ANNEX 1

AMENDED AND RESTATED ISSUE TERMS FOR FIDUCIARY NOTES DATED 16th October 2025, WHICH AMEND THE ISSUE TERMS FOR FIDUCIARY NOTES DATED 5 NOVEMBER 2021¹

16th October 2025

PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Fiduciary Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU ("**MiFID II**"); or (ii) a customer within the meaning of Directive 2016/97/EU (as amended, the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the "**Prospectus Regulation**"). Consequently no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Fiduciary Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Fiduciary Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Fiduciary Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No. 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the "**FSMA**") and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No. 600/2014 as it forms part of domestic law by virtue of the EUWA. Consequently, no key information document required by the PRIIPs Regulation as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Fiduciary Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Fiduciary Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation².

MIFID II product governance / Professional investors and ECPs only target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Fiduciary Notes has led to the conclusion that: (i) the target market for the Fiduciary Notes is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the Fiduciary Notes to eligible counterparties and professional clients are appropriate. The target market assessment indicates that Fiduciary Notes are incompatible with the needs, characteristics and objectives of clients which are fully risk averse or are seeking on-demand full repayment of the amount invested. Any person subsequently offering, selling or recommending the Fiduciary Notes (a "**distributor**") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Fiduciary Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

UK MIFIR product governance / Professional investors and ECPs only target market – Solely for the purposes of each manufacturer's product approval process, the target market assessment

¹ These amended and restated issue terms amend and restate the original issue terms dated 5 November 2021 (the "**Original Issue Terms**"), by modifying the preamble, the contractual terms, Paragraphs 2 (*Arranger*), 10 (*Issue Price*), 13 (*Interest*), 19 (*Unsecured Collateral*) and 22 (*Specific terms and conditions*) of Part A, Paragraphs 4 (*Agent for Service of Process*), 8 (*Principal Paying Agent*), 9 (*Other Parties*), 10 (*Distribution*) and 16 (*Limited Recourse and non-petition*) of Part B, and Appendix 1

in respect of the Fiduciary Notes has led to the conclusion that: (i) the target market for the Fiduciary Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook ("**COBS**"), and professional clients, as defined in Regulation (EU) No. 600/2014 as it forms part of domestic law by virtue of the EUWA ("**UK MiFIR**"); and (ii) all channels for distribution of the Fiduciary Notes to eligible counterparties and professional clients are appropriate. Any distributor should take into consideration the manufacturers' target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Fiduciary Notes (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels³.

18.	Issue Specific Risk Factors	See, in addition to the below, "Investor Suitability" and "Risk Factors" in the Base Prospectus

Risks relating to the Facility Agreement

The Unsecured Collateral shall comprise the Fiduciary's rights, title and interests in, to and under the Facility Agreement, including any Loans made thereunder.

The Facility Agreement is an uncommitted, unsecured, EUR term loan facility of a total principal amount not exceeding EUR 10,000,000.00 granted by the Lender to the Borrower pursuant to a facility agreement dated on or about 5 November 2021 and with a maturity date of 5 November 2026. The interest rate on the loans under the Facility Agreement is 3.75 per cent. per annum, paid annually in arrears on the 5 of November of each year provided that interest due on 5 November 2024 shall be paid on 5 November 2025¹⁵.

The Borrower covenants to use all monies borrowed by it under the Facility Agreement for bridge financing of actual running and/or expansionary and/or operational activities as well as for investing in real estate assets and properties and in renewable energies.

The Borrower's obligations under the Facility Agreement are not guaranteed or secured.

The Borrower may request to utilise the facility in multiple loans during the availability period, which commences on the Issue Date and continues until the 5th business day prior to 5 November 2026 (the "**Availability Period**"). The Facility Agreement is uncommitted and any advance to be made by the Fiduciary to the Borrower under the facility is conditional upon the Fiduciary (as Lender) having available funds to make the advance. The sole amounts available to the Fiduciary to fund loans under the Facility Agreement will be the proceeds of the Fiduciary Notes issued by the Fiduciary. There can be no assurance that the Fiduciary will raise sufficient funds from the issue of Fiduciary Notes to be able to fund the maximum amount of the Facility Agreement and/or any loan thereunder.

