof.
- (h) **Regulation S Transfers During the Distribution Compliance Period.** If the purchaser has acquired a portion of a Regulation S Global Certificate in a sale or other transfer being made in reliance upon Regulation S, the purchaser agrees that during the Distribution Compliance Period it will not offer, resell, pledge or otherwise transfer such portion of such Regulation S Global Certificate to or for the account or benefit of any U.S. person other than to a person meeting the requirements set out in paragraph (a) above and in the legend set out on the Regulation S Global Certificate.

If the purchaser is an Institutional Accredited Investor who is also a QP, the Investment Letter will also contain the following representations and agreements:

- (i) that the Institutional Accredited Investor who is also a QP is an Institutional Accredited Investor within the meaning of Rule 501(a)(1), (2), (3) or (7) of Regulation D under the Securities Act and is a "qualified purchaser" within the meaning of Section 2(a)(51)(A) of the United States Investment Company Act of 1940, as amended and the rules and regulations thereunder ("QP"), and has such knowledge and experience in financial and business matters as to be capable of evaluating the merits and risks of its investment in the Certificates, and it and any accounts for which it is acting are each able to bear the economic risk of its or any such accounts' investment for an indefinite period of time.
- (j) that, in the event that the Institutional Accredited Investor who is also a QP purchases Certificates, it will acquire Certificates having a minimum purchase price of at least US\$500,000 (or the approximate equivalent in another Specified Certificates Currency).

No sale of Legended Certificates in the United States to any one purchaser will be for less than US\$250,000 (or its foreign currency equivalent) nominal amount or, in the case of sales to Institutional Accredited Investors who are also QPs, US\$500,000 (or its foreign currency equivalent) nominal amount and no Legended Certificate will be issued in connection with such a sale in a smaller nominal amount. If the purchaser is a non-bank fiduciary acting on behalf of others, each person for whom it is acting must purchase at least US\$250,000 (or its foreign currency equivalent) or, in the case of sales to Institutional Accredited Investors who are also QPs, US\$500,000 (or its foreign currency equivalent) nominal amount of Registered Certificates.

Any transfer or other disposition of any Certificates that would, in the sole determination of the Issuer, require the Issuer to register as an "investment company" under the provisions of the 1940 Act will be void ab initio, and such transfer or other disposition will not be recognised by the Issuer. If, at any time a Certificate is held by or on behalf of a U.S. person who is not an Eligible Investor at the time it purchases such Certificate the Issuer may, in its discretion and at the expense and risk of such holder, (a) redeem such Certificates, in whole or in part, to permit the Issuer to avoid registration under the 1940 Act or (b) require any such holder to transfer such Certificates to

SUBSCRIPTION AND SALE AND TRANSFER AND SELLING RESTRICTIONS

an Eligible Investor or to a non-U.S. person outside the United States or cause such Certificates to be transferred on behalf of the Certificateholder. The determination of which Certificates will be redeemed or sold in any particular case is in the discretion of the Issuer.

Selling Restrictions

United States

Neither the Certificates, the Guarantee nor the Dematerialised Certificates Guarantee (in the case of Dematerialised Certificates) have been or will be registered under the Securities Act and the Certificates may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S.

Certificates may be offered in the United States to a purchaser: (i) who is an Eligible Investor (as defined below), (ii) will hold at least the minimum denomination of US\$250,000, (iii) will provide notice of applicable transfer restrictions to any subsequent transferee (and each subsequent transferee will be deemed to have made the same representations and agreements contained in clauses (i) through (v) of this paragraph), (iv) understands that the issuer may receive a list of all participants holding positions in its Certificates from one or more book-entry depositories and that the participants may further disclose to the issuer the names and positions of holders of its Certificates, and (v) is purchasing for its own account or for the accounts of one or more other persons each of whom meets all of the requirements of clauses (i) through (v) and over which it exercises sole investment discretion.