Starting from the interest payment date falling on 5 November 2021 (*i.e.* the 1st (first) annual anniversary of the date of the Facility Agreement), the Borrower may prepay all the outstanding loans under the Facility Agreement on any business day during the Availability Period.

The Lender may require the Borrower to prepay all the outstanding loans if a change in law or

¹⁵ The Original Issue Terms did not contain this specification

regulation or in the relevant interpretation makes it unlawful for the Fiduciary to fund or maintain the Loan or causes the Fiduciary to suffer additional tax consequences, or if there is a change of control of the Borrower.

The events of default under the Facility Agreement include (subject to remedy periods, where applicable) the following events relating to the Borrower: failure to pay (save for any applicable grace period)¹⁶, failure to comply with obligations, breach of representation, cessation of business, cross-default, insolvency events, creditors' process, other security over the assets becoming enforceable, illegality, repudiation and material adverse effect. The Facility Agreement does not include any events of default, repayment triggers or other contractual provisions relating to financial covenants to be complied with by the Borrower.

On and at any time after the occurrence of an event of default, the Fiduciary may cancel the Facility Agreement and/or declare that all outstanding loans, accrued interest and all other amounts accrued or outstanding under the Facility Agreement be immediately due and payable, and/or declare that all outstanding loans be payable on demand.

The Facility Agreement includes representations and warranties by the Borrower as to corporate status, power to own the assets and carry on business, the due authorisation and the power to enter into, deliver and perform obligations under the Facility Agreement, non-contravention of constitutional documents or any agreement or instrument or any law or regulation applicable, the Borrower having all authorisations enabling it to enter into, exercise its rights and comply with its obligations under the Facility Agreement, the legal, valid and binding nature of the Borrower's obligations, the absence of filings or stamp taxes, recognition of the choice of English law and recognition and enforcement of a judgment of the English courts, absence of a default, accuracy of information, no material adverse change, absence of litigation having a material adverse effect, absence of breach of law or regulation, *pari passu* ranking and ownership of assets free of encumbrances.

The Borrower covenants in the Facility Agreement, subject to limited exceptions, not to create security over its assets, not to dispose of its assets other than in accordance with the

¹⁶ The Original Issue Terms did not provide for such specification

investment strategy, not to incur financial indebtedness other than under the Facility Agreement or other limited exceptions, not to pay any dividends or other distribution or pay any management, advisory or other fee to or to the order of any of its shareholders and not to redeem, repurchase, defease, retire or repay any of its share capital. The Borrower also covenants to maintain all necessary authorisations and consents in full force and effect same, to comply in all respects with all relevant laws (including tax and revenue laws) if failure to do so would materially impair the Borrower's ability to perform its obligations under the Facility Agreement, to procure *pari passu* ranking of the loans, and not to make any substantial change to the general nature or scope of their business, to use any money borrowed under the Facility Agreement exclusively in compliance with the indicated use of proceeds.

The Borrower covenants to supply to the Fiduciary copies of its financial statements for each financial year as soon as they become available, but in any event within 180 (one hundred and eighty) days after the end of each financial years. The Borrower also covenants to supply to the Fiduciary (i) all documents dispatched by the Borrower to its shareholders (or any class of them), or creditors generally, at the same time as they are dispatched, (ii) details of any litigation, arbitration or administrative proceedings which are current, threatened or pending against the Borrower or any of its directors, and which might, if adversely determined, have a material adverse effect promptly, (iii) any further information about the financial condition, business and operations of the Borrower that the Fiduciary may reasonably request, and to notify the Fiduciary of any potential event of default or event of default (and the steps, if any, being taken to remedy it) promptly on becoming aware of its occurrence.

The Facility Agreement includes a tax gross up obligation on the part of the Borrower and indemnities in favour of the Fiduciary for losses incurred as a result of a default of the Borrower.

The Facility Agreement is subject to English law and contains a submission to the jurisdiction of the English courts.

General risks relating to the Unsecured Collateral

The Unsecured Collateral will comprise the Fiduciary's rights, title, and interests in respect of

the Facility Agreement, which will be unsecured. The Fiduciary does not expect to have any other assets or sources of revenue available for payment of any of its obligations under the Fiduciary Notes. If the Fiduciary does not receive the full amount due from the Borrower in respect of the Facility Agreement, then holders of the Fiduciary Notes may receive by way of principal repayment an amount less than the denomination of their Fiduciary Notes and the Fiduciary may be unable to pay, in whole or in part, interest due on the Fiduciary Notes. Neither the Fiduciary nor the Arranger and the Selling Agent guarantees or warrants full and timely payment by the Borrower of any sums payable under any loan.

Risks relating to the use of proceeds

The Borrower has covenanted to use the proceeds of the Facility Agreement for bridge financing of actual running and/or expansionary and/or operational activities as well as for investing in real estate assets and properties and in renewable energies. There can be no assurance that the Borrower will be able to undertake investments in the manner it anticipates, or that the Borrower's investment strategy will be successful, or that the Borrower's (direct and indirect) investments will perform as anticipated. The performance of the investments will depend on numerous factors, which are difficult to predict, some of which may be beyond control of the Borrower. Any one or more of those factors could have an adverse effect on the return on the Borrower's (direct and indirect) investments, which could in turn cause the Borrower to default on its loan(s) under the Facility Agreement and result in the Fiduciary being unable to pay the principal or interest due on the Fiduciary Notes. Furthermore, as the Facility Agreement is unsecured, the assets of the Borrower would be available to satisfy obligations of the Borrower toward other creditors and there can be no assurance that all or any of the Borrower's assets would be available to the Fiduciary if the Borrower were to default.

Risks relating to the Borrower's investment strategy

The investment strategy of the Borrower will be based on, among other matters, assumptions and calculations, which may prove to be wrong. Furthermore, the Borrower's (direct and indirect) investment strategy is not predetermined and may change. There is no assurance that any investment strategy directly or indirectly

implemented by the Borrower will work as anticipated, which may lead to a shortfall in funds and/or to make payments on the Fiduciary Notes. The success of the direct and indirect investment strategy of the Borrower is also dependent on the Borrower receiving the full maximum amount of the Facility Agreement, which in turn is dependent on the Fiduciary being able to issue EUR 10,000,000 of Fiduciary Notes. However, there can be no assurance that the Fiduciary will obtain investors for EUR 10,000,000 of Fiduciary Notes and accordingly there is a risk that the Borrower will not be able to fully implement its direct and indirect investment strategy.

No investigation and no monitoring

No investigations, searches or other enquiries have been or will be made by or on behalf of the Fiduciary, the Arranger, the Selling Agent, the Calculation Agent or any of their respective affiliates in respect of the Borrower, the Facility Agreement or the Unsecured Collateral generally. None of the Fiduciary, the Arranger, the Selling Agent, the Calculation Agent or any of their respective affiliates assumes any responsibility for conducting or failing to conduct any investigation into the business, financial condition, prospects, creditworthiness, performance history, status and/or affairs of the Borrower or any of its service providers, or into the investment strategy of the Borrower or any assets that may be acquired by the Borrower pursuant to its investment strategy. None of the Fiduciary or the Arranger or the Selling Agent or the Calculation Agent or any of their respective affiliates have separately verified any information provided by or on behalf of the Borrower or any other person concerning the Borrower or its investment strategy. None of the Fiduciary or the Arranger or the Selling Agent or the Calculation Agent or any of their respective affiliates makes any representation, express or implied, or, to the fullest extent permitted by law, accepts any responsibility, with respect to the accuracy or completeness of any information in any document or for any statement made or purported to be made in relation to the Borrower or its investment strategy. Each of the Fiduciary, the Arranger, the Selling Agent, the Calculation Agent and their respective affiliates accordingly disclaims all and any liability whether arising in tort or contract or otherwise which they might otherwise have in respect of any such document or statement. In addition, none of the Fiduciary or the Arranger or the Selling Agent or the Calculation Agent or any of their respective

affiliates shall be responsible for, or for investigating, any matter which is the subject of any statement, representation, warranty or covenant of the Borrower or any other party contained in the Facility Agreement or any other agreement or document relating to the Facility Agreement, or for the execution, legality, effectiveness, genuineness, validity, enforceability or admissibility in evidence thereof. Nor any of the Fiduciary or the Arranger or the Selling Agent or the Calculation Agent or any of their respective affiliates responsible for ensuring the adequacy of the terms on which the Lender is entering into the Facility Agreement with the Borrower, for which prospective investors are solely responsible for evaluating. Without limiting the generality of the foregoing, none of the Fiduciary or the Arranger or the Selling Agent or the Calculation Agent or any of their respective affiliates will monitor the use of proceeds of the loans under the Facility Agreement by the Borrower, the performance of the assets of the Borrower, or the ongoing compliance of the Borrower with its obligations under the Facility Agreement.