Each purchaser who satisfies clauses (i) through (v) above acknowledges and agrees that in the event that at any time the Issuer determines or is notified by the Dealer acting on behalf of the Issuer that such purchaser was in breach, at the time given or deemed to be given, of any of the representations or agreements set out in clauses (i) through (v) above or otherwise determines that any transfer or other disposition of any Certificates would, in the sole determination of the Issuer or the Dealer acting on behalf of the Issuer, require the Issuer to register as an "investment company" under the provisions of the 1940 Act, such purchase or other transfer will be void ab initio and will not be honoured by the Registrar. Accordingly, any such purported transferee or other holder will not be entitled to any rights as a Certificateholder and the Issuer shall have the right, in accordance with the conditions of the Certificates, to force the transfer of, transfer on behalf of the Certificateholder or redeem, any such Certificates.

Such Certificates will be offered by Cirdan (in such capacity, the "**Initial Purchaser**").

The Certificates in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986, as amended, and Treasury regulations promulgated thereunder. The Final Terms will identify whether TEFRA C rules or TEFRA D rules apply or whether TEFRA is not applicable.

The Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that, in connection with any Certificates which are offered or sold outside the United States in reliance on an exemption from the registration requirements of the Securities Act provided under Regulation S ("**Regulation S Certificates**"), that it will not offer, sell or deliver such Regulation S Certificates (a) as part of their distribution at any time or (b) otherwise until 40 days after the completion of the distribution, as determined and certified by the relevant Dealer or, in the case of an issue of Certificates on a syndicated basis, the relevant lead manager, of all Certificates of the Tranche of which such Regulation S Certificates are a part, within the United States or to, or for the account or benefit of, U.S. persons. The Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells any Regulation S Certificates during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Regulation S Certificates within the United States or to, or for the account or benefit of, U.S. persons.

As used herein, "**United States**" means the United States of America (including the States and the District of Columbia), its territories, its possessions and other areas subject to its jurisdiction; and "**U.S. person**" means (i) an individual who is a citizen or resident of the United States; (ii) a corporation, partnership or other entity organized in or under the laws of the United States or any political subdivision thereof or which has its principal

place of business in the United States; (iii) any estate or trust which is subject to United States federal income taxation regardless of the source of its income; (iv) any trust if a court within the United States is able to exercise primary supervision over the administration of the trust and if one or more United States trustees have the authority to control all substantial decisions of the trust; (v) a pension plan for the employees, officers or principals of a corporation, partnership or other entity described in (ii) above; (vi) any entity organized principally for passive investment, 10 per cent. or more of the beneficial interests in which are held by persons described in (i) to (v) above if such entity was formed principally for the purpose of investment by such persons in a commodity pool the operator of which is exempt from certain requirements of Part 4 of the CFTC's regulations by virtue of its participants being non-U.S. persons; or (vii) any other "U.S. Person" as such term may be defined in Regulation S under the Securities Act or in regulations adopted under the Commodity Exchange Act, as amended.

Until 40 days after the commencement of the offering of any Series of Certificates, an offer or sale of such Certificates within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the Securities Act.

Dealer(s) may arrange for the resale of Certificates to QIBs who are also QPs pursuant to Rule 144A and each such purchaser of Certificates is hereby notified that the Dealer(s) may be relying on the exemption from the registration requirements of the Securities Act provided by Rule 144A and one or more exemptions and/or exclusions from regulation under the CEA. The minimum aggregate principal amount of Certificates which may be purchased by a QIB who are also QPs pursuant to Rule 144A is US\$250,000 (or the approximate equivalent thereof in any other currency). To the extent that the Issuer is not subject to or does not comply with the reporting requirements of Section 13 or 15(d) of the Exchange Act or the information furnishing requirements of Rule 12g3-2(b) thereunder, Issuer has agreed to furnish to holders of Certificates and to prospective purchasers designated by such holders, upon request, such information as may be required by Rule 144A(d)(4) so long as the Certificates are considered restricted securities within the meaning of Rule 144A(a)(3) under the Securities Act.

The Certificates, the Guarantee and the Dematerialised Certificates Guarantee (in the case of Dematerialised Certificates) do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in the Certificates has not been approved by the U.S. Commodity Futures Trading Commission pursuant to the CEA.

Each issuance of Certificates shall be subject to such additional U.S. selling restrictions as the Issuer and the relevant Dealer may agree as a term of the issuance and purchase of such Certificates.