The Fiduciary

The Fiduciary is a securitisation undertaking governed by the Luxembourg Securitisation Law. There may be questions as to the application of the Securitisation Law, given that the Fiduciary holds an equity participation. Based on the literal definition of securitisation under the Securitisation Law, a securitisation undertaking needs to acquire securitised risks financed through the issuance of securities (*valeurs mobilières*) whose value or yield is linked to such risks. One should not only look at a literal reading of the Securitisation Law, but also whether such qualification is in accordance with the spirit of the Securitisation Law. The interpretation of the Securitisation Law has varied over time in Luxembourg, and sometimes has resulted in restrictive readings being made by the Luxembourg authorities. It cannot be excluded that if the Fiduciary acts as a holding company owning equity, its status as a securitisation undertaking for the purpose of the Securitisation Law may be refused by any competent tax authorities or courts, amongst others on the grounds that the transaction does not constitute a genuine securitisation in accordance with the spirit of the Securitisation Law. In such case, as well if the Fiduciary does not operate in accordance with the Securitisation Law, the Fiduciary may lose the legal and tax benefits

provided by the Securitisation Law and withholding tax may apply in relation to payments under the Fiduciary Securities.

There may be questions whether the Fiduciary qualifies as alternative investment fund ("**AIF**") within the meaning of the EU Directive 2011/61/EU on Alternative Investment Fund Managers (the "**AIFMD**"). According to the AIFMD, all AIFs must have a designated alternative investment fund manager ("**AIFM**") with responsibility for portfolio and risk management. According to the AIFMD, an AIF is defined as a *"collective investment undertaking, including investment compartment thereof, which raises capital from a number of investors, with a view to investing it in accordance with a defined investment policy for the benefit of those investors"*. The Luxembourg Financial Authority and Regulator (the *Commission de Surveillance du Secteur Financier* or "**CSSF**") considers that securitisation vehicles that only issue debt securities do not constitute AIFs (the "**CSSF Exemption**"). The CSSF has indicated that these positions are subject to change in accordance with the positions taken by the European Commission, ESMA and other regulators regarding these matters. The CSSF Exemption is subject to the following reservations and carve outs:

- other European regulators consider that if a special purpose vehicle has no equity shareholders (or no significant equity shareholders) and if all the profits and losses flow through to the investors via the return on their debt securities there is an argument that it should make no difference that the investors hold their interest through debt securities rather than through shares;
- the AIFMD does not provide explicitly for an exemption, according to which the securitisation undertakings, which issue only debt securities, do not constitute AIFs and the regulators of certain EU member states have a more restrictive interpretation of the AIFMD and do not have such exemption;
- the CSSF Exemption reflects only the current interpretation of the CSSF. It cannot be excluded that the CSSF may change its policy approach or other Luxembourg or foreign authorities; courts or regulatory, agency or legislative bodies may adopt a different position or more restrictive

guidelines, regulations or interpretations.

Independently of the Luxembourg law analysis, given that the AIFMD imposes certain requirements on the marketing of AIFs, it has to be determined whether the regulators and authorities in the jurisdiction(s) in which the investors are located (and/or in which the Fiduciary Securities are to be marketed and/or sold) could take the view that the Fiduciary qualifies as AIF or challenge the application of any exemption (including the CSSF Exemption).

Should the Fiduciary be considered as an AF and it cannot benefit from an exemption, the AIFMD regime would entail several consequences for the Fiduciary, notably the Fiduciary will have to appoint a duly licensed alternative investment fund manager and a depositary, the Fiduciary and the AIFM would be subject to certain reporting and disclosure obligations and certain risk management systems and other procedures would need to be put in place in order to comply with the AIFMD.