1940 Act compliance

As described above, the Issuer has not been and will not be registered as an "investment company" under the 1940 Act and, accordingly, the Certificates may only be sold in the United States or to, or for the account or benefit of, U.S. persons in compliance with Section 3(c)(7) of the 1940 Act. In general, the Section 3(c)(7) exception excludes from the definition of an investment company any issuer whose outstanding securities are owned exclusively by persons who are "Qualified Purchasers" (or "QPs", as defined in Section 2(a)(51)(A) of the 1940 Act and the rules and regulations of the U.S. Securities and Exchange Commission thereunder) and that has not made a public offering of its securities. Consequently, the relevant Certificates may only be offered, sold, resold, delivered or transferred (a) within the United States or to, or for the account or benefit of, U.S. persons, in a transaction made in compliance with both Rule 144A and Section 3(c)(7) under the 1940 Act to persons that are Eligible Investors (as defined below) or (b) outside the United States to persons that are not U.S. persons in offshore transactions in reliance on Rule 903 or 904 of Regulation S.

"Eligible Investors" are defined as persons who are QIBs and also QPs acting for their own account or for the account of other QIBs who are also QPs, or persons who are Institutional Accredited Investors and also QPs, but excluding therefrom: (i) QIBs that are broker dealers that own and invest on a discretionary basis less than US\$25 million in "securities" of unaffiliated issuers (ii) a partnership, common trust fund, special trust, pension fund, retirement plan or other entity in which the partners, beneficiaries or participants, as the case may be, may designate the particular investments to be made or the allocation thereof, (iii) an entity that was formed, reformed or recapitalised for the specific purpose of investing in the Certificates, (unless each beneficial owner of such entity is a QP), (iv) any investment company excepted from the 1940 Act solely pursuant to Section 3(c)(1) or Section 3(c)(7) thereof and formed prior to 30 April, 1996, that has not received the consent of its beneficial owners with respect to the treatment of such entity as a qualified purchaser in the manner required by Section

SUBSCRIPTION AND SALE AND TRANSFER AND SELLING RESTRICTIONS

2(a)(51)(C) of the 1940 Act and rules thereunder, and (v) any entity that will have invested more than 40 per cent. of its assets in securities of the Issuer subsequent to any purchase of the Certificates.

CONSENT

CONSENT

Consent given in accordance with Article 5(1) of the Prospectus Regulation

In the context of a Non-exempt Offer of such Certificates, the Issuer and the Guarantor accepts responsibility, in each of the Non-exempt Offer Jurisdictions, for the content of this Base Prospectus in relation to any person (an "**Investor**") who purchases any Certificates in a Non-exempt Offer made by a Dealer or an Authorised Offeror (as defined below), where that offer is made during the Offer Period specified in the applicable Final Terms and provided that the conditions attached to the giving of consent for the use of this Base Prospectus are complied with. The consent and conditions attached to it are set out under "*Consent*" and "*Conditions to Consent*" below.

None of the Issuer, the Guarantor or any Dealer makes any representation as to the compliance by an Authorised Offeror with any applicable conduct of business rules or other applicable regulatory or securities law requirements in relation to any Non-exempt Offer and none of the Issuer or the Dealer has any responsibility or liability for the actions of that Authorised Offeror.

Except in the circumstances set out in the following paragraphs, neither the Issuer nor the Guarantor has authorised the making of any Non-exempt Offer by any offeror and the Issuer has not consented to the use of this Base Prospectus by any other person in connection with any Non-exempt Offer of Certificates. Any Non-exempt Offer made without the consent of the Issuer is unauthorised and none of the Issuer, the Guarantor or, for the avoidance of doubt, any Dealer accepts any responsibility or liability in relation to such offer or for the actions of the persons making any such unauthorised offer.

If, in the context of a Non-exempt Offer, an Investor is offered Certificates by a person who is not an Authorised Offeror, the Investor should check with that person whether anyone is responsible for this Base Prospectus for the purposes of the relevant Non-exempt Offer and, if so, who that person is. If the Investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents it should take legal advice.

Consent

In connection with each Tranche of Certificates and subject to the conditions set out below under "*Conditions to Consent*" the Issuer consents to the use of this Base Prospectus (as supplemented as at the relevant time, if applicable) in connection with a Non-exempt Offer of such Certificates by:

- i. the relevant Dealer(s) or Manager(s) stated in the applicable Final Terms;
- ii. any financial intermediaries specified in the applicable Final Terms; and
- iii. any other financial intermediary appointed after the date of the applicable Final Terms and whose name is published on the Guarantor's website (www.cirdancapital.com) and identified as an Authorised Offeror in respect of the relevant Non-exempt Offer.

The financial intermediaries referred to in paragraphs ii. and iii. above are together the "**Authorised Offerors**" and each an "**Authorised Offeror**".

Conditions to Consent

The conditions to the Issuer's consent to the use of this Base Prospectus in the context of the relevant Non-exempt Offer are that such consent:

- i. is only valid during the Offer Period specified in the applicable Final Terms; and
- ii. only extends (as at the date of this Base Prospectus) to the use of this Base Prospectus to make Non-exempt Offers of the relevant Tranche of Certificates in the Non-exempt Offer Jurisdictions.

The consent referred to above relates to Offer Periods (if any) occurring within 12 months from the date of this Base Prospectus.

CONSENT

As of the date of this Base Prospectus, the only relevant Member State which may, in respect of any Tranche of Certificates, be specified in the applicable Final Terms (if any relevant Member States are so specified) as indicated in ii. above, will be the Non-exempt Offer Jurisdictions, and accordingly each Tranche of Certificates may only be offered to Investors as part of a Non-exempt Offer in any of the Non-exempt Offer Jurisdictions, as specified in the applicable Final Terms, or otherwise in circumstances in which no obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

ARRANGEMENTS BETWEEN INVESTORS AND AUTHORISED OFFERORS

AN INVESTOR INTENDING TO PURCHASE OR PURCHASING ANY CERTIFICATES IN A NON-EXEMPT OFFER FROM AN AUTHORISED OFFEROR WILL DO SO, AND OFFERS AND SALES OF SUCH CERTIFICATES TO AN INVESTOR BY SUCH AUTHORISED OFFEROR WILL BE MADE, IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF THE OFFER IN PLACE BETWEEN SUCH AUTHORISED OFFEROR AND SUCH INVESTOR INCLUDING ARRANGEMENTS IN RELATION TO PRICE, ALLOCATIONS, EXPENSES AND SETTLEMENT. THE ISSUER WILL NOT BE A PARTY TO ANY SUCH ARRANGEMENTS WITH SUCH INVESTORS IN CONNECTION WITH THE NON-EXEMPT OFFER OR SALE OF THE CERTIFICATES CONCERNED AND, ACCORDINGLY, THIS BASE PROSPECTUS AND ANY FINAL TERMS WILL NOT CONTAIN SUCH INFORMATION. THE RELEVANT INFORMATION WILL BE PROVIDED BY THE AUTHORISED OFFEROR AT THE TIME OF SUCH OFFER. NONE OF THE ISSUER, THE GUARANTOR OR, FOR THE AVOIDANCE OF DOUBT, ANY DEALER HAS ANY RESPONSIBILITY OR LIABILITY TO AN INVESTOR IN RESPECT OF THE INFORMATION DESCRIBED ABOVE. ANY FINANCIAL INTERMEDIARY USING THIS BASE PROSPECTUS MUST STATE ON ITS WEBSITE THAT IT USES THIS BASE PROSPECTUS IN ACCORDANCE WITH THE CONSENT AND THE CONDITIONS ATTACHED THERETO.

Non-Exempt Offers: Issue Price and Offer Price

Certificates to be offered pursuant to a Non-Exempt Offer will be issued by the Issuer at the Issue Price specified in the applicable Final Terms. The Issue Price will be determined by the Issuer in consultation with the relevant Dealer at the time of the relevant Non-Exempt Offer and will depend, amongst other things, on prevailing market conditions at that time. The offer price at which the Authorised Offeror will offer such Certificates to the Investor will be the Issue Price or (where agreed with the relevant Dealer) such other price as may be agreed between an Investor and the Authorised Offeror making the offer of the Certificates to such Investor. Neither the Issuer nor the Guarantor will not be party to arrangements between an Investor and an Authorised Offeror, and the Investor will need to look to the relevant Authorised Offeror to confirm the price at which such Authorised Offeror is offering the Certificates to such Investor.
